JOURNAL.

Atlanta, Ga.,
Wednesday June 22, 1904.

The House of Representatives convened pursuant to the laws of Georgia at 10 o'clock a.m., this day, was called to order by the Speaker and opened with prayer by the Chaplain.

The roll was called and the following members answered to their names:

- Adams,
- Akin,
- Alexander,
- Alford,
- Almond,
- Arnold,
- Ayres,
- Baldwin,
- Beall, of Paulding,
- Beauchamp,
- Bell, of Milton,

Those not answering to their names were Messrs.—

Bell, of Emanuel,  Knowles,  Ridley,
Edwards,  Lowe,  Watson,
Henry,  Mizell,  Welch,
Houston,  Overstreet,  West,
Johnson of Clinch,  Phillips of Quitman,

Speaker Morris in a few remarks addressed to the House said he was glad to see so many members present.
on the opening day of the session. It was with deep regret, he said, that he noted the vacancy of the seats caused by the death of the honored and able members from the counties of Gilmer, Clinch and Chattooga.

From the past record this House has made, he said, he was sure it would proceed with its duty faithfully and fearlessly and that it would take up the business with the same determination and energy that had characterized it at former sessions.

The following communication was read, to wit:

_Hon. Mr. Speaker, House of Representatives, Atlanta, Ga._:

I beg to hereby tender my resignation from the position of postmistress of the General Assembly, to which you were so good as to appoint me in 1902. At the same time, I desire to thank you and each member of the House and Senate for the exceeding courtesy and kindness shown me during my association with you.

Respectfully,

_MAUDE BARKER COBB._

The Speaker announced the appointment of Miss Georgia Marie Hunt as postmistress to fill the vacancy caused by the resignation of Mrs. Maude Barker Cobb.

At the direction of Speaker Morris, Rule of the House No. 173, which specifies who are entitled to the privileges of the floor was read. The Speaker then cautioned the doorkeepers to see that the rule was enforced, saying he would hold them strictly to account for any infringement of the same.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:
Mr. Speaker:

I am directed by the Senate to notify the House that it has reconvened and ready for the transaction of business.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr. Speaker:

The Senate has adopted the following joint resolution in which the concurrence of the House is asked, to wit:

A resolution appointing a committee of two from the Senate and three from the House to notify the Governor that the General Assembly has reconvened and is ready for business.

The following resolutions were read and adopted, to wit:

By Mr. Slaton of Fulton—

A resolution providing for the appointment of a committee to draft resolutions on the death of Hon. W. R. Welch, of the county of Gilmer.

By Mr. Steed of Carroll—

A resolution providing for the appointment of a committee to notify the Governor of the organization of the House.

By Mr. Wellborn of Union—

A resolution providing that the Senate be notified of the organization of the House.
By Mr. McRae—

A resolution extending the privileges of the floor to members nominated to the next House of Representatives.

By Messrs. Steed of Taylor and McRae of Lowndes—

A resolution extending the sympathy of the House to Hon. W. S. West, of Lowndes, who recently sustained painful injuries.

By Mr. Spence of Ware—

A resolution providing for the appointment of a committee to draft suitable resolutions on the death of Hon. R. B. Johnson, of the county of Clinch.

By Messrs. George of Morgan and Candler of DeKalb—

Whereas, The House has learned with deepest regret of the sudden and critical illness of the Hon. E. K. Overstreet, Representative from Screven county, while on a visit to the City of New York.

Therefore, be it resolved, That the sympathy of the House be extended to our honored fellow member, and to his wife who is watching by his bedside in a strange city, with an expression of sincere hope for his speedy restoration to health and an early return to his duties in this House.

Resolved further, That the Clerk of the House be directed to forward a copy of these resolutions to Mrs. Overstreet and that they be recorded on the Journal of this House.
The Speaker announced the following committee to notify the Governor of the organization of the House, to wit: Messrs. Steed of Carroll, Blackburn, Felder.

Atlanta, Ga., June 22, 1904.

The following message was received from His Excellency the Governor, through his Secretary, Mr. Blackburn, to wit:

*Mr. Speaker:*

I am directed by His Excellency, the Governor, to deliver to the House of Representatives a communication in writing.

On motion of Mr. Felder of Bibb the Governor's message was taken up and read.

The following communication from the Governor was received and read, to-wit:

*June 22, 1904.*

*To the House of Representatives:*

I herewith transmit to your body certificates of election to fill vacancies that have occurred since the last session of the General Assembly, as follows:

For the county of McDuffie—Hon. M. W Gross vice Hon. J. D. Watson, resigned.

For the county of Chattooga—Hon. R. Y. Rudicil, vice Hon. W. A. P. Lowe, deceased.

*J M. TERRELL,*

*Governor.*
MESSAGE.

STATE OF GEORGIA, EXECUTIVE OFFICE,
ATLANTA, GA., June, 22, 1904.

To the General Assembly:

You meet at the very flood-tide of the State's prosperity; when her population is the greatest; when the tax digest shows the largest voluntary returns ever made in her history; when the people are hopeful and rejoicing in the peace and plenty of the most prosperous year since 1860. Commerce and manufactures have maintained their growth; timber and lumber have brought great gains to those engaged in that industry and added values to the pine lands of the State; but above all this, the labor and patience of the farmer have at last brought him to a time of fair harvests and prices so satisfactory as in effect to have made two crops in one year. However, these facts should not lead to increased expenditures, nor to a change in the rate of taxation. Tax and Appropriation Acts substantially like those of the past two years, will be amply sufficient for the support of the government and State Institutions.

PRIMARY ELECTIONS.

I call your attention to and invite your consideration of the growing sentiment in our State in favor of placing around our primary elections every safeguard necessary to make them absolutely fair in every particular. These elec-
tions are now practically the equivalent of general elec-
tions in Georgia, and no voter should be allowed to vote	herein unless constitutionally and in pursuance of law
eligible to do so, and every vote deposited should be sacrely
guarded, and with scrupulous honesty counted. I recom-
mend, therefore, that you pass an Act making all election
and registration laws extend to primary elections—munici-
pal, county, State and Federal—so far as the same may be
applicable, and provide for the infliction of appropriate
penalties upon any person violating any of said laws in
registering for or voting at such primary election. Ap-
propriate legislation should also be enacted providing
for contests before proper executive committees of the
party, and giving authority to said committees, or under
their direction, to subpoena witnesses, administer oaths,
and do such other acts as may be necessary under the rules
and regulations of the party, to ascertain or declare the
person or persons entitled to receive the nomination of the
party, and to provide for appeals. The pay of managers
holding the elections, and the clerks serving thereat, should,
in the case of primaries, as in general elections, be borne
by the counties or State, and the use of money, by a can-
didate for office, to influence voters to support him, should
render him ineligible to hold office. Public office is a pub-
lic trust, and the man who seeks to purchase it demonstrates his unworthiness to fill it. The price of an office
should be measured by the worthiness of the man to fill it,
and not by the money which he has, and his willingness to
purchase it. Any other rule must inevitably lead to the
result that only the rich may aspire to office.
IMMIGRATION COMMISSION.

The scarcity of labor during the growing and harvesting season has become a serious problem to the farmers of Georgia, and similar conditions throughout the Southern States have checked the production of cotton. The world's demand for this most used of all clothing materials has increased faster than the supply. European countries are making systematic and persistent efforts to develop new cotton fields in other lands, and although at present these are not profitable, they may become sources of supply, and compete with us in the production of the staple, as Egypt and India have already done. It behooves us, therefore, to meet the world's demand for cotton. We have land enough, and the only obstacle in our way is the lack of labor to make the crop. There is in this State a vast extent of virgin soil, cleared by sawmills, which is as fully productive as that under cultivation, and would be quickly brought under the plow, if there were sufficient labor to cultivate it.

Beyond question it is wise to encourage the immigration to our State of thrifty American people. This has been the policy of Western States, and their growth in wealth, productive power, and all that makes a commonwealth great, has excited the wonder and admiration of the world. Immigration may be best encouraged through a State Commission, and I recommend that one be established. Some of our public-spirited citizens, composing the Greater Georgia Association, have begun this work at their own expense, and with funds raised in thirty towns and cities,
not directly interested in farming, they have advertised the resources of the State, and made them known to millions of people. Several thousand persons have manifested interest in Georgia, and many have already become citizens. The State should not leave this work to a few, but should take it up and make it a department of government. The great need for immigration legislation is shown also by the fact that Georgia has given 412,000 of her people to other States, and has received in return only 190,000, the net loss being 222,000. This tremendous drain upon the life’s blood of a commonwealth should cause serious concern, especially when labor is already short in our fields and factories. An examination of the statements of the various banks throughout the State, will show the rapid accumulation of money, and that the deposits subject to check are much larger than ever before. Georgians have ample funds to develop the resources of the State. The great need of the hour is more men, rather than more money.

The railways of the West are working hard to induce our population to leave us. Texas alone has 75,000 Georgians. If we do not set counter influences to work, the drain will increase, and the labor problem will become far more serious than it is at present. It is a well-known fact, that the agricultural population of the Northern States are very much dissatisfied with their present homes, on account of the extreme cold winters, and many of them are turning their faces to the inviting fields and genial climate of the Southern States. Several of these States have already inaugurated immigration work, and unless Georgia makes an organized effort, she will be unable to secure her share
of these people, who, as a rule, make useful and desirable citizens. A Commission composed of one from each Congressional District, and required to meet quarterly or semi-annually, would probably bring about the most satisfactory results, and at the same time be the least expensive plan. Only a small appropriation to cover the expenses of these meetings, and to pay for clerical hire and advertising the resources of the State, would be needed.

NEW COUNTIES.

The inflexible rule of the Constitution which forbids the creation of any new county, has brought about in some sections unexpected and unintentional hardships. Counties that in 1877 were geographically large, but sparsely settled, have greatly increased in wealth and population, but the line of growth has left the body of the inhabitants remote from the county site, to the manifest inconvenience and detriment of those who under conditions as they existed in 1877, undoubtedly would have been granted relief by the creation of a new county. The matter is one calling for an appropriate amendment to the Constitution providing for the creation of new counties up to a fixed limit, or by such other legislation as will meet a condition of serious and permanent hardship to many good citizens who are entitled to relief.

EXEMPTION OF COLLEGE ENDOWMENTS.

In my message of November 8, 1902, your attention was earnestly called to the propriety of exempting college endowments from taxation, where the fund is not so in-
vested as to come into actual competition with the business and commercial interests of other citizens. Further reflection and observation have but confirmed me in the wisdom and justice of that recommendation. Without repeating what was then said, I wish to emphasize the fact that not only does the present plan force our colleges into unequal competition with other institutions largely endowed and splendidly equipped, but it actually deters donors from making gifts which might otherwise be contributed to the colleges, but for the natural unwillingness to have money thus wholly set apart to the cause of education, charged with the burden of making other and annual contributions in the way of taxation towards the support of other public institutions. These gifts to colleges are unselfishly made, with no purpose other than that of assisting in the great work of education, and they should be put on a basis of those other public charities and religious funds, which, if not absolutely exempt, are capable of being exempted by the General Assembly.

EQUALIZATION OF TAXES.

There will be presented for your consideration no question of more moment to the State than the equalization of tax returns. I wish to present again to your attention the following, from my message of June 24, 1903:

"The need of tax equalization grows with our increase in wealth and population. Our law for the return, valuation, assessment, arbitration and collection of taxes is substantially what it was when the Act of 1804 was passed, and when our population was 200,000, and the
taxable values of the entire State were less than those in a single county of to-day. At that time the principal subjects of taxation were slaves and farming lands, and most of this property was on the eastern border of the State, where the soil and crops were nearly identical, and uninfluenced by proximity to manufacturing enterprises or great cities. All this has been changed: The population has increased 1,200 per cent., and we now have the varied crops of North, Middle, South and West Georgia, with mountain land, rolling country, and a vast area of pine forests, which are rapidly being converted into farms.

"Not only do the soil and crops differ, but the value of the farming land is influenced by nearness to market and proximity to railroads. Besides, new forms of value have arisen. Factories, foundries, railroads, saw mills, mines, bonds and an indefinite variety of personal property have come into existence, yet there is no adequate method of determining what is in the State subject to taxation, nor any fixed standard for determining its value. It is well known that land of practically the same productive capacity, and with almost identically the same improvement, is frequently returned by one owner at full price, and by the other at less than one-half. The fairer the tax-payer the more onerous the burden. The State, in effect, offers a premium to him who shirks instead of to him who willingly and cheerfully complies with the spirit of the law. This is wrong, unjust and inequitable, and can only be cured here, as it has been cured elsewhere, by the creation of county boards, authorized to examine returns, to see that omitted property is put on the books, and that
property of the same kind and value is assessed and taxed alike. But even this does not fully meet the difficulty, for what is true of two neighboring citizens, may be equally true of neighboring counties, or of those more remotely separated. Property worth a million dollars in one may be so returned, but property of an equally aggregate value in another county, may be given in at half its value. Farming lands in one part of the State may be returned at one price, and in another at a very different price. Corporate property may be practically exempt in one part of the State, and highly valued, or valued at full price, in another. These discrepancies or inequalities are not only in violation of the spirit of the law, but they diminish the State's income at the expense of those who live in the jurisdiction where full returns are enforced. The evil can be speedily corrected by the establishment of a State Board, under whose administration not one dollar of unjust tax will be imposed, but where the unequal burden will be taken from the county and individual now paying too much, and distributed equally among those who are paying too little."

In this connection I desire to call your special attention to the reports of the Comptroller-General and the Attorney-General. These experienced and conscientious officers make some valuable suggestions and recommendations upon the inequality of taxation, which should receive your careful consideration.
AGRICULTURAL SCHOOLS AND FARMERS' INSTITUTES.

I wish to urge again upon your favorable consideration the question of agricultural schools, as presented in my message of November 8, 1902. I feel sure that a thorough investigation of the question will convince you that such schools will supply, in a very large degree, the gap which now exists between our common schools and the State University, the School of Technology, and other colleges throughout the State. It would be much better to have a high school with an agricultural feature connected with it in every county in the State, than to have only one of such schools in each Congressional District, but the lack of funds may make it necessary for us to begin the system with one school in each District.

In line with these schools is the work of Farmers' Institutes. The Trustees of the State University, recognizing the value of such work, arranged last year for a systematic course of Farmers' Institutes throughout the State, under the direction of Hon. C. H. Jordan. The Institutes held under this plan have demonstrated their value to the agricultural interests of the State, and in order that this work may be enlarged and carried on in a more general way, I suggest the propriety of making a special appropriation to the Trustees of the University, to be paid out of the fund arising from the fees for the inspection of fertilizers.

PENAL SYSTEM.

With pardonable pride I think the State may look upon the continued improvement in her convict system.
examination of the systems of other States, where conditions are similar to those in Georgia, will show that we are far in the lead. The disposition of convicts by the State is ever a delicate question, and one that is always with us. The object of the law in inflicting punishment upon the law-breaker, is to deter him from a repetition of his sin, and by his example deter others, and no less important is the idea of working in him reformation. No system is therefore perfect that does not have prominent in it the aim and purpose of reformation of the criminal. In this respect, in my opinion, Georgia may greatly improve her convict system, by making suitable provision looking to the separation of her juvenile convicts from contact and association with her hardened criminals. Aside from the moral question involved, experience demonstrates that it is much less expensive to the State to reform the boy than to care for the hardened criminal. I recommend legislation looking to the creation of juvenile courts in the principal cities of the State, and establishing reformatories for violators of the law by persons under the age of sixteen years. These delinquent children may be confined at out-door labor, or taught useful trades and subjected to manual work, and with proper and wholesome moral influences surrounding them, reclaimed and made good citizens.

NEW CONVICT LAW.

The Act passed, at your last session, disposing of the convicts for a period of five years, commencing April 1, 1904, has been carried into effect, and the provision relative to working the short term convicts upon the public roads
seems to be operating very satisfactorily in those counties which met the requirements of the Act for the working of such convicts. There is a provision, however, in section 4 of the Act, to which I desire to call your special attention, and suggest the propriety of an amendment thereto. Under section 4 it is prescribed that the net hire of the convicts shall be transmitted quarterly by the Treasurer of the State to the Treasurer of those counties which have not received their proportion of felony convicts for work upon the public roads, without regard to whether that hire shall be appropriated for common schools, or for the public roads. In the event the money arising from the hire of convicts is applied to the public roads in a county, it would be proper for the State Treasurer to remit to the County Treasurer; but where the hire is allowed to go to the common schools, as has been the rule in the past, it seems to me to be entirely unnecessary for it to pass through the hands of the County Treasurer, thereby subjecting it to the commissions fixed by law for that officer, when it could be paid out of the State Treasury directly to the County School Commissioner, without any cost whatever. Such an amendment would save to the school fund of the counties interested several thousand dollars annually in the way of commissions.

STATE EXHIBIT.

In accordance with the provisions of the Dunbar resolution appropriating $30,000 for the collection of an exhibit of the resources of the State, approved August 17, 1904, the Governor and Commissioner of Agriculture
with the assistance of the Geologist and Assistant Geologists, the Assistant Commissioner of Agriculture and the State Chemist, have collected and arranged for permanent preservation specimens of minerals, granites, clays, kaolin, marble, iron and other precious stones found in the State, and also specimens of products of the fields, forests, orchards and vineyards of the State, and of such other matters as serve to demonstrate the character and productiveness of the soil of Georgia and best illustrate and develop the agricultural, horticultural and geological departments of the State. In the work of making this collection the Governor and Commissioner of Agriculture soon realized that it would be necessary to secure the services of persons specially equipped for the work, and in order to fully carry out the provisions of the resolution, Hon. Dudley M. Hughes was appointed Commissioner and Hon. Glascock Barrett, Assistant Commissioner.

After the collection of this exhibit it was forwarded to the Louisiana Purchase Exposition at St. Louis, Mo., as provided by section 3 of the resolution, satisfactory arrangement having been first made for its safe carriage to and from that point without any expense whatever to the State, except such as was deemed necessary for the protection and preservation of the exhibit. The freight on the exhibit from Atlanta to St. Louis was about $1,500, which was met by private subscriptions, the larger amount viz., $1,000, having been paid by the Greater Georgia Association. The exhibit is being duly installed at St. Louis, by Mr. Barrett and Prof. W. S. Yeates, State Geologist, and when completed, will be one of the best ex-
hibits of the resources of Georgia that has ever been presented to the public. Upon the close of the Exposition this exhibit will be properly installed in the State Capitol, and will become a splendid means of advertising our resources. It will be necessary, however, on account of the perishable nature of the horticultural display and most of the agricultural products to have them renewed annually, which may be done at a small outlay.

We have spent on the exhibit to date about $20,000, and we hope to have several thousand dollars left from the original appropriation of $30,000, which may be used for the purpose of supplementing the exhibit upon its return to the Capitol. A report just received from Hon. D. M. Hughes states, that the Georgia exhibit compares favorably with those from other States which appropriated from one to one hundred and fifty thousand dollars for that purpose.

GEORGIA BUILDING AT ST. LOUIS.

It soon became apparent, after the work of collecting the Georgia exhibit began, that it would be necessary to have a Georgia building upon the grounds at St. Louis, in order that our State might have an equal opportunity with the other States in presenting the resources and varied interests to the many people visiting that Exposition. None of the money, however, appropriated by the General Assembly could be used for the purpose of erecting such a building and furnishing same. We then appointed Hon. Hugh V Washington as a special Commissioner for the purpose of laying the necessity for such a building before
the people, and after several months' work, in which he had the assistance of Messrs. Hughes and Barrett, he succeeded in securing from various cities, towns and counties, as well as individuals throughout the State, subscriptions in cash and furniture to the amount of about $16,000, all of which have been paid except about $1,500, which we feel sure will be paid during the next few weeks. The building is modeled after "Sutherland," the beautiful home of the lamented General John B. Gordon. The contract price of the building is $14,100, and has been constructed almost entirely of Georgia material. We estimate that the remaining $1,900 will cover the necessary furniture and the expense of maintaining the building during the Exposition.

I had hoped to be able to present to the General Assembly in this message an itemized statement of all subscriptions to this building, and of all expenditures in connection with its erection and furnishing, in order that the people who so liberally subscribed might be fully informed as to the disposition of the money paid over to the Commissioners. But the delay in the completion of the building, as well as in the collection of a number of the subscriptions, renders it impracticable for such a statement to be furnished at this time.

The building has just been completed and turned over to our Commissioners, and same was opened to the public on the 21st instant. The Governor and the Commissioner of Agriculture feel that special thanks are due Hon. Hugh V. Washington for his splendid work in behalf of the Georgia building, as he gave freely of his time and worked faithfully,
without compensation, in securing subscriptions which made the building a possibility. We also feel very much indebted to Hon. H. H. Tift, Commissioner of Lumber, and Hon. F. B. Gordon, Textile Commissioner, for their untiring efforts and valuable assistance in securing subscriptions.

CONFEDERATE MEMORIAL BOARD.

As authorized by an Act of the General Assembly, entitled "An Act to create the Confederate Memorial Board of Georgia," approved August 15, 1903, I appointed the following named gentlemen as members thereof, to wit: Capt. R. A. Nisbet, of the county of Bibb; Major J. G. Morris, of the county of Cobb; Col. John O. Waddell, of the county of Polk; Capt. W. D. Ellis, of the county of Fulton, and Col. W S. Shepherd, of the county of Muscogee. This board has furnished a most excellent report, which you will have before you, and to which I invite your careful consideration. Much valuable and interesting information is furnished concerning nineteen Confederate cemeteries located in different sections of the State. Quite a number of these cemeteries are in poor condition, and badly in need of attention. The Board recommends "that some fit and proper person be appointed by the Governor, to visit each cemetery in the State, to make tabulated statements of their condition, and the exact cost of putting those in a state of decay or neglect, if any, in good condition," and the board is of the opinion that the sum of $5,000 will be sufficient to put all Confederate cemeteries in the State in excellent condition. This Board is to be
congratulated for its economy, as they have only expended $75.72 for the actual expenses of its members, out of the appropriation of $250.00 made for that purpose.

PUBLIC INSTITUTIONS.

You will have before you the report of the Trustees of the State University, and of the Board of Visitors to the University; the report of the Board of Directors and the Board of Lady Visitors to the Georgia Normal and Industrial College; the reports of the State Normal School, the Academy for the Blind, School for the Deaf, and the reports of the Boards of Visitors to the two last named institutions. All these reports contain many valuable suggestions and recommendations, and will amply repay careful perusal. I bespeak for them your most earnest consideration.

STATE SANITARIUM.

I specially invite your attention to the report of the Board of Trustees of the State Sanitarium. I have recently visited this Institution, in company with several members of the Board of Trustees, and found it in excellent condition. The inmates are well treated and cared for; the buildings are in good condition, and the rooms and floors are kept remarkably neat and clean.

From the report of the Trustees it will be seen that the daily average of patients under treatment, for the past eight months, was 2,770, and the daily average cost of each patient was only a fraction over thirty cents, which is less than any similar institution of the same class in the United
States. The ratio of insane in Georgia is low compared to other States, the percentage being 1 to 1,012 of population. In 13 States the ratio is less, and in 32 it is greater than that of this State. This institution is Georgia's greatest charity, and the State is to be congratulated upon the able and efficient administration of its affairs. The farm that is now being run in connection with the Sanitarium is doing a good work, and furnishes recreation and light employment to many of the convalescent patients. From this farm the patients are supplied with all kinds of fresh vegetables and fruits.

The Trustees recently inaugurated a new and most excellent system of duplicate vouchers, and also modernized and greatly improved the system of bookkeeping, so that in the future the financial affairs of the institution can be more easily investigated and understood. There is at present some confusion in the laws relative to the management of the Sanitarium and the reception of patients; and I recommend that a committee be appointed to confer with the Superintendent of the Sanitarium and the President of the Board of Trustees, with the view of revising the laws relating to the institution.

OFFICIAL REPORTS.

You will also have before you the reports of the Comptroller-General, State Treasurer, State School Commissioner, Attorney-General, Adjutant-General, Commissioner of Agriculture, Secretary of State, Railroad Commission, Prison Commission, Pension Commissioner, Compiler of Records, Roster Commission, State Librarian, Keeper of
Public Buildings, and such other departments as are required by law to submit annual reports. They contain many valuable suggestions and recommendations, which I am sure will receive your careful consideration, as they bear unmistakable evidence of the efficiency and fidelity of these public servants.

OLD RECORDS.

During the first year of my administration I found in the Archives of the Executive Department twenty-four old Volumes of Executive Minutes, covering a period of fifty years, from 1793 to 1843. These old volumes, for some reason, had never been indexed, and were in a bad state of preservation. These records cover a very interesting and important era of the State's history, and in order that they might be preserved and handed down to future generations, I have had them all neatly and substantially rebound by the State Printer, and am now having them properly indexed.

REWARDS.

The annual appropriation of $2,000 made by the Legislature for the apprehension of fugitive criminals is wholly inadequate, as the appropriation for this year has already been exhausted, with the exception of $100, and there are now unpaid claims on hand of more than enough to take up this balance. All rewards are paid from the fund derived from the hire of convicts, and as no reward is paid until after the criminal has been convicted, the State gets the benefit of the hire and loses nothing in the transaction.
I therefore recommend that the Governor be authorized to draw on the Prison Fund for a sufficient amount to pay rewards offered for the apprehension of criminals.

STATE'S FINANCES.

The State Treasurer has paid to the common school teachers out of the money appropriated by the Legislature, for the year 1904, the sum of $688,806.50 as against $653,684.48 for the same period of 1903. All pensions and other obligations have been promptly met, and a sum exceeding $35,000 more than that of last year has been paid to the teachers.

Last year it was necessary, in order to meet the expenses of the General Assembly, to borrow $65,000, but if the Treasury receipts for the next fifty days come up to our expectations, I do not think it will be necessary to borrow any amount during the present session. However, in the event the receipts are not sufficient to meet the expenditures, I have arranged, with the assistance of the State Treasurer, to borrow whatever amount may be required at the rate of 2 per cent. per annum, from the following banks: Southern Bank of Savannah; Fourth National Bank of Atlanta, the Neal Loan and Banking Company of Atlanta, and the Exchange Bank of Macon. This is a remarkably low rate of interest, and the banks of the State are to be congratulated upon their ability to make loans at such a rate.

J. M. TERRELL,
Governor.
In accordance with the requirements of section 5815 of the Code, I herewith submit report of all reprieves, commutations of sentence, and pardons granted to December 31, 1903.

PARDONS GRANTED BY THE GOVERNOR.

