**STATE OF GEORGIA.**

Office of Secretary of State.

I, Philip Cook, Secretary of State of the State of Georgia, do hereby certify, that the attached eight pages of
printed and written matter contain a true and correct list
of the members of the State Senate for the session of
1905-6, as shown by the election returns of file in this
department.

In testimony whereof, I have hereunto set my hand
and affixed the seal of my office, at the Capitol, in the city
of Atlanta, this 15th day of October, in the year of our
Lord one thousand nine hundred and four, and of the
independence of the United States of America the one
hundred and twenty-ninth.

[SEAL]

Philip Cook,
Secretary of State.

June 28, 1905.

To the Senate:

I have the honor to transmit to your body certificate of
election of Hon. J. S. Alsobrook, to fill vacancy caused
by death of Hon. W H. Yeates, for the 44th Senatorial
District.

J. M. Terrell, Governor.

Atlanta, April 18, 1905.

His Excellency, the Governor

Sir: I have the honor to report to you, as per the elec­
tion return received and on file in this office, the follow­
ing named person, to wit:

Senator from the 44th Senatorial District, J S. Also­
brook, to fill vacancy caused by the death of W H. Yates.

Election held April 15, 1905.

Philip Cook, Secretary of State.

The foregoing official list was called to ascertain the
presence of a quorum. This having been done and a
quorum being present, the blessings of God was invoked
by the Rev. J. W. G. Watkins at the request of the Secretary. Senators-elect then presented themselves at the Secretary’s desk and took the prescribed oath of office, the same being administered by the Hon. B. D. Evans, Associate Justice of the Supreme Court.

The Secretary then announced that the next business in order was the election of a President of the body.

Whereupon Mr. Copeland placed in nomination Hon. C. M. Candler, of the 34th district, and was seconded by several.

Senator S. S. Bennet placed in nomination Hon. W S. West, of the 6th, and was seconded by several.

Mr. Steed placed in nomination Hon. B. S. Miller, of 24th district, and was seconded by several. There being no other nominations the roll was called and the vote was as follows:

The following is the Governor's message:
MESSAGE.

STATE OF GEORGIA, EXECUTIVE DEPARTMENT.
ATLANTA, June 28, 1905.

To the General Assembly:

The prosperity which has blessed our beloved State for several years not only shows no sign of diminishing, but to the contrary the promise of field, forest, mine and factory for this year is so bright that we may feel assured Providence has in store for us the most prosperous year within our history. The increase in the voluntary tax returns evidences most strongly the fact that the prosperous condition of the people is not confined to any particular class, but is felt and enjoyed by those of all occupations and callings. This increase of returns also attests an appreciation on the part of the tax-payer of the wise legislation enacted by your immediate predecessors, through which the rate of taxation has been materially reduced during the last two years. We should therefore put forth every effort to make such laws as will bring about a further reduction of the tax rate, and enact no legislation that may interrupt the prosperity which is so general throughout the State.

EQUALIZATION OF TAXES.

One of the most important questions that will come before you for consideration is that of taxation. Grow-
ing out of this question is the one that has always been difficult of solution, viz., the equalization of tax returns. Our present law upon this subject is substantially what it was when the first General Tax Act was passed over a century ago. The State has advanced in every other particular; but in the matter of valuing the mass of the property for taxation and in the machinery for its collection we adhere to this old law, which is unsuited to present conditions, and unjust to every honest tax-payer. The General Assembly has from time to time wisely amended the law so as to cover new subjects for taxation, but left the valuation of the property a matter almost entirely within the discretion of the tax-payer. He is the judge and the jury upon this great question which is of interest to every citizen. The fairer he is the more onerous his individual burden. This authority is not vested in the citizen upon any other question affecting his purse, whether it regards his dealings with the public, or with his fellow man. In all other cases he is disqualified, both as judge and juror.

In this connection I wish to repeat the following from my message of June 24, 1903: "The State, in effect, offers a premium to him who shirks instead of to him who willingly and cheerfully complies with the spirit of the law. This is wrong, unjust and inequitable, and can only be cured here, as it has been cured elsewhere, by the creation of County Boards authorized to examine returns, to see that omitted property is put on the books, and that property of the same kind and value is
assessed and taxed alike. But even this does not fully meet the difficulty, for what is true of two neighboring citizens may be equally true of two neighboring counties, or of those more remotely separated. Property worth a million dollars in one may be so returned, but property of an equally aggregate value in another county may be given in at half its value. Farming lands in one part of the State may be returned at one price, and in another at a very different price. Corporate property may be practically exempt in one part of the State, and highly valued or valued at full price, in another.

"These discrepancies and inequalities are not only in violation of the spirit of the law, but they diminish the State's income at the expense of those who live in the jurisdiction where full returns are enforced. The evil can be speedily corrected by the establishment of a State Board, under whose administration not one dollar of unjust tax will be imposed, but where the unequal burden will be taken from the county and individual now paying too much, and distributed equally among those who are paying too little."

While it would be the better plan to have in every county a Board of Assessors appointed by the county authorities, or elected by the people, whose duty it would be to value for taxation all the property in the county, and a State Board appointed by the Governor, or elected by the people, to value all property returned to the Comptroller-General, and to determine appeals from the various county boards throughout the State, I recognize
the many difficulties in the way of the passage of a measure making such a complete change in our system. The great evil of our present system is the voluntary return and the arbitration thereunder in case of a disagreement between the taxpayer and the Comptroller-General, or the Tax Receiver. In a large majority of such cases the State and the counties lose, for under this system there are necessarily as many standards of value as there are arbitrations. If it be impracticable to secure the legislation above outlined, it would accomplish much good and go a long way toward equalizing the returns to repeal the present arbitration law, and provide that in case of a disagreement between the citizen and the Tax Receiver as to the valuation of property, the question be referred to a board to be appointed by the county authorities, or elected by the people, and to hold for a fixed term, and in case of a disagreement between a corporation and the Comptroller-General, the question be referred to a similar board appointed by the Governor, or elected by the people.

