JOURNAL.

Senate Chamber, Atlanta, Georgia,

Wednesday, June 22, 1904.

The Senate met in accordance with law, and was called to order by the President, Hon. Clark Howell.

Prayer was offered by the Chaplain.

Upon the call of the roll the following members answered to their names:

The following is the certificate of the election of Hon. O. N. Starr as Senator from the 43d District to succeed Hon. W. P. Dodd, resigned:
His Excellency the Governor:

Sir: I have the honor to report to you, for Commission, as per the election return received and on file in this office, the following named persons, to wit:

County, Gordon; Senator 43d Senatorial District, O. N. Starr, to fill unexpired term of W P Dodd, resigned.

Election held 11th day of June, 1904.

Respectfully,

PHILIP COOK,
Secretary of State.

June 22, 1904.

To the Senate:

I have the honor to transmit to your body the certificate of election of Honorable O. N. Starr, as Senator for the 43d District, to fill a vacancy caused by the resignation of Hon. W P Dodd.

J. M. TERRELL,
Governor.

The oath of office was administered by Judge Jno. S. Candler, Associate Justice of Supreme Court. Election held June 11, 1904.

Senator Starr was added to the same committees as Senator Dodd was on.

The following resolutions were adopted:

By Mr. Davis—

A resolution directing the Secretary to notify the House that the Senate has reconvened and is ready for business.
By Mr. Comas—

A resolution appointing a committee of two from the Senate and three from the House to notify the Governor that the General Assembly is ready for business.

Committee on part of Senate are Senators Hightower and Ledford.

The following message was received from the House of Representatives through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

I am instructed by the House of Representatives to inform this branch of the General Assembly that the House has reconvened according to law, and is now ready to proceed to the regular business of the session.

By unanimous consent the following committee was appointed to decide who should be allowed on the inside of the brass railing in the rear of the Senate Chamber. Committee is composed of Senators Hopkins, Harrell and Davis.

Senator Smith was granted leave of absence until next Monday.

Senator Crumbley was granted indefinite leave of absence on account of sickness.

The committee appointed to notify the Governor that the General Assembly was ready for business reports that the Governor would communicate to the Senate in writing.
June 22, 1904.

The following message was received from His Excellency the Governor, through his Secretary, Mr. Hitch, to wit:

Mr. President.

I am directed by His Excellency the Governor to deliver to the Senate a communication in writing.

The following bill was read first time:

By Mr. Davis, by request—

A bill to amend the charter of the City of Columbus.

Referred to the Committee on Corporation.

The following resolution was read and adopted:

By Mr. Hudson—

A resolution convening the Senate at 11 o'clock a. m., until changed hereafter.

The following is the Governor's message in full:
MESSAGE.

STATE OF GEORGIA, EXECUTIVE OFFICE,
ATLANTA, GA., June, 22, 1904.

To the General Assembly:

You meet at the very flood-tide of the State's prosperity; when her population is the greatest; when the tax digest shows the largest voluntary returns ever made in her history; when the people are hopeful and rejoicing in the peace and plenty of the most prosperous year since 1860. Commerce and manufactures have maintained their growth; timber and lumber have brought great gains to those engaged in that industry and added values to the pine lands of the State; but above all this, the labor and patience of the farmer have at last brought him to a time of fair harvests and prices so satisfactory as in effect to have made two crops in one year. However, these facts should not lead to increased expenditures, nor to a change in the rate of taxation. Tax and Appropriation Acts substantially like those of the past two years, will be amply sufficient for the support of the government and State Institutions.

PRIMARY ELECTIONS.

I call your attention to and invite your consideration of the growing sentiment in our State in favor of placing around our primary elections every safeguard necessary to make them absolutely fair in every particular. These elec-
tions are now practically the equivalent of general elec-
tions in Georgia, and no voter should be allowed to vote
therein unless constitutionally and in pursuance of law
eligible to do so, and every vote deposited should be sacredly
guarded, and with scrupulous honesty counted. I recom-
mend, therefore, that you pass an Act making all election
and registration laws extend to primary elections—muni-
cipal, county, State and Federal—so far as the same may be
applicable, and provide for the infliction of appropriate
penalties upon any person violating any of said laws in
registering for or voting at such primary election. App-
propriate legislation should also be enacted providing
for contests before proper executive committees of the
party, and giving authority to said committees, or under
their direction, to subpoena witnesses, administer oaths,
and do such other acts as may be necessary under the rules
and regulations of the party, to ascertain or declare the
person or persons entitled to receive the nomination of the
party, and to provide for appeals. The pay of managers
holding the elections, and the clerks serving thereat, should,
in the case of primaries, as in general elections, be borne
by the counties or State, and the use of money, by a can-
didate for office, to influence voters to support him, should
render him ineligible to hold office. Public office is a pub-
lic trust, and the man who seeks to purchase it demon-
strates his unworthiness to fill it. The price of an office
should be measured by the worthiness of the man to fill it,
and not by the money which he has, and his willingness to
purchase it. Any other rule must inevitably lead to the
result that only the rich may aspire to office.
IMMIGRATION COMMISSION.

The scarcity of labor during the growing and harvest­ing season has become a serious problem to the farmers of Georgia, and similar conditions throughout the Southern States have checked the production of cotton. The world’s demand for this most used of all clothing materials has increased faster than the supply. European countries are making systematic and persistent efforts to develop new cotton fields in other lands, and although at present these are not profitable, they may become sources of supply, and compete with us in the production of the staple, as Egypt and India have already done. It behooves us, therefore, to meet the world’s demand for cotton. We have land enough, and the only obstacle in our way is the lack of labor to make the crop. There is in this State a vast extent of virgin soil, cleared by sawmills, which is as fully productive as that under cultivation, and would be quickly brought under the plow, if there were sufficient labor to cultivate it.

Beyond question it is wise to encourage the immigration to our State of thrifty American people. This has been the policy of Western States, and their growth in wealth, productive power, and all that makes a commonwealth great, has excited the wonder and admiration of the world. Immigration may be best encouraged through a State Commission, and I recommend that one be established. Some of our public-spirited citizens, composing the Greater Georgia Association, have begun this work at their own expense, and with funds raised in thirty towns and cities,
not directly interested in farming, they have advertised the resources of the State, and made them known to millions of people. Several thousand persons have manifested interest in Georgia, and many have already become citizens. The State should not leave this work to a few, but should take it up and make it a department of government. The great need for immigration legislation is shown also by the fact that Georgia has given 412,000 of her people to other States, and has received in return only 190,000, the net loss being 222,000. This tremendous drain upon the life's blood of a commonwealth should cause serious concern, especially when labor is already short in our fields and factories. An examination of the statements of the various banks throughout the State, will show the rapid accumulation of money, and that the deposits subject to check are much larger than ever before. Georgians have ample funds to develop the resources of the State. The great need of the hour is more men, rather than more money.

The railways of the West are working hard to induce our population to leave us. Texas alone has 75,000 Georgians. If we do not set counter influences to work, the drain will increase, and the labor problem will become far more serious than it is at present. It is a well-known fact, that the agricultural population of the Northern States are very much dissatisfied with their present homes, on account of the extreme cold winters, and many of them are turning their faces to the inviting fields and genial climate of the Southern States. Several of these States have already inaugurated immigration work, and unless Georgia makes an organized effort, she will be unable to secure her share
of these people, who, as a rule, make useful and desirable citizens. A Commission composed of one from each Congressional District, and required to meet quarterly or semi-annually, would probably bring about the most satisfactory results, and at the same time be the least expensive plan. Only a small appropriation to cover the expenses of these meetings, and to pay for clerical hire and advertising the resources of the State, would be needed.

NEW COUNTIES.

The inflexible rule of the Constitution which forbids the creation of any new county, has brought about in some sections unexpected and unintentional hardships. Counties that in 1877 were geographically large, but sparsely settled, have greatly increased in wealth and population, but the line of growth has left the body of the inhabitants remote from the county site, to the manifest inconvenience and detriment of those who under conditions as they existed in 1877, undoubtedly would have been granted relief by the creation of a new county. The matter is one calling for an appropriate amendment to the Constitution providing for the creation of new counties up to a fixed limit, or by such other legislation as will meet a condition of serious and permanent hardship to many good citizens who are entitled to relief.

EXEMPTION OF COLLEGE ENDOWMENTS.

In my message of November 8, 1902, your attention was earnestly called to the propriety of exempting college endowments from taxation, where the fund is not so in-
vested as to come into actual competition with the business and commercial interests of other citizens. Further reflection and observation have but confirmed me in the wisdom and justice of that recommendation. Without repeating what was then said, I wish to emphasize the fact that not only does the present plan force our colleges into unequal competition with other institutions largely endowed and splendidly equipped, but it actually deters donors from making gifts which might otherwise be contributed to the colleges, but for the natural unwillingness to have money thus wholly set apart to the cause of education, charged with the burden of making other and annual contributions in the way of taxation towards the support of other public institutions. These gifts to colleges are unselfishly made, with no purpose other than that of assisting in the great work of education, and they should be put on a basis of those other public charities and religious funds, which, if not absolutely exempt, are capable of being exempted by the General Assembly.

EQUALIZATION OF TAXES.

There will be presented for your consideration no question of more moment to the State than the equalization of tax returns. I wish to present again to your attention the following, from my message of June 24, 1903:

"The need of tax equalization grows with our increase in wealth and population. Our law for the return, valuation, assessment, arbitration and collection of taxes is substantially what it was when the Act of 1804 was passed, and when our population was 200,000, and the
taxable values of the entire State were less than those in a single county of to-day. At that time the principal subjects of taxation were slaves and farming lands, and most of this property was on the eastern border of the State, where the soil and crops were nearly identical, and uninfluenced by proximity to manufacturing enterprises or great cities. All this has been changed: The population has increased 1,200 per cent., and we now have the varied crops of North, Middle, South and West Georgia, with mountain land, rolling country, and a vast area of pine forests, which are rapidly being converted into farms.

"Not only do the soil and crops differ, but the value of the farming land is influenced by nearness to market and proximity to railroads. Besides, new forms of value have arisen. Factories, foundries, railroads, saw mills, mines, bonds and an indefinite variety of personal property have come into existence, yet there is no adequate method of determining what is in the State subject to taxation, nor any fixed standard for determining its value. It is well known that land of practically the same productive capacity, and with almost identically the same improvement, is frequently returned by one owner at full price, and by the other at less than one-half. The fairer the tax-payer the more onerous the burden. The State, in effect, offers a premium to him who shirks instead of to him who willingly and cheerfully complies with the spirit of the law. This is wrong, unjust and inequitable, and can only be cured here, as it has been cured elsewhere, by the creation of county boards, authorized to examine returns, to see that omitted property is put on the books, and that
property of the same kind and value is assessed and taxed alike. But even this does not fully meet the difficulty, for what is true of two neighboring citizens, may be equally true of neighboring counties, or of those more remotely separated. Property worth a million dollars in one may be so returned, but property of an equally aggregate value in another county, may be given in at half its value. Farming lands in one part of the State may be returned at one price, and in another at a very different price. Corporate property may be practically exempt in one part of the State, and highly valued, or valued at full price, in another. These discrepancies or inequalities are not only in violation of the spirit of the law, but they diminish the State's income at the expense of those who live in the jurisdiction where full returns are enforced. The evil can be speedily corrected by the establishment of a State Board, under whose administration not one dollar of unjust tax will be imposed, but where the unequal burden will be taken from the county and individual now paying too much, and distributed equally among those who are paying too little.

In this connection I desire to call your special attention to the reports of the Comptroller-General and the Attorney-General. These experienced and conscientious officers make some valuable suggestions and recommendations upon the inequality of taxation, which should receive your careful consideration.
AGRICULTURAL SCHOOLS AND FARMERS’ INSTITUTES.

I wish to urge again upon your favorable consideration the question of agricultural schools, as presented in my message of November 8, 1902. I feel sure that a thorough investigation of the question will convince you that such schools will supply, in a very large degree, the gap which now exists between our common schools and the State University, the School of Technology, and other colleges throughout the State. It would be much better to have a high school with an agricultural feature connected with it in every county in the State, than to have only one of such schools in each Congressional District, but the lack of funds may make it necessary for us to begin the system with one school in each District.

In line with these schools is the work of Farmers’ Institutes. The Trustees of the State University, recognizing the value of such work, arranged last year for a systematic course of Farmers’ Institutes throughout the State, under the direction of Hon. C. H. Jordan. The Institutes held under this plan have demonstrated their value to the agricultural interests of the State, and in order that this work may be enlarged and carried on in a more general way, I suggest the propriety of making a special appropriation to the Trustees of the University, to be paid out of the fund arising from the fees for the inspection of fertilizers.

PENAL SYSTEM.