T. J. GRANADE.—Voluntary Manslaughter. Superior Court of Fulton county, Spring term, 1902; five years in the penitentiary. Defendant claimed to have acted in self-defense, and newly discovered evidence greatly strengthens this theory, and shows that an assault was actually made on the defendant. Granted June 3, 1903.

HARRY HARRIS.—Misdemeanor. City Court of Rome, March term, 1903; three months on the chaingang. Extreme youth of the defendant, previous good character and two months service. This was his first offense. Granted June 8, 1903.

NATHAN STURGISS. Hog Stealing. Superior Court of Columbia county, March term, 1903; six months. Defendant is an old man, unable to work, and his pardon is urged by many good citizens. Granted June 8, 1903.

C. H. COLSON.—Larceny. City Criminal Court of Atlanta. February term, 1903; eight months on the chaingang. Previous good character; has served four months, and his pardon urged by many good citizens. Granted June 8, 1903.

SAM BRODNAX.—Murder. Superior Court of Hancock county, Spring term, 1896; life imprisonment. Defendant only eleven years old when crime was committed, which fact was not proven on the trial, and therefore he did not
receive the benefit of the legal presumption in his favor. He has served eight years, and his pardon is urged by many good citizens. Granted June 10, 1903.

Maggie Mills.—Infanticide. Superior Court of Bartow county, Spring term, 1897; life imprisonment. Defendant was a very young and half-witted negro girl, and abandoned a bastard child of other parties and left it to die in the woods. On account of the weakness of her mind she does not seem to have been cognizant of the nature of the crime committed. She has served about six years, with good conduct. Granted June 11, 1903.

Pauline Perry.—Larceny. Superior Court of Irwin county, March term, 1903; six months. The Judge who tried her certified that he intended to make the sentence three months instead of six months, and he now asks that the mistake be corrected, and the defendant discharged. Granted June 16, 1903.

Gyp South.—Burglary Superior Court of Fulton county. Spring term, 1900; four years. He has served all of his term with the exception of two months, and the camp physician certifies that he is in the last stages of consumption. Granted June 24, 1903.

Charles R. White.—Voluntary Manslaughter. Superior Court of Bibb county; five years. Two reputable physicians certify that he has an incurable disease of the heart and varicocele, both of a serious nature. He has served with good conduct, and clemency is urged by many good citizens. Granted July 1, 1903.

Henry Jones.—Murder. Superior Court of Richmond county, May term, 1890; life imprisonment. Deceased did not die until about six months after he was stabbed by the defendant, and his death seems to have been caused more from dissipation than from the wound. Clemency is urged by the Judge, Solicitor-General, and many good citizens.
He has served with good conduct thirteen years. Granted July 8, 1903.

WILLIS BENNEFIELD.—Perjury. Superior Court of Burke county, Fall term, 1901; four years in the penitentiary. Defendant was only technically guilty; and on account of his advanced age and infirmities, his previous good character and excellent conduct since he has been imprisoned, it is thought that his punishment has been sufficient. Granted July 14, 1903.

WILLIAM POWERS.—Burglary. Superior Court of Elbert county, September term, 1898; eight years in the penitentiary. The property stolen was only worth three or four dollars, and he has served nearly six years with good conduct. Granted July 15, 1903.

W N. KENNEDY.—Shooting at Another. Superior Court of Fulton county, January term, 1903; six months in jail and twelve months in the chaingang. Judge before whom he was tried expresses doubt as to his guilt. He has served the jail punishment, which the Judge considers sufficient. Granted July 21, 1903.

TOM RICHARDSON.—Voluntary Manslaughter. Superior Court of Glynn county, Spring term, 1892; fifteen years in the penitentiary. Defendant has served all of his term with the exception of about two weeks, during which time his conduct has been good. Granted July 24, 1903.

ALBERT COWEN.—Murder. Superior Court of Elbert county, September, 1893; life imprisonment. Defendant was convicted on circumstantial evidence; during his imprisonment he has lost a leg and one eye, and his pardon is urged by many good citizens. Granted July 24, 1903.

CHARLES PHILLIPS.—Larceny from the Person. Superior Court of Muscogee county, May term, 1903; twelve months.
in the chaingang and six months in jail. Defendant was a weak-minded boy, only sixteen years of age. He has served the twelve months' sentence and three months of the jail sentence. Granted August 7, 1903.

**King Jones.**—Selling Whiskey and Gaming. Superior Court of Clayton county, August term, 1902; twelve months in each case. He has served one term, and the Grand Jury recommend by special presentment that he be pardoned. Granted September 8, 1903.

**Burrell Phillips.**—Murder. Superior Court of Miller county, February term, 1899. Life imprisonment. The Judge and the jury before whom he was tried express doubt as to his guilt, and recommend that he be pardoned. Granted September 12, 1903.

**Ed Murray.**—Assault with intent to murder. Superior Court of Wilkinson county, October term, 1902; three years in the penitentiary. The judge before whom he was tried and the solicitor general both urge clemency stating that there was grave doubt as to his guilt. Granted September 12, 1903.

**John Carroll.**—Murder. Superior Court of Fulton county, Fall term, 1895; life imprisonment. Defendant a boy eighteen years of age at the time the crime was committed. Deceased was an immoral woman much his elder who had for months exercised control over him, and whom, in his sober moments he endeavored to shun. His pardon, is urged by the solicitor-general who prosecuted him, the grand jury which indicted him, and the jury which convicted him. Granted September 12, 1903.

**Charles H. Locksley.**—Murder. Superior Court of Richmond county, October term, 1887. Life imprisonment. Defendant was a boy about twelve years of age and killed deceased in a sudden heat of passion. The crime might have been reduced to manslaughter, and since de-
JAMES R. McCoy.—Misdemeanor. Two cases. Superior Court of Walker county, August term, 1902; twelve months in one case and six months in the other. L. A. Hester.—Murder. Superior Court of Campbell county, February term, 1901; life imprisonment. He was indicted with several others and the others were convicted largely on his testimony. He has served with good conduct. His pardon is urged by more than six hundred good citizens of Campbell county. Granted October 10, 1903.

Os. Pierce.—Misdemeanor in two cases. Superior Court of Fannin county, October term, 1902; eight months in one case and six months in the other. On account of the punishment he has already undergone, having served about twelve months on the chain gang, and paid a fine of $25.00 to the town of Blue Ridge, for an offense growing out of the same transaction, it is thought his punishment has been sufficient. Granted October 10, 1903.
MANS. HICKS.—Misdemeanor. City Court of Griffin, January term, 1903; twelve months. Defendant is in a pitiable condition, suffering from blood poison and consumption, and unable to do manual labor, and has already served nine months. Granted October 10, 1903.

D. E. SWAIN.—Simple Larceny. Superior Court of Telfair county, July term, 1901; three years in the penitentiary. It now seems that he was not guilty of the offense charged. Has already served over two years of the sentence with good conduct. Granted October 10, 1903.

WILL E. CHAMBLEY.—Bigamy. Superior Court of Carroll county, October term, 1902; two years in the penitentiary. Has already served one-half of his sentence, and on account of previous good character, the judge and the solicitor who tried him recommend that he be pardoned. Granted October 10, 1903.

WILL BRUCE.—Murder. Superior Court of Fulton county, March term, 1896; life imprisonment. He was convicted for murder in the second degree, and subsequent to his trial, the person who actually committed the homicide was convicted and sentenced to eight years. Defendant has already served more than eight years and his punishment is thought sufficient. Granted October 12, 1903.

CHUB WALL.—Murder. Superior Court of Rabun county February term, 1901; life imprisonment. Circumstantial evidence on which he was convicted, and newly discovered evidence creates grave doubt as to his guilt. Clemency urged by officials and a large number of citizens. Granted October 13, 1903.

HARRISON ROBERTS.—Misdemeanor. City Court of Buford, April term, 1903; twelve months. Has served seven months. Is now suffering with valvular heart trouble, dropsy, and Bright’s disease. Granted November 16, 1903.

STEWART HARRIS.—Voluntary manslaughter. Superior
Court of Rockdale county, April term, 1903; four years in the penitentiary. Defendant claimed that he was justifiable in the killing, but acting on the advise of counsel, he plead guilty to voluntary manslaughter. Character good prior to conviction. Granted November 27, 1903.

Cicero Anderson.—Gaming. City Court of Atlanta, September term, 1903; fine of $50.00 or eight months on chain gang. In view of the fact that he is suffering with consumption, the trial judge and solicitor recommend his pardon. Granted November 27, 1903.

Joe Smith.— Forgery. Two cases. Superior Court of Fulton county, Spring term, 1896; five years in each case. He has already served more than seven years and is now suffering with consumption. Granted November 27, 1903.

Eugene Sutton and Jesse Thornton.—Robbery. Superior Court of Clayton county, February term, 1902; four years. Defendants were very young, and the crime consisted in taking by force, from a younger boy, a bucket containing some food and a cap. They have already served three years with good conduct. Granted November 27, 1903.

Bill Baker.—Vagrancy. Superior Court of Taliaferro county, August term, 1903; six months. Newly discovered evidence shows that he was a negro of good reputation for work and general character, and that he was not a vagrant. Granted December 1, 1903.

Wesley Sherman.—Murder. Superior Court of Wilkes county, May term, 1893; life imprisonment. He was con-
victed on testimony and under circumstances which left grave doubt as to his guilt. The judge, solicitor, and the trial jury recommend clemency. He has served ten years with good conduct. Granted December 10, 1903.

CHARLES WEEMS.—Gaming. City Court of Atlanta, September term, 1903; six months. Since his conviction his wife has died, leaving three small children, with no one to care for them. Has already served one-half of his sentence with good conduct. Granted December 11, 1903.

J. C. ROBERTS.—Arson. Superior Court of Dooly county, March term, 1899; five years in the penitentiary. He has served all of his sentence except about three days with good conduct. Was convicted on circumstantial evidence and has always protested his innocence. Granted December 12, 1903.

HENRY LACY.—Murder. Superior Court of Paulding county, August term, 1882; life imprisonment. He was convicted with two others who have already been pardoned, and having served a term equivalent to the terms of the other two, it is thought that his punishment has been sufficient. Granted December 14, 1903.

DAVE RAY.—Larceny. Superior Court of Telfair county, July term, 1901; three years in the penitentiary. Has served over two years with good conduct. Previous good character. Granted December 14, 1903.

MATT JENKINS.—Illegal sale of whiskey; City Court of Carrollton, December term, 1902; twelve months on the chain-gang. Has served all but a few weeks of her sentence and since her incarceration her husband has died leaving several small children, dependent and destitute. Granted December 14, 1903.

ELISHA FALLS.—Voluntary Manslaughter. Superior Court of Fannin county, October term, 1902; two years in
the penitentiary. The offense was committed in a drunken spree, and under mitigating circumstances. He is now in a bad physical condition. The judge, solicitor and trial jury urge clemency. Granted December 14, 1903.

ROBERT E. LANGLEY.—Robbery. Superior Court of Fulton county, January term, 1901; five years in the penitentiary. He was only seventeen years of age and was induced to commit the offense by an older person. He has served more than three years, and clemency is urged by a large number of good citizens. Granted December 14, 1903.

PATRICK CONNORS.—Voluntary Manslaughter. Superior Court of Chatham county, Spring term, 1897: Fifteen years in the penitentiary. The crime was committed under great provocation and defendant was tried three times before he was finally convicted. Defendant has served more than six years with good conduct. Granted December 14, 1903.

ALVIN YOUNG.—Vagrancy. City Court of Waycross, July term, 1903. Twelve months on the chain gang. The County Commissioners and County Physician certify that defendant is an imbecile and unable to work. Granted December 14, 1903.

GEORGE STANTON.—Assault with Intent to Murder. Superior Court of Fulton county, September term, 1897; convicted in two cases and sentenced to five years in one case and three years in the other. Both offenses grew out of the same transaction, and it is thought that he has been sufficiently punished. Granted December 14, 1903.

JEWETT S. CALLAWAY.—Assault with Intent to Murder. Superior Court of Oglethorpe county, May term, 1901; four years in the penitentiary. He plead guilty to the charge, and has served nearly three years of his sentence with good conduct. Granted December 15, 1903.

FRANK KEMP.—Murder. Superior Court of Macon
county, October term, 1898; life imprisonment. He was jointly indicted with another for murder and it now appears that he was not guilty. Granted December 16, 1903.

H. W Bohannon.—Car Breaking. Superior Court of Whitfield county, October term, 1897; ten years in the penitentiary. He was convicted with several others. He plead guilty, and it was largely on his evidence that the others were convicted. Has served over six years. Granted December 18, 1903.

Sandy Thomas.—Forgery. Superior Court of Bibb county, June term, 1903; four years in the penitentiary. The amount received was very small and prompt restitution was made. Previous good character, and good conduct since conviction. Granted December 30, 1904.

Henry Lyle.—Murder. Superior Court of Fulton county, October term, 1901; life imprisonment. From the evidence it is doubtful whether defendant killed deceased or whether she took poison. In view of the mitigating circumstances and the strong appeals for clemency, it is thought he should be released. Granted November 6, 1903.

SENTENCES COMMUTED.

John Perry.—Murder. Superior Court of Whitfield county, October term, 1902; sentenced to be executed. Since the trial it is shown that a short time before the homicide was committed, the deceased knocked defendant down and kicked him out of his show tent. While smarting under the indignities heaped upon him defendant killed deceased. Sentence commuted to life imprisonment, August 4, 1903.

Geo. F. Gilbert.—Burglary. Superior Court of Ware county, April term, 1903; four years in the penitentiary. Defendant was convicted of stealing ten dollars' worth of clothing from a railroad car. The trial jury recommended
that he be punished as for a misdemeanor. The Supreme Court on hearing of the case divided as to whether burglary was proven. Sentence commuted to a fine of $1,000.00 and cost, September 12, 1903.

R. L. GOLDING.—Hog Stealing. Superior Court of Liberty county, May term, 1902; three years in the penitentiary. In view of the conflicting testimony on the trial of the case, and defendant's previous good character, sentence commuted to a fine of $100 and costs, or twelve months in the chaingang, September 12, 1903.

JOHN R. JONES.—Larceny. City Court of Atlanta, March term, 1903; eight months in the chaingang. Pending the trial of his case he was kept in jail about six months, which was thought sufficient punishment. Sentence commuted to six months jail service, September 12, 1903.

CLARA JOHNSON.—Vagrancy. City Court of Macon, August term, 1903; fine of one hundred and twenty-five dollars, or ten months in the chaingang. Prior to her conviction she was married, and her husband desires to pay a fine of $75.00 and have her released. Sentence commuted to a fine of $75.00. September 12, 1903.

JIM KING.—Simple Larceny. Superior Court of Pulaski county, August term, 1903; fine fifty dollars and cost, or twelve months. After the time had elapsed for the payment of the fine, he tendered the amount to the Sheriff. Sentence commuted to payment of the fine of $50 and costs. September 15, 1903.

JOHN SKELTON.—Seduction. Superior Court of Newton county, September term, 1902; five years in the penitentiary. Newly discovered evidence shows that defendant was not guilty of seduction, but of a lesser offense. Sentence commuted to one year in the penitentiary, October 10, 1903.

JOE NEAL.—Simple larceny. Superior Court of Baker
county, September term, 1903; two years in the peniten­
tiary. All of the trial jurors say that it was their intention
to have him punished as for a misdemeanor. Sentence
commuted to a fine of one hundred dollars, October 10,
1903.

GRANTLAND HOLLINGSWORTH.—Misdemeanor; two cases.
City Criminal Court of Atlanta, July term, 1902; fine of
fifty dollars, or eight months, in each case. Defendant was
only seventeen years old; this was his first offense, and he
had previously borne a good reputation. Sentences in both
cases commuted to a fine of fifty dollars or eight months,
October 10, 1903.

OLIVER HENDERSON, JR.—Bastardy. County Court of
Newton, August term, 1903; fine one hundred dollars and
costs, or twelve months in the chaingang. His previous
character is shown to have been excellent, while the woman
bore a bad reputation. Sentence commuted to a fine of fifty
dollars, October 13, 1903.

W H. FORDHAM.—Murder. Superior Court of Laurens
county, July term, 1901; life imprisonment. He was
jointly indicted with several others, and all seem to have
been equally guilty. Defendant was convicted of murder,
while the others were convicted of manslaughter, and it is
thought that his sentence should be commuted to the same
length of service as the others. Sentence commuted to five
years in the penitentiary, October 15, 1903.

J T. STONE.—Subornation of perjury. Superior Court
of Morgan county, March term, 1903; five years in the
penitentiary. His previous character was good, and he
was convicted on the testimony of several disreputable ne­
groes, who were self-confessed perjurers. Sentence com­
muted to a fine of two hundred and fifty dollars, or twelve
months, November 6, 1903.

WESLEY SMITH.—Larceny from the House, in two cases.
City Court of Atlanta, September term, 1903; fine of $50 or twelve months in each case. His previous character was shown to have been good, and the property stolen was of small value. Sentence commuted to $50 in each case, or six months in the chaingang, November 27, 1903.

Wesley Simmons.—Four Misdemeanors. Superior Court of Bartow county, November term, 1901; twelve months in two cases, and six months in each of the other cases. Defendant served the greater portion of his sentence, and the same was commuted to payment of a fine of $35, November 27, 1903.

Arthur Jones.—Assault to Murder. Superior Court of Dodge county, August term, 1903; twelve months. He plead guilty, and was sentenced to pay a fine of $65 or twelve months. At first he was unable to pay the fine, but now desires to do so. Sentence commuted to a fine of $50 November 27, 1903.

Wesley Reaves.—Assault with intent to Murder. Superior Court of Wilkes county, May term, 1903; two years in the penitentiary. A large number of citizens urge clemency on the ground of defendant's previous good character and the weakness of the testimony against him. Sentence commuted to six months, December 14, 1903.

James White.—Murder. Superior Court of Catoosa county, Fall term, 1903. Sentenced to be executed. The killing occurred in a mutual combat between the defendant and the deceased, and the Judge who tried him and the Solicitor who prosecuted him say that the jury could, with propriety, have recommended life imprisonment. Sentence commuted to life imprisonment, December 30, 1903.
REMOVAL OF DISABILITIES.

W S. Brown.—Murder. Superior Court of Talbot county; life imprisonment. He was pardoned some years ago, and has since been a good citizen. Granted July 21, 1903.

Charles Driver.—Extortion. Superior Court of Glynn county, December term, 1902. His guilt was only technical. He has paid the fine imposed by the court, and has been a law-abiding citizen. Granted October 9, 1903.

Elias Collier.—Larceny from the house. City Court of Atlanta, August term, 1899. He paid the fine imposed upon him, and has since been a good, law-abiding citizen. Granted December 14, 1903.

Fort McLeroy.—Burglary Superior Court of Muscogee county, Fall term, 1898; three years in the penitentiary. Since serving out the sentence imposed by the court he has established a good character in the community where he resides. Granted December 14, 1903.

RESPITES GRANTED.

Lee Cribb.—Murder. Superior Court of Coffee county, March term, 1903. Sentenced to be executed on November 10, 1903. Respite granted until December 11, 1903, in order that the Prison Commission might have sufficient time in which to consider an application for the commutation of sentence. On December 9, 1903, he was again respited until December 18, 1903, in order that a Board of Physicians might examine him and pass upon the question of his sanity.

Mr. Speaker

My feelings overpower me, and words fail me to express to you, the other officers and members of this House my profound appreciation of the messages of sympathy and hope for my speedy recovery extended me by every officer and member of this body on the occasion of my recent severe sickness. I firmly believe that our Divine Lord, who reads the secrets of the human heart as if it were an open book, seeing the sincerity of their motive, listened to their pleading and granted their request. While life lasts this action will not be forgotten by me, and as good deeds are recorded above, will not be forgotten in eternity. My humble daily petition to the Throne of Grace will hereafter contain a special plea that His choicest blessings may
be showered on each and every one of you, and that when your labors are concluded here below, you may be called to heaven and enjoy its blessings for all eternity.

Atlanta, Ga., June 28, 1904.

The following message was received from His Excellency, the Governor, through his Secretary, Mr Blackburn:

Mr. Speaker: 

I am directed by His Excellency the Governor, to deliver to the House of Representatives a communication in writing.

State of Georgia, Executive Office,
Atlanta, June 28, 1904.

To the General Assembly:

I herewith transmit to you a letter from His Excellency, A. J. Montague, Governor of the Commonwealth
of Virginia, together with a joint resolution of the General Assembly of Virginia, relative to an International Exposition to be held on the shores of Hampton Roads, for the purpose of commemorating the first permanent Anglo-American settlement on this continent, made at Jamestown, on the 13th day of May, 1607. I trust you will give the matter due consideration, and take such action as you may deem wise and proper.

J. M. TERRELL,
Governor.

Commonwealth of Virginia,
Governor's Office, Richmond.

Sir:

I enclose a copy of a joint resolution of the General Assembly of Virginia, passed February 17, 1904, and beg to request that you will transmit the same to the Legislature of your State.

I venture to suggest that the commemoration in question is of extraordinary significance, as the landing at Jamestown was the first permanent settlement of the English speaking people on this continent by nearly fourteen years, indeed, as a result of this settlement Virginia was an organized Colony with an elective Legislative Assembly nearly two years prior to the landing of the heroic Pilgrims at Plymouth Rock. Therefore, this settlement is the genesis of our national government and the original source of forces which have entered mightily into the fabric and growth of our Republic.

It is to be hoped that the magnitude of the historic commemoration may have the generous consideration of your State and the earnest sympathy and co-operation of

your people in appropriately bringing before the world so transcendent an event.

I have the honor, to be, sir,

Your obedient servant,

A. J. MONTAGUE.

JOINT RESOLUTION OF THE GENERAL ASSEMBLY OF VIRGINIA, PASSED FEBRUARY 17, 1904.

Whereas, It is proposed to commemorate the first permanent Anglo-American settlement on this continent, made at Jamestown on the 13th day of May, 1607, by holding an International Exposition on the shores of Hampton Roads; and the State of Virginia has heretofore incorporated the Jamestown Exposition Company, under whose auspices such commemoration is to be held; and,

Whereas, The General Assembly of Virginia has heretofore endorsed such commemoration by making a suitable appropriation to said company to assist in making said exposition a fit and suitable one to properly commemorate this, the greatest event in American history; and,

Whereas, A bill has been introduced in the Senate and House of Representatives of the United States of America in Congress assembled, for the purpose of securing the endorsement of this nation, and of making said exposition an international one, inviting foreign nations to participate therein, and authorizing suitable and appropriate naval displays and military maneuvers, on and near the waters of Hampton Roads during the period of said exposition, and providing a proper appropriation by the Government of the United States, now, therefore, be it,

Resolved, By the House of Delegates, the Senate con-
curring, that the Governor of this State be, and he is hereby authorized and requested for and on the part of the Commonwealth of Virginia, to at once invite the co-operation and assistance of each and every other State of this Union, in order that each of them may adopt the necessary measures to be suitably and appropriately represented at the said exposition.

Mr. Morris, Chairman ex officio of Committee on Rules, submitted the following report:

Mr. Speaker

The Committee on Rules, having had under consideration resolution No. 484, requesting that bill 827 be set for a special order for Tuesday, June 28, 1904, recommend that said resolution be adopted with amendment.

Respectfully submitted,

MITCHAM, V-C.

Mr. Adams, Chairman of Committee on Temperance, submitted the following report:

Mr. Speaker:

The Committee on Temperance having had under consideration House Bill No. 838, by Mr. Alexander, of Wilkes, to make it unlawful to distill or manufacture spirituous or intoxicating liquors in Wilkes county, report the same back to the House with the recommendation that it do pass.

GEO. W. ADAMS,
Chairman.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr. Speaker:

The Senate has passed by the requisite Constitutional majority the following Senate bills, to wit:

A bill to amend the charter of the city of Columbus.

A bill to amend section 982 of the Code so as to add Sparta to the list of cities and towns having State depositories.

A bill to amend act establishing the city court of Douglas.
A bill to amend section 982 of the Code so as to add Perry and Fort Valley to the list of State depositories.

The Senate has concurred in the following resolution of the House, to-wit:

A resolution that the General Assembly hold no session on Independence Day, July 4.

The Senate refuses to concur in the following House resolution, to wit:

A resolution that when the General Assembly adjourns on Saturday, July 2, it shall adjourn until Monday, July 11th, and for other purposes.

The following is proofs of the election held in Worth county to change the county site from Isabella to Sylvester and which was ordered to appear on the Journal.

NOTICE OF LOCAL LEGISLATION.

Notice is hereby given that at the coming June session of the General Assembly of Georgia, an act will be introduced, the title to which will be as follows:

"An act to change the county site of Worth county from Isabella in said county to Sylvester in said county, and for other purposes."

And it is the intention of the undersigned to apply for its passage.

This May 5, 1904.

T. C. JEFFORDS,
T. J. PINSON,
J. S. WESTBERRY
Georgia, Worth County.

Office of Ordinary.

I, J. W. Price, Ordinary of said county, do hereby, as such officer, certify that the above and foregoing is a true and correct copy of notice of intention to apply for the passage of an Act entitled as therein set forth posted at the courthouse door in the said county of Worth and published in the Worth County Local, the newspaper in said county, in which the sheriff of said county publishes his legal advertisements; that the said notice was posted by me in a conspicuous place at the door of the courthouse of the said county of Worth on the fifth (5th) day of May, 1904, more than thirty days prior to the making of this certificate, and that the same was published in the said newspaper, which I hereby certify to be the newspaper in which the sheriff publishes his legal advertisements, in the issues of May 6th, 13th, 20th and 27th, 1904.

Witness my hand and official signature and seal of office, this the 20th day of June, 1904.

(SEAL.)

J. W. PRICE.

Ordinary Worth County, Georgia.

Office of Secretary of State,
Atlanta, Georgia, June 2, 1904.

A. B. GREGORY, et al., Contestants,
vs.
T. J. PINSON, et al., Contestees.

Contest of Election for Removal of County Site of Worth County.

The above stated case was called at 10 o'clock a. m., March 28, 1904, due and legal notice of the place and time of hearing said contest having been given to all attorneys representing the contestants and contestees.
TUESDAY, JUNE 28, 1904.

Upon the call of the case, it appears that the contestants were not represented in court, their attorney, Col. W. A. Hawkins, being detained at home by illness in his family; but an agreement in writing, signed by counsel of both parties at issue, asking that Thursday, June 2nd, 1904, 10 o'clock a.m., be set as the time for the final hearing of said contest, was produced and approved by the Secretary of State, and that parties at issue were legally notified of this action.