**TAX ON CORPORATIONS AND INHERITANCES.**

The trend in all the older States of the Union is towards an abolition of *ad valorem* property taxation for State purposes and the collection of the necessary revenue from special taxes, such as taxes on franchises, privileges, professions, inheritances, and the like. Under such a system the matter of equalization of property values is made purely a local or county question. This is a model system, and we are making some progress to
wards its attainment. The limitation of the tax rate to five mills is a step in that direction. We should go further and require a specific tax from every corporation doing business in the State, and also levy a graded tax upon the transfer of all collateral inheritances. Such a measure would enable us to reduce the present rate at least one mill, and as the State prospers the rate would gradually be reduced, so that in the course of a few years we could make our million dollar appropriation to the common schools, and properly support all the State institutions and the government upon a nominal tax rate.

Such a special or privilege tax upon all corporations would be just and right. We tax the lawyer, doctor, dentist and several other professions and occupations for the privilege of doing business. The State creates the corporation and allows the individuals comprising it to carry on all kinds of businesses without involving their private fortunes, except to the extent invested in the corporation. Were these same individuals to engage in a similar business as partners, their entire private fortunes would be involved. This limitation of personal liability is a special and valuable privilege, and offers sufficient reason in law and justice for the levy of a tax. The General Assembly may, under our Constitution, recognize this as a subject matter for taxation, and equitably classify or grade the same according to capital stock or some other practical basis. I have carefully considered this question with the Comptroller-General and we estimate that such a tax with a minimum of five dollars
and a maximum of one hundred dollars would produce approximately $300,000 per annum. A law imposing a tax graded in this manner would not only be conservative and reasonable, but would not be burdensome upon any corporation doing business in this State.

A reasonable tax upon collateral inheritances, under proper limitations, would be just and wise. Prof. Seligman, of Columbia University, a leading American writer on economics, says: "The inheritance tax to-day scarcely needs defense; it is found in almost every country, and the more democratic the country, the more developed the tax." Thirty of the forty-five States of the Union have an inheritance tax, and a majority of these thirty levy a tax upon both direct and collateral inheritances. The older progressive States, like New York, Pennsylvania and Massachusetts have such systems in operation, and collect thereby a large percentage of their revenues. The State of California, which in population and wealth is considerably smaller than Georgia, with only a tax on collateral inheritances, collects annually thereby from $250,000 to $300,000. Under a well-considered and practical measure we might expect at least as good results in Georgia.

AGRICULTURAL EDUCATION.

The groundwork of our prosperity is agriculture. And yet the State has rarely given direct assistance towards its development. In the past it has encouraged railroads and manufacturing enterprises by means of State aid, donations, subscriptions, indorsement of bonds,
and even more by exemption from taxation. But it has done little for that industry in which four-fifths of our people are exclusively engaged, and in which all the rest are vitally interested.

Elsewhere government has aided the farmer by tariffs, by exemptions, and by bounties. Our present Constitution makes it impossible even to consider the utility or desirability of such legislation here. But public assistance has also been rendered the planter by governmental agencies—securing improved seeds, discovering the cause and cure of plant disease, the means of destruction of the boll weevil and other insect pests, the study of plant foods, the adaptability of soil to particular products, and the investigation of many of the problems which confront the agriculturist the world over. Our own Experimental Station has done good work in this line. But this is only a small part of what the State can do. Dissemination is as important as the acquisition of knowledge. If we are shut off from other forms of assistance this General Assembly can at least serve Georgia by devising means whereby that which is most valuable and practical in agricultural knowledge shall be scattered broadcast over the land, and brought home to every farmer, that he may see and learn how best to plant, how best to till, and how best to use the means at his command.

In no calling is there such a demand for all-round men. When it is considered that the farmer must use, and necessarily repair, tools, wagons, reapers, cotton planters, gins, engines, and other appliances, it is ap-
parent that he must have more or less mechanical skill. Successful terracing involves some engineering ability. The raising of stock, as well as the care of dairy cattle and farm animals, often calls for speedy action when a veterinary can not be obtained. Soil and fertilizers, and the adaptation of each to products involves problems of the most intricate character. In addition he must have that business skill demanded of every man who is both buyer and seller.

Agriculture is the most complex of all callings, and not only affords a field for the highest endeavor of mind and body, but for its greatest success demands a special training to enable the farmer to cope with the infinite variety of practical questions with which he must deal. Planters recognize the imperative necessity for studying what others have done, and learning the secret of their success. State and County Fairs, Farmers' Clubs, Farmers' Institutes and Agricultural Societies are but some of the modern means by which the farmers of the country have themselves endeavored to meet this demand.

Agriculture is not only the oldest and most useful of material callings, but its highest development requires the most thoroughly equipped men. If technical and professional colleges have been found so helpful to the public in other callings, why should not agriculture have its colleges do the same class of work and prepare a trained body of men to be centers of influence and sources of information?