With pardonable pride I think the State may look upon the continued improvement in her convict system. An
examination of the systems of other States, where conditions are similar to those in Georgia, will show that we are far in the lead. The disposition of convicts by the State is ever a delicate question, and one that is always with us. The object of the law in inflicting punishment upon the law-breaker, is to deter him from a repetition of his sin, and by his example deter others, and no less important is the idea of working in him reformation. No system is therefore perfect that does not have prominent in it the aim and purpose of reformation of the criminal. In this respect, in my opinion, Georgia may greatly improve her convict system, by making suitable provision looking to the separation of her juvenile convicts from contact and association with her hardened criminals. Aside from the moral question involved, experience demonstrates that it is much less expensive to the State to reform the boy than to care for the hardened criminal. I recommend legislation looking to the creation of juvenile courts in the principal cities of the State, and establishing reformatories for violators of the law by persons under the age of sixteen years. These delinquent children may be confined at out-door labor, or taught useful trades and subjected to manual work, and with proper and wholesome moral influences surrounding them, reclaimed and made good citizens.

NEW CONVICT LAW

The Act passed, at your last session, disposing of the convicts for a period of five years, commencing April 1, 1904, has been carried into effect, and the provision relative to working the short term convicts upon the public roads
seems to be operating very satisfactorily in those counties which met the requirements of the Act for the working of such convicts. There is a provision, however, in section 4 of the Act, to which I desire to call your special attention, and suggest the propriety of an amendment thereto. Under section 4 it is prescribed that the net hire of the convicts shall be transmitted quarterly by the Treasurer of the State to the Treasurer of those counties which have not received their proportion of felony convicts for work upon the public roads, without regard to whether that hire shall be appropriated for common schools, or for the public roads. In the event the money arising from the hire of convicts is applied to the public roads in a county, it would be proper for the State Treasurer to remit to the County Treasurer; but where the hire is allowed to go to the common schools, as has been the rule in the past, it seems to me to be entirely unnecessary for it to pass through the hands of the County Treasurer, thereby subjecting it to the commissions fixed by law for that officer, when it could be paid out of the State Treasury directly to the County School Commissioner, without any cost whatever. Such an amendment would save to the school fund of the counties interested several thousand dollars annually in the way of commissions.

STATE EXHIBIT.

In accordance with the provisions of the Dunbar resolution appropriating $30,000 for the collection of an exhibit of the resources of the State, approved August 17, 1904, the Governor and Commissioner of Agriculture
with the assistance of the Geologist and Assistant Geologists, the Assistant Commissioner of Agriculture and the State Chemist, have collected and arranged for permanent preservation specimens of minerals, granites, clays, kaolin, marble, iron and other precious stones found in the State, and also specimens of products of the fields, forests, orchards and vineyards of the State, and of such other matters as serve to demonstrate the character and productiveness of the soil of Georgia and best illustrate and develop the agricultural, horticultural and geological departments of the State. In the work of making this collection the Governor and Commissioner of Agriculture soon realized that it would be necessary to secure the services of persons specially equipped for the work, and in order to fully carry out the provisions of the resolution, Hon. Dudley M. Hughes was appointed Commissioner and Hon. Glascock Barrett, Assistant Commissioner.

After the collection of this exhibit it was forwarded to the Louisiana Purchase Exposition at St. Louis, Mo., as provided by section 3 of the resolution, satisfactory arrangement having been first made for its safe carriage to and from that point without any expense whatever to the State, except such as was deemed necessary for the protection and preservation of the exhibit. The freight on the exhibit from Atlanta to St. Louis was about $1,500, which was met by private subscriptions, the larger amount, viz., $1,000, having been paid by the Greater Georgia Association. The exhibit is being duly installed at St. Louis, by Mr. Barrett and Prof. W. S. Yeates, State Geologist, and when completed, will be one of the best ex-
hibits of the resources of Georgia that has ever been presented to the public. Upon the close of the Exposition this exhibit will be properly installed in the State Capitol, and will become a splendid means of advertising our resources. It will be necessary, however, on account of the perishable nature of the horticultural display and most of the agricultural products to have them renewed annually, which may be done at a small outlay.

We have spent on the exhibit to date about $20,000, and we hope to have several thousand dollars left from the original appropriation of $30,000, which may be used for the purpose of supplementing the exhibit upon its return to the Capitol. A report just received from Hon. D. M. Hughes states, that the Georgia exhibit compares favorably with those from other States which appropriated from one to one hundred and fifty thousand dollars for that purpose.

GEORGIA BUILDING AT ST. LOUIS.

It soon became apparent, after the work of collecting the Georgia exhibit began, that it would be necessary to have a Georgia building upon the grounds at St. Louis, in order that our State might have an equal opportunity with the other States in presenting the resources and varied interests to the many people visiting that Exposition. None of the money, however, appropriated by the General Assembly could be used for the purpose of erecting such a building and furnishing same. We then appointed Hon. Hugh V Washington as a special Commissioner for the purpose of laying the necessity for such a building before
the people, and after several months' work, in which he had the assistance of Messrs. Hughes and Barrett, he succeeded in securing from various cities, towns and counties, as well as individuals throughout the State, subscriptions in cash and furniture to the amount of about $16,000, all of which have been paid except about $1,500, which we feel sure will be paid during the next few weeks. The building is modeled after "Sutherland," the beautiful home of the lamented General John B. Gordon. The contract price of the building is $14,100, and has been constructed almost entirely of Georgia material. We estimate that the remaining $1,900 will cover the necessary furniture and the expense of maintaining the building during the Exposition.

I had hoped to be able to present to the General Assembly in this message an itemized statement of all subscriptions to this building, and of all expenditures in connection with its erection and furnishing, in order that the people who so liberally subscribed might be fully informed as to the disposition of the money paid over to the Commissioners. But the delay in the completion of the building, as well as in the collection of a number of the subscriptions, renders it impracticable for such a statement to be furnished at this time.

The building has just been completed and turned over to our Commissioners, and same was opened to the public on the 21st instant. The Governor and the Commissioner of Agriculture feel that special thanks are due Hon. Hugh V. Washington for his splendid work in behalf of the Georgia building, as he gave freely of his time and worked faithfully,
without compensation, in securing subscriptions which made the building a possibility. We also feel very much indebted to Hon. H. H. Tift, Commissioner of Lumber, and Hon. F. B. Gordon, Textile Commissioner, for their untiring efforts and valuable assistance in securing subscriptions.

CONFEDERATE MEMORIAL BOARD.

As authorized by an Act of the General Assembly, entitled "An Act to create the Confederate Memorial Board of Georgia," approved August 15, 1903, I appointed the following named gentlemen as members thereof, to wit: Capt. R. A. Nisbet, of the county of Bibb; Major J. G. Morris, of the county of Cobb; Col. John O. Waddell, of the county of Polk; Capt. W. D. Ellis, of the county of Fulton, and Col. W. S. Shepherd, of the county of Muscogee. This board has furnished a most excellent report, which you will have before you, and to which I invite your careful consideration. Much valuable and interesting information is furnished concerning nineteen Confederate cemeteries located in different sections of the State. Quite a number of these cemeteries are in poor condition, and badly in need of attention. The Board recommends "that some fit and proper person be appointed by the Governor, to visit each cemetery in the State, to make tabulated statements of their condition, and the exact cost of putting those in a state of decay or neglect, if any, in good condition," and the board is of the opinion that the sum of $5,000 will be sufficient to put all Confederate cemeteries in the State in excellent condition. This Board is to be
congratulated for its economy, as they have only expended $75.72 for the actual expenses of its members, out of the appropriation of $250.00 made for that purpose.

PUBLIC INSTITUTIONS.

You will have before you the report of the Trustees of the State University, and of the Board of Visitors to the University; the report of the Board of Directors and the Board of Lady Visitors to the Georgia Normal and Industrial College; the reports of the State Normal School, the Academy for the Blind, School for the Deaf, and the reports of the Boards of Visitors to the two last named institutions. All these reports contain many valuable suggestions and recommendations, and will amply repay careful perusal. I bespeak for them your most earnest consideration.

STATE SANITARIUM.

I specially invite your attention to the report of the Board of Trustees of the State Sanitarium. I have recently visited this Institution, in company with several members of the Board of Trustees, and found it in excellent condition. The inmates are well treated and cared for; the buildings are in good condition, and the rooms and floors are kept remarkably neat and clean.

From the report of the Trustees it will be seen that the daily average of patients under treatment, for the past eight months, was 2,770, and the daily average cost of each patient was only a fraction over thirty cents, which is less than any similar institution of the same class in the United
States. The ratio of insane in Georgia is low compared to other States, the percentage being 1 to 1,012 of population. In 13 States the ratio is less, and in 32 it is greater than that of this State. This institution is Georgia's greatest charity, and the State is to be congratulated upon the able and efficient administration of its affairs. The farm that is now being run in connection with the Sanitarium is doing a good work, and furnishes recreation and light employment to many of the convalescent patients. From this farm the patients are supplied with all kinds of fresh vegetables and fruits.

The Trustees recently inaugurated a new and most excellent system of duplicate vouchers, and also modernized and greatly improved the system of bookkeeping, so that in the future the financial affairs of the institution can be more easily investigated and understood. There is at present some confusion in the laws relative to the management of the Sanitarium and the reception of patients; and I recommend that a committee be appointed to confer with the Superintendent of the Sanitarium and the President of the Board of Trustees, with the view of revising the laws relating to the institution.

OFFICIAL REPORTS.

You will also have before you the reports of the Comptroller-General, State Treasurer, State School Commissioner, Attorney-General, Adjutant-General, Commissioner of Agriculture, Secretary of State, Railroad Commission, Prison Commission, Pension Commissioner, Compiler of Records, Roster Commission, State Librarian, Keeper of
Public Buildings, and such other departments as are required by law to submit annual reports. They contain many valuable suggestions and recommendations, which I am sure will receive your careful consideration, as they bear unmistakable evidence of the efficiency and fidelity of these public servants.

OLD RECORDS.

During the first year of my administration I found in the Archives of the Executive Department twenty-four old Volumes of Executive Minutes, covering a period of fifty years, from 1793 to 1843. These old volumes, for some reason, had never been indexed, and were in a bad state of preservation. These records cover a very interesting and important era of the State’s history, and in order that they might be preserved and handed down to future generations, I have had them all neatly and substantially rebound by the State Printer, and am now having them properly indexed.

REWARDS.

The annual appropriation of $2,000 made by the Legislature for the apprehension of fugitive criminals is wholly inadequate, as the appropriation for this year has already been exhausted, with the exception of $100, and there are now unpaid claims on hand of more than enough to take up this balance. All rewards are paid from the fund derived from the hire of convicts, and as no reward is paid until after the criminal has been convicted, the State gets the benefit of the hire and loses nothing in the transaction.
I therefore recommend that the Governor be authorized to draw on the Prison Fund for a sufficient amount to pay rewards offered for the apprehension of criminals.

STATE'S FINANCES.

The State Treasurer has paid to the common school teachers out of the money appropriated by the Legislature, for the year 1904, the sum of $688,806.50 as against $653,684.48 for the same period of 1903. All pensions and other obligations have been promptly met, and a sum exceeding $35,000 more than that of last year has been paid to the teachers.

Last year it was necessary, in order to meet the expenses of the General Assembly, to borrow $65,000, but if the Treasury receipts for the next fifty days come up to our expectations, I do not think it will be necessary to borrow any amount during the present session. However, in the event the receipts are not sufficient to meet the expenditures, I have arranged, with the assistance of the State Treasurer, to borrow whatever amount may be required at the rate of 2 per cent. per annum, from the following banks: Southern Bank of Savannah; Fourth National Bank of Atlanta, the Neal Loan and Banking Company of Atlanta, and the Exchange Bank of Macon. This is a remarkably low rate of interest, and the banks of the State are to be congratulated upon their ability to make loans at such a rate.

J. M. TERRELL,
Governor.
APPENDIX A.

In accordance with the requirements of section 5815 of the Code, I herewith submit report of all reprieves, commutations of sentence, and pardons granted to December 31, 1903.

PARDONS GRANTED BY THE GOVERNOR.

T. J. Granade.—Voluntary Manslaughter. Superior Court of Fulton county, Spring term, 1902; five years in the penitentiary. Defendant claimed to have acted in self-defense, and newly discovered evidence greatly strengthens this theory, and shows that an assault was actually made on the defendant. Granted June 3, 1903.

Harry Harris.—Misdemeanor. City Court of Rome, March term, 1903; three months on the chaining. Extreme youth of the defendant, previous good character and two months service. This was his first offense. Granted June 8, 1903.

Nathan Sturgiss. Hog Stealing. Superior Court of Columbia county, March term, 1903; six months. Defendant is an old man, unable to work, and his pardon is urged by many good citizens. Granted June 8, 1903.