Now, it appearing, that the contestants were not present, either personally or by attorney, at the time and place designated for the final hearing of the above stated case, and,

It further appearing, that neither of the five grounds of contest set forth in the original notice of contest are sufficient in law in that they are too general and indefinite, and do not specify or identify the illegal acts complained of, and,

It further appearing, that if one or all of the acts or things complained of were true, it would be insufficient in law to change the result of the election, it is hereby

Ordered:

That the original notice of contest, the amendment thereto and the entire contest proceedings be dismissed.

This June 2, 1904.

PHILIP COOK,
Secretary of State.

State of Georgia,
Office of Secretary of State.

I, Philip Cook, Secretary of State of the State of Georgia, do hereby certify, That the consolidated returns of
an election held in Worth County, Georgia, on March
16th, 1904, on the question of the removal of the county
site of said county, show that the total number of votes
cast and received at all of the Precincts was two thousand
five hundred and forty-one (2541); that the total num­
ber of votes cast “For Removal” of the county site of
Worth County from Isabella to Sylvester was two thous­
and one hundred and twenty-six (2126), and that the
total number of votes cast “Against Removal” was four
hundred and fifteen (415) all of which appears from rec­
ords of file in this office.

In testimony whereof, I have hereunto set my hand
and affixed the Seal of my Office, at the Capitol, in the
City of Atlanta, this 3rd day of June, in the year of our
Lord One Thousand Nine Hundred and Four and of the
Independence of the United States of America the One
Hundred and Twenty-eighth.

(Seal.)

PHILIP COOK,
Secretary of State.

Mr. Hall, of Bibb, arose to a question of personal privilege and in his remarks denounced certain charges made against the investigating committee of which he is chairman and which appeared in an evening paper of June 29th. The paper referred to accused the committee of overstepping its authority in employing more than one expert accountant and that they employed a stenographer who was employed in Mr. Hall's law office in Macon. Mr. Hall said that the employment of two accountants was on the suggestion of Mr. Mulherin, who was himself a bookkeeper and a member of the committee who said that the work could be expedited and done more economically by two than one; this was concurred in by Mr. Raoul, the expert first employed to examine the books. He said that Mr. Mulherin was to act as one of the accountants but was prevented from doing so by illness. As to Mr. Blue, the stenographer in question, Mr. Hall said that he had not been in his office for four years. He also stated that the Committee itself had paid Mr. Blue for his services and that the Treasurer would not be called on to do so until the General Assembly had passed a special act to this effect.
The following bills were read the second time and re-committed, to wit:

By Mr. Reid of Campbell—

P. M. HAWES,
Chairman.

Mr. Hall, Chairman of the Special Investigating Committee to look into the different departments of State and audit their accounts, submitted the following report:
SANITARIUM.

To the President of the Senate and the Speaker of the House of Representatives:

Your Committee appointed by a joint resolution of the two Houses of the General Assembly, approved August 17, 1903, have discharged the duties imposed upon them by said resolution, and beg leave to submit their report.

The Committee met at Macon, Georgia, on the 27th day of October, 1903, and organized by the election of Joseph II. Hall as Chairman, and P H. Comas as Secretary. In accordance with the power conferred upon the Committee, they at that time employed Mr. W G. Raoul and Mr. C. H. Canfield as expert accountants to examine all the books of the State Institutions and the various departments of the State, which the Committee by the terms of the said resolutions were required to examine.

Mr. Raoul and Mr. Canfield made the examination of the books of the State Sanitarium, the Girl's Normal School at Milledgeville and the books of the Prison Farm. After the completion of this work Mr. Raoul at his own request and to the great regret of the committee, resigned. Mr. W W Duncan was selected by the Committee to aid Maj. Canfield in the further progress of the work.

The Committee at its first meeting decided that it was necessary to have the evidence taken by the Committee stenographically reported and written out. This was made necessary by the scope of the work and the length of time that would be necessarily consumed in completing investigations, as well as submitting the evidence to the General
Assembly, upon which the Committee’s findings were based. The Committee therefore decided to employ W. F. Blue to take the oral testimony of all witnesses and made a contract with him for Five (§5.00) Dollars per day for reporting and the same amount per day for writing out the testimony, which testimony we herewith submit as a part of our report.

STATE SANITARIUM.

On November 10, 1903, your Committee met at the State Sanitarium and proceeded to investigate the affairs of that Institution. The Committee was confronted with great difficulties on account of the total want of any intelligent system of accounting in connection with this institution. We found it impossible on account of the methods of keeping the accounts to get any intelligent idea of the distribution of the large amount of money annually appropriated to support this institution. The Steward, who is the financial officer of this concern, keeps nine different check books under the following heads, to-wit: Subsistence, Clothing, Fuel and Transportation, Wages, Incidents, Medical Supplies, Contingencies, Stationery and Postage, and as a voucher is presented he draws a check in payment of same from one or another of the books, the Steward’s check being drawn on the Treasurer of the institution, and from these check books his accounts are made up, showing the amount expended on each account during the month, and from these check books he balances with the Treasurer. There is no double entry system of keeping books whatever.

Your Committee attaches to this report a comparative statement of the distribution of the annual appropriation for the support of the institution from September 1, 1894, to September 1, 1904, covering a period of ten years. A careful examination of this report under the different heads
will exhibit discrepancies that are not easily explained. For instance: The amount expended on incidentals September 1, 1894 to September 1, 1895, was $18,955.00; for incidentals from September 1, 1895 to September 1, 1896, $20,510.00; for incidentals from September 1, 1896 to September 1, 1897, $30,630.00; for incidentals from September 1, 1897 to September 1, 1898, $30,817.33; from September 1, 1898 to September 1, 1899, $35,734.00 and from September 1, 1899 to September 1, 1900 the amount was only $17,271.22. The reason of this difference does not appear.

Under the head of Medical Supplies we find the accounts for the year beginning September, 1894 and ending September, 1895 to be $4,375.95, and for the year ending September 1, 1902, to be only $2,887.20. The number of patients treated at the institution during the year ending September 1, 1895, was 1783, and the number of patients treated during the year ending September 1, 1902, was 2,635; and yet the account for medical supplies for the first named year was $4,375.00 against 2,821.00 for year last named. We find that the account for medical supplies for the year ending 1897 was $5,152.00 with 2085 patients, and for the year 1902, $2,887.00 with 2635 patients. For the year ending September, 1897, the average number of patients in the institution was 2085 and for the year ending September 1, 1903, the average number of patients was 2732. The account for medical supplies for 2085 patients for the year ending September, 1897, was $5,152.19; for the same period, year ending 1902, the amount of expenditures for 2696 patients was $3,082.19, showing an increase in the number of patients of over 600 and a decrease in the amount expended for medical supplies of over $2,000.00. A careful examination of this account will show under every head discrepancies of this sort.
We invite your careful attention to the tabulated report of the experts, showing comparative statement of the expenditures, and also to the general report of the experts of the methods of keeping accounts by the officers of this institution.

All of the supplies purchased by the Board of Trustees for the support of the institution are disbursed from a storehouse by a store-keeper. We find that this gentleman seems to be conscientious, diligent and faithful in the discharge of his duties, but there is no system of accounting kept whatever of the articles purchased and disbursed from the storehouse. The store-keeper is not responsible for this, as he discharges all duties that are required of him by the Board of Trustees, but your Committee feels called upon to say that it is impossible to keep any intelligent account of the business of this department of the Sanatorium under the methods now pursued. There is no account of the goods kept after they reach the storehouse and in no way can it ever be ascertained whether anything has been lost or stolen therefrom. Inventories are made periodically of articles in the storehouse and these are not even preserved. The property of the institution in the storehouse is not properly protected and there is very great opportunity of goods being stolen therefrom. The store-keeper does not disburse the heavy articles that are used on the farm, but these are delivered to the Assistant Steward and disbursed by him. Although a large quantity of supplies pass through his hands and he employs a considerable number of hands, all those engaged in the farm and cattle work of this institution, he keeps no books of the account and practically no record of his transactions whatever. All we could find that he kept was a memorandum of the time books of the time made by hands employed by his subordinates which was reported to him. It is from his loose system of accounts that the pay-rolls of the em-
ployees of this department are made up. The Assistant Steward furnishes annually to the Board of Trustees a detailed account showing in dollars and cents the amounts received and expended by him, but an examination of him by your Committee disclosed the fact that this report was based upon nothing stronger than the imagination of this officer. His annual report would indicate that it was a transcript from books kept by the Assistant Steward, but when called upon to produce these books he was compelled to admit that he kept none. We think it is decidedly to the interest of the State in the management of this institution that there should be a change in this officer.

We find that there is no proper accounting for the proceeds arising from the sale of the property of the State. This money is all paid to the Steward and by him expended on account of what he calls "petty cash." The Steward is allowed to receive all moneys arising in this way, either from the sale of the property owned by the State or for goods purchased by the Trustees for the institution, and which are sold to the officers of the institution and deducted from their salaries. And in addition to this he is further allowed to draw from the funds appropriated for the support of the Institution, smaller sums of money from time to time, but which sums together with the other sources of revenue mentioned herein amount to at least $6,000.00 per year. This amount of money is practically appropriated by the Board of Trustees to the Steward to be expended by him at his discretion in the purchase of small articles, and he does not account to any one for it. We have no reason to believe it is not honestly spent, but we do not think any money, no matter how small the amount, should be spent by any officer without a voucher showing the amount expended and upon what account it was made. This account is simply a private account of the Steward's.

We find that no inventory of any property of the State
is kept as required by law. We could find no inventory or list of any of the property of the State in the possession of the officers of this institute later than 1896. Up to that time the law requiring annual inventories to be made by all persons having in possession the property of the State seems to have been complied with, and the Steward produced to us inventories of all properties said to be on hand up to that time, but making an annual inventory as required by law, has since that time been discontinued, as we are informed, by order of the Board of Trustees. The inventory referred to here is the one required by Section 275 of the code of Georgia, and as this is a requirement of the law we are compelled to find and report that the Trustees in ordering a discontinuance, violated a clear provision of the law as set forth and required in the above Section of the Code. And we also find that the payment of money and the receipt of it by the Steward from property of the State sold, and from the accounts collected by him for goods sold to the officers as above set forth, was also without authority of the law, as the law of this State requires all money received on account of the sale or from unserviceable property, or other property of the State when sold to be paid into the State Treasury. The expert accountants appointed by us found that a former Steward was due the State on account of the appropriations of money received by him the sum of $300.00. This amount was promptly paid by this officer as soon as his attention was called to it. We had been informed that this payment was made to and received by the Board of Trustees, by what authority we do not know. The Trustees had no authority to receive this money, as it was money that was due the State and not the Sanitarium.

We find that the Trustees draw monthly from the State Treasury, and deposit in the bank of Milledgeville, one-twelfth of the amount annually appropriated by the Legis-
lature to support the institution, and that all unexpended balances at the end of each year are carried forward into the account of the next year. We think that this is a violation of the law and is without authority. We are clear that it is the duty of the officers of this institution, and all others of like character, to cover into the treasury all amounts of money appropriated for the support of the institution that are unexpended at the end of a fiscal year. Section 1422 of the Code requires that at least ten days before the annual meeting of the General Assembly that the Trustees shall send to the Governor an exact estimate of the amount of money required for the support of the institution for the succeeding year, and that they shall set forth under separate and distinct heads all divisions of the several amounts required for each of the departments of the expenditure, to wit: Subsistence, Clothing, Fuel and Transportation, Salaries, Wages, Medical Supplies, Ordinary Repairs and Special Improvements. And it further requires that the said appropriation, or so much thereof as may be necessary, shall only be used for the division of the expenses for which it is estimated, and no portion estimated for each department of the expenditures be diverted to or used for any other department of the expenditures. This express provision of the law is not complied with. There is no division of the funds among the several departments of expenditure. The appropriation is not made as required by this section of the Code, but this is a clear expression upon the part of the law that only the money annually appropriated for the support of each department shall be used for that purpose, and certainly does not authorize the use of any unexpended balance of money that had been appropriated for the support of the institution in previous year. The Steward in keeping his accounts follows this statute in the divisions of the account provided for except in having separate divisions in fuel and trans-
portation. He keeps no account of the ordinary repairs, but this seems to be charged under the head of incidental expenses. The account for fuel and transportation is kept under one head.

We find that all accounts of special appropriations have been separately kept, and we find further the remarkable fact that every one of these accounts balance to a cent. No money appropriated by the State for special purposes has ever been returned to the Treasury, but if it is not used for the purpose it was appropriated the balance is expended on other accounts and charged to this appropriation so as to make the accounts balance.

We find that the Trustees are very careful in the purchase of supplies for use of the institution, practically all supplies being purchased on bids. We examined a large number of the bids and report that we found great care exercised by the Trustees in making purchases in nearly every instance. We found that contracts for supplies had been awarded to the lowest bidders if responsible.

The law as to salaries of officers has not been complied with. The salary of the Superintendent is fixed by law at $2,500.00, and of the Assistant Physician at $1,250.00. See Code, Section 285. In addition to the Section of the Code the sum of $2,500.00 is annually appropriated for the salary of the Superintendent and is thus fixed by each appropriation bill passed. In addition to this amount he is allowed by the Trustees to receive from the money appropriated for support the table expenses of himself and family, all supplies are furnished him free. The furniture in the rooms occupied by himself and family is also furnished out of the fund for support, and in addition to this servants are furnished him and he is allowed to use for his family use the carriage and horses kept for the benefit and use of the Institution. We do not think that the compensation received by this valuable officer is in any wise exces-
sive, but we are compelled to report that under the law the Trustees are not authorized to make this increase in the salary of this officer, and that the allowance made to him by the Board of Trustees from the funds appropriated for the support of this Institution is an illegal diversion of the fund.

In regard to the perquisites allowed by the Trustees to the Superintendent, Dr. T. O. Powell, the Superintendent, testified before your committee that since he had anything to do with the Institution, that is, since 1862 or 1863, that this salary of $2,500 had been allowed the Principal Physician, and in addition everything furnished him. Indeed, Dr. Powell testified that this had been the custom since the foundation of the Institution so far as he could go back.

We beg leave to call attention in connection with this matter to a resolution adopted by the Board of Trustees on December 19, 1872, a copy of which, taken from the official minutes of that Board, is as follows:

"DECEMBER 19, 1872.

"Resolved, That the salary of the Superintendent and resident Physician be Two Thousand and Five Hundred Dollars ($2,500.00) as provided by law, and that for the maintenance of his household establishment, including the requisite expenditures incident to his official position, involving the frequent dispensing from his table of specially prepared food for such invalid female patients as may need it, as accords with his antecedent custom; and the additional duty of providing ordinary entertainment for those parties who visit the Institution on official and needful business, that he be allowed to draw from the Steward from time to time as required commissary and subsistence stores and including the said allowances to the official matron, to the value of Fifteen Hundred Dollars per annum, and that the said sum shall be in full of all other allowances and perquisites of office except quarters and fuel.

"Passed."
We are compelled to think that Dr. Powell must be mistaken in his recollection as to the origin of the custom. It will be observed that the additions were allowed Dr. Green upon the express condition that the requisite expenditures incident to his official position, involving feeding persons from his table of specially prepared food for such female invalid patients as might need it, as agrees with his antecedent custom. It would seem from this portion of the resolution that these supplies may have been at one time allowed the Superintendent because certain of the invalid female patients were provided by him from his own table with specially prepared food. And it seems further from this resolution that he was allowed this increase at that time in consideration of his entertaining persons who visited the Institution on business with the Institution. The additions that he received were expressly limited to $1,500.

The resolution also showed that the Trustees at that time recognized that the Board at that time had no power to fix the salary of the Principal Physician or Superintendent, for the resolution declares that the salary of $2,500 is provided for by law.

Dr. Powell does not furnish anything to the patients from his table, nor is he required to entertain. We think his salary should be at least four thousand dollars a year, but that it should be paid, all of it, in money, from the appropriation, and no part of it in supplies.

Since the foregoing portion of this report was prepared, Dr. Powell has called the attention of the Chairman of this Committee to the fact that he was mistaken in his testimony as to the furniture in the rooms occupied by him being furnished by the State. He now states that this is only partially true, that a portion of the furniture is furnished by himself. For the want of the inventory required by law to be kept, it is impossible for the Committee to ascertain how much of the furniture was furnished by Dr. Powell and how much by the State.
The Trustees have also increased the salaries of the Assistant Physicians from the $1,250.00, the amount fixed by law, to from $1,500.00 to $2,000.00. We believe that the salaries paid by the Trustees to the Assistant Physicians are reasonable, but as in the case of the Superintendent, we are compelled to find that the Trustees had no authority to pay them increased salaries from the money appropriated for the support of the Institution. It is true that by the law governing this Board, they are authorized to elect the officers and fix their salaries, but this of course means where the salaries are not otherwise provided by law. It is evident that where the legislature has undertaken to fix the salaries of officers its power is paramount, and necessarily limits the Trustees in the power that was conferred upon them in a general provision of the law. Until this law is changed the Trustees have no authority to increase their salaries.

In addition to the salaries to be paid in money, we find that certain officers of the Institution are furnished homes at the expense of the State.

We find that all physicians and other officers residing upon the grounds are furnished lights and fuel free.

We further find that the Steward and Assistant Steward, neither of whom reside upon the grounds of the institution, are allowed in addition to their salaries, lights and fuel. The Steward, who resides in the town of Milledgeville, is allowed to haul coal from the Sanitarium for his own use; that no account whatever is kept of it, but he is at liberty to order it delivered at his own house at his own discretion. He also buys from the funds appropriated for the support of the Institution all the wood that is used by his family at his house. This wood is bought by him at will, and he seems to account to no one for it. The same is true as to the Assistant Steward, who owns and lives in his private house. This of course is a misappropriation of the fund
appropriated for the support of the Institution, and we recommend and express the hope that it will be at once discontinued by the Board of Trustees, for we see no necessity for it.

In addition to all of the other allowances made the physicians and officers, many of them are furnished houses free of rent on the grounds of the Institution. All of them are furnished, light, water and heat free. We call especial attention to the fact, that there are no receipted pay-rolls preserved whatever; that of the amount of money paid out to employees, none of them are required to receipt for it, and that the method pursued in the payment of employees is exceedingly loose and should be corrected at once.

We find that for the years 1900, 1901, 1902, and 1903, something over five hundred applications had been received and the patients not admitted. This was prior to the building of the new building. Of this number, during this period, we find from the records that forty-four only had been confined in the jails of the counties or restrained at home. A large number of applications had been received and notices sent by the authorities of the Sanitarium of their readiness to receive the patients, but the persons committed had never been sent to the Sanitarium. Of those confined in jail we find that in a large majority of the cases the authorities had been notified of the readiness of the Sanitarium to receive them. It was apparent from this report that the number who had been refused admission on account of want of room was limited, and probably never exceeded one hundred at any time.

We find that where the applications had been accepted and the parties notified, these applications are kept on file an indefinite length of time, and that they are carried on the records as live applications of parties applying for admission to the Sanitarium. We think that wherever a party has been notified and has had a reasonable length of
time to have the patient committed, the application should be cancelled and stricken from the records.

Your Committee have felt it necessary to make this report in view of the fact of the repeated statements made to the legislature and in the public press of the State, that there are confined in the jails of this State four hundred lunatics unable to gain admission into the asylum. The records of the Institution do not bear this out.

Your Committee reports that the internal management of this Institution, so far as the care and treatment of the patients is concerned, seems to be well nigh perfect. We have nothing but words of praise for Dr. Powell, the humane, able and efficient superintendent and his able corps of assistants. The patients receive every attention.

We strongly recommend that immediate steps be taken to bring about an immediate change in the business methods of this Institution. The interests of the tax payers demand that the financial officer of this Institution shall be an experienced and thorough book-keeper and shall receive a salary commensurate with the value of his services to the State.

It is necessary that there should be at once inaugurated a complete and thorough system of modern double entry bookkeeping in the financial department; that these books should show a complete record of all the financial transactions of the Institution. The present Steward, who is the financial officer of the Institution, very frankly confesses to the Committee that he knows nothing of bookkeeping. We have no reason to make any criticism upon his personal character or honesty, but it is necessarily impossible for him, under the methods used by him to keep track of his business.

The Board of Trustees met with us and we urged these changes upon them in November last, and we regret to have to report that that Board shows no disposition to act
upon any of the recommendations made upon the part of this Committee. It is so important, in our opinion, that these changes should be speedily made, that if they cannot be made with the consent of the Board of Trustees, we think they should be made and men appointed to these positions who would make them.

We recommend that at the present session of the Legislature a law be passed directing and requiring the Governor to carry these changes and reforms into effect, and that he be given authority to fill the office of Steward of this Institution.

We further find that the laws in regard to the government of this Institution, as well as the other institutions of the State, are in very great confusion. Prior to the Act of 1877, only persons who were paupers were received into the Institution free. By the Act of the Legislature passed in 1877, this Institution was made free to all citizens of this State, and all previous laws dividing them into classes of pay and pauper patients were repealed. The codifiers who codified the Code of 1895 have placed all these repealed laws again in the Code, and one section of the Code of Georgia now declares that this Institution is free to all the citizens of this State, and another section makes it the duty of the Trustees to divide the patients into pay and pauper patients, and require all persons whose families or estates are able to support them to pay their expenses in the Institution. This is the law as we find it in the Code. Of course it is impossible of execution. The same conflict runs throughout the laws in reference to this Institution, and we recommend that a general Act be passed at once for the government of the State Sanitarium.

We think especially that the law providing for what classes of patients may be admitted needs immediate revision. The present law, in our opinion, is entirely too broad. We find that it is the dumping-ground for the poor houses
of nearly every county in the State. Many patients are there who really should not be there. They should either be returned to the care of their families, or where they are paupers they should be returned to be provided for by the proper counties. The care of paupers in the State Sanitarium is necessarily too expensive, and in the very nature of things they can be more economically provided for by the counties whose duty it is to furnish them a support. The officers in this Institution are in no wise responsible for this condition of affairs, as the law allows them no discretion whatever, but compels them to receive every patient sent here, whether a proper subject for the asylum or not.

Our investigation disclosed the fact that in nearly every instance the patient was committed as a lunatic. There are numbers of patients who are congenital idiots, epileptics and inebriates, but who have been committed to this Institution as lunatics. The committing courts seem to exercise no care or discretion in the commitment of patients to this Institution. We found that in one county in Georgia applications had been made for fifteen patients on one day who were inmates of a poor house, but who had been regularly committed by the jurors of that county as lunatics. We believe that the passage of a law prohibiting idiots, epileptics and inebriates from being received as patients at the Sanitarium would very largely reduce the expenses and the number of patients.

We further recommend that no additional money be spent in the erection of new buildings at this place. We think it is now large enough; in fact too large.

We find and recommend that there should be some means provided at once for reweighing coal and other heavy supplies received by the car load. About ten thousand tons of coal are purchased here annually and the authorities have no way of ascertaining its correct weight but have to accept the weights of the railroads and the mines. This must
be a source of great loss. In our opinion provision should be made at once for placing track scales at this Institution in order to weigh the cars.

We do not find that certain cotton received from rent of land belonging to the State and paid to the Trustees of the Sanitarium is sufficiently accounted for.

The Steward says that where money is collected or the cotton sold it is converted by him into his “Petty Cash” fund, and that some of the cotton has been used for making mattresses, but no accounts of these rents are kept, and so far as we were able to ascertain the rents are unaccounted for. We don’t say that they were not used in this way but this trouble would not have existed if these rents and the proceeds of the cotton had been paid directly into the State Treasury.

The system of vouchers was unsatisfactory. A bill is approved by a Committee of the Board and the Steward draws his check or warrant on the Treasurer of the Institution. The bill instead of being receipted by the party to whom the money is paid, is receipted by the Treasurer and returned to the Steward. This is also true as to the vouchers drawn by the Steward on the Treasurer on account of the Petty Cash fund.

The Trustees have created the office of Dentist. The salary of this officer is $1,200 a year and he is allowed in addition his fuel, lights, and water, and is furnished free of cost a six room house, and is allowed to purchase supplies from the store house of the Sanitarium at five per cent. advance on the original cost.

We cannot find that there was any necessity for creating this office, and we are compelled to report that the salary and allowances made him are altogether out of proportion to the services he renders. There are competent dentists in Milledgeville and a contract could be made by which this
service could be rendered where it was necessary at much less expense.

We think the salary of the apothecary is entirely out of proportion to the services rendered by that officer, and we further have to criticize the methods of keeping accounts in this office.

We find that in several instances a portion of the amount appropriated for support has been diverted to permanent improvements.

We also find that in almost every case of special appropriations all the appropriation was not consumed for the purpose for which it was appropriated, but a portion of it was diverted to other purposes by the Board of Trustees after having received the appropriation.

In 1900 the Legislature appropriated $150,000 for the erection of an additional building. We find that the contract price for this building was $140,500 and that the remainder of this fund was spent in grading and building a road and for other purposes not authorized by the appropriation. We also find that the Trustees exceeded their authority in the erection of this building; that at the time the appropriation was made certain plans was submitted to the General Assembly that called for the erection of a building for negroes. That after the appropriation was made the Trustees changed the plans that were submitted to the Legislature and erected a more costly building and one now used for the care of white patients, and that this building is not now finished and an additional appropriation of $15,000, at least, will be required to complete it.
ACADEMY FOR THE BLIND.

The Committee met at the Academy for the Blind on the 28th day of December and spent two days in the investigation of this Institution. We went thoroughly over all the affairs of this Institution and generally found them in a satisfactory condition, finding but few irregularities and but little to call attention to.

The Committee is impressed by the fact that great economy is used at this Institution.

We examined under oath all of the officers of the Institution except Mr. B. C. Smith, the President of the Board of Trustees. The Committee made several efforts to get Mr. Smith before the Committee, but each time he excused himself on the ground of the press of his private business. We will remark here that this is the only instance in which any officer of any institution in the State fail to come before the Committee at its request. We had no power to compel the attendance of witnesses, even those who are officers of the State. The Committee would have been glad to have accommodated itself to Mr. Smith’s convenience at any time, but he made no suggestion as to when he could meet with it.

There is no system of bookkeeping obtaining here. The Treasurer keeps a single entry set of books, which of course amounts to nothing more than a memorandum and the only thing that we could do was to check his entries with his vouchers.

The Principal of the School, who is elected by the Board of Trustees, is the purchasing agent. He purchases all the supplies of every character by private contract. The bills for the purchase of supplies are submitted to him at the end of the month, and he submit them to the Trustees, and they also approve them, and a check for the gross amount is made by the Treasurer in favor of the principal, who pays
the bills and takes receipts as her vouchers. This method of purchases should be changed. If the amounts purchased are not large enough to authorize contracts being made for the supplies, the bills when approved by the Principal should be paid directly by the Board of Trustees, and we do not think that the money for the payment of them ought to pass through the hands of the Principal. There is no check here at all.