It is true that many deny the practical utility of an
agricultural education, but this is largely a dispute over words. Our present knowledge is not self-taught. Our improved seed, our superior appliances, our better methods, our larger crops, are but the result of what has been learned. Many of these things have been learned in the school of experience, a school of incalculable value, but not the only means of acquiring agricultural knowledge, and certainly not the speediest. Nature works slowly, and from year to year many of its most valuable secrets have been stumbled upon, or accidentally discovered. The men engaged in the search were few, and these few hampered by want of training. But so valuable have been the results of what has been learned by these specially trained men, that State after State is now maintaining an agricultural college, and at the present time there are sixty-three institutions training men to the study of soil, climate and products of their own locality, and 10,000 farmers therein who are being prepared to bring to bear their scientific and practical skill to meet local conditions. The prompt and speedy results have been so valuable as to already repay the cost, with usurious interest. Better crops, rural delivery, telephones, good schools, good roads, are emphasizing and making easier the response to the call, "Back to the farm." The country is the hope of the State. Anything which tends towards the improvement of our agricultural conditions redounds promptly and greatly to its interest. Agricultural colleges have been a potent factor in the recent rapid increase and development of agricultural resources the country over.
It is true that most of our population would be unable to avail themselves immediately and directly of the benefits to be derived from an agricultural college. But by sight all can learn the methods of those skilled farmers—those public benefactors—who, while aiding themselves, are at the same time, by example and practical demonstration, teaching others how to make two blades of grass grow where only one grew before. The world is debtor to those agriculturists who have first learned and then taught. Every good farmer is a source of expanding value to the State. Every successful new departure he makes inures to his and his neighbor's good. Those who have developed and improved seed for cotton have added to their own and the State's wealth. Those who have demonstrated that the peach could be successfully grown here for market, have already added millions to our resources and given the prophecy of millions more. These are forms of agricultural education. Similar results may be secured and quickly repeated by multiplying the number of scientifically trained men in this walk of life. I wish to impress in the most emphatic manner the value and importance of agricultural education. I urge that this General Assembly shall take such steps as are needed to put Georgia abreast of the other States now maintaining fully equipped institutions, and already reaping the advantages which flow from properly conducted agricultural colleges.

We already have a nucleus at Athens. But its work can be immensely increased, and its utility multiplied.
The recent acquisition by the University of a tract of land, paid for by private subscriptions, makes this a particularly opportune time, not only to help those who have helped themselves, but so to utilize this land as to unite the science and the art, the theoretical and the experimental, the study and the practice of agriculture. I therefore recommend that sufficient money be appropriated to the University for the erection of suitable buildings, and properly equipping same for this great work.

I again urge upon the General Assembly the propriety of establishing and maintaining at least one agricultural school in each congressional district from the net fees arising from the inspection of commercial fertilizers. Such schools would create a more widespread interest in higher agricultural education, and act as feeders to the University. As stated in my message of November 8, 1902, "these fees are paid by the farmers in addition to the *ad valorem* tax, which is required of all citizens, and every principle of justice and equity demands that they be expended as will best tend to the advancement and upbuilding of the cause of agriculture throughout the State."

ELECTION LAWS.

The platform of the Democratic party, adopted by the State Convention of 1904, announced with reference to our election laws the following principles, to wit:

"We reaffirm with emphasis the previously expressed demand of Democratic conventions of this State"
for an elective system which will guarantee full protection to every voter and will throw around the ballot every safeguard. Especially do we recommend that our primary election laws be so amended as to give assurance that the ballot of every registered voter may be an incorruptible expression of his judgment, and every ballot so voted may be recorded and counted in a manner that can leave absolutely no doubt as to the fairness of the election and the accuracy of the result announced.

"To this end it is the sense of the Convention that the Legislature should promptly enact a law providing that at all elections the Australian secret ballot, or some similar system, shall be adopted, wherein shall be included every safeguard necessary to insure an absolutely pure and secret ballot.

"It is the sense of this Convention that the Legislature should, and it is hereby requested to pass an Act to make all election and registration laws, both civil and criminal, now existing or hereafter passed for the protection of the purity of the ballot, expressly applicable to all primary elections, municipal, county, State and Federal, as well as to other elections, so far as the same may be practicable; and that all persons violating any of said laws in registering for or voting at any such primary election shall be subject to the same pains and penalties as are prescribed for such acts at an ordinary election.

"It is the sense of this Convention that the Legislature should, and it is hereby petitioned to so amend
the existing primary election law as to expressly provide for contests before the proper executive committee, through themselves or sub-committees, to subpoena witnesses, administer oaths, and to do such other acts as may be necessary under the rules and regulations of the party to ascertain and declare the person or persons entitled to receive the nomination of the party, and to provide for appeals, etc. We demand that this matter receive the attention of the approaching session of the General Assembly, and the primary law be so amended as to meet these requirements."

This declaration clearly contains three principles: First, that the Democratic party favors the Australian secret ballot, or some similar system; second, making the existing laws or those hereafter passed for the protection of the purity of the ballot, applicable to primary elections; third, providing by law the means for the legal determination of primary election contests before the proper executive committee of the party.