C. H. Colson.—Larceny. City Criminal Court of Atlanta. February term, 1903; eight months on the chaining. Previous good character; has served four months, and his pardon urged by many good citizens. Granted June 8, 1903.

Sam Brodnax.—Murder. Superior Court of Hancock county, Spring term, 1896; life imprisonment. Defendant only eleven years old when crime was committed, which fact was not proven on the trial, and therefore he did not
receive the benefit of the legal presumption in his favor. He has served eight years, and his pardon is urged by many good citizens. Granted June 10, 1903.

**Maggie Mills.**—Infanticide. Superior Court of Bartow county, Spring term, 1897; life imprisonment. Defendant was a very young and half-witted negro girl, and abandoned a bastard child of other parties and left it to die in the woods. On account of the weakness of her mind she does not seem to have been cognizant of the nature of the crime committed. She has served about six years, with good conduct. Granted June 11, 1903.

**Pauline Perry.**—Larceny. Superior Court of Irwin county, March term, 1903; six months. The Judge who tried her certified that he intended to make the sentence three months instead of six months, and he now asks that the mistake be corrected, and the defendant discharged. Granted June 16, 1903.

**Gyp South.**—Burglary. Superior Court of Fulton county. Spring term, 1900; four years. He has served all of his term with the exception of two months, and the camp physician certifies that he is in the last stages of consumption. Granted June 24, 1903.

**Charles R. White.**—Voluntary Manslaughter. Superior Court of Bibb county; five years. Two reputable physicians certify that he has an incurable disease of the heart and varicocele, both of a serious nature. He has served with good conduct, and clemency is urged by many good citizens. Granted July 1, 1903.

**Henry Jones.**—Murder. Superior Court of Richmond county, May term, 1890; life imprisonment. Deceased did not die until about six months after he was stabbed by the defendant, and his death seems to have been caused more from dissipation than from the wound. Clemency is urged by the Judge, Solicitor-General, and many good citizens.
He has served with good conduct thirteen years. Granted July 8, 1903.

**Willis Bennefield.**—Perjury. Superior Court of Burke county, Fall term, 1901; four years in the penitentiary. Defendant was only technically guilty; and on account of his advanced age and infirmities, his previous good character and excellent conduct since he has been imprisoned, it is thought that his punishment has been sufficient. Granted July 14, 1903.

**William Powers.**—Burglary. Superior Court of Elbert county, September term, 1898; eight years in the penitentiary. The property stolen was only worth three or four dollars, and he has served nearly six years with good conduct. Granted July 15, 1903.

**W N. Kennedy.**—Shooting at Another. Superior Court of Fulton county, January term, 1903; six months in jail and twelve months in the chaining. Judge before whom he was tried expresses doubt as to his guilt. He has served the jail punishment, which the Judge considers sufficient. Granted July 21, 1903.

**Tom Richardson.**—Voluntary Manslaughter. Superior Court of Glynn county, Spring term, 1892; fifteen years in the penitentiary. Defendant has served all of his term with the exception of about two weeks, during which time his conduct has been good. Granted July 24, 1903.

**Albert Cowen.**—Murder. Superior Court of Elbert county, September, 1893; life imprisonment. Defendant was convicted on circumstantial evidence; during his imprisonment he has lost a leg and one eye, and his pardon is urged by many good citizens. Granted July 24, 1903.

**Charles Phillips.**—Larceny from the Person. Superior Court of Muscogee county, May term, 1903; twelve months
AVEDNESDAY, JUNE 22, 1904. 

in the chain gang and six months in jail. Defendant was a weak-minded boy, only sixteen years of age. He has served the twelve months' sentence and three months of the jail sentence. Granted August 7, 1903.

KING JONES.—Selling Whiskey and Gaming. Superior Court of Clayton county, August term, 1902; twelve months in each case. He has served one term, and the Grand Jury recommend by special presentment that he be pardoned. Granted September 8, 1903.

BURRELL PHILLIPS.—Murder. Superior Court of Miller county, February term, 1899. Life imprisonment. The Judge and the jury before whom he was tried express doubt as to his guilt, and recommend that he be pardoned. Granted September 12, 1903.

ED MURRAY.—Assault with intent to murder. Superior Court of Wilkinson county, October term, 1902; three years in the penitentiary. The judge before whom he was tried and the solicitor general both urge clemency stating that there was grave doubt as to his guilt. Granted September 12, 1903.

JOHN CARROLL.—Murder. Superior Court of Fulton county, Fall term, 1895; life imprisonment. Defendant a boy eighteen years of age at the time the crime was committed. Deceased was an immoral woman much his elder who had for months exercised control over him, and whom, in his sober moments he endeavored to shun. His pardon, is urged by the solicitor-general who prosecuted him, the grand jury which indicted him, and the jury which convicted him. Granted September 12, 1903.

CHARLES H. LOCKSLEY.—Murder. Superior Court of Richmond county, October term, 1887. Life imprisonment. Defendant was a boy about twelve years of age and killed deceased in a sudden heat of passion. The crime might have been reduced to manslaughter, and since de-
fendant has served more than sixteen years, it is thought that his punishment has been sufficient. Granted September 12, 1903.

James R. McCoy.—Misdemeanor. Two cases. Superior Court of Walker county, August term, 1902; twelve months in one case and six months in the other. He has served with good conduct eighteen months, is an old Confederate soldier sixty-two years of age, and unable to do hard manual labor. His conduct has been good. Granted September 12, 1903.

Pomp Braswell.—Murder. Superior Court of Montgomery county, October term, 1890; life imprisonment. He claims that the killing done by him was in self-defense. He is now sixty years old and has served more than thirteen years actual time with good conduct. Granted October 9, 1903.

John Harris.—Carrying concealed weapons. City Criminal Court of Atlanta, May term, 1903; ten months on the chain gang. His character prior to the offense was good and he has served with good conduct. Granted October 9, 1903.

L. A. Hester.—Murder. Superior Court of Campbell county, February term, 1901; life imprisonment. He was indicted with several others and the others were convicted largely on his testimony. He has served with good conduct. His pardon is urged by more than six hundred good citizens of Campbell county. Granted October 10, 1903.

Os. Pierce.—Misdemeanor in two cases. Superior Court of Fannin county, October term, 1902; eight months in one case and six months in the other. On account of the punishment he has already undergone, having served about twelve months on the chain gang, and paid a fine of $25.00 to the town of Blue Ridge, for an offense growing out of the same transaction, it is thought his punishment has been sufficient. Granted October 10, 1903.
MANS. HICKS.—Misdemeanor. City Court of Griffin, January term, 1903; twelve months. Defendant is in a pitiable condition, suffering from blood poison and consumption, and unable to do manual labor, and has already served nine months. Granted October 10, 1903.

D. E. SWAIN.—Simple Larceny. Superior Court of Telfair county, July term, 1901; three years in the penitentiary. It now seems that he was not guilty of the offense charged. Has already served over two years of the sentence with good conduct. Granted October 10, 1903.

WILL E. CHAMBLEY.—Bigamy. Superior Court of Carroll county, October term, 1902; two years in the penitentiary. Has already served one-half of his sentence, and on account of previous good character, the judge and the solicitor who tried him recommend that he be pardoned. Granted October 10, 1903.

WILL BRUCE.—Murder. Superior Court of Fulton county, March term, 1896; life imprisonment. He was convicted for murder in the second degree, and subsequent to his trial, the person who actually committed the homicide was convicted and sentenced to eight years. Defendant has already served more than eight years and his punishment is thought sufficient. Granted October 12, 1903.

CHUB WALL.—Murder. Superior Court of Rabun county February term, 1901; life imprisonment. Circumstantial evidence on which he was convicted, and newly discovered evidence creates grave doubt as to his guilt. Clemency urged by officials and a large number of citizens. Granted October 13, 1903.

HARRISON ROBERTS.—Misdemeanor. City Court of Buford, April term, 1903; twelve months. Has served seven months. Is now suffering with valvular heart trouble, dropsy, and Bright's disease. Granted November 16, 1903.

STEWART HARRIS.—Voluntary manslaughter. Superior
Court of Rockdale county, April term, 1903; four years in the penitentiary. Defendant claimed that he was justifiable in the killing, but acting on the advice of counsel, he plead guilty to voluntary manslaughter. Character good prior to conviction. Granted November 27, 1903.

Cicero Anderson.—Gaming. City Court of Atlanta, September term, 1903; fine of $50.00 or eight months on chain gang. In view of the fact that he is suffering with consumption, the trial judge and solicitor recommend his pardon. Granted November 27, 1903.

Joe Smith.—Forgery. Two cases. Superior Court of Fulton county, Spring term, 1896; five years in each case. He has already served more than seven years and is now suffering with consumption. Granted November 27, 1903.

Jack Harris.—Burglary. Superior Court of Forsyth county, February term, 1890; twenty years in the penitentiary. Has already served thirteen years of his sentence and the judge who imposed the sentence recommends his pardon. Granted November 27, 1903.

Eugene Sutton and Jesse Thornton.—Robbery. Superior Court of Clayton county, February term, 1902; four years. Defendants were very young, and the crime consisted in taking by force, from a younger boy, a bucket containing some food and a cap. They have already served three years with good conduct. Granted November 27, 1903.

Bill Baker.—Vagrancy. Superior Court of Taliaferro county, August term, 1903; six months. Newly discovered evidence shows that he was a negro of good reputation for work and general character, and that he was not a vagrant. Granted December 1, 1903.

Wesley Sherman.—Murder. Superior Court of Wilkes county, May term, 1893; life imprisonment. He was con-
victed on testimony and under circumstances which left grave doubt as to his guilt. The judge, solicitor, and the trial jury recommend clemency. He has served ten years with good conduct. Granted December 10, 1903.

Charles Weems.—Gaming. City Court of Atlanta, September term, 1903; six months. Since his conviction his wife has died, leaving three small children, with no one to care for them. Has already served one-half of his sentence with good conduct. Granted December 11, 1903.

J. C. Roberts.—Arson. Superior Court of Dooly county, March term, 1899; five years in the penitentiary. He has served all of his sentence except about three days with good conduct. Was convicted on circumstantial evidence and has always protested his innocence. Granted December 12, 1903.

Henry Lacy.—Murder. Superior Court of Paulding county, August term, 1882; life imprisonment. He was convicted with two others who have already been pardoned, and having served a term equivalent to the terms of the other two, it is thought that his punishment has been sufficient. Granted December 14, 1903.

Dave Ray.—Larceny. Superior Court of Telfair county, July term, 1901; three years in the penitentiary. Has served over two years with good conduct. Previous good character. Granted December 14, 1903.

Matt Jenkins.—Illegal sale of whiskey; City Court of Carrollton, December term, 1902; twelve months on the chain-gang. Has served all but a few weeks of her sentence and since her incarceration her husband has died leaving several small children, dependent and destitute. Granted December 14, 1903.

Elisha Falls.—Voluntary Manslaughter. Superior Court of Fannin county, October term, 1902; two years in
the penitentiary. The offense was committed in a drunken spree, and under mitigating circumstances. He is now in a bad physical condition. The judge, solicitor and trial jury urge clemency. Granted December 14, 1903.

ROBERT E. LANGLEY.—Robbery. Superior Court of Fulton county, January term, 1901; five years in the penitentiary. He was only seventeen years of age and was induced to commit the offense by an older person. He has served more than three years, and clemency is urged by a large number of good citizens. Granted December 14, 1903.

PATRICK CONNORS.—Voluntary Manslaughter. Superior Court of Chatham county, Spring term, 1897. Fifteen years in the penitentiary. The crime was committed under great provocation and defendant was tried three times before he was finally convicted. Defendant has served more than six years with good conduct. Granted December 14, 1903.

ALVIN YOUNG.—Vagrancy. City Court of Waycross, July term, 1903. Twelve months on the chain gang. The County Commissioners and County Physician certify that defendant is an imbecile and unable to work. Granted December 14, 1903.

GEORGE STANTON.—Assault with Intent to Murder. Superior Court of Fulton county, September term, 1897; convicted in two cases and sentenced to five years in one case and three years in the other. Both offenses grew out of the same transaction, and it is thought that he has been sufficiently punished. Granted December 14, 1903.

JEWETT S. CALLAWAY.—Assault with Intent to Murder. Superior Court of Oglethorpe county, May term, 1901; four years in the penitentiary. He plead guilty to the charge, and has served nearly three years of his sentence with good conduct. Granted December 15, 1903.

FRANK KEMP.—Murder. Superior Court of Macon
-county, October term, 1898; life imprisonment. He was jointly indicted with another for murder and it now appears that he was not guilty. Granted December 16, 1903.