The special appropriation of $4,000 made by the General Assembly for the specific purpose of repairing the roof and iron fence, and putting in a system of sanitary sewers, was not all expended for this purpose. A balance of $314.17 was left of this special appropriation after making the improvements authorized by the Act. This money has been kept on deposit in the First National Bank of Macon, and was there at the time of our examination. It should have been returned to the Treasurer as we do not think the Trustees were authorized to retain any balance of any special appropriation made for a specific purpose.

The bank in which this deposit was made recently failed, and it is highly probable that this money will be lost, or at least a portion of it. We think that the Trustees under the law are individually liable; but in view of the fact that they have followed the unbroken custom obtaining in all other institutions and departments in the State, and in view of the further fact that they render this service to the State without compensation, we respectfully suggest that by a resolution of the General Assembly they be relieved from all responsibility on account of this loss.

We also have to report that we find $273.29 of this special appropriation was diverted by the Trustees to the maintenance of the Institution. This was done without authority; the appropriation being made for a special purpose the Trustees had no authority to divert it to any other.

For several years the annual sum appropriated by the
General Assembly for the support of the Institution was not consumed, but a balance remained at the end of each of these years, which was retained by the Trustees. The increased cost for the last three or four years of maintenance of the Institution over and above the amount appropriated by law has been supplied by the Trustees from the fund thus appropriated. The Trustees in this case followed the universal practice of all institutions with appropriations. The idea seems to prevail among all of them that the money appropriated by the Legislature becomes permanently the property of the Institution to which it was appropriated. The Trustees had no authority to appropriate or use this money to increase the funds set aside by the Legislature for the support of the Institution. Under the law it is the duty of the Legislature each year to provide funds for the support of these institutions, and any unexpended balance should have been returned to the State Treasury. The Trustees had no authority to carry forward these funds from year to year and to increase the appropriation made by the Legislature. The Legislature alone determines the amount each year necessary for the support of the Institutions, and the Trustees had no authority to increase this amount.

This Board has now in its possession a special fund, the Principal of which amounts to Seven Thousand Dollars. This has grown out of a sum of six hundred and fifty dollars that was contributed by the members of the Legislature of 1854 for the benefit of the children of the Blind Academy, and it has been managed and preserved all these years by the Trustees, until it has grown to its present sum.
The fund is now invested as follows:

The status of this fund is very difficult to determine and there should be some legislation in reference to it.

The Treasurer, since this examination was made has called the attention of the Committee to the fact that at the time of the failure of the First National Bank, of Macon, he as Treasurer had on deposit in that bank $3,178.83, of the funds appropriated for the support of this Institution for the year 1904.

The officers of this Institution, as the other State institutions, are required either by law or by the practice obtaining in the Treasury Department, to draw in advance from the State Treasurer one-fourth of the amount appropriated for the annual support. It is of course necessary when this amount is drawn from the Treasury that it should be deposited in some bank.

In this case we find that this bank was not selected as a depository of this fund by the present treasurer or the present Board of Trustees, but for thirty years or more the funds appropriated for the support of this Institution have been kept in this bank, and the present Treasurer on coming into possession of the funds of the Institution found them deposited in this bank and he made no change. He really had no agency in the selection of this particular bank for the deposit of this fund. We are informed that at the time he kept no account himself with the said bank, but did keep an account with another bank in the City of Macon, and did not change the account to the bank in
which he kept his private account. While under the law the Board of Trustees and the Treasurer are probably responsible to the State for a full accounting for this money, we think that there is no moral obligation resting upon them to make it good; nor do we think under the circumstances that the State should require at their hands that this fund should be replaced, and we therefore recommend that a resolution be passed for the relief of the Treasurer and the Board of Trustees. No benefit whatever has come to them from the use of this fund in any way, no interest being paid to them for it, and not a dollar of it has ever been used by the Treasurer or any member of this Board except for the purposes for which it was appropriated.

We also investigated the advisability of a change in the location of this school as there is a bill now pending for that purpose, and we submit in connection with this report the evidence of the officers of the Institution in reference to this matter.
GEORGIA SCHOOL FOR THE DEAF

Your Committee met at this Institution on the 17th day of February, 1904, and spent two days in its investigation. We examined all the officers connected with this Institution and submit in connection with this report the testimony taken there.

We find little here to criticize. We think the variation in the amount of coal used from year to year too great. We find that the coal purchased is delivered at the railroad station and then it is paid for by the weights of the railroads at the mines. We think it is likely that there is great loss on account of the manner in which the coal is purchased. We suggest that there should be some means provided for weighing the coal which would prevent any fraud being perpetrated upon the State.

We find that the purchases of this Institution are made under competitive bids from the lowest bidder, and an examination of the bids on the part of your Committee demonstrated the fact that great caution was used on the part of the Trustees in making the purchases for its support.

It appears from the figures submitted to us that in the years 1899-1900 there was consumed by this Institution 256 tons of coal; in 1900-1901, 467 tons; in 1901-1902, 494 tons; in 1902-1803, 348 tons; in 1903-1904, 376 tons; and the Superintendent testified that this last amount would not be sufficient to carry him through the year. Your Committee made a diligent inquiry in order to ascertain the reason for this difference in the amount of coal used, but no one connected with the Institution could throw any light upon it. It seems to us that there must have been a considerable loss in this one item alone.

We find that the Treasurer of the Institution has been in the habit of depositing considerable sums of money in the hands of an agent at Cave Springs to be used for the
benefit of the Institution. This was without authority.
No account is kept of this money by the agent other than
a memorandum of the checks paid by him. This practice
should be discontinued. The Treasurer alone should be
the custodian of the funds and pay out the same.

There is not a sufficient check kept on the supplies pur-
chased for the Institution after they are delivered to the
Institution. No storekeepers' account is kept of the sup-
plies, and no inventory is made and submitted to the Board
of Trustees at the end of each month or quarter, of the
supplies on hand.

The building for the negroes is kept separate and it is in
charge of a negro principal, who is under the general su-
pervision of the Principle of the School. All the supplies
consumed by the negroes is delivered to this principal and
no accounting for them is required of him. The same
supplies are furnished to the negroes as to the whites. It
is impossible to tell whether or not all the supplies are con-
sumed, or what amount of them may be stolen after they
are delivered at the Institution by servants and those hav-
ing access to them. We think that greater care should be
used in looking after this department of the Institution.

The Trustees last year purchased for the benefit of the
Institution twenty-five acres of land. This purchase was
made partly from money appropriated for the support of
the Institution, and partly from the sale of or a royalty on
iron ore mined on the property of the State. The Trus-
tees had no authority to make this purchase or to invest
the money in their hands this way.

A considerable source of income is derived by the Trus-
tees from the sale of articles made by the students. The
Trustees receive this money and appropriate it generally
for the benefit of the Institution in their own discretion.
We find and report that it is the duty of the Trustees to
pay this money into the State Treasury, and that the reten-
tion of it and the investment of it by them is illegal.
None of the money that is appropriated for support by the Legislature that is unexpended is ever returned by the Trustees to the Treasury but is applied generally to a permanent fund for the benefit of the Institution. In this, however, they follow the unbroken precedent heretofore referred to.

We were unable to get any exact account from the Trustees as to the amount received by them from the royalty on the iron ore mined on the lands of the State. We find that they had no authority to make a contract for the sale of this ore or to receive the money and appropriate it to the use of the Institution. The land is the property of the State and not of the Board of Trustees. We recommend that the Governor take steps to prevent the further sale of this ore on the part of the Trustees. We suggest that the State Geologist be required to make an examination of this property and report to the Governor the extent of this mine and its probable value.

We find here, as elsewhere, that the whole fund appropriated for the support of this Institution is drawn quarterly in advance from the State Treasury, regardless of the needs of the Institution. This seems to be required either by law or the custom of carrying out the appropriations made by the Legislature.

There was here an inventory made and kept of the States property, partially as required by law. It is not recorded in a book or sworn to or made at the time the statute requires.

The Trustees have failed to comply with the law as contained in Section 1324 of the Code requiring the contracts of the Board of Trustees to be valid to be recorded by the Secretary in a book kept for that purpose, and signed by the President and countersigned by the Secretary.

We recommend that in future no part of the annual appropriation shall be used for the purchase of clothing for
the children, but that the parents be required to furnish clothing, and in cases where they are sent by the counties as paupers, that the counties be required to bear this expense. We recommend that the law requiring the clothing of children upon the certificate of the ordinary that the parents are unable to furnish clothing be repealed.

The buildings set apart at this Institution for the care, support and education of the negroes is a disgrace to the State. A sufficient amount should be at once appropriated to renovate, repair and properly equip these buildings, and provide means for the education of this class, or the department for the negroes should be abolished. The money now appropriated and paid out for their support and education at this Institution is simply wasted. The pupils in this department are not taught anything that would be of any value to them, and it is of no benefit to them to be simply taught to read and write and then to be turned out in the world with no means of earning a living. Means should be provided at once to have them taught some trade, because the education they now get is not only of no benefit to them, but only serves to make them unhappy.

We find that no adequate means are now provided for heating or lighting the buildings now used by the negroes. The school generates its own electricity, and at a little expense the lights could be supplied to the negro building. The school also has a steam heating plant and the pipes from this plant ought to be carried into that building. There is great danger from the present arrangement of heating and lighting the building.
SOLDIER'S HOME.

We find all the money appropriated for the support of this Institution properly and legally used. No inventory of the property is made and kept as required by law.

We think that an appropriation is very much desired to extend the water pipe from its present terminus to the Home.

Your Committee take great pleasure in being able to report that they find here absolutely nothing to criticize in the management of the Home and everything to commend.
FRIDAY, JULY 1, 1904.

UNIVERSITY OF GEORGIA.

The Committee met at the University of Georgia on the 16th day of February and spent one day in the examination of the affairs of that Institution.

We found all the funds with which the officers were chargeable to be properly accounted for. The funds of the University were well invested in securities of different kinds, except $90,000 held in the State Treasury and upon which the State pays to the University the annual interest of seven per cent. a year. The other funds of the University are invested in bonds of the State or of corporations within the State. They were all produced to us by the Treasurer and counted by the Committee. These bonds are kept by the Treasurer in a safety deposit vault in Athens. We think a sound public policy would demand that as these are the securities of the State of Georgia they should be deposited in the Treasury of the State.

The funds of the University are also kept in the Banks in Athens. Your Committee will make a general recommendation in this report in reference to these appropriations to all the Institutions.

We do not know by what law the $90,000 is carried in the Treasury to the credit of the Institution and seven per cent. paid. The State has used this money and it is really now in the shape of a debt due by the State to the University of Georgia. How this debt was contracted we have not been able to ascertain, but it has been recognized by the Legislature for many years as a debt on which seven per cent. interest is paid. This Interest is paid by the Treasurer of the State under the authority of the annual appropriation act. The money to pay the interest is appropriated in the appropriation bills, but it is not appropriated to pay the interest on the General debt of the State under the authority of the General Appropriation Act, but it is a special appropriation to pay the interest on this fund.
The Treasurer has in his possession and deposited in one of the Banks in Athens $23,000 collected from the Insurance companies on the policies of insurance on the building recently burned and known as Science Hall. The Trustees immediately appropriated this money for the purpose of replacing the building burned and at the time of our examination contracts had already been made by the Trustees for the construction of the building. Our opinion is that this money should have been paid into the State Treasury, and that the Trustees only had the power to collect it, and that under the law as soon as collected it should have been paid into the State Treasury, and that the Trustees were without authority to appropriate it for any purpose, but that it could only have been appropriated by an Act of the General Assembly.

The Trustees have just completed a new building, an addition to the Library Building. This has been without any special appropriation but was built out of the income of the University from its permanent investment. This building will add a great deal to the capacity of the school.

We find that the building known as the Old College is in what we consider a dangerous condition. We understand that since our visit this building has been condemned by the Board of Trustees. We strongly recommend that the necessary fund be appropriated at once for the purpose of the construction of a new building in the place of this one, and that this building should be immediately torn down.

There are many improvements and repairs on the buildings and grounds which are needed. The Chancellor informs your committee that with the present annual appropriation for the support of the University the improvements can be made from the other sources of income. We are of the opinion that these improvements are necessary and should be made.

We think that as the branch colleges are really branches
and parts and parcels of the State University, that they should be brought in closer touch and more directly under the control of the Board of Trustees of the University of Georgia. The present financial plan is that all the money appropriated by the Legislature for the support of the University and all the branch colleges is paid directly into the Treasury of the University, and the Treasurer pays over to each branch college in bulk the amount to which it is entitled and this ends his connection with the matter. None of the branch colleges account to the Board of Trustees or to the Treasurer for the disbursement of these appropriations. Each of the branch colleges has a local treasurer and this officer disburses the funds of the Institutions. We see no necessity for this. We think that the Treasurer of the University ought to be paid a salary sufficient to authorize the employment of a man in this office who would be the disbursing officer of all the branch colleges, and that the fund should not be separated and divided among them. We are of the opinion that this officer ought to be made a State officer, and that he should be appointed by the Governor by and with the advice of the Senate. Where necessary the local boards of trustees might be authorized to employ at a small salary a bookkeeper for the purpose of keeping books of accounts contracted and all money paid out of the appropriations for the support of the branch colleges and of the University. We recommend the enactment of laws to carry these suggestions into effect.

We find no inventory of the property here kept as required by law. We did not find any proper payroll at the University or any of the branch colleges except at the School of Technology, the North Georgia Agricultural College at Dahlonega, and at the Georgia State Industrial College for the Education of Colored Youth at Savannah. All of the salaries are paid by checks and the only evidence of the payment of the salaries is the endorsement on the checks.
STATE NORMAL SCHOOL.

At the Normal School we find a very good system of bookkeeping and accounting and they use a system of vouchers, which, while not perfect, is a very great improvement over those used in nearly all of the other institutions. We find that the appropriations are properly accounted for and the money used for the purposes for which it was appropriated. The management of the school is efficient and the work accomplished satisfactory.

We commend this school to the favorable consideration of the General Assembly and we think that it is doing a great work in behalf of the teachers of the State.
THE GEORGIA NORMAL AND INDUSTRIAL COLLEGE.

From the books of this Institution we could not ascertain anything as to its financial transactions. The Treasurer of this school had proper vouchers for all the money that had passed through his hands, but the system of bookkeeping was so defective that it was impossible to tell anything about the finances of the School from its books.

We earnestly recommend that the Board of Trustees of this School at once employ a competent bookkeeper. The work of this School also seems satisfactory, and your Committee thinks that it is in the hands of an able and earnest corps of teachers, and that the money appropriated for its support is properly used and well spent.

The buildings here seem to be generally in fair condition.

We found here no inventory and no attempt to comply with the law upon this subject.
THE NORTH GEORGIA AGRICULTURAL COLLEGE.

We visited this School at Dahlonega. So far as we could ascertain all the moneys that have been appropriated here have been properly accounted for. The present Treasurer has opened a set of books in which the accounts of the School are kept, and it is an easy matter to find out from his books the exact condition of the school's finances. He had on hand all the necessary vouchers for the amounts expended by him. This system of bookkeeping only goes back a few years, as the former Treasurer kept no separate books for the school, but the accounts of the school were carried in his private books.

The appropriation for the girls dormitory was all accounted for. Some small portions of this had been diverted by the Board of Trustees for other improvements which were not authorized by the Act, but this was done on the idea that the money if not needed for the construction of the building provided for in the special appropriation bill belonged to the school. The misappropriation of this fund only amounted to a few hundred dollars and was used by the Trustees in making improvements upon the property of the school. It was all accounted for but was illegally diverted to purposes other than that for which it was appropriated.

The money appropriated for the girl's dormitory did not seem to have been demanded for this purpose. It is a large building; three stories in height, perfectly equipped with dining room and kitchen, tables and furniture, and although the school was in session at the time of the visit of your Committee, we found only two occupants of the building. We are informed that since its completion a year ago they have only had five students in the building. We hope that the Trustees will find some better use to put this building to.
We find that this school is accomplishing a great work for the section in which it is located. Perhaps no money appropriated by the State of Georgia for educational purposes has ever been as well spent as has been the money appropriated for the support of this school. There has been a great progress and development in this section of the State, and nearly all of it can be traced to the influences of this school, and the school will always remain as a monument to the founder, the Honorable W P. Price.
THE TECHNOLOGICAL SCHOOL.

We found a strict compliance with the law in reference to all appropriations made for the support of this school, and your Committee was much interested in the work being done here. We are satisfied if the school continues to be developed along the present lines, it must in the near future prove to be of great value not only to the State, but to the entire South.

Your Committee was especially impressed with the equipment of the textile department of the school and with the character of the work turned out by the students in this Department.

We think it is to the interest of the State that the development of this school should be an especial care on the part of the Legislature. The money appropriated we believe is well spent and the school is of great advantage to the State.
THE GEORGIA STATE INDUSTRIAL COLLEGE
FOR COLORED YOUTH.

We also visited this school at Savannah. We found the financial system of the school well nigh perfect. All the money is accounted for and none can be disbursed except upon the proper authority. There is in use here a system of vouchers that is a complete check on every cent of money spent. These vouchers all show on what account they are drawn. They are accompanied by the proper bills and have to be approved by the officers of the Board of Trustees or Board of Control before they are authorized to be paid. The system of bookkeeping is a perfect one. We found in this Institution the only perfect system of dealing with public funds on the part of the officers of the Institution, and we respectfully recommend that each Institution in the State handling public money should adopt the system now in vogue in this school. No money can be diverted and none can be lost without immediate detection. The books and papers of the Institute show to a cent at any time its financial condition, and if the same system was in use at all of the State Institutions we believe that there would be a great saving to the State.

The system of the bookkeeping and the financial management of the Institution are entirely under the control of Honorable P. W. Meldrim, President of the Board of Control, and Col. Jordan F. Brooks, the Secretary and Treasurer of the Board. Mr. Meldrim gives to the Institution his close personal attention, and its success can largely be attributed to that fact.

We believe that the work being done in this Institution in the education of the negro is on the right line. We were much gratified by our visit to the school. The State here has come into the possession of large and beautiful grounds, valuable and commodious buildings, and a school
well equipped for its purposes, without the cost of one dollar to the tax payers of the State. Many of the buildings have been erected by the students themselves, the material being purchased by the Trustees by wise and economical management out of the funds appropriated for the support of the school.

There is now on the grounds a large three story building used for the purpose of dormitories for the students that has been erected entirely by these negroes. This building, however, is not completed for the want of sufficient funds to purchase the material.

The education received by the negroes at this place we regard as highly beneficial to them. They are all taught some trade. The average number in attendance is about five hundred. Of this number we find that only thirty-two are being taught anything beyond the ordinary rudiments of an English education except the sciences of Chemistry and natural philosophy. We find thirty-two of them pursuing a course in Latin. No other languages except English and Latin are taught in the school. The students are taught to do sewing, dressmaking, cooking, washing, tailoring, bricklaying, blacksmithing, carpentering, harness making, shoemaking, and painting, and we believe from what we saw that they are being well taught.

This Institution receives no appropriation whatever from the State. The appropriation that is made annually by the State is really the money received from the landscript fund of the United States, and which the State receives with a distinct understanding that a portion of it shall be devoted to the education of the negro. Your Committee desires to state that this Institution is entitled to some recognition at the hands of the State; in view of the fact, especially, that there is now in the State Treasury $24,000 that under the contract of the State with the United States government is due by the State on account of this landscript fund,
and at least this money should be appropriated from time to time for the benefit of this Institution. We do not recommend that it all be paid in one year, but the State should make appropriations for the development of this school from time to time until at least this $24,000 has been appropriated.

We think that this school is a solution of the question of negro education. It is entirely under the control of the State, and directly under the supervision of the Chancellor of the University of Georgia, and the Board of Control are all white men of great prominence in the State. The teachers in the school are Southern negroes, and the idea developed in the education of the negro at this school is that the negro is and must remain a menial in the South. He receives no false education here. He goes out with no false ideas as to what education means to him, but from the beginning to the end of his course in this school he is taught that he is being educated to work, and that by work he must earn his bread. The Principal of this school impressed your Committee as being a man thoroughly in earnest, and one who appreciates the condition of his race in the South and the character of education that is needful for them.

It is absolutely necessary that the white people of this State should control the education of the negro. The teachers employed in the public schools for negroes, should be teachers educated in Institutions like this one, trained by the State with a view of giving the negro the amount and character of education that has been determined by the white people of the State. The great difficulty which your Committee desires to impress upon the Legislature in the proper solution of this question is on account of the character of the education now received by the negroes. This is because the teachers who are employed by the State are generally trained in schools which are not under the con-
trol of the State and who have an idea of education which is mischievous in the extreme. If the white people of the State do not educate the negroes themselves, people who have no idea of what is the proper education, will do so, and they will develop him on lines which render him dangerous as a citizen.
We find in the Prison Commission that the Commission pays the secretary or clerk of that body $1,560 a year. Section 5 of the Act of December 1, 1897, creating the Prison Commission provides for a clerk of that body whose duties shall be determined by the Board and whose compensation shall not exceed $1,200 a year. The sum of $1,200 is appropriated in the General Appropriation Act for the Clerk of the Prison Commission. The Commission claim that they pay him this amount as clerk and the additional amount of $360 a year as bookkeeper for the Commission. The only authority that the Commission could give for this extra payment, was the opinion of the Attorney-General at the time they made the appointment. We do not know upon what this opinion of the Attorney-General was based as it was not furnished to us. The extra thirty dollars a month is paid out of the appropriation made by the Legislature for the support of this department. The payment of this extra sum out of the appropriation made for the support of the department we think in violation of Section 8 of the Appropriation Act of 1902, and this payment is expressly forbidden in that section of the law. Your Committee are therefore compelled to find and report that the payment of this sum by the Commission is without authority of law, and we are of the opinion that the members of the Commission are personally liable for the amount thus expended by them, and unless the same is legalized by an Act of the Legislature they should be required to refund that sum to the Treasury.

As will be seen in other parts of this report, we find the custom of State House officers paying out money for salaries contrary to law entirely too prevalent, and we think that it is a great evil. The whole policy of the law is that the power to create offices and to fix the compensation of
the incumbents is vested alone in the Legislature, so far at
least as the officers of the executive department of the gov-
ernment is concerned. So strong is this principle that in
every appropriation Act the officers of the State are ex-
pressly prohibited from paying any money from any fund
to any person as salary or otherwise unless the same is au-
thorized by law.

We find that no books had been kept by the Prison
Commission for the first two years after the organization of
the Commission; no books of any kind were kept except
the bank-books and vouchers of accounts paid.

The books now kept in the Prison Commission show
correctly all the transactions of the office passing directly
through the office of the Prison Commission, except that
there are no vouchers there other than the checks paid.

At the time of the examination of the office of the Prison
Commission by your Committee, to wit: on the 17th day
of May, the Commission had deposited to its credit in
three banks in the city of Milledgeville, $18,002. This
money was deposited to the credit of the Commission, and
we were informed by the Chairman of the Commission that
it arose from the sale of cotton raised upon the prison farm.
No money arising from the sale of any products of the
farm were ever paid into the State Treasury, and no ac-
counting was had with any department of the State gov-
ernment by the Commission for money thus received by it.
The Commission claimed the right to appropriate the
money arising from the State farm to the support of the
department. We can not agree with the Commission in its
contention that it is entitled to retain in its control this
large amount of money, the property of the State. The
Act creating the Commission provides that the Commission
shall sell to the best advantage all surplus of the peniten-
tiary, and shall apply the proceeds thereof to the institu-
tion as may be necessary, but also provides that the sur-
plus of this fund shall be paid into the State Treasury annually. In view of the fact that the Legislature each year makes an appropriation of an amount in its judgment sufficient for the support of this department of the State government, we are of the opinion that this amount received, especially from the sale of cotton raised on the farm, is a surplus fund and is required by law to be paid into the State Treasury.

We recommend the immediate adoption of a resolution directing the Governor to have the Commission account to him for said fund and to require the same to be paid at once into the State Treasury.

This large amount of money is now kept on deposit in three small banks in the town of Milledgeville, and the State has no security for it as far as we know. As will be seen further on in this report it is subject to the check of the superintendent of the State farm at his pleasure.

In addition to the amounts so deposited in banks, there was at the time mentioned of the annual appropriation made for the support of the Prison Commission the sum of $1,620 deposited in the Lowry National Bank of the city of Atlanta. The Chairman of the Commission stated that he was compelled to draw this money from the State Treasury monthly in advance and deposit it to the credit of the Commission. We know of no law authorizing the Commission to take the money from the Treasury and deposit it in banks and there keep it on deposit. We think the law intends that the Commission shall make to the Governor a quarterly report of all of his receipts and expenditures, and that the Governor shall draw his warrant to cover these expenditures, and that the money shall at once be paid out by the Commission in the settlement of the debts contracted by it. Judge Turner, the Chairman of the Commission stated that the Commission objected to drawing the money this way and depositing it in the banks.
We did not find in the office of the Prison Commission any inventory of the property belonging to the State. Our examination discloses the fact that the Prison Commission have very little knowledge of the business transacted on the prison farm. It will be seen from an examination of the testimony of Mr. K. R. Foster, former superintendent of the prison farm, that five bales of cotton of the crop of 1902 were stolen, but he does not know by whom, but he gives it as his opinion that it was stolen by an ex-convict named Certes, who had served a term in the penitentiary for the crime of forgery, and who, after his term expired, had been employed by the Commission and placed in charge of this and other property of the State.

Judge Turner on the part of the Commission claims that he does not know that any cotton was ever lost. He says that he does not know whether it was a mistake in the count of Foster or whether it was lost. The fact is that immediately after the loss of this cotton was discovered this ex-convict left the employment of the State without notice and has never been seen or heard of since. How much more he carried off or disposed of, if anything, there is no way to find out. Under the present conditions existing on the State farm, and the entire absence of any records of what is produced on the farm, or what is disposed of, it is impossible to tell what is annually lost to the State at this place. Mr. Foster informed the Committee that while he was in charge he knew of several hundred bushels of cottonseed which were stolen.

We found that no inventory of any of the property on the farm had ever been made until Mr. Coombs, the new superintendent, who came into office in November last, took charge. This inventory was not made under the direction or by the orders of the Commission, but was made by Coombs himself for his own protection, and was his private paper, and it was not made in accordance with the law, nor
because it was required by law. This inventory was not
the inventory that the law requires to be made.