The General Assembly which convened in June, 1904, gave much consideration to measures covering these principles, and by an Act approved August 13, 1904, making it a misdemeanor for any person to buy or sell a vote in any primary election in this State, practically covered the second principle announced above, if the provisions of that Act be construed in connection with previous legislation affecting primary elections. A bill covering the first and third principles as stated above passed the House, and with a number of amendments not affecting these principles, passed the Senate; but the
two houses failed to settle these differences as to details, and the measure was therefore lost in that General Assembly—its failure to pass being due largely to the fact that the differences between the House and Senate were not taken up for consideration until too late in the session for an agreement to be reached; perhaps also to the additional fact that the Bill contained both an elective system and a provision for primary election contests. I think it clearly our duty to place upon the statute books the principles announced in the platform upon which the Governor and the present General Assembly were elected. I therefore most earnestly urge upon your favorable consideration a measure providing an elective system as set forth in the platform of the Democratic party; also a measure providing for primary election contests. It will no doubt be easier to enact these principles into legislation through the medium of separate bills, as the differences in the matter of details, should any arise, may be more readily settled. This legislation is of great importance, and should apply to primary as well as regular elections, as the primary elections have become, as they deserve to be, the all-important elections in our State. Our party nominations are equivalent to elections, and the will of the voters should be freely and fairly expressed, and when so expressed, be truthfully and accurately declared.

IMMIGRATION.

The numerous inquiries addressed to the Commissioners during the St. Louis Exposition as to the resources of
Georgia by homeseekers from other sections of the United States impressed me not only with the desirability, but the necessity of the State having an Immigration Agent or Commission charged with the duty of following up such inquiries and soliciting the immigration to Georgia of thrifty American people. On account of the extreme cold winters, much of the agricultural population of the Northern States are so dissatisfied with their present homes that they are turning to the genial climate of the South. With well directed attention these people can be brought to Georgia. They are good citizens in their present homes, and will make good citizens here. Several of our sister States of the South are already at work on this line, and we should not be laggard in such an important field. We should organize for this work and secure our share of these desirable immigrants for our unoccupied lands and undeveloped resources. The large deposits in the banks throughout the State, which have increased at a rapid rate during the last few years, show that Georgia has the means at hand to develop her varied and wonderful resources. It is, therefore, apparent that we need not money so much as we do an increase of population that will readily assimilate with our civilization.

CONFEDERATE FLAGS.

In pursuance of a resolution of Congress, approved March 25, 1905, there was forwarded to me by the Secretary of War twenty-six flags of Georgia troops serving in the Confederate army, that had been captured during the war between the States. These flags were duly received,
and I await your determination as to the disposition to be made of them.

Many applications from the survivors of the different commands represented in the list of these flags have reached me, asking that they be turned over to them. The appeal is filled with a pathos that is touching beyond expression. But, on the other hand, it has been suggested that the few survivors of those who marched beneath their folds will themselves soon pass away, and inevitably in a short while the flags will be lost or destroyed, if delivered to them, and that the proper disposition of these flags is for the State to keep them in charge, having them properly encased in glass frames, to protect from moths and dust, and hung at some place in the Capitol, and thus for all time to be preserved as priceless memorials of the cause they represent, and of the gallantry and patriotism of the men who followed them.

If the flags are to remain in the custody of the State, I recommend that a joint resolution be adopted, inviting all who may have in their possession any of the flags of regiments, other than those now in possession of the State, to turn them over to the State for keeping, as above indicated, and when at any time any such flag shall be delivered to the Governor, that he be authorized to provide in the same manner for its preservation.

FELONY CONVICT HIRE.

In my message to the General Assembly in 1904 I called attention to an apparent oversight in the Act of 1903 providing for the hire of felony convicts, on account
of which several thousand dollars annually in the way of commissions to county treasurers were lost to the school fund. A bill correcting this was passed by one branch, and would doubtless have been passed by the other, but was not reached upon the calendar. I wish to call your special attention to the provisions of section 4 of this Act, and suggest that the same be so amended as to require the State Treasurer to remit convict hire to county treasurers only of those counties which use the money for the roads, and that in counties where the money is applied to the common schools he remit to school commissioners the same as the school funds.

**MISDEMEANOR CONVICTS.**

The Act of 1903 amending the Act creating the Prison Commission gives that body authority to regulate misdemeanor chaingangs, by abolishing the same, or fining the county authorities in control thereof, for a violation of the rules or the law governing such chaingangs.

It is claimed, however, that many misdemeanor convicts are not worked directly by the county authorities on the roads or other public works, but are hired to and worked by private individuals, under the nominal supervision only of county authorities. This class of chaingangs are not directly or indirectly under control of the Commission, because in dealing with chaingangs the Commission must proceed against the county authorities in control thereof. The Supreme Court has decided that chaingangs under the control of private individuals are illegal. If all misdemeanor convicts are not to be worked upon the public
roads, or other public works, as the law directs, then those who are not so employed should be put under control of the Commission, which body should be authorized to sell their labor as that of felony convicts is sold, the proceeds to go to the counties in which they are convicted, to be applied as now provided by law. Such legislation would not only tend to improve the condition of the convicts, but would remove all grounds of criticism that chaingangs under control of private individuals, with only nominal county supervision, are in violation of State or Federal laws.

COLONIAL AND REVOLUTIONARY RECORDS.

The important work of compiling these records is progressing most satisfactorily. Copies of the greater portion of the records, obtainable only in London, have been secured, and, with an appropriation of $1,000, copies of the remainder of them will be furnished us by official copyists in London. Under the present plan the publication of the records must of necessity be very slow. This can be easily remedied and the printers be required to keep pace with the work of the Compiler, if an appropriation of $2,000 be made to the fund from which the cost of these publications is paid. I therefore join the Compiler in his recommendations as to these small appropriations.

STATE SANITARIUM.