H. W Bohannon.—Car Breaking. Superior Court of Whitfield county, October term, 1897; ten years in the penitentiary. He was convicted with several others. He plead guilty, and it was largely on his evidence that the others were convicted. Has served over six years. Granted December 18, 1903.

Sandy Thomas.—Forgery. Superior Court of Bibb county, June term, 1903; four years in the penitentiary. The amount received was very small and prompt restitution was made. Previous good character, and good conduct since conviction. Granted December 30, 1904.

Henry Lyle.—Murder. Superior Court of Fulton county, October term, 1901; life imprisonment. From the evidence it is doubtful whether defendant killed deceased or whether she took poison. In view of the mitigating circumstances and the strong appeals for clemency, it is thought he should be released. Granted November 6, 1903.

**SENTENCES COMMUTED.**

John Perry.—Murder. Superior Court of Whitfield county, October term, 1902; sentenced to be executed. Since the trial it is shown that a short time before the homicide was committed, the deceased knocked defendant down and kicked him out of his show tent. While smarting under the indignities heaped upon him defendant killed deceased. Sentence commuted to life imprisonment, August 4, 1903.

Geo. F. Gilbert.—Burglary. Superior court of Ware county, April term, 1903; four years in the penitentiary. Defendant was convicted of stealing ten dollars worth of clothing from a railroad car. The trial jury recommended
that he be punished as for a misdemeanor. The Supreme
Court on hearing of the case divided as to whether burg­
lary was proven. Sentence commuted to a fine of $1,000.00
and cost, September 12, 1903.

R. L. Golding.—Hog Stealing. Superior Court of Lib­
erty county, May term, 1902; three years in the peniten­
tiary. In view of the conflicting testimony on the trial of
the case, and defendant's previous good character, sentence
commuted to a fine of $100 and costs, or twelve months in
the chaingang, September 12, 1903.

John R. Jones.—Larceny. City Court of Atlanta, March
term, 1903; eight months in the chaingang. Pending the
trial of his case he was kept in jail about six months, which
was thought sufficient punishment. Sentence commuted to
six months jail service, September 12, 1903.

Clara Johnson.—Vagrancy. City Court of Macon, Au­
gust term, 1903; fine of one hundred and twenty-five dol­
lars, or ten months in the chaingang. Prior to her convic­
tion she was married, and her husband desires to pay a fine
of $75.00 and have her released. Sentence commuted to a
fine of $75.00. September 12, 1903.

Jim King.—Simple Larceny. Superior Court of Pulaski
county, August term, 1903; fine fifty dollars and cost, or
twelve months. After the time had elapsed for the pay­
ment of the fine, he tendered the amount to the Sheriff.
Sentence commuted to payment of the fine of $50 and costs.
September 15, 1903.

John Skelton.—Seduction. Superior Court of Newton
county, September term, 1902; five years in the peniten­
tiary. Newly discovered evidence shows that defendant
was not guilty of seduction, but of a lesser offense. Sen­
tence commuted to one year in the penitentiary, October
10, 1903.

Joe Neal.—Simple larceny. Superior Court of Baker
county, September term, 1903; two years in the penitentiary. All of the trial jurors say that it was their intention to have him punished as for a misdemeanor. Sentence commuted to a fine of one hundred dollars, October 10, 1903.

**Grantland Hollingsworth.**—Misdemeanor; two cases. City Criminal Court of Atlanta, July term, 1902; fine of fifty dollars, or eight months, in each case. Defendant was only seventeen years old; this was his first offense, and he had previously borne a good reputation. Sentences in both cases commuted to a fine of fifty dollars or eight months, October 10, 1903.

**Oliver Henderson, Jr.**—Bastardy. County Court of Newton, August term, 1903; fine one hundred dollars and costs, or twelve months in the chain gang. His previous character is shown to have been excellent, while the woman bore a bad reputation. Sentence commuted to a fine of fifty dollars, October 13, 1903.

**W. H. Fordham.**—Murder. Superior Court of Laurens county, July term, 1901; life imprisonment. He was jointly indicted with several others, and all seem to have been equally guilty. Defendant was convicted of murder, while the others were convicted of manslaughter, and it is thought that his sentence should be commuted to the same length of service as the others. Sentence commuted to five years in the penitentiary, October 15, 1903.

**J. T. Stone.**—Subornation of perjury. Superior Court of Morgan county, March term, 1903; five years in the penitentiary. His previous character was good, and he was convicted on the testimony of several disreputable negroes, who were self-confessed perjurers. Sentence commuted to a fine of two hundred and fifty dollars, or twelve months, November 6, 1903.

**Wesley Smith.**—Larceny from the House, in two cases.
City Court of Atlanta, September term, 1903; fine of $50 or twelve months in each case. His previous character was shown to have been good, and the property stolen was of small value. Sentence commuted to $50 in each case, or six months in the chaining, November 27, 1903.

Wesley Simmons.—Four Misdemeanors. Superior Court of Bartow county, November term, 1901; twelve months in two cases, and six months in each of the other cases. Defendant served the greater portion of his sentence, and the same was commuted to payment of a fine of $35, November 27, 1903.

Arthur Jones.—Assault to Murder. Superior Court of Dodge county, August term, 1903; twelve months. He plead guilty, and was sentenced to pay a fine of $65 or twelve months. At first he was unable to pay the fine, but now desires to do so. Sentence commuted to a fine of $50, November 27, 1903.

Wesley Reaves.—Assault with intent to Murder. Superior Court of Wilkes' county, May term, 1903; two years in the penitentiary. A large number of citizens urge clemency on the ground of defendant's previous good character and the weakness of the testimony against him. Sentence commuted to six months, December 14, 1903.

James White.—Murder. Superior Court of Catoosa county, Fall term, 1903. Sentenced to be executed. The killing occurred in a mutual combat between the defendant and the deceased, and the Judge who tried him and the Solicitor who prosecuted him say that the jury could, with propriety, have recommended life imprisonment. Sentence commuted to life imprisonment, December 30, 1903.
REMOVAL OF DISABILITIES.

W S. Brown.—Murder. Superior Court of Talbot county; life imprisonment. He was pardoned some years ago, and has since been a good citizen. Granted July 21, 1903.

Charles Driver.—Extortion. Superior Court of Glynn county, December term, 1902. His guilt was only technical. He has paid the fine imposed by the court, and has been a law-abiding citizen. Granted October 9, 1903.

Elias Collier.—Larceny from the house. City Court of Atlanta, August term, 1899. He paid the fine imposed upon him, and has since been a good, law-abiding citizen. Granted December 14, 1903.

Fort McLeroy.—Burglary. Superior Court of Muscogee county, Fall term, 1898; three years in the penitentiary. Since serving out the sentence imposed by the court he has established a good character in the community where he resides. Granted December 14, 1903.

RESPITES GRANTED.

Lee Cribb.—Murder. Superior Court of Coffee county, March term, 1903. Sentenced to be executed on November 10, 1903. Respite granted until December 11, 1903, in order that the Prison Commission might have sufficient time in which to consider an application for the commutation of sentence. On December 9, 1903, he was again respited until December 18, 1903, in order that a Board of Physicians might examine him and pass upon the question of his sanity.

The following message was received from His Excellency the Governor, through his Secretary, Mr. Blackburn:

Mr. President:

I am directed by His Excellency the Governor to deliver to the Senate a communication in writing.

State of Georgia, Executive Office,
Atlanta, June 28, 1904.

To the General Assembly:

I herewith transmit to you a letter from His Excellency, A. J. Montague, Governor of the Commonwealth of Virginia, together with a joint resolution of the General Assembly of Virginia, relative to an International Exposition to be held on the shores of Hampton Roads, for the purpose of commemorating the first permanent Anglo-American settlement on this continent, made at Jamestown on the 13th day of May, 1607. I trust you will give the matter due consideration, and take such action as you may deem wise and proper.

J. M. TERRELL, Governor.

Commonwealth of Virginia,
Governor's Office, Richmond.

SIR: I enclose a copy of a joint resolution of the General Assembly of Virginia, passed February 17, 1904, and beg to request that you will transmit the same to the Legislature of your State.

I venture to suggest that the commemoration in question is of extraordinary significance, as the landing at Jamestown was the first permanent settlement of the English-speaking people on this continent by nearly four-
TUESDAY, JUNE 28, 1904.

Twen years; indeed, as a result of this settlement Virginia was an organized Colony with an elective Legislative Assembly nearly two years prior to the landing of the heroic Pilgrims at Plymouth Rock. Therefore, this settlement is the genesis of our national government and the original source of forces which have entered mightily into the fabric and growth of our Republic.

It is to be hoped that the magnitude of the historic commemoration may have the generous consideration of your State and the earnest sympathy and co-operation of your people in appropriately bringing before the world so transcendent an event.

I have the honor to be, sir,

Your obedient servant,

A. J. MONTAGUE.

JOINT RESOLUTION OF THE GENERAL ASSEMBLY OF VIRGINIA, PASSED FEBRUARY 17, 1904.

Whereas, It is proposed to commemorate the first permanent Anglo-American settlement on this continent, made at Jamestown on the 13th day of May, 1607, by holding an International Exposition on the shores of Hampton Roads; and the State of Virginia has heretofore incorporated the Jamestown Exposition Company, under whose auspices such commemoration is to be held; and,

Whereas, The General Assembly of Virginia has heretofore endorsed such commemoration by making a suitable appropriation to said Company to assist in making said exposition a fit and suitable one to properly commemorate this the greatest event in American history; and,

Whereas, A bill has been introduced in the Senate and House of Representatives of the United States of America
in Congress assembled, for the purpose of securing the endorsement of this nation, and of making said Exposition an International one, inviting foreign nations to participate therein, and authorizing suitable and appropriate naval displays and military maneuvers, on and near the waters of Hampton Roads during the period of said Exposition, and providing a proper appropriation by the Government of the United States; now, therefore be it

Resolved, By the House of Delegates, the Senate concurring, that the Governor of this State be, and he is hereby authorized and requested for and on the part of the Commonwealth of Virginia, to at once invite the co-operation and assistance of each and every other State of this Union, in order that each of them may adopt the necessary measures to be suitably and appropriately represented at the said Exposition.

Allen, Atkinson, Christie, Clark, Clements, Comas, Duncan, of 10th, Duncan, of 36th, Golden, Harrell, Hightower, Hopkins, Hudson, Jordan, Lee, Ledford, Lewis, Mathews, McClure, McLean, McMichael, Merritt, Middlebrooks, Moore, Park, Perry, Reid, Smith, Snead, Starr, Stevens, Sweat, Taylor, Tisinger, Turner, Van Buren, Williams, Worsham,
Those not voting were Messrs.—

Crumbley, Roberts, Symons,
Davis, Skelton, Mr. President.

Ayes 38, nays 0.

The bill having received the required two-thirds majority was passed and ordered immediately transmitted to the House.

The following Senate bills were read second time:

By Mr. Jordan—

A bill to amend section 2 of an Act regulating the sale of commercial fertilizers in this State.

By Mr. Davis—

A bill to amend the various acts incorporating the town of Waynesboro and to make the same a city.

By Mr. Davis—

A bill to authorize the city of Waynesboro to incur a debt for the furnishing of electric lights.

By Mr. VanBuren—

A bill to authorize the Secretary of State to grant corporate powers to sick, benefit and accident insurance companies.

By Mr. Duncan—

A bill to provide for the examination of private banks by the State Bank Examiner.
The following resolution was read and adopted:

By Mr. Tisinger—

A resolution to appoint a joint committee from the Senate and House to amend, revise and consolidate the general laws governing corporations and to prepare and present to the General Assembly a bill containing such amendments as they think advisable.

Committee on part of Senate are Senators Tisinger, Williams and Perry.

The following Senate bill was read first time:

By Mr. McMichael—

A bill to amend the Act creating the Prison Commission of Georgia.

Referred to the Special Judiciary Committee.

The following House bill was read third time to be put upon its passage:

By Mr. Davis—

A bill to appropriate One Thousand Dollars to provide additional files for the Supreme Court.

Report of the committee was agreed to.

This being an appropriation the ayes and nays were ordered and the vote was as follows:
Those voting in the affirmative were Messrs.—

Those not voting were Messrs.—

Clark, Crumbley, Park, Roberts, Skelton, Symons, Mr. President.

Ayes 37, nays 0.

The bill having received the requisite constitutional majority was passed.

At 12 o'clock the Senate went into executive session.

Senator Taylor was granted leave of absence for tomorrow.

Senator Middlebrooks was granted leave of absence for next week.

On motion the Senate adjourned until 11 o'clock tomorrow.
Senate Chamber, Atlanta, Georgia,
Friday, July 1, 1904.

The Senate met pursuant to adjournment at 11 o'clock; was called to order by the President.

Prayer was offered by the Chaplain.

On motion the roll-call was dispensed with.

The Journal of yesterday was read and approved.