There was no attempt on the part of the Commission
when the change was made in the superintendent of the
farm to have the law complied with as to an accounting on
the part of the former superintendent for the properties of
the State which had been in his possession. No member
of the Commission, nor any one representing that body, was
present at the time the change was made to see that a prop­
er accounting was had with the former superintendent.
Coombs was elected by the Commission superintendent in­
stead of Foster and was simply directed by the Commission
to go to the farm and receive the property from Foster.
Foster delivered to Coombs no inventory, did not show him
what was on the farm or with what he was chargeable, but
simply stepped out of the position and Coombs came in
as his successor. After Coombs came into the office of
superintendent he made the inventory above referred to
for his own protection.

Your Committee are unable to understand the absolute
failure of the Commission in this important particular to
observe a plain requirement of the law.

In the original construction of the buildings at the State
farm a large amount of money was expended by Foster,
the superintendent, and we find no proper accounting for
this money on his part. We do not say, nor have we any
evidence, but what it was honestly spent, but we have no
evidence whatever that it was properly spent in accordance
with the law. Foster contracted the bills, Foster approved
the bills and they were paid by the Commission without
any examination on their part according to Foster.

Coombs, the new superintendent, testified before the Com­
mittee that when he desired money for any purpose he drew
on the bank at Milledgeville; that when he came there
Capt. Foster informed him that there was certain money
there to be drawn on to pay his bills; that he never put it in the bank and he did not know how it got there; that all he knew about it was that Capt. Foster told him that the money was there and he could draw on it as superintendent; and that Foster was to manage it so that Coombs could draw it out. Coombs did not know how the money got there, or by whose direction or whose authority his checks were paid by the bank. There appears to be no limitation of the power of the superintendent to check on this fund.

We think that the superintendent should be required to make a requisition by a proper voucher directly upon the office of the Prison Commission for the money needed by him, and that he should not have authority to check at will upon the funds of the State deposited in the bank. The cash needed by him should be supplied to him directly by the Commission.

The superintendent also informed your Committee that he was required to furnish a certain amount of tobacco and supplies to the wardens of the two different departments for the use of the convicts; that by the rule of the Commission he was required to furnish for each convict five pounds of meat a week and tobacco to each convict, and that in case the convicts did not use tobacco they were permitted to draw it and sell it. The supplies of both provisions and clothing were issued in bulk on the requisition of the warden, and there was no accounting on their part for it to any one.

Your Committee is of the opinion that in this matter of issuing supplies for the convicts the State is entirely at the mercy of the wardens. Five pounds of bacon a week in addition to a ration of fresh beef for each convict, sick or well, strikes your Committee as not only being liberal but extravagant. It appears from the rations thus issued as much as five hundred pounds of bacon has accumulated in
hands of the warden at one time. The superintendent has no control whatever over either of the wardens, the wardens having absolute charge of the convicts.

We are of the opinion that this should be changed; that the superintendent should be the officer of supreme authority and directly responsible to the Commission for the proper management of the farm and the convicts.

We further recommend that provision be made at once for the employment of a competent bookkeeper at the prison farm, and we recommend that a complete inventory of all the State’s property there should be made at once as required by law.

We think that the Commission, or some member of it, should be required at least quarterly to visit the State farm and make a complete and thorough inspection of it in all of its departments.
EXECUTIVE DEPARTMENT.

The records in this department at present are well kept. We found that the law as to keeping a book for the record of bonds had not been previously complied with, but a record of these bonds were kept on the executive minutes. This has now been changed and a book prepared for the record of these bonds.

We found all the bonds required by law to be deposited in this office are in proper shape and all accounted for.

The book of commissions, showing when commissions are issued to all officers, we found kept as required by law.

We found no book as required in sub-section 2, section 141 of the Code, in which is entered a full account of all annual appropriations. There is a warrant book which shows each warrant drawn, for what account, in whose favor, and on what appropriation, but this book is not a compliance with this law.

There is no book kept in reference to the public debt as required by subdivision of section 141, but we find a book similar to this kept in the office of the Secretary of State. We could not find any law requiring this book to be kept there.

Section 141, subdivision 4, requires a book in which shall be kept copies of all bonds of agents disbursing public funds. No such book as this seems to be kept. The bonds above referred to and the record of them are the bonds of certain officers of the State which are required by the law creating the office to be filed with the Governor. In each instance we found that law had been complied with, but the section now referred to seems never to have been complied with in the executive office.

We find properly deposited in this office the bonds of all of the State depositories. We recommend that all of these bonds be required by law to be recorded in a bond book,
and that a copy of the bond taken from said book shall be admissible in evidence whenever the original is shown to have been lost or misplaced in any suit brought on the bond.

We find with but few exceptions that all the bonds of the State depositories are personal bonds, and we believe that the securities on the bonds are generally the officers and directors of the banks.

Subdivision 7 of the above-recited act requires to be kept in the executive office a book or books containing a list of the respective number and districts of the several lots of land disposed of by the several land lotteries. We do not understand how this law comes into the Code, as we can not find that any such record has ever been kept in the executive office for a number of years. We find that these records are kept in the office of the Secretary of State.

Your Committee desires to commend especially the efficiency of the present clerks in the executive department.
SECRETARY OF STATE.

The records in this office show that the incumbent has fully accounted for all money received by him, has paid the same into the State Treasury and has the proper vouchers. Subdivision 4, section 181 of the Code, requires that this officer shall keep all bonds of agents appointed to disburse public moneys. The Secretary of State informs us that no such bonds are in his office, nor have they ever been deposited there so far as he knows. The law just above referred to requires these bonds to be recorded in the office of the Governor, and another section of the Code requires them to be deposited in the office of the Comptroller-General. No bonds of this character are deposited anywhere under these general sections of the Code. The bonds of the agents of all the educational and charitable institutions are deposited with the local boards of trustees, except that of the Treasurer of the State Sanitarium, which is required by law to be deposited in the executive office. We call attention at another place in this report to the conflict in the laws regulating the different executive officers, and to the codification of many laws in the present Code which have been repealed or are necessarily obsolete.

The Secretary of State informs us that he has never been called upon to perform any of the duties enumerated in subdivision 5 of the above-recited Act, except to furnish to the General Assembly stationery, and that no appropriation has ever been made to him for the payment of bills provided for in that section as required by the same.

We find in this office that there are thirty-four counties in the State of which there is no official map of file. The maps of many other counties are in very bad condition from constant handling, and we recommend that an appropriation be made to have these maps placed in proper shape.
We also find that many of the old records in this office are in very bad condition from age; the pages discolored, the ink fading and the backs rotten. These are manuscript records and of great value to the State. We would recommend that immediate steps be taken to have them transcribed and printed.
STATE LIBRARIAN.

This officer keeps no books, and it was impossible for this committee to take any accounting of the money that has passed through his hands. The methods pursued in this office in reference to the large amount of public money received are entirely too loose. Large amounts of money pass through the hands of the incumbent of the office and nothing more than a memorandum entry of the amount received and the amount paid into the Treasury is made. He should be required to keep a book showing exactly the moneys received by him, from what source, and on what account. He should be required to submit to the Comptroller-General a detailed statement monthly of all the moneys received by him, from what sources received, and on what account, and exhibit a receipt from the Treasurer to balance the same.

There is no inventory of any of the books or other property in charge of this officer in existence. This should be corrected at once.

We further find that many valuable books belonging to the Library are stored in the cellar of the capitol, and that these books are many of them in bad condition and being rapidly destroyed. Adequate provision should be made at once for removing these books and placing them upon shelves in the State Library. When this is done the State will save a great loss from the destruction of many valuable books.
ADJUTANT-GENERAL.

It appears from an examination of the records of this office that there has been received from the United States Government the sum of $3,366.48 on account of the transportation and subsistence and payment of officers and enlisted men of the State troops while in the encampment last summer. This amount was deposited in bank to the credit of the Adjutant-General. This your committee finds is contrary to law and without authority. The law expressly requires that this money should be deposited in the State Treasury, and the Adjutant-General's office has not the power or authority to disburse this fund. We recommend that the Governor be required to see that this money is paid into the Treasury as required by law.
STATE SCHOOL COMMISSIONER.

We find the records of this office well kept and this officer has proper receipts for all money paid out or received by him.

We find that there is paid out of the school fund by the School Commissioner fifty dollars a month for a stenographer, and also that the janitor of the department is paid out of this fund. There is no authority to pay the salary of any officer or employee out of the money appropriated for the common schools. These payments we therefore find to be an illegal use of the appropriation.

The School Commissioner also testified that the county school authorities used the money appropriated for the support of the schools in the erection of school buildings. This we also have to report is in our opinion an illegal use of this money.
GEOLOGICAL DEPARTMENT.

In this department we find by authority of the geological survey the State Geologist was authorized to employ a clerk and pay him a salary of fifty dollars a month. The law creating the survey expressly provides that all of the clerical force should be furnished by the Department of Agriculture, and there is no provision of law for paying the salary of this clerk out of the appropriation for the support of the department. We think that this is illegal. The same is true as to the amount paid the secretary of the survey and the amount paid one of the capitol guards. We recommend that until there is authority of law for this use of the money appropriated for this department that these payments from this fund be discontinued.
ATTORNEY-GENERAL.

The Constitution expressly provides that the salary of the Attorney-General shall be two thousand dollars. We find that all of the officers who have occupied this office since the adoption of the Constitution, including the present Attorney-General, have received from the State, in addition to this salary, fees and their expenses for services rendered the State in cases outside of the State. The construction placed upon this clause, as we are informed by the Governor, was that the Attorney-General by virtue of his office was not required to represent the State in cases tried in courts out of the State; that he was only required to render services within the territorial limits of the State, and that in matters arising out of the State requiring the services of an attorney, the Governor was authorized to employ an attorney to represent the State other than the Attorney-General if he saw fit, and that his services in this class of cases was not performed by virtue of the duties imposed upon him as Attorney-General, but under special employment by the Governor. This has been the unbroken construction placed upon this clause of the Constitution by all the chief executives of the State, as we stated above, since the adoption of the Constitution of 1877. We would suggest, however, that this is rather a matter for the Legislature to deal with than the Governor. It is possible that this may have been the intention of the Constitution, but if so, we are of the opinion that payment only could be authorized for these services by the Legislature. It might have the power to give this construction to the Constitution if it sees fit, but we doubt if there is any law in existence that authorized the Governor to pay the Attorney-General for services rendered in this way.
COMPTROLLER-GENERAL.

This office has already during the present Legislature been thoroughly examined by a committee from the Senate and House; this committee, except the chairman, who was not a member of the committee at the time the examination was made. The committee did not think it necessary to have the experts make a complete examination of the office, and we had no reports from the experts in this office, as they were suspended in their work by the order of the committee.

The office of the executive, this office and the Treasurer's office under the system now prevailing is each a check on the other. We examined the records in this office and found them all in fine condition and complete. All the records necessary to the check of the office and all those required by law are properly kept. The work in this office is very much crowded, and with the allowance made by the Constitution for the clerical force of the office it is impossible in the present condition of the office for the work to be properly done. The business of this office has grown immensely and will continue to grow as the taxable property of the State develops. The State has no more faithful and efficient officers than the present incumbent of this office and his able corps of assistants.
STATE TREASURER.

We found all the books required by law to be kept in this office properly kept except as follows: The book required by section 202 of canceled bonds. This book, we are informed by the Treasurer, so far as he knows has never been kept in this office. This section of the Code seems to be in conflict with sub-section 14 of section 199, which requires that when bonds and coupons are paid they are to be deposited in the vault of the Treasurer subject to the order of the General Assembly. The section first above referred to seems to make this record of canceled bonds a permanent one. The section last referred to only requires the deposit of the bonds and leaves them subject to the order of the General Assembly. Section 1007 of the Code requires these bonds simply to be preserved in the office of the Treasurer in the same manner and with the same care as the funds of the State. These acts are clearly in conflict and should be amended or repealed.

The Treasurer and his clerk we find to be men careful, conscientious and faithful in the discharge of their duties. All the money that has been paid into the Treasury has been properly accounted for and the books of this office balance with those in the Comptroller-General's office.

This office has also been examined by your committee at the time the Comptroller-General's office was a few months ago.
KEEPER OF PUBLIC BUILDINGS.

We could not make any very extensive examination of the office of Keeper of Public Buildings on account of the recent death of Mr. Revill, his successor having come into office only the day before your committee visited it.

We found in this office what appeared to be a complete inventory of all of the property of the State in the State House and in charge of the Keeper of Public Buildings and also in the Governor's Mansion. This inventory was made by Mr. Revill and was hardly completed at the time of his death. It had not been entered on a book or sworn to as required by law. This is the only inventory of this valuable property of the State that we could find, and we do not suppose that any other was ever made. We recommend that Mr. Revill's successor at once have this inventory entered in a book as required by law, and express the hope that in the future the Governor will see to it that the law in reference to an inventory of the property in the State House will be complied with.
COMMISSIONER OF PENSIONS.

We find the records in this office in a very unsatisfactory condition. The books required to be kept by the Pension Commissioner are correctly kept so far as your committee could ascertain, except that he had issued checks in some cases without proper authority. The pensioners had signed powers of attorney to one person authorizing him to receive the checks, and in some cases he had issued these checks to other persons without authority. This was done, however, for the convenience of the pensioner in the temporary absence of the person to whom the power was given and no loss was suffered by it. We merely call attention to this as an irregularity.

The Pension Commissioner's vouchers are piled in heaps on the tables and on the floor, and in no condition to be examined and in great danger of loss or destruction. This condition arises not from any fault on the part of the Commissioner but is owing entirely to the want of proper facilities for filing these records. We most earnestly recommend that an appropriation be made at the present session of the Legislature for the filing and preserving of these records.

This department, like the School Department, handles no money directly, but pensions are paid from the Treasury on checks from the Commissioner. No funds are drawn directly by him from the Treasury for the payment of pensions.

The Pension Commissioner is preparing a record for each county, showing the names of all the pensioners of every class. This book is to be filed with the Ordinary and by him sent to the Grand Jury for inspection and the revision of the pension lists as required by law, and we think in this way it will aid in the prevention of fraud.
COMMISSIONER OF AGRICULTURE.

We find all the moneys received and paid out by this officer properly accounted for. He had all the vouchers for money paid out by him, and proper receipts for all received by him and paid into the Treasury, and statements from the banks showing what amount was to his credit in the various banks.

We find that there is an officer connected with this department known as the Assistant Commissioner of Agriculture, who receives a salary of $1,800 a year, which is paid by the Commissioner to him out of the annual appropriation made for the support of his department. We were unable to find any law creating this office, or authorizing the payment of his salary by the Commissioner from the amount appropriated for the support of the department or from any other source. The present Commissioner stated that he found the office in existence when he took charge of the department, and that so far as his information went this officer had been employed from the time of the organization of the department. The present Commissioner pays the same salary that was received by this officer at the time he was elected, and he is paid in the same way that he was at that time. The Commissioner candidly states that he knew of no law authorizing the payment of the salary of this officer.

Section 8 of the General Appropriation Act of 1902 seems to prohibit the use of money appropriated for the support of this department for the payment of the salaries of officers or employees. The law creating the Department of Agriculture provided for only one clerk in that department, and put the salary of that clerk at $1,200 a year. In addition to this officer the Commissioner employs a record clerk at seventy-five dollars a month, a mailing clerk at sixty dollars a month, and a stenographer at fifty
dollars a month. All of these officers except the record clerk were employed in this department at the time the present Commissioner came into office. He has employed the record clerk since that time.

Your Committee are compelled to find that all of these payments are without authority of law. The work in this office certainly requires more than one clerk at this time, and we would suggest that the Act creating this department be amended so as to authorize the Commissioner to employ a sufficient clerical force, and that the salaries be fixed by law and paid out of the State Treasury out of the fees arising from the inspection of fertilizers. Until this is done we do not think that the Commissioner is authorized to employ these clerks or to pay them from the appropriation.

The Commissioner called the attention of the Committee to the fact that as the law now stands the Commissioner of Agriculture, although he handles a large sum of money, is not required to give any bond. The Commissioner stated to your Committee that he thought at one time of voluntarily making a bond and tendering it to the State, but decided that in view of the fact that it was not required by law, it might have the appearance of reflecting upon his own honesty.

We would further call your attention to the methods used in this department. The Commissioner states that the department was run by the Commissioner in office as he would run his own private business. That he was not required to make any reports to any one except to the Governor quarterly of his disbursements on account of the annual appropriation, but as to the fees arising from the inspection of fertilizers he accounted to no one.

We submit that the law should be amended so as to require the Commissioner to submit a statement monthly to the Comptroller-General of the receipts by him from every
source whatever, showing a detailed report of the amount received by him, at what time received, on what account received and from whom, and to settle his accounts monthly, paying the money into the Treasury and getting a receipt therefor; that these settlements should be made as now required by law of other officers in the State collecting money.

We further recommend that there should be some officer in the State to check the accounts of this office, as suggested by the Commissioner.

We think the law should be changed so as to give the Commissioner more power in ascertaining the sale of guano in the State. He should have power to examine the books of manufacturers and others dealing in fertilizers in this State to ascertain from these books the number of tons sold. He should also have authority to require reports in detail made to him by such manufacturers and by all manufacturers and others outside of the State shipping guano into the State to be sold. These reports should show in a general way the date of the shipment, the number of tons shipped, by what railroad shipped, to what place and to whom consigned.

We call attention to the statement of the Commissioner of Agriculture that while 600,000 tons of guano were sold in this State last year, only about twelve hundred tons were reported to him as having been sold in bulk. Under the law he has no means of keeping up with the sale of guano in bulk, and the great discrepancy in the quantity sold is strong evidence that the State is losing its tax on the guano sold in bulk.

There are seven inspectors employed the year round at $83.50 a month and thirty employed for less periods, varying from one to six months. The Commissioner states that this number is necessary for the proper conduct of the business.
There seems to be a complete system of checking the accounts of the oil inspectors in use in the department. The inspectors report the oil inspected in detail to the General Oil Inspector, and also report to the Treasurer and settle directly with the Treasurer. No money received from the inspection of oil passes through this department at all. The general oil inspector checks the accounts furnished him with those in the Treasurer's office to see that the inspectors have accounted for all the fees received by them.

We find that the office of General Oil Inspector was created by the Act of the Legislature in 1899 at a salary of $1,200 a year to be paid out of the funds arising from the inspection of oil in the Treasury. We find that he has received that salary since that time paid to him directly from the Treasury on the warrant of the Governor, but we do not find that any money has ever been appropriated by the Legislature to pay his salary, and therefore we are compelled to find that the salary has been paid without authority. We call the attention of the appropriation committee to this omission and recommend that an appropriation be made in the general appropriation bill for the payment of this officer.

The Commissioner draws in advance, generally quarterly, the money appropriated for the support of his department, and deposits this amount to his credit as Commissioner in a bank selected by him. This seems to be the practice that has obtained in this department since it was organized, but it is not authorized by law. We see no necessity for the money being drawn in advance by the Commissioner. There is no good reason why he could not draw the money out from time to time in payment of bills contracted or the other necessary expenses of his department; indeed, the Commissioner prefers to do business this way, but is required to draw it out and deposit it in banks and disburse it by his own checks.
On April 24th we found that the Commissioner was carrying on deposit of State funds in certain banks in Atlanta, Griffin and Elberton $18,502.67; that between that time and the second day of June, the date of our examination, he had paid into the State Treasury $8,000, leaving the State funds deposited to the credit of the Commissioner the sum of $10,502.67. There is no reason that we can see why these large amounts of money should be accumulated by the Commissioner in banks. We recommend that this money be paid into the State Treasury at once.
CONCLUSION.

Your Committee has to report that they find in nearly all of the departments of the government and in all of the institutions a want of proper business methods. The same methods are now used in some of the State institutions that were used in the beginning when they were very small affairs.

The system and methods used in the Executive office, the Comptroller-General's office and the Treasurer's office, as to checks is well-nigh perfect, each one being a check upon the others, and this system should be extended to all of the departments of the State government.

Outside of the departments last mentioned, there is a total want of anything like uniformity in the conduct of the business of the departments. The business of the State of Georgia should be conducted in the same manner and method that corporations and large private concerns are forced to adopt as a matter of necessity, and we see no reason why the State's business affairs should not set the example in thoroughness and efficiency, instead of following old, obsolete and discarded methods. To bring about this desired and much-needed reform in our business methods, your Committee respectfully submit the recommendations that appear in this report.

It is necessary in collecting and disbursing the various and large sums of money now passing through the different departments that a perfect system of accounting should be adopted.

It is impossible under the existing conditions, outside of the Executive, Comptroller-General's and Treasurer's offices, to make anything like an intelligent check of these officers. The Comptroller-General's office is the clearing-
house of the State. The law now is that he shall audit all accounts of all State House officers, but under the present methods and existing circumstances that is absolutely impossible.

We therefore recommend that a law be enacted creating the office of State Auditor of Accounts, and that this officer shall be charged with general supervision of the financial affairs of the State; that the disbursement of all funds shall be directly under his control.

The policy of allowing appropriations to be withdrawn from the treasury by the various institutions and departments of the State and deposited in banks selected by their officers is dangerous in the extreme.

Since your Committee began this investigation, its attention has been called to two occurrences which involve two of the State's institutions. The Treasurer of the State Sanitarium used for his personal account something over twenty thousand dollars of the State's money in his possession, and the authorities of the Sanitarium were compelled to collect the amount from the sureties on his bond. This was a portion of the appropriation drawn in advance for the support of the institution. If it had not been so promptly paid by the sureties on his bond, the Sanitarium would have been seriously involved, because there was no authority to make this deficiency good from any funds in the Treasury. We have already referred elsewhere in this report to the fact that about thirty-five hundred dollars of the money appropriated for the support of the Academy for the Blind at Macon was deposited in the First National Bank of Macon at the time of its failure on or about the 16th day of May last, and no part of this fund has yet been recovered, and it must necessarily have resulted in serious embarrassment for this institution. If this money had not been drawn out from the Treasury, but had been paid out directly from the Treasury in settlement of bills
contracted, these institutions would not be exposed to this risk, and the State would not be in any danger from this loss. We do not think that any money ought to be paid out directly from the Treasury except directly to the person to whom it is due.

We herewith submit a bill providing for a State Auditor of Accounts and defining his duties, and we earnestly urge that it be given immediate and earnest consideration. Our investigation has convinced us that this bill or one similar to it is absolutely necessary for the protection of the interests of the State.

We suggest that it would be to the interest of the State to have all of these charitable institutions in the State under the control of one board. We are satisfied that this would result in a great saving to the State in the support of these institutions.

We recommend that a Committee be appointed at the present session of the General Assembly whose duty it shall be to take into consideration all the existing laws in reference to the various institutions of the State and for the regulation of the different departments of the State government, and report to the next General Assembly such legislation as is necessary to harmonize and perfect the laws on these subjects. All of these laws are now in great confusion as they exist in the present Code.

Prior to 1877 two classes of inmates were provided for in the State Sanitarium, and they were divided under the law into pauper and pay patients. By the Act of 1877 this law was repealed and it provided that all patients should be admitted into the Sanitarium free of cost for their treatment, clothing and maintenance. The codifiers who were employed to prepare the last Code of Georgia codified as law these laws that were repealed by the Act of 1877 and the Act of 1877 itself, and we find in the body of the law relating to the State Sanitarium the two inconsistent pro-
visions requiring the Trustees to admit all citizens of the State free of cost, and in the same chapter of the Code they are required only to admit paupers free of cost.

The same conflicts in the law appear in the whole body of our laws in reference to our State institutions and the different departments of the State government. It is impossible for the officers charged with the execution of these laws to perform their duties under the present Code of Georgia. The laws in this book, in the language of a distinguished judge of one of the courts of this State, "seem to have been thrown together in one conglomerate mass." It is absolutely necessary that there should be at once a complete revision of the laws now in existence, at least in so far as they apply to the State's institutions and the various departments of the State.

We regret to say that we find a prevalent disposition on the part of the officers to follow precedent even where the precedent is in violation of the law and contrary to the law. We would earnestly recommend to all the officers of the State that they follow the law made by the Legislature for their government strictly, and where in their opinion they consider the law unwise or impossible of execution, not to attempt to set it aside themselves, but to call the attention of the Legislature to the defects in the law.

We think that it would be to the interest of the State to sell the present building owned and used by the State as a mansion for the Governor. The building is old and costly to keep in repair, and it is almost now in the business district of Atlanta and is undesirable for a residence. It is entirely too far from the capitol. We think that it is worth much more for other than residence purposes, and that the State could sell it and purchase other property and build a home for the Governor to great advantage to the State. We recommend that a Committee be appointed to take into consideration this portion of the report of your
Committee and report its conclusions to the next General Assembly.

We further find and recommend that the work of your Committee should be continued by subsequent Legislatures. In our investigations we found no point of time from which we could begin, because no investigation of the character made by your Committee has ever been made before. We do not think that it is possible for any Committee or Committees to make the necessary investigation of the different departments and institutions of the State during the session of the Legislature. We think that there should be a standing Committee from the two houses who should be charged with the duty of making this investigation every two years. We think that this investigation could be made at a comparatively small cost.

We herewith report a bill providing for the appointment of this Committee and prescribing its duties.

We further find and recommend that it would be a great saving to the State in the purchase of coal if one officer of the State was authorized to make a contract for all the coal consumed by the State and the various Institutions. This item of coal is a very large one, and if purchased under one contract a great saving could be made.

We further recommend that the authorities of the various charitable institutions of the State should be required by law to submit to the Governor and to the General Assembly an itemized statement of the various amounts required by them for the support of the institution. This report should show what amount is to be disbursed from the appropriation on account of salaries, clothing, wages, fuel, subsistence, transportation and incidentals, and for temporary repairs on the buildings, each under a separate head, and the appropriation should specify that only the amount so estimated should be spent for each item.
We herewith submit for your consideration the reports made by the expert accountants to us.

Your Committee as a whole was engaged twenty-five days in this work. Individual members of the Committee, by direction of the Committee, were engaged some days in addition to the time consumed by the Committee as a whole.

The Honorable P M. Mulherin was while the Committee was in session at the Academy for the Blind at Macon, on the 28th day of December, stricken with a severe illness, and was unable after that time, on account of illness, to attend any of the subsequent sessions of the Committee. The Committee very greatly felt the loss of his valuable aid and services in completing this work, and desire here to express its regret at the loss of his services, and at the same time its pleasure at his restoration to health. He does not join in this report except as to the investigation of the Georgia State Sanitarium, the Normal and Industrial School at Milledgeville and the prison farm.