I wish to call to your special attention the important recommendations made by the Trustees of the State Sanitarium in their annual report. A thorough examination of the water supply has convinced me of the necessity for
a better system. I therefore urge upon your favorable consideration the Board's recommendation as to the water supply.

PUBLIC INSTITUTIONS.

You will have before you the report of the Trustees of the State University, and of the Board of Visitors to the University; the report of the Board of Directors and the Board of Lady Visitors to the Georgia Normal and Industrial College; the reports of the School of Technology; the State Normal School; the Academy for the Blind; School for the Deaf, and the reports of the Boards of Visitors to the last two named institutions. These reports contain many valuable suggestions, and will amply repay careful perusal. I bespeak for them your most earnest consideration.

STATE BOARD OF HEALTH.

Since its organization under the Act of 1903, the State Board of Health, notwithstanding its meager authority, has accomplished much good for the people. It has rendered valuable assistance to county officials in stamping out smallpox and other diseases, but frequently it has been hampered in such work from lack of authority. I bespeak for the recommendations of the Board your earnest consideration.

OFFICIAL REPORTS.

You will also have before you the reports of the Comptroller-General, State Treasurer, State School Commissioner, Attorney-General, Adjutant-General, Commissioner of Agriculture, Secretary of State, Railroad Com-
THURSDAY, JUNE 29, 1905.

mission, Prison Commission, Pension Commissioner, State Geologist, State Board of Health, Tuberculosis Commission, Compiler of Records, Roster Commission, State Librarian, Keeper of Public Buildings, Commissioner-General of Georgia Exhibit, and such other departments as are required by law to submit annual reports. They contain many valuable suggestions and recommendations, which I am sure will receive your careful consideration, as they bear unmistakable evidence of the efficiency and fidelity of these public servants.

STATE'S FINANCES.

The State Treasurer has paid to the common school teachers out of the money appropriated for the year 1905 the sum of $650,101.94, not including, as in former years, the convict hire, thereby making the largest payment ever made to first of July. This amount was derived from special taxes and W & A. rental to July 1st, $250,000, and the $400,000 authorized to be transferred from the general to the school fund.

All money appropriated for pensions was paid out to claimants during the first part of the year and there remains a balance of $26,140 due them, as will appear from the report of the Pension Commissioner, for which an additional appropriation should be made. In all probability there will be no necessity of making the usual loan for the State during the summer. However, in order to be certain of having funds on hand to meet the expenses of this session of the General Assembly and cover the above mentioned item of $26,140, I have arranged, in the event it becomes necessary, to borrow whatever amount may be required at the rate of 2 per cent. per annum.

J M. TERRELL,
Governor.
APPENDIX A.

In accordance with the requirements of section 5815 of the Code, I herewith submit report of all reprieves, commutations of sentence, and pardons granted to December 31, 1904, the Prison Commission having in every case recommended the same.

\BILL

To amend the Constitution of the State by providing that the Legislature shall have authority to add additional Judges of the Superior Court for each judicial circuit, and to regulate the disposition of the business thereof by the judges of such circuits, and to provide for the submission of such constitutional amendment to the people for ratification, and for other purposes.

Section 1. Be it enacted by the General Assembly, That the Constitution of this State be amended by adding to paragraph 1 of section 3 of article 8 the following 1. The Legislature shall have authority to add one or more additional Judges of the Superior Court for any judicial circuit in this State, and shall have authority to regulate the manner in which the judges of such circuits shall dispose of the business thereof, and shall fix the time at which the term or terms of office of such additional judge or judges shall begin, and the manner of his appointment or election, and shall have authority from time to time to add to the number of such judges in any judicial circuit or to reduce the number of judges in any judicial circuit, provided that at all times there shall be at least one judge in every judicial circuit of this State.

Sec. 2. Be it further enacted, That whenever the above proposed amendment to the Constitution shall be agreed
to by two-thirds of the members elected to each house of the General Assembly, and the same has been entered on their Journals with the ayes and nays taken thereon, the Governor shall cause such amendment to be published at least in two newspapers in each Congressional district in this State for a period of two months next preceding the time of holding the next general election.

Sec. 3. Be it further enacted, That the above proposed amendment shall be submitted for ratification or rejection to the electors of this State, at the next general election to be held after publication as provided for in the second section of this Act, in the several election districts of this State, at which election every person shall be qualified to vote who is entitled to vote for members of the General Assembly. All voting at such election in favor of adopting said proposed amendment to the Constitution shall have written or printed on their ballots the words: "For amendment authorizing Legislature to provide additional Superior Court Judges"; all persons opposed to adoption of such amendment shall have written or printed on their ballots the words: "Against amendment authorizing Legislature to provide additional Superior Court Judges."

Sec. 4. Be it further enacted, That the Governor is hereby authorized and directed to provide for the submission of the amendment proposed in the first section of this Act to a vote of the people, as required by the Constitution of this State and paragraph 1 of section 1 of article 13, and if the amendment is ratified the Governor shall, when he ascertains such ratification from the Secretary of State, to whom the returns shall be referred in the manner as in cases of election for members of the General Assembly to count and ascertain the result, issue his proclamation for an insertion in the daily papers of
this State announcing such result and declaring the amendment ratified.

Sec. 5. Be it further enacted, That all laws and parts of laws in conflict with this Act be, and the same are, hereby repealed.

Report of the committee was agreed to.

Upon the passage of the bill the ayes were 27, nays 0.