The following message was received from the House through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

The House has passed by the requisite constitutional majority the following bills of the House, to wit:

A bill to amend paragraph 2, of section 1, of article 11, of the Constitution of this State.

A bill to amend section 150 of volume 1 of the Code of 1895.

A bill to amend section 821 of volume 1 of the Code of 1895.

The House has also passed by the requisite constitutional majority the following resolutions of the House, to wit:

A resolution that a joint committee be appointed to investigate the feasibility of leasing part of the State's property lying along the right of way of the Western and Atlantic Railroad in the city of Atlanta.
A resolution for the relief of I. J Slaughter.

The House has also passed by the requisite constitutional majority the following bill of the Senate, to wit:

A bill to amend the charter of the city of Columbus.

The House has concurred in the following resolution of the Senate, to wit:

A resolution to print 500 copies of the Special Joint Investigating Committee's report as follows:
SANITARIUM.

To the President of the Senate and the Speaker of the House of Representatives:

Your Committee appointed by a joint resolution of the two Houses of the General Assembly, approved August 17, 1903, have discharged the duties imposed upon them by said resolution, and beg leave to submit their report.

The Committee met at Macon, Georgia, on the 27th day of October, 1903, and organized by the election of Joseph H. Hall as Chairman, and P. H. Comas as Secretary. In accordance with the power conferred upon the Committee, they at that time employed Mr. W. G. Raoul and Mr. C. H. Canfield as expert accountants to examine all the books of the State Institutions and the various departments of the State, which the Committee by the terms of the said resolutions were required to examine.

Mr. Raoul and Mr. Canfield made the examination of the books of the State Sanitarium, the Girl's Normal School at Milledgeville and the books of the Prison Farm. After the completion of this work Mr. Raoul at his own request and to the great regret of the committee, resigned. Mr. W. W. Duncan was selected by the Committee to aid Maj. Canfield in the further progress of the work.

The Committee at its first meeting decided that it was necessary to have the evidence taken by the Committee stenographically reported and written out. This was made necessary by the scope of the work and the length of time that would be necessarily consumed in completing investigations, as well as submitting the evidence to the General
Assembly, upon which the Committee's findings were based. The Committee therefore decided to employ W F Blue to take the oral testimony of all witnesses and made a contract with him for Five ($5.00) Dollars per day for reporting and the same amount per day for writing out the testimony, which testimony we herewith submit as a part of our report.

STATE SANITARIUM.

On November 10, 1903, your Committee met at the State Sanitarium and proceeded to investigate the affairs of that Institution. The Committee was confronted with great difficulties on account of the total want of any intelligent system of accounting in connection with this institution. We found it impossible on account of the methods of keeping the accounts to get any intelligent idea of the distribution of the large amount of money annually appropriated to support this institution. The Steward, who is the financial officer of this concern, keeps nine different check books under the following heads, to-wit: Subsistence, Clothing, Fuel and Transportation, Wages, Incidents, Medical Supplies, Contingencies, Stationery and Postage, and as a voucher is presented he draws a check in payment of same from one or another of the books, the Steward's check being drawn on the Treasurer of the institution, and from these check books his accounts are made up, showing the amount expended on each account during the month, and from these check books he balances with the Treasurer. There is no double entry system of keeping books whatever.

Your Committee attaches to this report a comparative statement of the distribution of the annual appropriation for the support of the institution from September 1, 1894, to September 1, 1904, covering a period of ten years. A careful examination of this report under the different heads
will exhibit discrepancies that are not easily explained. For instance: The amount expended on incidentals September 1, 1894 to September 1, 1895, was $18,955.00; for incidentals from September 1, 1895 to September 1, 1896, $20,510.00; for incidentals from September 1, 1896 to September 1, 1897, $30,630.00; for incidentals from September 1, 1897 to September 1, 1898, $30,817.33; from September 1, 1898 to September 1, 1899, $35,734.00 and from September 1, 1899 to September 1, 1900 the amount was only $17,271.22. The reason of this difference does not appear.

Under the head of Medical Supplies we find the accounts for the year beginning September, 1894 and ending September, 1895 to be $4,375.95, and for the year ending September 1, 1902, to be only $2,887.20. The number of patients treated at the institution during the year ending September 1, 1895, was 1783, and the number of patients treated during the year ending September 1, 1902, was 2,635; and yet the account for medical supplies for the first named year was $4,375.00 against 2,821.00 for year last named. We find that the account for medical supplies for the year ending 1897 was $5,152.00 with 2085 patients, and for the year 1902, $2,887.00 with 2635 patients. For the year ending September, 1897, the average number of patients in the institution was 2085 and for the year ending September 1, 1903, the average number of patients was 2732. The account for medical supplies for 2085 patients for the year ending September, 1897, was $5,152.19; for the same period, year ending 1902, the amount of expenditures for 2696 patients was $3,082.19, showing an increase in the number of patients of over 600 and a decrease in the amount expended for medical supplies of over $2,000.00. A careful examination of this account will show under every head discrepancies of this sort.
We invite your careful attention to the tabulated report of the experts, showing comparative statement of the expenditures, and also to the general report of the experts of the methods of keeping accounts by the officers of this institution.

All of the supplies purchased by the Board of Trustees for the support of the institution are disbursed from a storehouse by a store-keeper. We find that this gentleman seems to be conscientious, diligent and faithful in the discharge of his duties, but there is no system of accounting kept whatever of the articles purchased and disbursed from the storehouse. The store-keeper is not responsible for this, as he discharges all duties that are required of him by the Board of Trustees, but your Committee feels called upon to say that it is impossible to keep any intelligent account of the business of this department of the Sanitarium under the methods now pursued. There is no account of the goods kept after they reach the storehouse and in no way can it ever be ascertained whether anything has been lost or stolen therefrom. Inventories are made periodically of articles in the storehouse and these are not even preserved. The property of the institution in the storehouse is not properly protected and there is very great opportunity of goods being stolen therefrom. The store-keeper does not disburse the heavy articles that are used on the farm, but these are delivered to the Assistant Steward and disbursed by him. Although a large quantity of supplies pass through his hands and he employs a considerable number of hands, all those engaged in the farm and cattle work of this institution, he keeps no books of the account and practically no record of his transactions whatever. All we could find that he kept was a memorandum of the time books of the time made by hands employed by his subordinates which was reported to him. It is from his loose system of accounts that the pay-rolls of the em-
ployees of this department are made up. The Assistant Steward furnishes annually to the Board of Trustees a detailed account showing in dollars and cents the amounts received and expended by him, but an examination of him by your Committee disclosed the fact that this report was based upon nothing stronger than the imagination of this officer. His annual report would indicate that it was a transcript from books kept by the Assistant Steward, but when called upon to produce these books he was compelled to admit that he kept none. We think it is decidedly to the interest of the State in the management of this institution that there should be a change in this officer.

We find that there is no proper accounting for the proceeds arising from the sale of the property of the State. This money is all paid to the Steward and by him expended on account of what he calls "petty cash." The Steward is allowed to receive all moneys arising in this way, either from the sale of the property owned by the State or for goods purchased by the Trustees for the institution, and which are sold to the officers of the institution and deducted from their salaries. And in addition to this he is further allowed to draw from the funds appropriated for the support of the Institution, smaller sums of money from time to time, but which sums together with the other sources of revenue mentioned herein amount to at least $6,000.00 per year. This amount of money is practically appropriated by the Board of Trustees to the Steward to be expended by him at his discretion in the purchase of small articles, and he does not account to any one for it. We have no reason to believe it is not honestly spent, but we do not think any money, no matter how small the amount, should be spent by any officer without a voucher showing the amount expended and upon what account it was made. This account is simply a private account of the Steward's.

We find that no inventory of any property of the State
is kept as required by law. We could find no inventory or list of any of the property of the State in the possession of the officers of this institute later than 1896. Up to that time the law requiring annual inventories to be made by all persons having in possession the property of the State seems to have been complied with, and the Steward produced to us inventories of all properties said to be on hand up to that time, but making an annual inventory as required by law, has since that time been discontinued, as we are informed, by order of the Board of Trustees. The inventory referred to here is the one required by Section 275 of the code of Georgia, and as this is a requirement of the law we are compelled to find and report that the Trustees in ordering a discontinuance, violated a clear provision of the law as set forth and required in the above Section of the Code. And we also find that the payment of money and the receipt of it by the Steward from property of the State sold, and from the accounts collected by him for goods sold to the officers as above set forth, was also without authority of the law, as the law of this State requires all money received on account of the sale or from unserviceable property, or other property of the State when sold to be paid into the State Treasury. The expert accountants appointed by us found that a former Steward was due the State on account of the appropriations of money received by him the sum of $300.00. This amount was promptly paid by this officer as soon as his attention was called to it. We had been informed that this payment was made to and received by the Board of Trustees, by what authority we do not know. The Trustees had no authority to receive this money, as it was money that was due the State and not the Sanitarium.

We find that the Trustees draw monthly from the State Treasury, and deposit in the bank of Milledgeville, one-twelfth of the amount annually appropriated by the Legis-
lature to support the institution, and that all unexpended balances at the end of each year are carried forward into the account of the next year. We think that this is a violation of the law and is without authority. We are clear that it is the duty of the officers of this institution, and all others of like character, to cover into the treasury all amounts of money appropriated for the support of the institution that are unexpended at the end of a fiscal year. Section 1422 of the Code requires that at least ten days before the annual meeting of the General Assembly that the Trustees shall send to the Governor an exact estimate of the amount of money required for the support of the institution for the succeeding year, and that they shall set forth under separate and distinct heads all divisions of the several amounts required for each of the departments of the expenditure, to wit: Subsistence, Clothing, Fuel and Transportation, Salaries, Wages, Medical Supplies, Ordinary Repairs and Special Improvements. And it further requires that the said appropriation, or so much thereof as may be necessary, shall only be used for the division of the expenses for which it is estimated, and no portion estimated for each department of the expenditures be diverted to or used for any other department of the expenditures. This express provision of the law is not complied with. There is no division of the funds among the several departments of expenditure. The appropriation is not made as required by this section of the Code, but this is a clear expression upon the part of the law that only the money annually appropriated for the support of each department shall be used for that purpose, and certainly does not authorize the use of any unexpended balance of money that had been appropriated for the support of the institution in previous year. The Steward in keeping his accounts follows this statute in the divisions of the account provided for except in having separate divisions in fuel and trans-
He keeps no account of the ordinary repairs, but this seems to be charged under the head of incidental expenses. The account for fuel and transportation is kept under one head.

We find that all accounts of special appropriations have been separately kept, and we find further the remarkable fact that every one of these accounts balance to a cent. No money appropriated by the State for special purposes has ever been returned to the Treasury, but if it is not used for the purpose it was appropriated the balance is expended on other accounts and charged to this appropriation so as to make the accounts balance.

We find that the Trustees are very careful in the purchase of supplies for use of the institution, practically all supplies being purchased on bids. We examined a large number of the bids and report that we found great care exercised by the Trustees in making purchases in nearly every instance. We found that contracts for supplies had been awarded to the lowest bidders if responsible.

The law as to salaries of officers has not been complied with. The salary of the Superintendent is fixed by law at $2,500.00, and of the Assistant Physician at $1,250.00. See Code, Section 285. In addition to the Section of the Code the sum of $2,500.00 is annually appropriated for the salary of the Superintendent and is thus fixed by each appropriation bill passed. In addition to this amount he is allowed by the Trustees to receive from the money appropriated for support the table expenses of himself and family, all supplies are furnished him free. The furniture in the rooms occupied by himself and family is also furnished out of the fund for support, and in addition to this servants are furnished him and he is allowed to use for his family use the carriage and horses kept for the benefit and use of the Institution. We do not think that the compensation received by this valuable officer is in any wise exces-
sive, but we are compelled to report that under the law the Trustees are not authorized to make this increase in the salary of this officer, and that the allowance made to him by the Board of Trustees from the funds appropriated for the support of this Institution is an illegal diversion of the fund.

In regard to the perquisites allowed by the Trustees to the Superintendent, Dr. T O. Powell, the Superintendent, testified before your committee that since he had anything to do with the Institution, that is, since 1862 or 1863, that this salary of $2,500 had been allowed the Principal Physician, and in addition everything furnished him. Indeed, Dr. Powell testified that this had been the custom since the foundation of the Institution so far as he could go back. We beg leave to call attention in connection with this matter to a resolution adopted by the Board of Trustees on December 19, 1872, a copy of which, taken from the official minutes of that Board, is as follows:

"DECEMBER 19, 1872.