Jos. H. Hall, Chairman;
S. R. Christie,
J. T. Duncan,
J. E. Hayes,
P M. Mulherin,
P H. Comas, Secretary.

Note.—Since this report was prepared we have been informed that the Trustees have employed a bookkeeper.

The Journal of yesterday's proceeding was read and confirmed.

The following resolutions were read and referred to the Committee on Rules, to wit:

By Mr. Reid of Campbell—

A resolution to make House Bills Nos. 520, 877, 954
and Resolution No. 470 the special order, to immediately follow the General Tax Act, whenever it is taken up.

By Mr. Reid of Campbell—

A resolution to amend Rule No. 193, so as to make the consideration of Senate bills the special order for Wednesday morning of each week.

The following report, submitted by Mr. Steed, chairman of the Committee on Penitentiary, together with the report of a sub-committee, was read and adopted, to wit:

Mr. Speaker:

The Committee on Penitentiary have instructed me, as their chairman, to submit to the House the following report of the sub-committee with the recommendations that the unwholesome and unsanitary conditions to which reference is therein made be immediately examined into by the Prison Commission, and that the rules and regulations prescribed by said Commission be immediately complied with, and that such other corrections be made as now required by law for the treatment of the State's prisoners, and that a copy of this report be furnished the chairman of the Prison Commission by the clerk of this House.

Respectfully submitted,

W E. STEED,
Chairman.

To the Hon. W E. Steed, Chairman Penitentiary Committee House of Representatives, Session 1904:

We your sub-committee, whose duty it has been made to visit and investigate the management and general con-
duct of the county convict camp of Bibb county, Georgia, have, to the best of our ability, discharged that duty and report as follows:

We found forty colored felony male convicts and five white felony male convicts—total forty-five felony convicts. We found seventy colored male misdemeanor convicts and four white male misdemeanor convicts; also four colored female misdemeanor convicts—total seventy-eight misdemeanors. In hospital, one white male, three colored males.

Escapes—One white felony convict, one white misdemeanor and one colored misdemeanor—total number of escapes three during the last twelve months. Eight under sixteen years of age (colored). We found that one Docie Colbert, colored, sixteen years of age, was sent up from Bibb county for simple larceny during the month of January, 1904, and was discharged June the 24th, having served out her sentence, and died July 2d. Upon the request and complaint of her father, John Colbert, an inquest was held. We interviewed the coroner, and he stated to us that no marks of violence were found upon her body, there being no scars, as if she had been whipped. Some small spots of coagulated blood appeared upon her back and buttock, but he regarded them as perfectly natural. He also stated that the physician said she died of consumption, and he believed that she did, from all the facts he could gather in the case, and from the emancipated condition of the corpse. The coroner also stated that the evidence which is on file in the office of the clerk of the superior court, and is accessible at any time, was very conflicting and damaging to the management of the camp. We also interrogated Dr. O. C. Gibson, who is the county physician employed, and his statement was that Docie Colbert had consumption and had
not been required to work for three and one half months, nor had she been whipped during that time. We also interrogated Herndon, a guard, who stated Docie Colbert was sent from the jail to the camp in January sick at the time, and had not been able to work a single day, and only went out on the road one or two days on her own motion, and was not required to do anything but to keep up the tools.

We found, as we believe, the sanitary conditions of the camp in very bad condition. The room for white convicts small and poorly ventilated, and the calls of nature being attended to in tin cans which are allowed to remain in the room so long that we consider it very damaging to health. The room for the colored males is larger, but the so-called closet is in the room, and the offensive odor we regard as very damaging to the sanitary conditions. The men are all forced to sleep on the floor. We believe that the law requires better sleeping arrangements. The women are forced to sleep in the grain room next to the stables on the floor among the shucks of corn and other feed and provisions.

Respectfully submitted,

C. M. BOOTH, Chairman;
W L. BELL,
JOHN R. SHANNON.

Mr. Calvin, chairman of the Committee on General Agriculture, submitted the following report:

July 14, 1904.

The undersigned members of the Committee on Special Judiciary, submitted the following minority report:

Mr. Speaker:

Your Committee on Special Judiciary having had under consideration House Bill No. 1021, being an Act to repeal an Act approved 1899, entitled an Act requiring militia district thereafter adopting the stock law to fence itself off from non-stock law districts, beg leave to submit the following minority report:

We maintain that the law should remain as enacted and that the pending bill should be defeated;

1st. The repeal of said Act would amount to legislative confiscation of property.
2d. It would work untold hardships on large sections of this State, both in North and South Georgia, without any corresponding benefit to the other sections of the State.

3d. The various counties of this State can obtain the benefits of the stock law, as the law now stands, without the deleterious effects that would result if the pending bill should become a law.

4th. As the stock law was originally enacted it was contemplated that these districts should be fenced, as will be seen by reference to said Act.

5th. If the adoption of stock law by districts is beneficial to those seeking it, the minority of said committee contends that those who get the benefit of the operation of the stock law should pay the tax necessary to construct a fence around it as now provided by law in order to obtain such benefits.

6th. The law, as it now is, is the result of legislative concessions on both sides of this question, and we submit that it should not be disturbed by the adoption of the present bill.

Respectfully submitted,

J. W. H. UNDERWOOD,
W. S. HOWELL,
J. A. KENDRICK,
J. R. SINGLETARY

Mr. Richardson, Vice-Chairman of the Special Judiciary Committee, submitted the following report:

By unanimous consent the verification of the roll-call was dispensed with.

On the adoption of the amendment the ayes were 73, nays 57.

The amendment was therefore adopted.

Mr. Dunbar of Richmond, proposed to amend section 1, paragraph 26, by adding the following: “Except that no specific or license tax shall be levied or collected on merchandise machines, delivering merchandise and kept by dealers in their storehouses and paying taxes as a merchant.”

The amendment was adopted.

The following amendments were also adopted, to wit:
By Mr. Reid of Campbell—

To amend section 2, paragraph 32, by adding after the word "gypsies" the words "or traveling companies of other persons."

By Mr. Leigh—

To amend paragraph 34, section 2, by adding the following: "Upon every merry-go-round in each county in which it does business."

The Speaker appointed the following committee under House Resolution 575, to revise the fish and game laws of the State of Georgia: Mr. Boykin, chairman; Mr. Martin, Mr. Harden.

On motion of Mr. Grice of Pulaski, 200 copies of the amendment offered by Mr. Hall of Bibb, was ordered printed, and Mr. Steed of Taylor moved that further consideration of the Tax Act be deferred until to-morrow morning.

Mr. Steed later stated that in the interest of time he would withdraw the motion.

Consideration of the General Tax Act was resumed.

Mr. Franklin of Washington, moved that 200 copies of the amendment offered by Mr. Underwood be printed and laid on the desks of the members, which motion prevailed.

Mr. Reid of Campbell, moved that the General Tax Act be tabled, which motion prevailed.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:
Mr. Speaker:

The Senate has passed by the requisite constitutional majority the following Senate bills, to wit:

A bill requiring the Treasurer, Comptroller General and Secretary of State to give bonds in the sum now fixed by law, provide for the summary collection of said bonds in cases of default, and for other purposes.

A bill providing for remedy on official bonds given by the officers of this State in the event of default, etc.

The Senate has passed by the requisite constitutional majority the following bills of the House, to wit:

A bill to create a charter for the city of Ashburn, in Worth county, and for other purposes.

A bill to repeal act of December 26, 1890, incorporating the town of Ashburn, and the several acts amendatory thereof, and for other purposes.

A bill to create a Board of Commissioners of Roads and Revenues for the county of Dodge.

A bill to amend act establishing a Board of County Commissioners for the county of Newton, approved February 27, 1879, and for other purposes.

The Senate has also passed by the requisite constitutional majority the following resolution of the House, to wit:

A resolution to reinstate J. J. W Glenn, of Rockdale County, Ga., and to pay him his pension.

The Senate has concurred in the following resolutions of the House, to wit:
A resolution to appoint a joint committee to investigate the feasibility of leasing part of the State's property lying along the right of way of the Western & Atlantic Railroad in the city of Atlanta.

Committee on part of the Senate: Messrs. Harrell and Turner

A resolution providing for the appointment of a joint committee to which shall be referred all bills bearing upon the fish and game laws of this State.

Committee appointed on the part of the Senate: Messrs. Hopkins and Comas.

The Senate has failed to pass the following bill of the House, to wit:

A bill to amend sub-section 11 of section 4082 of volume 2 of the Code of 1895.

Mr. Akin, chairman of Committee on Constitutional Amendments, submitted the following report:

Mr Speaker:

Your Committee on Amendments to the Constitution have had under consideration House Bill No. 679, which is a bill proposing to amend paragraph 1, section 3 of article 3 of the Constitution so as to provide for increased representation, and direct me, as their chairman, to report the bill back to the House with the recommendation that it do pass, as amended.

Respectfully submitted,

JOHN W AKIN,
Chairman.
Mr. Franklin, Chairman of the Committee on State Sanitarium, submitted the following report

Mr. Speaker:

Your Committee on State Sanitarium desire to report, that we have again visited that noble institution. All that we have stated in our reports rendered in 1902 and in 1903, we most earnestly reiterate and reaffirm, as we feel that we could not be too extravagant in any language we might use in expressing our approval of the conditions which there exist, or in commending the wisdom and ability displayed by those in charge of its affairs. The people of Georgia are to be congratulated that, from the Board of Trustees to the most humble employee, all seem to work together harmoniously for the welfare of the unfortunates consigned to their care, and their intelligent and efficient labors are conducted with such skill and economy as to appear almost marvelous to those who carefully, and without bias, study what has been and what is now being accomplished.

The necessity for making such appropriations for its maintenance as the Board of Trustees may request will be apparent to every unprejudiced mind, when we consider the character of the men who compose this Board, read their report to the Governor for the eight months ending January 1st, 1904, and then learn that since that report was made, there have been 579 applications for admission and 466 patients received, leaving on file 113 applications over and above those received.

The Board of Trustees, last fall, appointed a committee to consider the advisability of instituting a new method of book-keeping in connection with the supply
After due investigation, it was decided to adopt a system designed by an expert accountant, who thoroughly acquainted himself with the purposes sought to be accomplished. A book-keeper has been employed at a salary of $1,200 per annum, whom we think is thoroughly competent, and the daily transactions in this department, even in the most minute details, are clearly shown by the various books which are now kept. The “petty cash” account of the steward received our careful consideration, and we are at a loss to conceive how a more simple, intelligible, and honest record could be kept.

When we consider the magnitude of this, the grandest and noblest charity fostered by the State, think of the vast properties, which are so ably preserved and cared for, realize the multitudinous details which demand daily and hourly attention, and ponder over the condition of its inmates, we are thoroughly impressed with the extraordinary wisdom, fidelity and ability manifested by those in charge, and are almost astounded to know that it has been so economically operated.

H. M. FRANKLIN,
Chairman.

Mr. Cann, chairman Committee on Railroads, submitted the following report:

Mr. Speaker:

Your Committee on Railroads have had under consideration the bills hereinafter mentioned and instructs me, as its chairman, to report the same back with the following recommendation: Senate Bill No. 232 do pass;
House Bill No. 1022 do pass by substitute; House Bill No. 982 do not pass.

Respectfully,

J FERRIS CANN,
Chairman Committee on Railroads.

The session having been extended for twenty minutes for the purpose of considering the two following bills, the same were read the third time and put upon their passage, to wit:

By Messrs. Cromartie, Shannon, Singletary—

A bill to be entitled an Act to amend paragraph 1, section 3, article 3 of the Constitution of this State.

Section 1. Be it enacted by the General Assembly of the State of Georgia and it is hereby enacted by authority of the same, That paragraph 1 of section 3, article 3 of the Constitution of this State, be and the same is hereby amended by striking out the words “One hundred and seventy-five,” in the first and second lines of said paragraph, section and article of the Constitution of this State and inserting in lieu thereof the words “Not more than one hundred and eighty-eight,” and by striking out the word “Five” in tenth line in said paragraph 1, section 3, article 3, and inserting in lieu thereof the word “Eighteen,” so that said paragraph when so amended shall read as follows: “The House of Representatives shall not consist of more than one hundred and eighty-eight Representatives apportioned among the several counties as follows, to wit: To the six counties having the largest population, viz.: Chatham, Richmond, Burke, Floyd, Bibb and Fulton, three Representatives each; to the twenty-six counties having the next largest population,
viz. Dooly, Bartow, Coweta, Decatur, Houston, Greene, Gwinnett, Harris, Jefferson, Meriwether, Monroe, Muscogee, Pulaski, DeKalb, Hall, Walton, Sumter, Thomas, Troup, Washington, Hancock, Carroll, Cobb, Jackson, Oglethorpe and Wilkes, two Representatives each, and the remaining counties, one Representative each."

Sec. 2. Be it further enacted by authority aforesaid, That when said amendment shall be agreed to by two-thirds of the members elected to each House it shall be entered upon the Journal of each House with the ayes and nays thereon and published in one or more newspapers in each Congressional District in said State for two months previous to the time for holding the next general election and shall at said next general election be submitted to the people for ratification in the following forms, to wit: "For Ratification" or "Against Ratification," and if a majority of the electors qualified to vote for members of the General Assembly voting thereon shall vote for ratification, having printed or written on their ballots, "For Ratification," which votes cast at said election shall be consolidated as now required by law in elections for members of the General Assembly, and returns thereof made to the Governor, then he shall declare said amendment adopted and make proclamation of the result of said election by publication of result of said election by publication in one or more newspapers in each Congressional District of the State.

Sec. 3. Be it further enacted by authority aforesaid, That all laws and parts of laws in conflict with this act be, and the same are, hereby repealed.

The substitute offered by Mr. Blackburn for the above bill was read and adopted.
WEDNESDAY, JULY 20, 1904.

The report of the committee, which was favorable to the passage of the bill, was adopted by substitute.

On the passage of the bill the ayes and nays were ordered, an amendment to the Constitution being proposed, and on taking the ballot *viva voce* the vote was as follows:

Those voting in the affirmative were Messrs.—

THURSDAY, JULY 21, 1904.

Those absent were Messrs.—

Cromartie, Henry, Rawles,

On motion of Mr. Daves of Fannin, the reading of the Journal of yesterday's proceedings was dispensed with.

Mr. Stewart of Calhoun, was allowed to withdraw House Bill No. 1041.

The following House bills were read the second time and recommitted, to wit:

By Mr. Leigh of Coweta—

A bill to create the office of State Veterinarian.

By Mr. Slaton of Fulton—

A bill to amend an Act to create a Prison Commission for Georgia.

On motion of Mr. Reid of Campbell, the General Tax Act was taken from the table and resumed its place on the calendar as a continuing special order.

The undersigned members of the General Judiciary Committee submitted the following minority report on House Bill No. 976, to pay the Sharps Rifle Manufacturing Company bonds:
Mr. Speaker:

The General Judiciary Committee having under consideration House Bill No. 976, providing for an appropriation of $24,200 to pay the Sharps Rifle Manufacturing Company bonds, we beg leave to file a minority report.

After carefully considering the facts and laws bearing on the validity of these bonds, including the ordinance of the Constitutional Convention of 1865, and the 14th Amendment of the Constitution of the United States, the Act of November 16, 1860, under which these bonds were issued, and the Act of November 21, 1860, calling the convention which passed the Ordinance of Secession, and the date of the bonds February 1, 1861, we, the undersigned, minority of the General Judiciary Committee, believe the bonds are illegal and not binding on the State of Georgia, and therefore should not be paid.

We desire also to remind the House that two efforts have heretofore been made to have these bonds ordered paid, once in the Legislature of 1869, and once in the Legislature of 1883, and that both efforts failed.

JOHN W. AKIN, Vice-chairman;
MATT W. GROSS,
M. D. WOMBLE,
L. L. STANFORD,
R. B. BLACKBURN,
H. P. HOWARD,
G. H. CARSWELL.

Mr. Speaker:

As a member of the General Judiciary Committee, considering House Bill No. 976, providing for an appropria-
tion of $24,200 to pay the Sharps Rifle Manufacturing Company bonds, I voted in the committee to report a favorable recommendation of same.

I did not have a chance to have a full hearing of committee's investigation, and upon fuller inquiry into its merits, I desire here to put myself on record as being opposed to its passage.

Respectfully submitted,
HENRY H. LITTLE.

Mr. Slaton, chairman of the General Judiciary Committee, submitted the following report:

Mr. Speaker:

Your Committee on General Judiciary having had under consideration the following House bills, instructed me, as their chairman, to report them back to the House with the recommendation that they do pass, to wit:

Mr Speaker:

Your Committee on Education has had under consideration the following bills, which I am instructed to report back with the recommendation that they do pass:
House Bill No. 924, to incorporate the Swainesboro school district, in Emanuel county.

Senate Bill No. 230, to amend an Act approved in 1897, to authorize the treasurer of the State to draw on any funds in the State treasury to pay teachers.

Also, that House Bill No. 1039 be withdrawn from the committee, read the second time and recommitted to the Committee on Education.

JOHN N. HOLDER,
Chairman.

Mr. Shannon, chairman of Committee on Counties and County Matters, submitted the following report:

Mr. Speaker:

Your Committee on Counties and County Matters having had under consideration the following House bills, instructed me, as their chairman, to report them back to the House with the recommendation that they do pass, to wit:

A bill to repeal Act approved December 21, 1898, incorporating the town of Sylvester.

A bill to authorize mayor and council of Canon, Ga., to issue bonds for school purposes.

A bill to create a water and light commission for the city of Carrollton, and for other purposes.

A bill to amend an Act establishing the city court of Waycross, in and for Ware county.
Also the following House bill, with the recommendation that it do pass as amended, to wit:

A bill to repeal an Act to create a Board of Commissioners of Roads and Revenues for the county of DeKalb.

Also the following House bill with the recommendation that it do not pass, to wit:

A bill to prevent carrying up to Supreme Court any case originating in a justice court and involving less than $50.

Respectfully submitted,

JOHN R. SHANNON,
Chairman.

July 20, 1904.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

*Mr. Speaker:*

The Senate has passed by the requisite constitutional majority the following Senate bills, to wit:

A bill to prohibit the purchase or sale of cotton futures, and for other purposes.

A bill to prohibit the importation of seed from cotton, cotton-seed hulls, or other products affected with Texas boll weevil, and for other purposes.

A bill to change the time of holding the superior court of Hancock county, and for other purposes.

A bill to regulate the weight of cornmeal in this State, and for other purposes.
A bill to amend the Act making bonds for title admissible to record.

A bill to confer upon the senior colonel of the line Georgia State troops the rank of brevet brigadier-general.

A bill to amend section 7 of Act approved December 17, 1902, so as to provide that the two assistants of the adjutant-general shall have the rank of colonel and lieutenant-colonel, respectively.

A bill to authorize cities and towns to manufacture, distribute, use and sell gas and electricity for lighting purposes, and for other purposes.

A bill to amend paragraph 1, section 2 of article 11 of the constitution, so as to change the term of county officers to four years.

A bill to amend section 1775 of the Code, so as to allow owners or claimants of impounded stock to redeem by giving bond, and for other purposes.

On motion of Mr. Reid of Campbell, the General Tax Act was again taken up, to wit:

By Mr. Reid of Campbell—

A bill to levy and collect a tax for the support of the State government and the State institutions, and for other purposes.

On motion of Mr. Felder the House reconsidered its action in adopting paragraph 23 of section 2 for the purpose of allowing him to offer the following amendment, to wit:
To amend the amendment known as the Peruna Amendment, by adding the following proviso, to wit: "Provided that this tax shall not be required of those dealers who have paid the liquor tax as provided in this Act."

The amendment was adopted.

The paragraph, as amended, was then adopted.

Mr. Hall of Bibb, offered the following amendment, to wit:

Amend by adding a new section, to be numbered section 15, as follows:

**SECTION 15.** Be it further enacted by the authority aforesaid, that every corporation incorporated under the laws of any other State, or any foreign country (except such corporations as pay to this State a specific occupation or license tax, or an income or percentage tax on gross premiums as elsewhere provided for in this Act or under existing laws), doing business within this State, shall pay annually to the Comptroller-General, for the use of the State, and occupation or privilege tax, for the privilege of exercising its corporate powers or franchises in this State, or carrying on its business in its corporate capacity in this State, of one-tenth of one per centum, to be computed upon the basis of the capital stock employed by it within this State, **provided,** that the minimum occupation or privilege tax hereunder, to be paid by each such corporation, shall be $25.00, and no less sum for any calendar year or fraction thereof shall be assessed or receipted for by the Comptroller-General.

The tax provided for in this section shall be due and payable before or on March 1st, for the calendar year or fraction thereof ending December 31st, preceding.
The amount of capital stock employed within this State by any corporation coming under the provisions of this section, and upon which said occupation or privilege tax shall be due and payable, shall be ascertained as follows, to wit: the ratio or percentage which the gross business done within this State in the calendar year, or any fraction thereof, bears to the whole business of said corporation for such period shall be the ratio or percentage within the meaning of this Act of its total capital stock, of capital stock employed within this State; that is to say, for illustration, if the business of the corporation done within this State is ten per centum of its total business, then the capital stock employed within this State would be ten per centum of its total capital stock, and so on.

Every corporation liable to this occupation or privilege tax shall on or before the first day of March of each year file with the Comptroller-General, under oath of one of its executive officers or its resident agent in this State, if any, in such form as the Comptroller-General may prescribe, a statement showing its principal place of business, the date, place and authority of its incorporation, its chief executive officer and resident agent and principal agency or place of business in this State, if any, its capital stock, authorized and paid in, its total gross business done within this State for the calendar year or fraction thereof, ending on December 31st preceding, and its total gross business for the same period, and at the time of filing said sworn statement, shall also pay to the Comptroller-General the amount of tax due the State hereunder, whereupon the Comptroller-General shall issue his formal receipt therefor.

This section of this Act shall become operative on January 1, 1905, and the Comptroller-General shall adver-
tise its provisions in each daily newspaper published within this State once a week for four weeks, commencing not later than December 1, 1904.

The same penalties provided for other tax defaulters under this Act and applicable to corporations making returns to the Comptroller-General shall be applicable to defaulters under this section, and the Comptroller-General shall enforce the same by execution as provided by law.

Amend the bill further by renumbering the sections of the printed bill, commencing and numbering section 15 as number 16, and so on through the remaining sections.

Mr. Franklin of Washington, called the previous question, which call was sustained, and the main question ordered.

On the adoption of the amendment Mr. Hall of Bibb, called for the ayes and nays, which call was sustained, and on taking the ballot *viva voce* the vote was as follows:

A bill to propose an amendment to article 5, section 1, paragraph 8 of the Constitution of the State of Georgia, providing for the succession to the office of Governor by the Secretary of State, Attorney General and State Treasurer in case of the death, resignation or disability of the President of the Senate and Speaker of the House of Representatives or in case there should be no President of the Senate or Speaker of the House of Representatives.
Section 1. Be it enacted by the General Assembly of the State of Georgia, That, from and after the passage of this act an amendment be proposed to article 5, section 1, paragraph 8 of the Constitution of the State of Georgia, by adding after the close of said section the following words, to wit: "And in case of the death, resignation or disability of the Speaker of the House, or in case there should be no President of the Senate or Speaker of the House, the Secretary of State shall exercise the executive powers of government until the removal of the disability, or the election and qualification of the Governor. And in case of the death, resignation or disability of the Secretary of the State, the Attorney General shall exercise the executive powers of government until the removal of the disability or the election and qualification of the Governor. And in case of the death, resignation or disability of the Attorney General, the State Treasurer shall exercise the executive powers of government until the removal of the disability or the election and qualification of a Governor so that said section when so amended, will read as follows, to wit: "In case of the death, resignation or disability of the Governor, the President of the Senate shall exercise the executive powers of government until such disability be removed, or a successor is elected and qualified. And in case of the death, resignation or disability of the President of the Senate, the Speaker of the House of Representatives shall exercise the executive powers of government until the removal of disability, or the election and qualification of a Governor. And in case of the death, resignation or disability of the Speaker of the House of Representatives or in case there be no President of the Senate or Speaker of the House of Representatives, the Secretary of the State shall exercise the executive powers of government until
the removal of the disability, or the election and qualification of a Governor. And in case of the death, resignation or disability of the Secretary of State, the Attorney General shall exercise the executive powers of Government until the removal of the disability, or the election and qualification of a Governor. And in case of the death, resignation or disability of the Attorney General, the State Treasurer shall exercise the executive powers of government until the removal of the disability or the election and qualification of a governor.

Sec. 2. Be it further enacted, That whenever the above proposed amendment to the Constitution shall be agreed to by two-thirds of the members of each of the two houses of the General Assembly, and the same has been entered on the Journals, with the ayes and nays taken thereon, the Governor shall, and he is hereby authorized and instructed, to cause said amendment to be published in at least two newspapers in each Congressional District in the State, for at least two months next preceding the time for holding the next general election, and the legal voters at said election shall have written or printed on their tickets "Ratification," or "Against Ratification," as they may choose to vote, and if a majority of the electors qualified to vote for members of the General Assembly, voting, shall vote in favor of ratification then said amendment shall become a part of said article 5, section 1, paragraph 8 of the Constitution of the State and the Governor shall make proclamation thereof.

Sec. 3. Be it further enacted, That all laws in conflict with this act be, and the same are hereby repealed.

The report of the committee, which was favorable to the passage of the bill, was agreed to.

Mr. Felder of Bibb, submitted the following report of the Commission on the Registration of Land Titles:

To the General Assembly of Georgia:

The Commission on the Registration of Land Titles, created by a Joint Resolution of the House of Representatives of the General Assembly of Georgia, the Senate concurring, approved August 5, 1903, begs leave to report:

The Commission on the Registration of Land Titles, charged with the duty of considering and investigating the registration of land titles, particularly the Torrens system for the registration of land titles, entered upon the discharge of its duties very shortly after the adjournment of the General Assembly on August 15, 1903.

In the efforts of the Commission to make and conclude such an examination of the various systems for the registration of land titles as would be of any practical benefit to the people of Georgia, the Commission soon discovered that the work in hand was of such a responsible and extensive character that more time would be needed than was thought necessary when the work was commenced. The consideration of the defects of the present system of registering deeds and the numerous efforts to remedy those defects which have been adopted by the various States in the Union, as well as by foreign nations, embraces such a vast field of inquiry and investigation that the Commission has simply been enabled to inaugurate its work. The completion of this task, which is fraught
with such momentous results, can not be had without another year devoted to it. In none of those States in the Union in which a change has been made from the old system of registering deeds to a new system of registering titles has the time for the consideration and investigation of the measures occupied less than four years; in some five, in some six; and in one seven years.