The bill having received the requisite constitutional majority was passed as amended, and the amendments are as follows

Amend the caption by inserting after the word "provided" and before the word "for" in line nine the following: "an increase of the salary of the Judge of said City Court," so that said caption will read as follows: "A bill to be entitled an Act to amend an Act establishing the City Court of Valdosta, in and for the county of Lowndes, approved December 11, 1901, as amended by an Act amendatory thereof approved December 19, 1902, so as to change the time of holding said court to allow judgments taken at the first term where cases are in default to provide for an increase of the salary of the Judge of said City Court, for an increase in the fees paid the sheriff and the clerk of said court, and to provide for payment of costs in criminal cases where convicts are employed by the county authorities, and for other purposes."

Amend section 4 of the Act approved December 11, 1901, by striking from line eleven of said section four of said Act the words "twelve hundred dollars," and insert
in lieu thereof the words "fifteen hundred dollars," so that said section when amended will read as follows:

"Section 4. Be it further enacted, That there shall be a Judge of said City Court of Valdosta, who shall be appointed by the Governor, by and with the advice and consent of the Senate, whose term of office shall be for four years, and until his successor is appointed and qualified, and all vacancies in the office of Judge shall be filled by appointment of the Governor for the residue of the unexpired term, such appointment being subject to the approval of the Senate, which may then be in session, or if the Senate is not in session at the time of such appointment, then subject to the approval of the Senate at its next session thereafter. The Judge of said City Court of Valdosta shall receive a salary of fifteen hundred dollars per annum, which shall not be increased or diminished during his term of office, except to apply to a subsequent term, and shall be paid monthly out of the treasury of the county of Lowndes by the person or persons charged by law with paying out of the money of Lowndes county."

Amend further: That this amendment shall be known as section 7 of said bill, and the repealing clause shall be numbered eight.

The committee also recommends that the following House bill do not pass

A bill amending the charter of the town of McCaysville.

Respectfully submitted.

C. N. KING, Chairman.
Mr. Wilcox, Chairman of the Committee on Academy for the Deaf and Dumb, submitted the following report, viz.:

Mr. President:

We, the Committee on the Schools for the Deaf, beg leave to report as follows:

We visited the schools in a body and made as careful inspection of them as was possible within the limits of time which we could devote to them.

We found the buildings and grounds in the care of the superintendent and other officers, but the pupils were at home on their summer vacation. We found the buildings and grounds carefully and neatly kept, the grounds especially presenting a beautiful appearance.

The waterworks system was found in the very best condition, furnishing ample supply of pure water pumped from a spring, and from a test made in our presence, it was made plain that it could give excellent protection from fire.

There are, we regret to report, some portions of the old buildings in need of repairs, a new floor being needed badly in one of them, its roof repaired and changes made to secure better ventilation. For the purposes of these and other repairs, we suggest that an annual appropriation of $1,500 be made.

The cleanliness of floors, beds, clothes, indeed of all things about these schools, was quite satisfactory. Everything observed was clean and well-ordered.

We concur in the recommendations made by a committee of the House who preceded us by a few days in inspecting these schools.

There can be no two opinions as to the urgent need of more dormitory space. We found that every room was
over-crowded, many of them having twice as many occupants as can live healthfully in them. We found that in the white schools one hundred and sixty pupils with their teachers and officers lived; in the colored schools there had been forty pupils, with their teachers and officers. The rooms in which they live are not only badly crowded, but poorly lighted and ventilated and, all in all, their living conditions are far from healthful. This can be remedied only in one way—the erection of more dormitory buildings.

Your committee would also recommend that the present poorly-lighted and ill-ventilated rooms used as an infirmary be supplanted by rooms adapted better for that important purpose.

The very few bathrooms are utterly inadequate for the daily needs of the management.

Your committee urges that these needs of sufficient sleeping-room space, of proper infirmaries, and of bathing facilities, be met at once by the erection of a building, and we believe that if the Legislature could look on these dark and crowded rooms in which these unfortunates are now forced to live, it would go promptly to its plain duty.

We found shops nicely provided for the instruction of our deaf boys in shoemaking, printing, woodwork, and that the boys are daily instructed in dairy, farm and garden work. Competent instruction is also given the girls in sewing, dining-room service, and other manual arts.

The effort of the management is addressed to give each pupil some trade in which they will have skill sufficient to make them self-sustaining citizens after leaving the schools.

In all things, except the unhealthful crowding of children in poorly-lighted and poorly-ventilated rooms, your committee commend in the highest terms the schools for our deaf children.
We have in Georgia 500 deaf children who should be daily trained in these schools. Of these only 200 attend. If more rooms be provided we could hope that more of these pupils would get the blessings of the training our State wishes to give them.

The new building referred to is needed to provide properly for the number of pupils now attending.

The State should provide for and encourage the attendance of all its deaf children.

A bill for a building has been introduced in the House. We unanimously favor its passage.

Geo. M. Wilcox, Chairman.

House bill No. 13. At the hearing before the Special Judiciary Committee, the parties opposing the passage of the bill presented copy of the Savannah Press, dated June 12, 1905, containing a copy of the caption of House bill No. 13.

They also presented a certificate of the Ordinary of Chatham county, which stated that a copy of the caption of the bill had been posted by him on June 13, 1905, at the court-house of Chatham county, Georgia. Copies of the foregoing have been filed with the Journal Clerk.

E. L. Walker,
Chairman Special Judiciary Committee.
And had sent to the Secretary's desk a copy of the Savannah Press dated June 12, 1905, containing the notice of the intention to introduce the foregoing bill, and also the following certificate from the clerk of the Court of Ordinary of Chatham county:

GEORGIA, CHATHAM COUNTY.