"Resolved, That the salary of the Superintendent and resident Physician be Two Thousand and Five Hundred Dollars ($2,500.00) as provided by law, and that for the maintenance of his household establishment, including the requisite expenditures incident to his official position, involving the frequent dispensing from his table of specially prepared food for such invalid female patients as may need it, as accords with his antecedent custom; and the additional duty of providing ordinary entertainment for those parties who visit the Institution on official and needful business, that he be allowed to draw from the Steward from time to time as required commissary and subsistence stores and including the said allowances to the official matron, to the value of Fifteen Hundred Dollars per annum, and that the said sum shall be in full of all other allowances and perquisites of office except quarters and fuel.

"Passed."
We are compelled to think that Dr. Powell must be mistaken in his recollection as to the origin of the custom. It will be observed that the additions were allowed Dr. Green upon the express condition that the requisite expenditures incident to his official position, involving feeding persons from his table of specially prepared food for such female invalid patients as might need it, as agrees with his antecedent custom. It would seem from this portion of the resolution that these supplies may have been at one time allowed the Superintendent because certain of the invalid female patients were provided by him from his own table with specially prepared food. And it seems further from this resolution that he was allowed this increase at that time in consideration of his entertaining persons who visited the Institution on business with the Institution. The additions that he received were expressly limited to $1,500.

The resolution also showed that the Trustees at that time recognized that the Board at that time had no power to fix the salary of the Principal Physician or Superintendent, for the resolution declares that the salary of $2,500 is provided for by law.

Dr. Powell does not furnish anything to the patients from his table, nor is he required to entertain. We think his salary should be at least four thousand dollars a year, but that it should be paid, all of it, in money, from the appropriation, and no part of it in supplies.

Since the foregoing portion of this report was prepared, Dr. Powell has called the attention of the Chairman of this Committee to the fact that he was mistaken in his testimony as to the furniture in the rooms occupied by him being furnished by the State. He now states that this is only partially true, that a portion of the furniture is furnished by himself. For the want of the inventory required by law to be kept, it is impossible for the Committee to ascertain how much of the furniture was furnished by Dr. Powell and how much by the State.
The Trustees have also increased the salaries of the Assistant Physicians from the $1,250.00, the amount fixed by law, to from $1,500.00 to $2,000.00. We believe that the salaries paid by the Trustees to the Assistant Physicians are reasonable, but as in the case of the Superintendent, we are compelled to find that the Trustees had no authority to pay them increased salaries from the money appropriated for the support of the Institution. It is true that by the law governing this Board, they are authorized to elect the officers and fix their salaries, but this of course means where the salaries are not otherwise provided by law. It is evident that where the legislature has undertaken to fix the salaries of officers its power is paramount, and necessarily limits the Trustees in the power that was conferred upon them in a general provision of the law. Until this law is changed the Trustees have no authority to increase their salaries.

In addition to the salaries to be paid in money, we find that certain officers of the Institution are furnished homes at the expense of the State.

We find that all physicians and other officers residing upon the grounds are furnished lights and fuel free.

We further find that the Steward and Assistant Steward, neither of whom reside upon the grounds of the institution, are allowed in addition to their salaries, lights and fuel. The Steward, who resides in the town of Milledgeville, is allowed to haul coal from the Sanitarium for his own use; that no account whatever is kept of it, but he is at liberty to order it delivered at his own house at his own discretion. He also buys from the funds appropriated for the support of the Institution all the wood that is used by his family at his house. This wood is bought by him at will, and he seems to account to no one for it. The same is true as to the Assistant Steward, who owns and lives in his private house. This of course is a misappropriation of the fund
appropriated for the support of the Institution, and we recom-
mand and express the hope that it will be at once dis-
continued by the Board of Trustees, for we see no necessity
for it.

In addition to all of the other allowances made the phy-
sicians and officers, many of them are furnished houses free
of rent on the grounds of the Institution. All of them
are furnished, light, water and heat free. We call especial
attention to the fact, that there are no receipted pay-rolls
preserved whatever; that of the amount of money paid out
to employees, none of them are required to receipt for it,
and that the method pursued in the payment of employees
is exceedingly loose and should be corrected at once.

We find that for the years 1900, 1901, 1902, and 1903,
something over five hundred applications had been received
and the patients not admitted. This was prior to the
building of the new building. Of this number, during
this period, we find from the records that forty-four only
had been confined in the jails of the counties or restrained
at home. A large number of applications had been re-
ceived and notices sent by the authorities of the Sanitarium
of their readiness to receive the patients, but the persons
committed had never been sent to the Sanitarium. Of
those confined in jail we find that in a large majority of
the cases the authorities had been notified of the readiness
of the Sanitarium to receive them. It was apparent from
this report that the number who had been refused admis-
sion on account of want of room was limited, and probably
never exceeded one hundred at any time.

We find that where the applications had been accepted
and the parties notified, these applications are kept on file
an indefinite length of time, and that they are carried on
the records as live applications of parties applying for ad-
mission to the Sanitarium. We think that wherever a
party has been notified and has had a reasonable length of
time to have the patient committed, the application should be cancelled and stricken from the records.

Your Committee have felt it necessary to make this report in view of the fact of the repeated statements made to the legislature and in the public press of the State, that there are confined in the jails of this State four hundred lunatics unable to gain admission into the asylum. The records of the Institution do not bear this out.

Your Committee reports that the internal management of this Institution, so far as the care and treatment of the patients is concerned, seems to be well nigh perfect. We have nothing but words of praise for Dr. Powell, the humane, able and efficient superintendent and his able corps of assistants. The patients receive every attention.

We strongly recommend that immediate steps be taken to bring about an immediate change in the business methods of this Institution. The interests of the tax payers demand that the financial officer of this Institution shall be an experienced and thorough book-keeper and shall receive a salary commensurate with the value of his services to the State.

It is necessary that there should be at once inaugurated a complete and thorough system of modern double entry bookkeeping in the financial department; that these books should show a complete record of all the financial transactions of the Institution. The present Steward, who is the financial officer of the Institution, very frankly confesses to the Committee that he knows nothing of bookkeeping. We have no reason to make any criticism upon his personal character or honesty, but it is necessarily impossible for him, under the methods used by him to keep track of his business.

The Board of Trustees met with us and we urged these changes upon them in November last, and we regret to have to report that that Board shows no disposition to act.
upon any of the recommendations made upon the part of this Committee. It is so important, in our opinion, that these changes should be speedily made, that if they cannot be made with the consent of the Board of Trustees, we think they should be made and men appointed to these positions who would make them.

We recommend that at the present session of the Legislature a law be passed directing and requiring the Governor to carry these changes and reforms into effect, and that he be given authority to fill the office of Steward of this Institution.

We further find that the laws in regard to the government of this Institution, as well as the other institutions of the State, are in very great confusion. Prior to the Act of 1877, only persons who were paupers were received into the Institution free. By the Act of the Legislature passed in 1877, this Institution was made free to all citizens of this State, and all previous laws dividing them into classes of pay and pauper patients were repealed. The codifiers who codified the Code of 1895 have placed all these repealed laws again in the Code, and one section of the Code of Georgia now declares that this Institution is free to all the citizens of this State, and another section makes it the duty of the Trustees to divide the patients into pay and pauper patients, and require all persons whose families or estates are able to support them to pay their expenses in the Institution. This is the law as we find it in the Code. Of course it is impossible of execution. The same conflict runs throughout the laws in reference to this Institution, and we recommend that a general Act be passed at once for the government of the State Sanitarium.

We think especially that the law providing for what classes of patients may be admitted needs immediate revision. The present law, in our opinion, is entirely too broad. We find that it is the dumping-ground for the poor houses
of nearly every county in the State. Many patients are there who really should not be there. They should either be returned to the care of their families, or where they are paupers they should be returned to be provided for by the proper counties. The care of paupers in the State Sanitarium is necessarily too expensive, and in the very nature of things they can be more economically provided for by the counties whose duty it is to furnish them a support. The officers in this Institution are in no wise responsible for this condition of affairs, as the law allows them no discretion whatever, but compels them to receive every patient sent here, whether a proper subject for the asylum or not.

Our investigation disclosed the fact that in nearly every instance the patient was committed as a lunatic. There are numbers of patients who are congenital idiots, epileptics and inebriates, but who have been committed to this Institution as lunatics. The committing courts seem to exercise no care or discretion in the commitment of patients to this Institution. We found that in one county in Georgia applications had been made for fifteen patients on one day who were inmates of a poor house, but who had been regularly committed by the jurors of that county as lunatics. We believe that the passage of a law prohibiting idiots, epileptics and inebriates from being received as patients at the Sanitarium would very largely reduce the expenses and the number of patients.

We further recommend that no additional money be spent in the erection of new buildings at this place. We think it is now large enough; in fact too large.

We find and recommend that there should be some means provided at once for reweighing coal and other heavy supplies received by the car load. About ten thousand tons of coal are purchased here annually and the authorities have no way of ascertaining its correct weight but have to accept the weights of the railroads and the mines. This must
be a source of great loss. In our opinion provision should be made at once for placing track scales at this Institution in order to weigh the cars.

We do not find that certain cotton received from rent of land belonging to the State and paid to the Trustees of the Sanitarium is sufficiently accounted for.

The Steward says that where money is collected or the cotton sold it is converted by him into his "Petty Cash" fund, and that some of the cotton has been used for making mattresses, but no accounts of these rents are kept, and so far as we were able to ascertain the rents are unaccounted for. We don't say that they were not used in this way but this trouble would not have existed if these rents and the proceeds of the cotton had been paid directly into the State Treasury.

The system of vouchers was unsatisfactory. A bill is approved by a Committee of the Board and the Steward draws his check or warrant on the Treasurer of the Institution. The bill instead of being receipted by the party to whom the money is paid, is receipted by the Treasurer and returned to the Steward. This is also true as to the vouchers drawn by the Steward on the Treasurer on account of the Petty Cash fund.

The Trustees have created the office of Dentist. The salary of this officer is $1,200 a year and he is allowed in addition his fuel, lights, and water, and is furnished free of cost a six room house, and is allowed to purchase supplies from the store house of the Sanitarium at five per cent. advance on the original cost.

We cannot find that there was any necessity for creating this office, and we are compelled to report that the salary and allowances made him are altogether out of proportion to the services he renders. There are competent dentists in Milledgeville and a contract could be made by which this
service could be rendered where it was necessary at much less expense.

We think the salary of the apothecary is entirely out of proportion to the services rendered by that officer, and we further have to criticize the methods of keeping accounts in this office.

We find that in several instances a portion of the amount appropriated for support has been diverted to permanent improvements.

We also find that in almost every case of special appropriations all the appropriation was not consumed for the purpose for which it was appropriated, but a portion of it was diverted to other purposes by the Board of Trustees after having received the appropriation.

In 1900 the Legislature appropriated $150,000 for the erection of an additional building. We find that the contract price for this building was $140,500 and that the remainder of this fund was spent in grading and building a road and for other purposes not authorized by the appropriation. We also find that the Trustees exceeded their authority in the erection of this building; that at the time the appropriation was made certain plans were submitted to the General Assembly that called for the erection of a building for negroes. That after the appropriation was made the Trustees changed the plans that were submitted to the Legislature and erected a more costly building and one now used for the care of white patients, and that this building is not now finished and an additional appropriation of $15,000, at least, will be required to complete it.
ACADEMY FOR THE BLIND.

The Committee met at the Academy for the Blind on the 28th day of December and spent two days in the investigation of this Institution. We went thoroughly over all the affairs of this Institution and generally found them in a satisfactory condition, finding but few irregularities and but little to call attention to.

The Committee is impressed by the fact that great economy is used at this Institution.

We examined under oath all of the officers of the Institution except Mr. B. C. Smith, the President of the Board of Trustees. The Committee made several efforts to get Mr. Smith before the Committee, but each time he excused himself on the ground of the press of his private business. We will remark here that this is the only instance in which any officer of any institution in the State fail to come before the Committee at its request. We had no power to compel the attendance of witnesses, even those who are officers of the State. The Committee would have been glad to have accommodated itself to Mr. Smith’s convenience at any time, but he made no suggestion as to when he could meet with it.

There is no system of bookkeeping obtaining here. The Treasurer keeps a single entry set of books, which of course amounts to nothing more than a memorandum and the only thing that we could do was to check his entries with his vouchers.

The Principal of the School, who is elected by the Board of Trustees, is the purchasing agent. He purchases all the supplies of every character by private contract. The bills for the purchase of supplies are submitted to him at the end of the month, and he submit them to the Trustees, and they also approve them, and a check for the gross amount is made by the Treasurer in favor of the principal, who pays
the bills and takes receipts as her vouchers. This method of purchases should be changed. If the amounts purchased are not large enough to authorize contracts being made for the supplies, the bills when approved by the Principal should be paid directly by the Board of Trustees, and we do not think that the money for the payment of them ought to pass through the hands of the Principal. There is no check here at all.