Your Commission, therefore, actuated by a strong and earnest desire to complete this work intelligently and to prepare and present to the General Assembly such a report as will afford ready, extensive and accurate information of the character of a system of registration of land titles, and whether such a system is advisable and practicable for the State of Georgia, respectfully asks that the Commission be continued in force, with all of its powers and duties as now constituted, and that it be directed and authorized to make such report as it may deem advisable to the next session of the General Assembly as now fixed by law.

Respectfully submitted,

WASHINGTON DESSAU,
Chairman,

ARTHUR GRAY POWELL,
R. T. FOUCHE,
T. S. FELDER,
H. A. MATHEWS,
P. M. MULHERIN,
H. H. PERRY,
B. S. MILLER.

The following resolution was read and adopted, to wit:

A bill to regulate money-lending on personal property, and for other purposes.

A bill to define boycotting as a crime in this State, and to provide punishment therefor.

A bill to carry into effect paragraph 1, section 1, article 7 of the Constitution with reference to creating a debt other than a bonded debt, by counties and municipalities.
A resolution to pay pension due J. C. Bridges, deceased, to his widow.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr Speaker:

The Senate has passed by the requisite constitutional majority, the following House bill and resolutions, to wit:

A bill to amend paragraph 1, section 3, article 3 of the Constitution of this State.

A resolution to make appropriation to enable the trustees of the Confederate Soldiers' Home to lay down and connect a water main from Atlanta to the site of the Home.

A resolution to reimburse the county of Dade for the incarceration and execution of Charlie Phillips.

The undersigned members of the General Judiciary Committee submitted the following report on House Bill No. 292:

Mr Speaker:

The undersigned members of the General Judiciary Committee respectfully dissent from the majority report on House Bill No. 292, by Mr. Peyton of Habersham, and in our opinion, said bill should not pass.

That provision of the substitute which exempts the Judges of the Atlanta and Eastern Circuits from the operations of the bill is in direct violation of section 9 of article 6 of the Constitution of this State, as it destroys the uniformity required by the Constitution.

A mere reading of the substitute will, in our opinion, make this plain.

The passage of this bill will, in our judgment, be a nullification of that part of our organic law which declares that the people themselves shall determine who shall preside over their courts. Without regard to the question, "Is it wise to elect Judges by the people," we submit that the will of the people, so recently expressed should not by simple legislative enactment be changed in so radical a manner.

There is no general demand for such legislation. The people of Georgia do not desire it. We do not believe that the people of a single Judicial Circuit in Georgia desire such a bill passed, but if a single Circuit does want it, we can not make a law for the whole State just to fit a Circuit in Georgia.

Such a bill seems to us a reflection on the Judiciary of the State, and on the character and intelligence of the people who elected them.

For these reasons, and many others apparent, and not necessary here to enumerate, we can not concur in the judgment of the majority of the committee, but respectfully recommend to the House that the measure be defeated.

Respectfully submitted,
MITCHELL of Thomas,
WALKER of Pierce,
M. D. WOMBRE.

The following bill, which was under discussion at the hour of adjournment on yesterday, and which was a continuing special order, was taken up for further consideration, to wit:
By Mr. Peyton of Habersham—

A bill to equalize the business and labors of the Judges of the several Judicial Circuits of this State, and for other purposes.

The Speaker again resolved the House into a committee of the whole and Mr. Cann of Chatham, former chairman of the committee, took the chair.

After a consideration of the bill, the committee arose and through their chairman reported progress and asked leave to sit again.

On motion of Mr. Morris, the bill and pending amendments were tabled.

The following resolution was read and unanimously adopted, to wit:

By Messrs. Leigh of Coweta, and Steed of Taylor—

A resolution providing that when the House adjourn it stand adjourned until to-morrow morning at 9 o'clock out of sympathy for Hon. J T. Parker, in the death of his grand-daughter.

The following bill, which was made the special order for this hour, was read the third time, and put upon its passage, to wit:

By Messrs. Flynt, Carswell, Morris, Slaton, Stovall et al.—

A bill to fix the salary of the Governor of Georgia, and for other purposes.

An appropriation being involved the Speaker resolved the House into a committee of the whole and designated as chairman Mr. Candler of DeKalb.
After a consideration of the bill, the committee arose and, through their chairman, reported progress and asked leave to sit again.

Mr. Slaton moved that the session be extended until the bill to increase the Governor's salary be disposed of, which motion prevailed.

The House again went into a committee of the whole and Mr. Candler took the chair.

After a further consideration of the bill, the committee arose and, through their chairman, reported the same back to the House with the recommendation that it do pass.

Mr. Franklin of Washington, called the previous question, which call was sustained and the main question ordered.

The report of the committee was agreed to.

On the passage of the bill, the ayes and nays were ordered, and on taking the ballot *viva voce* the vote was as follows:

Those voting in the affirmative were Messrs.—

| Alexander, | Buchannon, | Daniel, |
| Alford,    | Butts,     | Daves,  |

Those voting in the negative were Messrs.—

Adams, Akin, Bell, of Milton, Brinson, Bush, Carrington, Conner, Duggan, English, Glenn, Hutcheson, Jones, of Pickens, Kelly, Knight, Rankin, Rice, Roper, Simmons, Thompson, Tracy, Underwood, Valentine, Walker, of Pierce, Whitley, Womble, Yates.

Those not voting were Messrs.—

Arnold, Ayres, Baldwin, Beall, of Paulding, Bell, of Emanuel, Bowen,
By unanimous consent the verification of the roll-call was dispensed with.

On the passage of the bill the ayes were 112, nays 26.

The following ruling was made by the Speaker:

The Constitution of Georgia provides that the salary of the Governor may be changed “by a two-thirds vote of both branches of the General Assembly.”

A similar provision in the Constitution of the United States, which provides for overriding a veto by two-thirds of each House has been construed in both Houses of Congress to mean “two-thirds of the members present,” a bare majority constituting a quorum for such purpose as in cases of other legislation. House Journal, First Ses., 34 Con., pp. 1176, 1178, 1420; Senate Journal, same session, p. 419; Digest Rules and Pr. House Rep., title “veto.”

The Constitution of Missouri provided that amendments to the Constitution should be ratified by “two-thirds of each house.” In State v. McBride, 4 Mo. 303, it was held that an amendment which is ratified by two-thirds of a quorum is ratified by two-thirds of the House within the meaning of the Constitution; that the word “house” as there used meant merely a majority of all members elected thereto.
The Constitution of Michigan provided that no act of incorporation should be passed "unless with the assent of at least two-thirds of each house." In Southworth v. R. R. Co., 2 Mich. 297, it was held that the word "house" meant "the members present doing business, there being a quorum, and not a majority of all the members elected: and an act of incorporation passed by two-thirds of the members present, there being a quorum, is constitutional."

The Constitution of Mississippi provided that constitutional amendments might be proposed by "two-thirds of each house." The same constitutional provision also contained the words "two-thirds of each branch" of the Legislature. In Green v. Weller, 32 Miss. 650, it was held, one judge dissenting, that the term "house" meant one "branch" of the Legislature as contradistinguished from the other, "and that a majority of the entire members composing the body constitute in legal contemplation, the house or branch of the Legislature." "It is sufficient, if an act proposing an amendment to the Constitution receive on its several readings in each branch of the Legislature, two-thirds of a quorum present and voting."

The Constitution of Louisiana provided that all bills should be read on three several days in each house "unless four-fifths of the house where the bill is pending" may dispense with this rule. In Frellsen v. Mahan, 21 La. An. 79, it was held that the term "each house" meant a majority of the members elected to either body; that "four-fifths of the house" meant four-fifths of a quorum of such house; and that "four-fifths of a quorum of each house may dispense with the rule requiring any bill to be read on three several days."

Considerable light is thrown on this question in Georgia by the fact that our Constitution in providing for constitutional amendments prescribes that they must be
agreed to "by two-thirds of the members elected to each of the two houses." Civil Code, section 5940. Similar language is used in the provision, Civil Code, section 5777, that "no bill shall become a law unless it shall receive a majority of the votes of all the members elected to each house of the General Assembly." A bill changing the salaries is constitutionally passed when it has received a majority of the votes of all the members elected, and, at the same time sufficient votes to constitute two-thirds of those present and voting.

Judge Cooley, in his treatise on Constitutional Limitations (7 ed.) p. 201, says: "Where, by the Constitution, a two-thirds or three-fourths vote is made essential to the passage of any particular class of bills, two-thirds or three-fourths of a quorum will be understood, unless the terms employed clearly indicate that this proportion of all the members, or of all those elected, is intended."

The Speaker then announced that the bill having received the requisite constitutional majority was passed.

Mr. Knight of Berrien, gave notice that at the proper time he would move to reconsider the action of the House in passing the above bill.

Leave of absence was granted Mr. Singletary of Thomas, sickness.

The Speaker then announced the House adjourned until nine o'clock to-morrow morning.
The House met pursuant to adjournment at nine o'clock A. M. this day; was called to order by the Speaker and opened with prayer by the Chaplain.

Mr. Thurman of Walker, chairman of the committee to draft memorial resolutions on the death of Hon. W. A. P. Lowe, submitted the following report:

Mr. Speaker:

Your committee appointed to draft resolutions upon the life and public services of Hon. W. A. P. Lowe, deceased member of this body from the county of Chattooga, submits the following report and accompanying resolutions:
Hon. W. A. P. Lowe was born in Newton county, Georgia, March 14, 1847; he moved to Chattooga county in 1852, where he made his home until his death, January 4, 1904. In 1870 he married Miss Sallie Burton, of Alabama, of which marriage five children survive him. After the death of his first wife he was again married in 1895, to Miss Minnie Johnston, of Chattanooga, Tenn. In early life he joined the Methodist church, and remained a useful and consistent member until his death. When his State seceded from the Union, he enlisted in Company "E," Sixth Georgia Cavalry, of Col. Hart's regiment. He was a true and courageous Confederate soldier, and on the historic field of Chickamauga, which battle was opened by the command to which he belonged, there fell forty per cent. in thirty minutes. Mr. Lowe was fortunate enough to escape this fearful mowing down of humans and lived to engage in the bloody battles of Resacca, Kennesaw, New Hope, Peach Tree and Atlanta, and all the battles which followed until, reaching Greensboro, N. C., he was surrendered.

In his domestic relations he was a tender husband and affectionate father. Those whom he has left behind him best know how to appreciate the depth and feeling that characterized his entire life. In his relation with the outside world the same tenderness of heart always manifested itself in his deeds. Generous to all, with a broad charity that covered all the failings and faults of our race, he was ever ready with either words or purse to soothe and alleviate the sorrows of the unfortunate. He leaves behind him a name not only dear to his friends, but to all with whom he came in contact. It might be said of him that in whatever relation of life he was placed, he knew his duty and he did it fully. As a citizen in private life and as a member of the Legislature he always came up to the full stature of a man.
Realizing the loss which we, his family and the State have suffered, we beg leave to submit the accompanying resolutions.

Respectfully submitted,

B. F. THURMAN, Chairman;  
WM. H. ENNIS,  
J. R. BROCK.

The following resolutions were read and adopted, to wit

By Mr. Ennis of Floyd—

Resolved by the House of Representatives, That in the death of the Hon. W. A. P. Lowe the Legislature of this State and the State at large, has sustained a loss which is almost irreparable.

Resolved further, That we extend our sympathies to the bereaved family of the deceased, and that we deeply feel that their loss is also ours.

Resolved further, That a page of the Journal of this House be dedicated to his memory, upon which shall be inscribed his name, date of birth and death.

Resolved further, That a copy of these resolutions, as a mark of respect, be engrossed and transmitted to the family of the deceased, and as a further mark of respect, that when this House adjourn this evening it stand adjourned until ten o'clock Monday morning.

Mr. Slaton, chairman of the committee to draft resolutions on the death of Hon. W. R. Welch of Gilmer, submitted the following report and accompanying resolutions:
Mr. Speaker:

The committee appointed to draft suitable resolutions upon the death of Hon. W. R. Welch, late Representative from Gilmer county, submit the following report:

Hon. W. R. Welch was born in Waynesville, North Carolina, on the seventh day of August, 1829. Since the year 1850 he has lived in Ellijay, in Gilmer county, where he died on the 19th day of June, 1904. During the civil war he made a brave and courageous Confederate soldier. By the people with whom he lived for more than one-half a century, he was elected to serve in the House of Representatives for the terms 1878-1879, and 1901-1902, and 1903-1904-1905. While in the midst of his service to his country and State, in the enjoyment of the confidence and affection of his people, he was taken by "Him who doeth all things well."

Your committee emphasizes the long residence of Mr. Welch in one locality. He had seen the progress and development effected by time, the old regime before and the changes after the great civil conflict, generations had risen and passed away, and when he died his eyes rested upon those scenes which he had beheld over five decades before. He was measured not by his protestations, nor by isolated acts, but by the surer and more accurate judgment of those who had known him during all the years from the time of his youth until age had bent his form and whitened his hair. No more glorious recollection could be left to his loved ones than the frequent evidences of confidence and esteem manifested by those who knew his life and career.

In the House of Representatives, until sickness prevented, he was found always in his seat performing the duties of his office and displaying in his speech the
thought, conservatism and conscientiousness which marked his course as a legislator; therefore, be it

Resolved first, That the House of Representatives learn with sorrow of the decease of our late colleague and friend, Hon. W R. Welch. In his loss this House loses a loved and worthy member, and the State loses a valued officer and citizen.

Second, That the sympathy of the House is extended to his bereaved wife and family

Third, That a copy of these resolution be recorded in the Journal of the House, and a copy be sent to the widow of our deceased member.

Fourth, That as a mark of respect to his memory this House do now adjourn.

Respectfully submitted,

JOHN M. SLATON of Fulton,
D. C. DAVIS of Fannin,
W M. JONES of Pickens.

Mr. Spence, chairman of the committee to draft resolutions on the death of Hon. R. B. Johnson, of the county of Clinch, submitted the following report

Mr Speaker:

HON. ROWAN B. JOHNSON,

a member of this House, died in Clinch county, Ga., on Sunday, June 19, 1904. He was one of the oldest and most highly respected members of this body, and was just putting his affairs in order preparatory to attending the Summer Session of the Legislature, when he was seized with a disease of the heart, which carried him off.

The deceased was born in Clinch county, November 29, 1830. He had always lived there. What schooling he received, was in her limits, and he pursued no other vo-
cation than that of farming. His conversatism, and his saving common sense, brought him into prominence. At one time he occupied the position of judge of the inferior court, and afterwards was justice of the peace. He had an abiding interest in public affairs, was a Democrat by conviction, and was often selected to represent his people in conventions of the party, and in the General Assembly of the State.

The even tenor of his life was broken during the time of the war, and Captain Johnson, enlisting in the service of the Confederate States, was placed in command of a company. He served through the four years gallantly and faithfully, and after the war returned to the peaceful pursuits of the farm. He was one of the sturdy workers in the upbuilding of his section, was a friend to education, and a promoter of every interest which made for the progress of his State and county. He was a leader of men, and more than once was a member of this body, where he was noted as a strong, sincere and honest man, rarely occupying the time of the House by remarks of his own, but never swerving from what he believed to be his duty and the right.

Captain Johnson is survived by his wife and four children. He was a member of the Primitive Baptist church, and his last act was to introduce and advocate a measure regulating and restricting the practice of carrying deadly weapons. This House misses his services and companionship, and mourns the loss of a modest and faithful member; therefore be it

Resolved, That in the death of Captain Rowan B. Johnson, a Representative from Clinch county, this State has been deprived of the services of a good and true man, and an experienced legislator.

Resolved further, That we tender to his family and to his people our sympathy in their deep bereavement.
Resolved further, That a copy of these resolutions be sent to his widow, and that they also be published in the “Clinch County News.”

Resolved further, That these resolutions be spread upon the minutes of the House of Representatives, and that as a further mark of respect to our deceased colleague, this House do now adjourn.

J. M. SPENCE, Chairman,
E. C. BUTTS,
PLEASANT A STOVALL.

On motion of Mr. Reid of Campbell, the reading of the Journal of yesterday's proceedings was dispensed with.

By unanimous consent the following bill was read the first time, to wit:
By Mr. Morris of Cobb—

A bill to amend the charter of the town of Powder Springs.

Referred to Committee on Counties and County Matters.

The following resolution was read and referred to the Committee on Rules, to wit:

By Mr. Howell—

A resolution to make Senate Bill No. 236 the special order for this morning.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr. Speaker:

The Senate has passed by the requisite constitutional majority the following Senate bills, to wit:

A bill to amend Act requiring the Commissioner of Agriculture to establish a special department of horticulture and pomology.

A bill to amend section 3 of an Act amending the Act to create a Prison Commission for Georgia.

A bill to amend an Act to create a city court in the county of Hall.

A bill to incorporate the city of Hartwell.

A bill to remove the office of State Geologist from the capitol to site of the University of Georgia.
The Senate has adopted the following Senate resolution, to wit:

A resolution to destroy by burning certain bonds and coupons which have been paid and canceled.

The Senate has passed by the requisite constitutional majority the following bills of the House, to wit:

A bill to authorize the County Commissioners of Coweta county to pay officers of court fees in certain misdemeanor cases where convicts are worked on the county chain-gang.

A bill to provide a mode of registration of voters in municipal elections in the city of Augusta.

A bill to repeal Act amending charter of Augusta, approved December 17, 1902.

The Senate has concurred in the following House resolution, to wit:

A resolution to appoint a joint committee to consider whether or not the General Assembly shall visit the Louisiana Purchase Exposition.

Committee from Senate Mr. J. Rice Smith.

The Senate has passed, as amended, by the requisite constitutional majority the following bills of the House, to wit:

A bill to revise the election laws of this State, and for other purposes.

A bill to amend the charter of the town of Canton.
The Senate has concurred in House amendment to the following Senate bill, to wit:

By Mr. Buchannon of Early—

A resolution to fix local contested bills for the special order for next Thursday.

On motion of Mr. Rainey of Terrell, the afternoon session was extended for three minutes for the purpose of passing a local Senate Bill.

Mr. Calvin, a member of the Committee on Rules, submitted a minority report, as follows:

Mr. Speaker:

Referring to the report of a majority of the Committee on Rules just submitted to the House, the undersigned directs attention to the fact that exclusive of this day, August 2, but eight days of the session remain. Adjournment sine die of this General Assembly is at hand, and yet there are on the Clerk's desk two hundred or more general bills, which have been ready for a third reading for weeks. Every one of those bills represents in a measure the energy and the faithfulness of the introducer. During the past forty days not exceeding 12 general bills have been passed—local bills are not entitled to any place
in writing the record of the House as to work done for the reason that they are, as a whole, disposed of on Saturdays.

Every bill on the calendar is entitled to be heard—to be passed upon by the House. The authors of the various bills have performed their duty in pushing them through the committees; the House should do its duty. A number of the gentlemen on this floor, deeply interested in the calendar, are, like Moses of old, slow of speech, and have been patiently biding the time when the bills in which they respectively feel an interest will come in regular order. They have waited in vain in the presence of special orders.

The undersigned urges that no more special orders be granted, and the House demand the regular order, which will promptly bring up every bill on the calendar.

In order to the proper dispatch of business, debate should be restricted to reasonable limits on every bill.

When a bill comes up, let the introducer or the Chairman of the committee or other member (if the introducer prefer) be given ten minutes in which to explain the bill. If any member be desirous to oppose the bill, let him have ten minutes. Thereupon the previous question should be deemed to have been called and the call sustained and the main question ordered to be put. If no member should wish to antagonize the bill, then the previous question shall be deemed called and sustained and the main question ordered put.

By adopting this procedure, every bill on the calendar can be passed upon by the House.

In addition to the morning and afternoon sessions of the House, there should be night sessions each night the
remainder of the time, beginning to-morrow, Tuesday night. To this end, I suggest the adoption of the accompanying resolutions.

Respectfully submitted,

MARTIN V CALVIN.

Mr. Morris, chairman ex officio of the Committee on Rules, submitted the following report:

Mr. Speaker:

The Committee on Rules have had under consideration House Resolutions 658, 654, 639 and 663, which they recommend "do pass." And that each be made a special order for this afternoon's session immediately after roll-call in the order above given.

Respectfully submitted,

N. A. MORRIS,
Chairman.

C. J. WELLBORN, JR.,
Chairman.

The following resolution was read and adopted, to wit:

By Mr. Felder of Bibb—

A resolution instructing the committee of the whole to vote upon and report the boll weevil bill at once.

The Speaker again resolved the House into a committee of the whole, and Mr. Deal of Bullock took the chair.

After a consideration of the bill the committee arose, and through their chairman reported the bill back to the House with the recommendation that it do pass as amended.

The following amendments offered by the committee were adopted, to wit:

To amend by striking all the words after the word "exist" in section 17, to the word "without" in line 6 of said section.

To amend section 20 by adding after the word "best" the following: "But in the event said material should be ordered destroyed the owner shall be compensated as now provided by law in cases where property is condemned for public use."

To amend by adding after the words "per annum," in section 1, line 6, the words "for two years" in lieu thereof.
To amend section 21, line 4, by striking the words "any farm or plantation," and substituting in lieu thereof the words "said infested field or fields."

To amend further by inserting in line 5 of section 21, after the word "premises," the following words: "Before the same has been properly fumigated or treated."

To amend section 21 by adding, "when the State Entomologist is called upon to destroy cotton, or any part thereof, in any field that is infested with boll weevil, the value of said property shall be ascertained in the same manner as now provided by law for ascertaining the value of private property that is condemned or taken for public use."

To amend section 15 by adding after the word "be," in line 4 of said section, and inserting in lieu thereof "punished as provided by section 1039 of the Code of Georgia of 1895."

To amend by prescribing the punishment as provided by the Code of Georgia of 1895, wherever it occurs in said bill, it is provided punishment as for a misdemeanor.

To amend section 17, line 1 by adding between the words "no" and "hay" in said line, the word "oats."

To amend section 3, line 6, by striking "fifteen thousand" and insert in lieu thereof the words "seven thousand five hundred."

On the adoption of the above amendment Mr. Miller of Muscogee, called for the ayes and nays, which call was sustained, and on taking the ballot 

\textit{viva voce} the vote was as follows:
Those voting in the affirmative were Messrs.—

| Almond,   | Gross,   | Paulk, of Irwin, |

The undersigned members of the Conference Committee to confer with a like committee to adjust differences between the House and Senate on House Bill No. 905, submitted the following report:

Mr. Speaker:

The Conference Committee on the disagreeing votes of the Senate and House on the Senate substitute to House Bill No. 905, have had the differences under consideration, and have agreed to recommend, and do recommend, that the House recede from its disagreement to the Senate substitute, and agree to the same with the following amendment:

Strike out all of section 1 of the substitute after the word "Legislature," in the 11th line, and insert in lieu thereof the following, to wit: "Only in the respect that they shall, in the order named, exercise the executive powers of the government until such disability be removed, or a successor is elected and qualified. In case of death, resignation or disability of the Governor, the President of the Senate and the Speaker of the House of Representatives, the Secretary of State, the Attorney-General and the State Treasurer, shall, in the order named, exercise the executive powers of the government until such disability be removed, or until the election and qualification of a governor," so that said paragraph, when amended shall read as follows:

"Paragraph VIII. In case of the death, resignation or disability of the Governor, the President of the Senate
shall exercise the executive powers of the government until such disability be removed, or a successor is elected and qualified. And in case of the death, resignation or disability of the President of the Senate, the Speaker of the House of Representatives shall exercise the executive powers of the government until the removal of the disability, or the election and qualification of a governor. If death, resignation or disability of the governor should occur after the election of a new Legislature and prior to the organization of the same, the President of the last Senate and the Speaker of the last House of Representatives shall, nevertheless, continue to hold their offices as such President of the Senate and Speaker of the House of Representatives until the assembly and organization of the new Legislature, only in the respect that they shall, in the order named, exercise the executive powers of the government until such disability be removed, or a successor is elected and qualified. In case of death, resignation or disability of the governor, the President of the Senate and the Speaker of the House of Representatives, the Secretary of State, the Attorney-General and the State Treasurer shall, in the order named, exercise the executive powers of the government until such disability be removed, or until the election and qualification of a governor.

And that the Senate accept said amendment to said substitute.

*Mr. Speaker:*

The Committee on Rules have had under consideration House Resolution 669, as to the payment of the per diem and mileage of deceased members of this body, and recommend that the same do pass, and that the resolution be made a special order for ten o'clock to-morrow (Friday) a. m., thirty minutes' time being given.

Respectfully submitted,

N. A. MORRIS,
*Ex officio* chairman.
The undersigned members of the committee to investigate and report upon the juvenile convicts of this State, submitted the following report:

To the Senate and House of Representatives:

The undersigned, the committee appointed under a joint resolution of the Senate and House, known as House Resolution No. 460, beg leave to submit the following report:

1. Your committee, through the investigations they have been able to make, report the number of convicts in the State of Georgia under the age of sixteen to be approximately one hundred and twenty-five (125). Of this number about one-third are white and the balance are negroes. There are no white females, and the number of colored females will not exceed ten or twelve. Twenty-five of the juvenile convicts are felons, and are located on the prison farm, the balance being misdemeanors are confined in the various local chain-gangs of the State.

2. Your committee is of the opinion that the sum of eighteen thousand ($18,000) dollars will be a sufficient and proper amount with which to purchase a necessary site for a reformatory adequate to accommodate the class of convicts proposed, and to construct the necessary buildings and equip the same.

The sum of ten thousand ($10,000) dollars will maintain and operate such a reformatory for the first year, and your committee is of the opinion that after such an institution is maintained for a short time by the State, it will be self-sustaining, and the State will not be called on for a dollar appropriation for maintenance.
3. Your committee believes it is practicable for the State to at this time establish a reformatory, or rather a juvenile prison farm with many of the reformatory features, and that the same should be done. There appears to your committee no valid reason why these infant criminals should be confined with those hardened in crime, and simple justice and humanity would seem to require that they should be kept separate.

4. Your committee, in accordance with the instructions contained in said resolution, drafted a bill looking to the creation of a State reformatory for juvenile criminals of the age of sixteen years and under, and early in the present session introduced the same in the House, where the bill is now pending, and known as House Bill No. 1056. While the measure proposed may not be perfect, your committee hopes that its main features will be approved by the General Assembly and finally enacted into a law.