I, Joseph Molina, clerk of the Court of Ordinary, hereby certify that, on the 13th day of June, 1905, the following notice was posted at the door of the court-house, namely:

NOTICE.

"Notice is hereby given that at the next session of the General Assembly there will be introduced a bill entitled 'An Act to provide for the election of the Judges of the City Court of Savannah; to fix the time for such election, the term of office of said Judges, and for other purposes.'"

Witness my official signature this 2d day of August, 1905.

Jos. Molina,
Clerk Court Ordinary C. C., Ga.

The President of the Senate had the following letter read and entered on the Journal:

ATLANTA, Ga., August 3, 1905.

Hon. W. S. West, President of the Senate.

Dear Sir: Quite often the inquiry is made of me, as Attorney-General, to determine the question of what is a local or special bill within the meaning of article 3, section 7, paragraph 16 of the Constitution. This paragraph, by reference to which you will observe, requires that no-
tice of a local or special bill shall be advertised thirty days prior to the introduction of such bill into the General Assembly. It is important, in the interest of legislation, that additional light should be thrown upon this subject, and to that end I will take the liberty of suggesting that a test case may be made by requesting that the Journal may affirmatively show that the thirty days' notice of the intended introduction of a bill was not in fact given prior to its introduction into the General Assembly. To be more specific, the exact question arises on whether or not a constitutional City Court is a local or special bill in the meaning of the Constitution which requires advertisement. It is this kind of a bill especially that I would have judicially determined whether the advertisement referred to is essential.

Yours very truly,

JNO. C. HART, Attorney-General.

Report of the committee was agreed to.

Upon the passage of the bill the ayes were 27, nays 0.

The bill having received the requisite constitutional majority was passed.

By Mr. Swilling—

A bill to incorporate the town of Royston.

Report of the committee was agreed to.

Upon the passage of the bill the ayes were 26, nays 0.

The bill having received the requisite constitutional majority was passed as amended.

Amend section 46 of said bill by striking out the words

By Mr. Moore—

A bill to amend the Act incorporating the town of Canton.

Report of the committee was agreed to.

Upon the passage of the bill the ayes were 25, nays 0.

The bill having received the requisite constitutional majority was passed as amended, and the amendments are as follows:

Amend section 3 of said bill by striking out the word “regulate,” which appears after the word “may” and before the word “grant” in the seventh line of said section, so that said section three, when so amended, will read as follows:

Section 3. Be it further enacted, That it shall have control of its streets and sidewalks; it may regulate the manner of riding and driving on the same, may lay out, open, widen, close, work, grade, curb and pave its streets and sidewalks, and may charge any and all of the expense of curbing and paving any sidewalk to the adjacent and abutting property owner; it may prohibit the running at large of any domestic animal and fowls of all kinds upon its streets; it may grant and refuse to grant any franchise for any public improvement, street railroad, gas plant, electric plant, waterworks system and telephone system; it may put in sewerage necessary to drain said town, and may compel property owners to connect with the same, it may condemn private property to open and widen streets, lay down sewer pipes and water pipes under the
same rules as now provided by law to open roads; it may regulate and prohibit shooting and burning of any fireworks upon its streets.

Amend section 12 of said bill by striking out the words "and telephone plant," which appear in the second line of said section, and further amend said section by striking out the words "or telephone," which appear in the third line of said section, so that said section when so amended will read as follows:

Section 12. Be it further enacted, That said corporation may own and operate a gas plant, electric plant, water plant, or may own any or all of the stock in any gas, electric, water company. When any such plant has been installed, it may appoint such officers and committees to control and manage its business as the mayor and council may deem best, under such rules and regulations as it may enact.

The following is the report of the Committee on State Sanitarium:

Mr President:

Your Committee on State Sanitarium visited that institution on July the 27th and 28th and on investigation found that the same is well managed by its able and proficient superintendent and resident physician, Dr. T. O. Powell, and his well selected corps of assistants.

We further found that the public buildings and grounds about them are unusually well kept, and that the unfortunate inmates receive the very best attention, and the sick among them are well nursed by skilled and faithful attendants.

We further find that in many instances the attendants and nurses, and especially the females among them, are poorly paid for their services, and we therefore recommend that the trustees take this subject up at their earliest convenience, with the view of more justly and equitably increasing the salaries of these faithful and proficient public servants.

We further find that the waterworks of the institution are ancient and much dilapidated, and is therefore wholly inadequate for the present and future needs of the insti-
that the water supply is insufficient both in quantity and quality, and we therefore recommend that new waterworks be installed, and that the General Assembly at its present session appropriate sufficient funds for that purpose.

Respectfully submitted.

R. E. A. Hamby, Chairman.

By Mr. Wise—

A bill to levy and collect a tax for the support of the State Government and for the public institutions of the State.