The special appropriation of $4,000 made by the General Assembly for the specific purpose of repairing the roof and iron fence, and putting in a system of sanitary sewers, was not all expended for this purpose. A balance of $314.17 was left of this special appropriation after making the improvements authorized by the Act. This money has been kept on deposit in the First National Bank of Macon, and was there at the time of our examination. It should have been returned to the Treasurer as we do not think the Trustees were authorized to retain any balance of any special appropriation made for a specific purpose.

The bank in which this deposit was made recently failed, and it is highly probable that this money will be lost, or at least a portion of it. We think that the Trustees under the law are individually liable; but in view of the fact that they have followed the unbroken custom obtaining in all other institutions and departments in the State, and in view of the further fact that they render this service to the State without compensation, we respectfully suggest that by a resolution of the General Assembly they be relieved from all responsibility on account of this loss.

We also have to report that we find §273.29 of this special appropriation was diverted by the Trustees to the maintenance of the Institution. This was done without authority; the appropriation being made for a special purpose the Trustees had no authority to divert it to any other.

For several years the annual sum appropriated by the
General Assembly for the support of the Institution was not consumed, but a balance remained at the end of each of these years, which was retained by the Trustees. The increased cost for the last three or four years of maintenance of the Institution over and above the amount appropriated by law has been supplied by the Trustees from the fund thus appropriated. The Trustees in this case followed the universal practice of all institutions with appropriations. The idea seems to prevail among all of them that the money appropriated by the Legislature becomes permanently the property of the Institution to which it was appropriated. The Trustees had no authority to appropriate or use this money to increase the funds set aside by the Legislature for the support of the Institution. Under the law it is the duty of the Legislature each year to provide funds for the support of these institutions, and any unexpended balance should have been returned to the State Treasury. The Trustees had no authority to carry forward these funds from year to year and to increase the appropriation made by the Legislature. The Legislature alone determines the amount each year necessary for the support of the Institutions, and the Trustees had no authority to increase this amount.

This Board has now in its possession a special fund, the Principal of which amounts to Seven Thousand Dollars. This has grown out of a sum of six hundred and fifty dollars that was contributed by the members of the Legislature of 1854 for the benefit of the children of the Blind Academy, and it has been managed and preserved all these years by the Trustees, until it has grown to its present sum.
The fund is now invested as follows:

14 shares of South Western Railroad Stock. $1,400.00
2 bonds of the State of Ga., 3½%, $1,000. ... 2,000.00
1 City of Macon 6% Bond. ... 500.00
4 City of Macon 4½% Bonds, $500 each. ... 2,000.00
1 First Mortgage G. S. & F R. R. Bond. 1,000.00
1 Macon Gas Light & Water Co., 6% Bond. 500.00

$7,400.00

The status of this fund is very difficult to determine and there should be some legislation in reference to it.

The Treasurer, since this examination was made has called the attention of the Committee to the fact that at the time of the failure of the First National Bank, of Macon, he as Treasurer had on deposit in that bank $3,178.83, of the funds appropriated for the support of this Institution for the year 1904.

The officers of this Institution, as the other State institutions, are required either by law or by the practice obtaining in the Treasury Department, to draw in advance from the State Treasurer one-fourth of the amount appropriated for the annual support. It is of course necessary when this amount is drawn from the Treasury that it should be deposited in some bank.

In this case we find that this bank was not selected as a depository of this fund by the present treasurer or the present Board of Trustees, but for thirty years or more the funds appropriated for the support of this Institution have been kept in this bank, and the present Treasurer on coming into possession of the funds of the Institution found them deposited in this bank and he made no change. He really had no agency in the selection of this particular bank for the deposit of this fund. We are informed that at the time he kept no account himself with the said bank, but did keep an account with another bank in the City of Macon, and did not change the account to the bank in
which he kept his private account. While under the law the Board of Trustees and the Treasurer are probably responsible to the State for a full accounting for this money, we think that there is no moral obligation resting upon them to make it good; nor do we think under the circumstances that the State should require at their hands that this fund should be replaced, and we therefore recommend that a resolution be passed for the relief of the Treasurer and the Board of Trustees. No benefit whatever has come to them from the use of this fund in any way, no interest being paid to them for it, and not a dollar of it has ever been used by the Treasurer or any member of this Board except for the purposes for which it was appropriated.

We also investigated the advisability of a change in the location of this school as there is a bill now pending for that purpose, and we submit in connection with this report the evidence of the officers of the Institution in reference to this matter.
GEORGIA SCHOOL FOR THE DEAF

Your Committee met at this Institution on the 17th day of February, 1904, and spent two days in its investigation. We examined all the officers connected with this Institution and submit in connection with this report the testimony taken there.

We find little here to criticize. We think the variation in the amount of coal used from year to year too great. We find that the coal purchased is delivered at the railroad station and then it is paid for by the weights of the railroads at the mines. We think it is likely that there is great loss on account of the manner in which the coal is purchased. We suggest that there should be some means provided for weighing the coal which would prevent any fraud being perpetrated upon the State.

We find that the purchases of this Institution are made under competitive bids from the lowest bidder, and an examination of the bids on the part of your Committee demonstrated the fact that great caution was used on the part of the Trustees in making the purchases for its support.

It appears from the figures submitted to us that in the years 1899-1900 there was consumed by this Institution 256 tons of coal; in 1900-1901, 467 tons; in 1901-1902, 494 tons; in 1902-1803, 348 tons; in 1903-1904, 376 tons, and the Superintendent testified that this last amount would not be sufficient to carry him through the year. Your Committee made a diligent inquiry in order to ascertain the reason for this difference in the amount of coal used, but no one connected with the Institution could throw any light upon it. It seems to us that there must have been a considerable loss in this one item alone.

We find that the Treasurer of the Institution has been in the habit of depositing considerable sums of money in the hands of an agent at Cave Springs to be used for the
benefit of the Institution. This was without authority. No account is kept of this money by the agent other than a memorandum of the checks paid by him. This practice should be discontinued. The Treasurer alone should be the custodian of the funds and pay out the same.

There is not a sufficient check kept on the supplies purchased for the Institution after they are delivered to the Institution. No storekeepers' account is kept of the supplies, and no inventory is made and submitted to the Board of Trustees at the end of each month or quarter, of the supplies on hand.

The building for the negroes is kept separate and it is in charge of a negro principal, who is under the general supervision of the Principle of the School. All the supplies consumed by the negroes is delivered to this principal and no accounting for them is required of him. The same supplies are furnished to the negroes as to the whites. It is impossible to tell whether or not all the supplies are consumed, or what amount of them may be stolen after they are delivered at the Institution by servants and those having access to them. We think that greater care should be used in looking after this department of the Institution.

The Trustees last year purchased for the benefit of the Institution twenty-five acres of land. This purchase was made partly from money appropriated for the support of the Institution, and partly from the sale of or a royalty on iron ore mined on the property of the State. The Trustees had no authority to make this purchase or to invest the money in their hands this way.

A considerable source of income is derived by the Trustees from the sale of articles made by the students. The Trustees receive this money and appropriate it generally for the benefit of the Institution in their own discretion. We find and report that it is the duty of the Trustees to pay this money into the State Treasury, and that the retention of it and the investment of it by them is illegal.
None of the money that is appropriated for support by the Legislature that is unexpended is ever returned by the Trustees to the Treasury but is applied generally to a permanent fund for the benefit of the Institution. In this, however, they follow the unbroken precedent heretofore referred to.

We were unable to get any exact account from the Trustees as to the amount received by them from the royalty on the iron ore mined on the lands of the State. We find that they had no authority to make a contract for the sale of this ore or to receive the money and appropriate it to the use of the Institution. The land is the property of the State and not of the Board of Trustees. We recommend that the Governor take steps to prevent the further sale of this ore on the part of the Trustees. We suggest that the State Geologist be required to make an examination of this property and report to the Governor the extent of this mine and its probable value.

We find here, as elsewhere, that the whole fund appropriated for the support of this Institution is drawn quarterly in advance from the State Treasury, regardless of the needs of the Institution. This seems to be required either by law or the custom of carrying out the appropriations made by the Legislature.

There was here an inventory made and kept of the State property, partially as required by law. It is not recorded in a book or sworn to or made at the time the statute requires.

The Trustees have failed to comply with the law as contained in Section 1324 of the Code requiring the contracts of the Board of Trustees to be valid to be recorded by the Secretary in a book kept for that purpose, and signed by the President and countersigned by the Secretary.

We recommend that in future no part of the annual appropriation shall be used for the purchase of clothing for
the children, but that the parents be required to furnish clothing; and in cases where they are sent by the counties as paupers, that the counties be required to bear this expense. We recommend that the law requiring the clothing of children upon the certificate of the ordinary that the parents are unable to furnish clothing be repealed.

The buildings set apart at this Institution for the care, support and education of the negroes is a disgrace to the State. A sufficient amount should be at once appropriated to renovate, repair and properly equip these buildings, and provide means for the education of this class, or the department for the negroes should be abolished. The money now appropriated and paid out for their support and education at this Institution is simply wasted. The pupils in this department are not taught anything that would be of any value to them, and it is of no benefit to them to be simply taught to read and write and then to be turned out in the world with no means of earning a living. Means should be provided at once to have them taught some trade, because the education they now get is not only of no benefit to them, but only serves to make them unhappy.

We find that no adequate means are now provided for heating or lighting the buildings now used by the negroes. The school generates its own electricity, and at a little expense the lights could be supplied to the negro building. The school also has a steam heating plant and the pipes from this plant ought to be carried into that building. There is great danger from the present arrangement of heating and lighting the building.
SOLDIER'S HOME.

We find all the money appropriated for the support of this Institution properly and legally used. No inventory of the property is made and kept as required by law.

We think that an appropriation is very much desired to extend the water pipe from its present terminus to the Home.

Your Committee take great pleasure in being able to report that they find here absolutely nothing to criticize in the management of the Home and everything to commend.
UNIVERSITY OF GEORGIA.

The Committee met at the University of Georgia on the 16th day of February and spent one day in the examination of the affairs of that Institution.

We found all the funds with which the officers were chargeable to be properly accounted for. The funds of the University were well invested in securities of different kinds, except $90,000 held in the State Treasury and upon which the State pays to the University the annual interest of seven per cent. a year. The other funds of the University are invested in bonds of the State or of corporations within the State. They were all produced to us by the Treasurer and counted by the Committee. These bonds are kept by the Treasurer in a safety deposit vault in Athens. We think a sound public policy would demand that as these are the securities of the State of Georgia they should be deposited in the Treasury of the State.

The funds of the University are also kept in the Banks in Athens. Your Committee will make a general recommendation in this report in reference to these appropriations to all the Institutions.

We do not know by what law the $90,000 is carried in the Treasury to the credit of the Institution and seven per cent. paid. The State has used this money and it is really now in the shape of a debt due by the State to the University of Georgia. How this debt was contracted we have not been able to ascertain, but it has been recognized by the Legislature for many years as a debt on which seven per cent. interest is paid. This Interest is paid by the Treasurer of the State under the authority of the annual appropriation act. The money to pay the interest is appropriated in the appropriation bills, but it is not appropriated to pay the interest on the General debt of the State under the authority of the General Appropriation Act, but it is a special appropriation to pay the interest on this fund.
The Treasurer has in his possession and deposited in one of the Banks in Athens $23,000 collected from the Insurance companies on the policies of insurance on the building recently burned and known as Science Hall. The Trustees immediately appropriated this money for the purpose of replacing the building burned and at the time of our examination contracts had already been made by the Trustees for the construction of the building. Our opinion is that this money should have been paid into the State Treasury, and that the Trustees only had the power to collect it, and that under the law as soon as collected it should have been paid into the State Treasury, and that the Trustees were without authority to appropriate it for any purpose, but that it could only have been appropriated by an Act of the General Assembly.

The Trustees have just completed a new building, an addition to the Library Building. This has been without any special appropriation but was built out of the income of the University from its permanent investment. This building will add a great deal to the capacity of the school.

We find that the building known as the Old College is in what we consider a dangerous condition. We understand that since our visit this building has been condemned by the Board of Trustees. We strongly recommend that the necessary fund be appropriated at once for the purpose of the construction of a new building in the place of this one, and that this building should be immediately torn down.

There are many improvements and repairs on the buildings and grounds which are needed. The Chancellor informs your committee that with the present annual appropriation for the support of the University the improvements can be made from the other sources of income. We are of the opinion that these improvements are necessary and should be made.