Respectfully submitted,

T. S. FELDER,
WALTER E. STEED,
C. E. DUNBAR,
Committee on part of House.

GORDON LEE,
E. H. McMICHAIL,
Committee on part of Senate.

The following bills and resolutions, which were made the special order for this afternoon, were read the third time and put upon their passage, to wit:

The special joint committee to investigate the claims of the heirs of Sherman J. Sims, submitted the following report:

Mr. Speaker:

The committee appointed by a joint resolution of the House and Senate at the last session of the General Assembly, approved August 17, 1903, to investigate and report on the claims of the heirs at law of Sherman J. Sims against the State, submit the following report:

The committee met at Maysville, Ga., on May 20th last, and gave to the parties at interest and their counsel a full hearing. Under the authority given in the resolution witnesses were summoned, and all necessary papers required were produced. The investigation brought out the following facts:

The Northeastern Railroad was built about 1873, running through the dower lands of Mrs. Amanda J. Sims, the right of way for said road through said lands being in the town of Maysville, in the counties of Jackson and Banks. The widow, Amanda J. Sims, gave permission for said road to run through her said dower tract. At that time she had the following children, who owned the remainder interest in said dower, viz.: J. M. Sims, Joe S. Sims, Mrs. N. T. Lord, J. C. Sims, who were of age, and Sherman B. Sims, Richard B. Sims, Amanda E. Sims, Chas. H. J. Sims, who were minors. It appears
that the widow, Amanda J. Sims, did not object to the railroad having a right of way through her dower, but we were unable to find any conveyance from her on record. We did find on record a bond for title, made by the heirs of Sherman J. Sims, who were of age, in which they agreed to make titles, or cause the minor heirs of said Sims to make titles, to the Northeastern Railroad to a strip of land described for a right of way. A copy of said bond is hereto attached and made a part of this report. It appears that the bond was never complied with, and that the minor heirs refused to make a deed conveying the strip of land used as a right of way by the railroad.

Later the Northeastern Railroad became the property of the State, and this matter having been brought to the attention of Governor Atkinson, a deed was secured from the heirs of Sherman J. Sims to said Northeastern Railroad Company conveying said strip of land 100 by 3,350 feet, the consideration being a life pass over said road to each of the grantors. This deed was executed on the 9th day of April, 1895, a copy of which is hereto attached and made a part of this report. At the same time Governor Atkinson issued a life pass over the road to each of the parties named in the deed. While the State owned and operated the road these passes were always honored by the officials in charge of the road.

The road was finally sold by the State, the Southern Railway becoming the owner. These heirs presented their passes to the officials of the Southern Railroad, but they refused to honor them and ejected one of them from the train.

The Southern Railway claims to have purchased the Northeastern Railroad without any knowledge of these outstanding passes, and that they got a fee simple title to
the property, and that they are not bound to honor these passes.

The strip of land for said right of way when conveyed to the Northeastern Railroad, then owned by the State, was lying in the town of Maysville and was valuable; variously estimated by witnesses who appeared before the committee at from one to three thousand dollars. These heirs accepted the life passes in full payment of the same. These passes are now of no value to said parties. The State has sold the strip of land conveyed by said heirs in consideration of the passes. The State having received this benefit these heirs should be compensated by the State for the loss of these passes, lost by no fault of theirs.

The committee recommends that a resolution be introduced in the House authorizing the Governor and Attorney-General to make a proper, just and equitable settlement with said heirs on the basis of the value of said life passes.

Respectfully submitted,

L. G. HARDMAN,
E. H. GEORGE,
THOS. J SHACKELFORD,
Committee from House.
T L. LEWIS,
Committee from Senate.

STATE OF GEORGIA, JACKSON COUNTY:

On the motion to reconsider the ayes were 57, nays 82.

The motion was therefore lost.

- The following resolution was read and adopted, to wit:

By Mr. Calvin of Richmond—

A resolution providing that the General Assembly meet in joint session to listen to the addresses of General Fitzhugh Lee and Hon. John Goode next Tuesday afternoon.

Mr. Franklin of Washington, made the point of order that under the rules of the House debate on the report of the Committee on Rules was permissible.
The Speaker ruled that under Rule No. 168 debate was not permissible, as it would be an infringement of the rules of the House.

From the above ruling of the Chair, Mr. Franklin of Washington, appealed.

On being put to the House, the ruling of the Chair was sustained by a vote of 106 to 2.

Mr. Morris, chairman pro tempore of the Committee on Rules, submitted the following report:

Mr. Speaker:

Your Committee on Rules has had under consideration House Resolution No. 691, and recommend that the same do pass as amended.

Also resolution No. 702, to provide for the pay of deceased members.

Also resolution No. 689, and recommend that same do pass, and the previous question be called on each bill in ten minutes.

MR. MORRIS,
Chairman pro tempore.

Agreed to.

The following resolutions, favorably reported by the Committee on Rules, were read and adopted, to wit:

By the Committee—

A resolution fixing resolutions to pay per diem of deceased members for immediate special order.
By Mr. Hall of Bibb—

A resolution to appoint committee to expedite the business of the House.

By Mr. Underwood of White—

A resolution to make House Bills Nos. 1069, 1121 and 1090 to follow special orders already set.

By Mr. Spence of Ware—

A resolution authorizing the treasurer to pay the per diem and mileage of Hon. R. B. Johnson of Clinch county.

An appropriation being involved the Speaker resolved the House into a committee of the whole and designated as chairman Mr. Harden of Chatham.

After a consideration of the resolution the committee arose and through their chairman reported the resolution back to the House with the recommendation that it do pass as amended.

The committee proposed to strike the word "administrator" and insert in lieu thereof the word "widow."

The report of the committee was agreed to as amended.

On the passage of the bill the ayes and nays were ordered, and on taking the ballot *viva voce*, the vote was as follows:

Mr. Dunbar, Chairman of the committee to look into and report on advisability of the Legislature visiting the Louisiana Purchase Exposition, submitted the following report:
To the Senate and House of Representatives

Your committee appointed under joint resolution 641, respectfully report, that in pursuance of their instructions under said resolution, they have ascertained that the General Assembly, through the courtesy of the Western & Atlantic and the Louisville & Nashville railroads, would be furnished with a special complimentary train from Atlanta to St. Louis and return, for the transportation of the members and officers of the General Assembly only. This train would be furnished at any time from Saturday, August 6, to Tuesday, August 9, that the General Assembly may desire. A special train would be furnished with Pullman car accommodations.

This train would be at the disposal of the General Assembly, for this trip, for four days, or so much of next week as the General Assembly may desire.

Your committee would recommend, that in the event that the General Assembly should determine to visit the Exposition at this time, that the days of absence from Atlanta should be declared dies non, so that no time may be taken from what remains for the consideration of legislation.

Your committee believes that if the General Assembly should decide to make this visit, that its presence at the Exposition, taken in connection with the State's exhibit there would be a great advertisement for the State of Georgia, as well as an occasion of pleasure and instruction to the members and officers of the General Assembly.

Respectfully submitted,

J. RICE SMITH,
Committee on part of Senate.

C. A. DUNBAR,
WALTER E. STEED,
Committee on part of House.

By unanimous consent the verification of the roll-call was dispensed with.

On the adoption of the Senate substitute the ayes were 20, nays 117.

The substitute was therefore lost.

The following Senate resolution was read and adopted, to wit

By Mr. Ledford of 40th district—

A resolution asking the House to return House Bill No. 1088 for further consideration.

Mr. Steed of Taylor, chairman of Committee on Penitentiary, submitted the following report:

Mr. Speaker:

Your Committee on Penitentiary has, through its subcommittees, visited the various camps hereinafter referred to by the following report of these committees:

The reports show that the various camps examined and inspected were found to be in good condition, and that the law regulating the treatment of convicts has been generally complied with, except that at Ensign Camp, at Willingham and Bibb County Camps (the condition of the latter having heretofore been referred to by the report of
the special committee, and the attention of the Prison Commission called to the same); the conditions were not up to the regulations and requirements.

The general committee calls attention to the recommendations made by the subcommittees to these camps and respectfully asks that the same be immediately complied with, and that the recommendations made as to the other camps and their inmates in the following reports of subcommittees be given prompt attention, and that such action be taken on the matters therein referred to, as justice and humanity demand.

On account of the additional number of felony camps created by the amendment of 1903, made to the Act creating the Prison Commission, and operating under the management of the county authorities, being thirty or more in number, and located in as many counties, the committee finds it impracticable and well-nigh impossible to visit and inspect all of these new camps during the limited time the Legislature is in session. The committee therefore suggests and recommends that hereafter the various county convict camps be visited during the interim between the regular sessions of the General Assembly.

Respectfully submitted,

WALTER E. STEED,
Chairman.

To the Hon. W. R. Steed, Chairman of Penitentiary Committee of House:

We, your subcommittee appointed to inspect that part of the State penitentiary at the State Farm, submit the following report:

We visited the farm on July 15, 1904, and made such
an examination and inspection of the same as the limited
time at our command would permit.

We found incarcerated there the following number:

We found 40 in hospital unable to do manual labor, 172 able to do good work. We found the camp in excellent condition, under the efficient management of Supt. A. B. Coombs, who fills the responsible position well. We found the farm in a high state of cultivation with 1,000 acres planted in cotton: 1,000 acres in corn, with peas in each row, with 250 acres of ground-peas planted in middle of rows, 60 acres sorghum; 3 acres sugar-cane; 2 acres broom corn; 600 acres peas broadcast; 50 acres potatoes; 25 acres garden; 15 acres melons.

We found the farm made 1,500 bushels of wheat this year; oats enough to supply the farm. We found 225 head of cattle in good condition; 297 hogs in fair condition; 66 mules in good shape; 4 horses in fair condition; 4 mule colts, all of which is hereby respectfully submitted.

J. T. PARKER, Chairman;

Atlanta, Ga., August 4, 1904.

Mr. Steed, Chairman of Penitentiary Committee

Your committee, appointed to inspect the convict camps in Walker county, have performed that duty and beg leave, through me, their chairman, to submit the following report:

We found at the camp of the Durham Coal & Coke Company one hundred and ninety (190) convicts engaged in the mining of coal. The camp and surroundings were neat and clean, there was no unusual amount of sickness at the camp, nor any apparent reason for the same.

At the camp of the Lookout Coal & Coke Company there was ninety (90) convicts engaged principally in the mining of coal. Sanitary conditions surrounding this camp were also excellent. We believe the management of these two camps to be in humane and capable hands.

Respectfully submitted,

J. R. BROCK,
Chairman sub-committee.

To. Hon. W. E. Steed, Chairman of the Penitentiary Committee of the House:

Your sub-committee appointed to visit the State camps at Jakin, Blakely, Babcock and Saffold, beg to submit the following report:

1. We find the camp at Blakely in a first-class condition, in charge of Captain Tison. We recommend the pardon of one Tom Smith, a colored convict, who is under a sentence of — years; has already served —. He has been subject to periodical fits for some time, and during one of these fits fell into the fire and so severely
burned his leg that the member has in consequence become practically useless—as well as a matter of increasing pain. We believe, in the interest of humanity, that a pardon should be granted, and by so doing we believe justice would be fully satisfied. His behavior report good. We found no sick.

2. We beg to report that we visited Jakin and found the camp in excellent condition, under Captain Harvard. We find there a total of 46—12 whites and 34 colored. No sick.

3. We visited Saffold and found same in good condition, under Captain Bynum. We found a total of 42—3 white men and 39 colored. No sick.

We recommend the pardon of Bryant Wooten, an aged white man, who was sent up for forgery and given eight years. He has served about five, and has a badly swollen foot, which practically unfitizes him for manual labor. His behavior is reported good.

4. We also visited Babcock and found the camp in excellent condition. We desire especially to commend the lessees at this camp for the excellent quarters and housing of the convicts, which is, perhaps, one of the best in the State. Captain Jackson is in charge. We find there a total of 107—18 whites and 89 colored. No sick.

5. We find the health in all these camps good. We find fairly good hospital rooms in each. We find that the whipping record is fairly low, and have seen no evidence of any cruel treatment. We find the convicts cheerful and without complaint.

Respectfully submitted,

BYRON BOWER, Chairman.
JULIAN McCURRY,
JAS. H. BOYKIN.
To the Hon. Walter E. Steed, Chairman Penitentiary Committee House of Representatives of Georgia, Session 1904:

Your sub-committee appointed to visit and inspect the convict camp of Jackson county, have discharged that duty to the best of our ability, and report as follows:

We found felony convicts, male, 19; misdemeanor convicts, male, 8; total 27. We found one sick felony convict, although convalescent. There had been no deaths, nor any escapes, nor serious accident since April 1st, when camp was organized. Camp was perfectly clean, and convicts seemed to be well cared for in every respect. Physician employed regularly.

Respectfully submitted,

C. M. BOOTH, Chairman;
J. H. DERRICK,
L. G. FOSTER.

To the Honorable W E. Steed, Chairman of Penitentiary Committee:

The sub-committee appointed by yourself to investigate the convict camp located in Coweta county, beg leave to submit the following report:

We find twenty-four (24) male convicts, all colored, located at this camp, all of whom are daily worked upon the public roads of the county. Twenty-two (22) of said convicts were convicted of felonies, and two (2) of misdemeanors.

Since the establishment of the camp in April last, there have been six escapes, all occurring at same time. Five of these escapes have been recaptured and returned to work, the sixth one still being at large. No sickness of a
serious nature has prevailed, the services of physician being in demand but few times. The sanitary conditions, as far as we were able to ascertain, are of a most excellent nature. The camp, which is portable, is not allowed to remain in one place for a longer period than thirty days. We believe this frequent change of location to be conducive to the health of these unfortunates, as very little refuse matter can accumulate in so short a period of time, even under adverse conditions.

The requirements of law, and the rules laid down by the Prison Commission, in regard to clothing, diet, sleeping apartments, etc., we think have been fully met and complied with.

The county owns and operates a county farm, from which a variety of vegetables are procured for the convicts. A sufficient quantity of fresh vegetables and fruits we consider indispensable to the health of our convicts, especially during the summer months.

Of the twenty-four convicts here confined, only one is beginning to show the marks of old age. The average age of the remaining twenty-three is twenty-three (23) years.

After making as thorough an investigation of the camp and its surroundings as possible; after conversing with the prisoners themselves; after interviewing citizens not directly interested in carrying out the provisions of the convict law, we believe, as before stated, that the county authorities have met and discharged the obligations imposed by law.

Respectfully submitted,

E. N. DOZIER, Chairman;
J. B. SANDERS,
S. S. GAULDEN.
To Hon. W E. Steed, Chairman Penitentiary Committee:

Your sub-committee appointed for the purpose of visiting some of the convict camps in South Georgia, submits the following report:

We visited two camps in Albany, one managed by Messrs. Cruger & Pace, and the other by the county of Dougherty. We found the sanitary conditions of both camps very good. The lessees, in our judgment, have complied with the law in every particular and we have no recommendation to make touching these camps.

ENSIGN CAMP AT WILLINGHAM, IN WORTH COUNTY.

This camp we find is under the management of Messrs. R. J. Corbett & Co. No complaints were made to us as to fare, tasks, clothing, etc. We find that at this camp there is no accommodations for inmates eating their food, except out of buckets and standing while eating. The committee requests that a shelter and tables be immediately made at this camp. A shelter should also be placed over the cooking department, as the cooking is done in the open air.

KEOLIN, WORTH COUNTY.

Under management of T J. Pinson, we regret to say that the bedding at this camp is very poor and should be remedied at once. We found the rations furnished in sufficient quantities, well prepared, with the exception that when syrup is furnished the rations of meat is cut to half the quantity. This should not be allowed to occur again. In every other instance the law, we believe, is complied with.

OAKFIELD, IN WORTH COUNTY, MANAGED BY THE LESSEE, LENT HALL.

In every way the law is fully complied with, the
JOURNAL OF THE HOUSE.

bedding here is very good. In fact, this was one of the best camps visited.

Respectfully submitted,

ED. R. JONES, Chairman;
J B. SANDERS.

Mr. Mulherin, chairman of the committee appointed to investigate and report to the House as to the difficulty on yesterday, submitted the following report:

Mr. Speaker:

Your committee, after reviewing the facts of the unfortunate difficulty in the House on Tuesday, August 9th, between Mr. Franklin of Washington, Mr. Albert Maples, the assistant doorkeeper, and the member from Mitchell, Mr. Israel Maples, has reached the following finding:

1. That Mr. Franklin of Washington, in his anxiety to enter the clerk's room and summon absent members to vote on the Judgeship Salary Bill, had no intention of violating the rules of the House, or ignoring the orders of the Speaker. This was an important matter, and we consider that his efforts to get out a full vote were so far praiseworthy. But your committee finds, that when he was denied exit from the House by the doorkeeper, Mr. Franklin acted with undue haste, under the excitement of the moment, and in so acting, precipitated the difficulty which ensued. Therefore your committee finds Mr. Franklin guilty of conduct unbecoming a member of the House.

2. Your committee finds from the evidence submitted that the conduct of the doorkeeper, Mr. Albert Maples, in defending the door, under the explicit and peremptory orders of the Speaker, of force at the time, was entirely justifiable and commendable. But after the combatants had been separated, your committee finds the efforts of the doorkeeper to continue the fight improper for an employee of the House.

3. Relative to the conduct of the member from Mitchell, Mr. Israel Maples, your committee recognized
the natural impulse of a father to rush to the defense of his son, but finds that the efforts of Mr. Maples to continue the struggle on the floor of the House, after the combatants had been parted, were blamable.

4. Each one of the participants has appeared before the committee and has expressed his sincere regrets at the occurrence, and his assurance of entire respect for the rules of the House.

Wherefore, your committee suggests that the three parties be permitted to come before the bar of the House and make public and due apologies for their conduct of yesterday; and upon their so doing, and in view of the lateness of the session, no further action be taken by this House relative to the members involved.

Your committee further recommends that the assistant doorkeeper, Mr. Albert Maples, be reinstated.

P M. MULHHERIN, Chairman;
P A. STOVALL,
J. A. HIXON,
T S. FELDER,
W A. KNOWLES.

The foregoing report of the committee to adjust certain differences between Mr. Franklin of Washington, and Mr. Maples of Mitchell, and his son, one of the doorkeepers of the House, was adopted on motion of Mr. Fields of Dooly, as being the sense of this House.

Mr. Fields of Dooly further moved that the apologies of the gentlemen involved be accepted by the House, which motion prevailed.

Mr. Akin of Bartow, moved that the thanks of the House be tendered the committee for having so satisfactorily and peacefully adjusted the matter of difference
between the above named gentlemen, which motion prevailed unanimously.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr. Speaker:

The Senate refuses to recede from its substitute to the following bill of the House, to wit:

A bill to provide for the assessment of property of corporations which are required to make returns to the Comptroller-General of this State, and asks that a committee of conference be appointed.

Committee on part of the Senate: Messrs. Hopkins, Mathews and Skelton.

Mr. Cann, chairman of Committee on Railroads, submitted the following report:

Mr. Speaker:

The Committee on Railroads instruct me, as its chairman, to report back Senate Bill No. 195, with the recommendation that the same be read a second time and recommitted.

Respectfully submitted,
J. FERRIS CANN,
Chairman.

The following message was received from the Senate through Mr. Northen, the Secretary thereof:

Mr Speaker:

The Senate has appointed Messrs. Hopkins, Davis and Jordan as a conference committee on the part of the Senate upon the following bill of the House, to wit:
A bill to make appropriations for the ordinary expenses of the Executive, Legislative and Judicial Departments of the government, and for other purposes.

The Senate has agreed to the House amendment to Senate Amendment No. 16 to said bill.

The Speaker announced the following committee of conference, to confer with a like committee from the Senate on Senate amendments to House Bill No. 186, which is a bill to require the assessment of corporations which are now required by law to make returns to the Comptroller-General: Messrs. Hall, chairman; Candler, Aiken.

The Speaker announced the following committee of conference on the differences existing between the House and Senate on Senate amendments to the General Appropriation bill: Messrs. Davis, West, Steed of Taylor.

On motion of Mr. Davis of Meriwether, the General Appropriation Bill was again taken up for the purpose of considering the amendments of the Senate, which the Senate refused to recede from.

The House agreed to recede from its position and concurred in Amendments Nos. 1, 3, 4, 6, 6½, 9, 9½, 18.

The House insisted on its non-concurrence to Senate amendments Nos. 7, 8 and 13.

The House also insisted on its amendment to Senate Amendment No. 16.

The bill known as the "Australian Ballot Bill," was taken up for the purpose of acting on the Senate amendments to said bill.
Mr. Kelly proposed to amend section 22 of House bill known as "Ballot Reform Bill," by striking all of the Senate amendment to said section and inserting in lieu thereof a substitute to be known as section 22.

On the adoption of the substitute offered by Mr. Kelly of Glascoock, which proposed a substitute for section 22 of the "Australian Ballot Bill" in lieu of the amendment offered by the Senate for section 22, the ayes and nays were ordered, and on taking the ballot *viva voce*, the vote was as follows:

Those voting in the affirmative were Messrs.—

Mr. Davis, Chairman of the Conference Committee to adjust differences between the House and Senate on certain amendments to the General Appropriation Bill, submitted the following report:

Atlanta, Ga., August 10, 1904.

Mr. Speaker:

The Conference Committee on the part of the House to consider the disagreements between the House of Representatives and the Senate, submit the following report:

Your committee recommends that the House of Rep-
representatives recede from its disagreement to the Senate amendment providing for an appropriation of Twenty-five Hundred Dollars to the Trustees of the University of the State to be expended for the conducting of Farmers' Institutes.

House refused to recede.

Your committee further recommends that the appropriation for the State Sanitarium be increased by inserting the sum of Three Hundred and Thirty-seven Thousand Dollars instead of Three Hundred and Thirty Thousand Dollars, this amount first stated being agreed on by the two Conference Committees.

House adopted.

Your committee further reports that it has been unable to arrive at an agreement with the Senate Committee regarding the appropriation for common schools, and recommend that the House refuse to recede from its position in disagreeing to the Senate amendment seeking to reduce this appropriation to Nine Hundred Thousand Dollars.

House adopted.

Your committee asks to be discharged and another Conference Committee be appointed to consider the matter of disagreement between the House and Senate on the above stated appropriation.

House adopted.

Respectfully,

CHAS. L. DAVIS, Chairman;
W. S. WEST,
WALTER E. STEED.

Atlanta, Georgia,
Thursday, August 11, 1904.

The House met pursuant to adjournment at 9 o'clock a. m., this day, was called to order by the Speaker, and opened with prayer by the Chaplain.

The following prayer was offered by the Chaplain:

Oh, Lord, our God, our Father and our Friend. We come to Thee this last day of our session with grateful hearts for the loving kindness and the tender mercies Thou hast showered upon us during these weeks and months and years we have been together. Thou hast walked with us through the dark places and upheld us by Thy strong and mighty hand. As little children come to their fathers, so would we come to Thee—with humility, love and trust. We pray Thee to bless the work we have done and may it redound to Thy glory and the good of our people. Bless these Thy servants as they separate to-day—many of them forever. Grant that their future may be prosperous and useful and may their hearts be filled with peace. Crown their last days with honor and happiness, and as we fall one by one into the silence of death may we have the consciousness of Thy grace and Thy pardoning love, and when our work is all done and our trials past, give us each a place in the "house not made with hands eternal in the heavens" and we will praise Thee evermore, through Jesus Christ our Redeemer, Amen.

The roll was called and the following members answered to their names:

At the invitation of the House the following farewell poem by Representative Grenade, of Wilkes, was read to the House by the author:

Our work is done; now let us rest,
For every Mann has done his best;
In Rainey weather, or in dry,
From duty's post we did not fly,
But did such work at hist'ry makin'
As sets our hearts and souls to Akin.
Our Carr of progress was not slow,
Our mettled Steeds ne'er failed to go;
Our Walkers, too, with lively pace,
Were never laggards in the race.
From southern plains to northern hills
Our Millers true, with faithful Mills,
Have proven Wise in every Deal,
And served the State some first-class meal.
From north to south, from east to West,
We've labored with an earnest zest,
With all our might, and all our main,
THURSDAY, AUGUST 11, 1904. 1013

We've followed on the one straight Lane.
From every mountain, cove and Glenn
All who Cann Reid know us as men
Who Foster what is just and right,
Who love the truth and seek the light—
As Moses at the burning Bush.
Awe-struck and meek with humble blush
His weakness felt, and asked for power.
So we, in spite of our right Bower,
Can't raise the earth to meet the sky;
To Harden Flynt we do not try,
Nor do we claim to gather yields
Impossible, e'en from our Fields.
Yet we Cann raise a Little Rice
And have a Cook to serve for Grice.
While Underwood and Maples thrive.
Long as the English tongue shall live
Good people all will still be Owen
Thanks for the work that we've been doin'
Now, while we claim to be Well-born,
With lives as clean as th' rosy morn,
In public trusts, or home affairs,
By George! we never put on Ayres.

The parting Bell's sad tones now fall,
We're loath to leave our much-loved Hall.
The welling tears bedim our sight
While we in sadness say; "good Knight."

Mr. Knowles, Chairman of the Committee of the W. & A. Railroad, submitted the following report:

Mr. Speaker:

Your Committee on Western and Atlantic Railroad instruct me, as its chairman, to submit the following report:

The Committee, through a sub-committee, made a most careful and thorough examination and inspection of all the property of the Western and Atlantic Railroad, which sub-committee made the report hereto attached, which is adopted and submitted as the report of the General Committee on Western and Atlantic Railroad.

W. A. KNOWLES,
Chairman.

To the Honorable Standing Committee of the House of Representatives on the Western and Atlantic Railway:

Your special sub-committee appointed to investigate the condition of the Western and Atlantic Railway, and the property of the State therein and thereto appertaining, respectfully submits the following report:

Your committee left Atlanta on Saturday morning August the 6th with schedule arranged so that the committee was enabled to give thorough inspection to all the property, the road-bed, track, right-of-way, the depots, and such of the bridges of the road as the committee desired.
We beg to report that we found the road in its entirety in first-class condition and that, so far as the committee could determine, the lessees are complying with the terms of the lease in every particular. All of the depots seem to be kept up in good shape and are in every particular in thorough keeping with the importance of the road and terms of the lease.

We note that, instead of the sixty-eight-pound rail with which the road-bed is laid, there is being rapidly substituted therefor eighty-pound rails, already fifteen miles have been laid, and the rest will be completed as soon as possible. The road, with the exception of ten miles cinder ballast, the entire road is being covered with limerock ballast from eight to twelve inches in thickness.

Respectfully submitted,

W. A. KNOWLES,
Ex officio Chairman.