The following is the report of Commission on Registration of Land Titles to the General Assembly of Georgia:

At the annual meeting of the Georgia Bar Association, held at Tallulah Falls in 1903, the committee appointed under a resolution adopted at a previous meeting of the Association to investigate the Torrens system, and similar systems, for the registration of land titles, through its
chairman, the late Washington Dessau, submitted an elaborate and most valuable report, which appears as Appendix C in the report of the proceedings of that session, under which, and as a result of the discussion which then ensued, a committee consisting of Hon. Washington Dessau, Judge Howard Van Epps and Judge J. L. Sweat were appointed to bring the matter to the attention of his Excellency, Joseph M. Terrell, with the view of having legislative action taken upon the subject, which committee performed the duty assigned it and the Governor sent a special message to the Legislature, whereupon a resolution was adopted by that body providing for the appointment of a commission to be composed of two members of the Senate, three members of the House and three members of the Bar of the State, to be known as the Commission on the Registration of Land Titles, and charged with the duty of investigating and considering the subject with particular reference to the Torrens system, said Commission to report to the ensuing session of the General Assembly; said resolution to be found on pages 689 and 690 of the Georgia Laws of 1903. Pursuant to the resolution aforesaid a Commission was appointed consisting of H. A. Matthews and H. H. Perry of the Senate, T. S. Felder, B. S. Miller and P. M. Mulherin of the House, together with Washington Dessau, Arthur G. Powell and R. T. Fouche from the Bar of the State. Said Commission organized and proceeded with its work, but, not having completed same, asked for additional time, and thereupon the Legislature at its session in 1904 passed a further resolution, to be found on pages 758 and 759 of the Georgia Laws of 1904, continuing the Commission in full force and effect and directing it to report to the next session of the General Assembly but on account of the death of Mr. Dessau and other intervening causes the
work of the Commission is still incomplete and it is unable to make a final report by bill or otherwise to the Legislature now in session, and hence respectfully asks that further time be allowed it for that purpose.

His Excellency, Governor Terrell, has appointed Judge J. L. Sweat as a member of said Commission to succeed the Honorable Washington Dessau, deceased, and R. T. Fouche having recently resigned, the Governor has filled the vacancy occasioned thereby by the appointment of Hon. Warren Grice. The Commission, as now constituted, is therefore composed of H. A. Matthews, H. H. Perry, T. S. Felder, B. S. Miller, and P. M. Mulherin, together with Messrs. Arthur G. Powell, Warren Grice and J. L. Sweat.

In the opinion of the Commission there is no more important subject which can engage the attention of the General Assembly of the State than that of the registration of land titles, involving the question of the adoption of the Torrens system, or some similar system. Under the present law of the State any deed apparently properly executed, and any number of deeds to the same tract of land, extending even to forged deeds, may be recorded, so that it is rendered impossible from a mere examination of the records to ascertain and determine in whom the true and genuine title is vested. The effect, therefore, is in a measure to render the sale of land to investors more difficult and to lessen their value as security to lenders of money. The Torrens system, or similar systems, for the registration of land titles has not only been adopted by many of the most enlightened and progressive foreign countries, but in comparatively recent years has been adopted by several of the States of the United States, and is now under consideration by the legislatures of other States.
Under the proposed system only the true title as ascertained and adjudicated would be registered and thereafter as the grant from the State is now the source of title, the title thus adjudicated and registered, would be the true and only source of title, and all subsequent transactions effecting the particular land would be noted; and in respect to title by prescription, which now necessarily rests largely in parole, when adjudicated under said system, it would become a matter of record and settled for all time.

Indulging the hope that a further resolution will be adopted at the present session of the General Assembly of the State, continuing the Commission in full force and effect, with power to report by bill or otherwise, to the next session, the foregoing is respectfully submitted.

This July 26, 1905.

The bill having received the requisite constitutional majority was passed as amended, and the amendments are as follows:

Section 1. That the mayor and general council of the city of Atlanta be, and they are hereby, authorized, in their discretion, to increase the salaries of the commissioner of public works, of city tax-collector and general manager of the department of waterworks to a sum not exceeding three thousand ($3,000) dollars per annum; of assistant city attorney to a sum not exceeding twenty-four hundred ($2,400) dollars per annum, of secretary to the board of water commissioners to a sum not exceeding two thousand ($2,000) dollars; of city marshal to a sum not exceeding twenty-four hundred ($2,400) dollars per annum, and of assistant city marshal to a sum not exceeding fifteen hundred ($1,500) dollars per annum, all of these increases to be made during the present term of said offices. This section is amendatory to the charter of said city in that the present charter provides that the salary of any city official shall not be increased during his term of office, and this amendment is made so as to authorize said governing body, if it so desires, to increase the salaries of said officers during their present term of office; provided, however, that no authority is hereby conferred to increase the salaries of said officers during any future terms thereof, and, provided further, that the provisions in amendment to the charter of said city, approved August 3, 1904, whereby authority was conferred upon the mayor and general council of said city to increase the salaries during future terms of certain offices are hereby limited to their present terms, and shall not extend to any future terms of said officers.
This to be in lieu of section 1 of the House bill; section 1 of House bill to be stricken.

Section 177: The police force of said city shall consist of a chief of police and such other officers and men as the city council shall by ordinance prescribe. They shall take an oath faithfully and impartially to discharge the duties imposed on them by the laws of the State and the ordinances of the city, and shall give such bonds as may be required of them by the city ordinances. Said chief, officers and men shall be elected on the 2d day of April, 1907, or prior to that date, if said chief, officers and men shall resign from their present term, and thus relieve the city from its contracts, and when so elected shall serve without any fixed term or employment. Said chief, officers and men, so elected, shall serve during good behavior and efficient service, both of which to be judged of by the board of police commissioners. Said board of police commissioners shall be authorized at any time to discharge the chief, officers or men or other employees of their department, without any liability attaching to the city on account of said discharge. Said board shall furthermore establish rules and regulations for said department on the civil service plan, and all the officers and employees thereof shall serve under civil service rules, during good behavior and efficient service, to be finally and exclusively judged of by said board.

This to be in lieu of section 177, under section 3 of House bill, section 177 of House bill to be stricken.