We think that as the branch colleges are really branches
and parts and parcels of the State University, that they should be brought in closer touch and more directly under the control of the Board of Trustees of the University of Georgia. The present financial plan is that all the money appropriated by the Legislature for the support of the University and all the branch colleges is paid directly into the Treasury of the University, and the Treasurer pays over to each branch college in bulk the amount to which it is entitled and this ends his connection with the matter. None of the branch colleges account to the Board of Trustees or to the Treasurer for the disbursement of these appropriations. Each of the branch colleges has a local treasurer and this officer disburses the funds of the Institutions. We see no necessity for this. We think that the Treasurer of the University ought to be paid a salary sufficient to authorize the employment of a man in this office who would be the disbursing officer of all the branch colleges, and that the fund should not be separated and divided among them. We are of the opinion that this officer ought to be made a State officer, and that he should be appointed by the Governor by and with the advice of the Senate. Where necessary the local boards of trustees might be authorized to employ at a small salary a bookkeeper for the purpose of keeping books of accounts contracted and all money paid out of the appropriations for the support of the branch colleges and of the University. We recommend the enactment of laws to carry these suggestions into effect.

We find no inventory of the property here kept as required by law. We did not find any proper payroll at the University or any of the branch colleges except at the School of Technology, the North Georgia Agricultural College at Dahlonega, and at the Georgia State Industrial College for the Education of Colored Youth at Savannah. All of the salaries are paid by checks and the only evidence of the payment of the salaries is the endorsement on the checks.
STATE NORMAL SCHOOL.

At the Normal School we find a very good system of bookkeeping and accounting and they use a system of vouchers, which, while not perfect, is a very great improvement over those used in nearly all of the other institutions. We find that the appropriations are properly accounted for and the money used for the purposes for which it was appropriated. The management of the school is efficient and the work accomplished satisfactory.

We commend this school to the favorable consideration of the General Assembly and we think that it is doing a great work in behalf of the teachers of the State.
THE GEORGIA NORMAL AND INDUSTRIAL COLLEGE.

From the books of this Institution we could not ascertain anything as to its financial transactions. The Treasurer of this school had proper vouchers for all the money that had passed through his hands, but the system of bookkeeping was so defective that it was impossible to tell anything about the finances of the School from its books.

We earnestly recommend that the Board of Trustees of this School at once employ a competent bookkeeper. The work of this School also seems satisfactory, and your Committee thinks that it is in the hands of an able and earnest corps of teachers, and that the money appropriated for its support is properly used and well spent.

The buildings here seem to be generally in fair condition. We found here no inventory and no attempt to comply with the law upon this subject.
The North Georgia Agricultural College.

We visited this School at Dahlonega. So far as we could ascertain all the moneys that have been appropriated here have been properly accounted for. The present Treasurer has opened a set of books in which the accounts of the School are kept, and it is an easy matter to find out from his books the exact condition of the school's finances. He had on hand all the necessary vouchers for the amounts expended by him. This system of bookkeeping only goes back a few years, as the former Treasurer kept no separate books for the school, but the accounts of the school were carried in his private books.

The appropriation for the girls dormitory was all accounted for. Some small portions of this had been diverted by the Board of Trustees for other improvements which were not authorized by the Act, but this was done on the idea that the money if not needed for the construction of the building provided for in the special appropriation bill belonged to the school. The misappropriation of this fund only amounted to a few hundred dollars and was used by the Trustees in making improvements upon the property of the school. It was all accounted for but was illegally diverted to purposes other than that for which it was appropriated.

The money appropriated for the girl's dormitory did not seem to have been demanded for this purpose. It is a large building, three stories in height, perfectly equipped with dining room and kitchen, tables and furniture, and although the school was in session at the time of the visit of your Committee, we found only two occupants of the building. We are informed that since its completion a year ago they have only had five students in the building. We hope that the Trustees will find some better use to put this building to.
We find that this school is accomplishing a great work for the section in which it is located. Perhaps no money appropriated by the State of Georgia for educational purposes has ever been as well spent as has been the money appropriated for the support of this school. There has been a great progress and development in this section of the State, and nearly all of it can be traced to the influences of this school, and the school will always remain as a monument to the founder, the Honorable W P Price.
THE TECHNOLOGICAL SCHOOL.

We found a strict compliance with the law in reference to all appropriations made for the support of this school, and your Committee was much interested in the work being done here. We are satisfied if the school continues to be developed along the present lines, it must in the near future prove to be of great value not only to the State, but to the entire South.

Your Committee was especially impressed with the equipment of the textile department of the school and with the character of the work turned out by the students in this Department.

We think it is to the interest of the State that the development of this school should be an especial care on the part of the Legislature. The money appropriated we believe is well spent and the school is of great advantage to the State.
THE GEORGIA STATE INDUSTRIAL COLLEGE
FOR COLORED YOUTH.

We also visited this school at Savannah. We found the financial system of the school well nigh perfect. All the money is accounted for and none can be disbursed except upon the proper authority. There is in use here a system of vouchers that is a complete check on every cent of money spent. These vouchers all show on what account they are drawn. They are accompanied by the proper bills and have to be approved by the officers of the Board of Trustees or Board of Control before they are authorized to be paid. The system of bookkeeping is a perfect one. We found in this Institution the only perfect system of dealing with public funds on the part of the officers of the Institution, and we respectfully recommend that each Institution in the State handling public money should adopt the system now in vogue in this school. No money can be diverted and none can be lost without immediate detection. The books and papers of the Institute show to a cent at any time its financial condition, and if the same system was in use at all of the State Institutions we believe that there would be a great saving to the State.

The system of the bookkeeping and the financial management of the Institution are entirely under the control of Honorable P W Meldrim, President of the Board of Control, and Col. Jordan F Brooks, the Secretary and Treasurer of the Board. Mr. Meldrim gives to the Institution his close personal attention, and its success can largely be attributed to that fact.

We believe that the work being done in this Institution in the education of the negro is on the right line. We were much gratified by our visit to the school. The State here has come into the possession of large and beautiful grounds, valuable and commodious buildings, and a school
FRIDAY, JULY 1, 1904.

well equipped for its purposes, without the cost of one dollar to the tax payers of the State. Many of the buildings have been erected by the students themselves, the material being purchased by the Trustees by wise and economical management out of the funds appropriated for the support of the school.

There is now on the grounds a large three story building used for the purpose of dormitories for the students that has been erected entirely by these negroes. This building, however, is not completed for the want of sufficient funds to purchase the material.

The education received by the negroes at this place we regard as highly beneficial to them. They are all taught some trade. The average number in attendance is about five hundred. Of this number we find that only thirty-two are being taught anything beyond the ordinary rudiments of an English education except the sciences of Chemistry and natural philosophy. We find thirty-two of them pursuing a course in Latin. No other languages except English and Latin are taught in the school. The students are taught to do sewing, dressmaking, cooking, washing, tailoring, bricklaying, blacksmithing, carpentering, harness making, shoemaking, and painting, and we believe from what we saw that they are being well taught.

This Institution receives no appropriation whatever from the State. The appropriation that is made annually by the State is really the money received from the landscript fund of the United States, and which the State receives with a distinct understanding that a portion of it shall be devoted to the education of the negro. Your Committee desires to state that this Institution is entitled to some recognition at the hands of the State; in view of the fact, especially, that there is now in the State Treasury $24,000 that under the contract of the State with the United States government is due by the State on account of this landscript fund,
and at least this money should be appropriated from time to time for the benefit of this Institution. We do not recommend that it all be paid in one year, but the State should make appropriations for the development of this school from time to time until at least this $24,000 has been appropriated.

We think that this school is a solution of the question of negro education. It is entirely under the control of the State, and directly under the supervision of the Chancellor of the University of Georgia, and the Board of Control are all white men of great prominence in the State. The teachers in the school are Southern negroes, and the idea developed in the education of the negro at this school is that the negro is and must remain a menial in the South. He receives no false education here. He goes out with no false ideas as to what education means to him, but from the beginning to the end of his course in this school he is taught that he is being educated to work, and that by work he must earn his bread. The Principal of this school impressed your Committee as being a man thoroughly in earnest, and one who appreciates the condition of his race in the South and the character of education that is needful for them.

It is absolutely necessary that the white people of this State should control the education of the negro. The teachers employed in the public schools for negroes, should be teachers educated in Institutions like this one, trained by the State with a view of giving the negro the amount and character of education that has been determined by the white people of the State. The great difficulty which your Committee desires to impress upon the Legislature in the proper solution of this question is on account of the character of the education now received by the negroes. This is because the teachers who are employed by the State are generally trained in schools which are not under the con-
trol of the State and who have an idea of education which is mischievous in the extreme. If the white people of the State do not educate the negroes themselves, people who have no idea of what is the proper education, will do so, and they will develop him on lines which render him dangerous as a citizen.
We find in the Prison Commission that the Commission pays the secretary or clerk of that body $1,560 a year. Section 5 of the Act of December 1, 1897, creating the Prison Commission provides for a clerk of that body whose duties shall be determined by the Board and whose compensation shall not exceed $1,200 a year. The sum of $1,200 is appropriated in the General Appropriation Act for the Clerk of the Prison Commission. The Commission claim that they pay him this amount as clerk and the additional amount of $360 a year as bookkeeper for the Commission. The only authority that the Commission could give for this extra payment, was the opinion of the Attorney-General at the time they made the appointment. We do not know upon what this opinion of the Attorney-General was based as it was not furnished to us. The extra thirty dollars a month is paid out of the appropriation made by the Legislature for the support of this department. The payment of this extra sum out of the appropriation made for the support of the department we think in violation of Section 8 of the Appropriation Act of 1902, and this payment is expressly forbidden in that section of the law. Your Committee are therefore compelled to find and report that the payment of this sum by the Commission is without authority of law, and we are of the opinion that the members of the Commission are personally liable for the amount thus expended by them, and unless the same is legalized by an Act of the Legislature they should be required to refund that sum to the Treasury.

As will be seen in other parts of this report, we find the custom of State House officers paying out money for salaries contrary to law entirely too prevalent, and we think that it is a great evil. The whole policy of the law is that the power to create offices and to fix the compensation of
the incumbents is vested alone in the Legislature, so far at least as the officers of the executive department of the government is concerned. So strong is this principle that in every appropriation Act the officers of the State are expressly prohibited from paying any money from any fund to any person as salary or otherwise unless the same is authorized by law.

We find that no books had been kept by the Prison Commission for the first two years after the organization of the Commission; no books of any kind were kept except the bank-books and vouchers of accounts paid.

The books now kept in the Prison Commission show correctly all the transactions of the office passing directly through the office of the Prison Commission, except that there are no vouchers there other than the checks paid.

At the time of the examination of the office of the Prison Commission by your Committee, to wit: on the 17th day of May, the Commission had deposited to its credit in three banks in the city of Milledgeville, $18,002. This money was deposited to the credit of the Commission, and we were informed by the Chairman of the Commission that it arose from the sale of cotton raised upon the prison farm. No money arising from the sale of any products of the farm were ever paid into the State Treasury, and no accounting was had with any department of the State government by the Commission for money thus received by it. The Commission claimed the right to appropriate the money arising from the State farm to the support of the department. We can not agree with the Commission in its contention that it is entitled to retain in its control this large amount of money, the property of the State. The Act creating the Commission provides that the Commission shall sell to the best advantage all surplus of the penitentiary, and shall apply the proceeds thereof to the institution as may be necessary, but also provides that the sur-
plus of this fund shall be paid into the State Treasury annually. In view of the fact that the Legislature each year makes an appropriation of an amount in its judgment sufficient for the support of this department of the State government, we are of the opinion that this amount received, especially from the sale of cotton raised on the farm, is a surplus fund and is required by law to be paid into the State Treasury.

We recommend the immediate adoption of a resolution directing the Governor to have the Commission account to him for said fund and to require the same to be paid at once into the State Treasury.

This large amount of money is now kept on deposit in three small banks in the town of Milledgeville, and the State has no security for it as far as we know. As will be seen further on in this report it is subject to the check of the superintendent of the State farm at his pleasure.

In addition to the amounts so deposited in banks, there was at the time mentioned of the annual appropriation made for the support of the Prison Commission the sum of $1,620 deposited in the Lowry National Bank of the city of Atlanta. The Chairman of the Commission stated that he was compelled to draw this money from the State Treasury monthly in advance and deposit it to the credit of the Commission. We know of no law authorizing the Commission to take the money from the Treasury and deposit it in banks and there keep it on deposit. We think the law intends that the Commission shall make to the Governor a quarterly report of all of his receipts and expenditures, and that the Governor shall draw his warrant to cover these expenditures, and that the money shall at once be paid out by the Commission in the settlement of the debts contracted by it. Judge Turner, the Chairman of the Commission stated that the Commission objected to drawing the money this way and depositing it in the banks.
We did not find in the office of the Prison Commission any inventory of the property belonging to the State. Our examination discloses the fact that the Prison Commission have very little knowledge of the business transacted on the prison farm. It will be seen from an examination of the testimony of Mr. K. R. Foster, former superintendent of the prison farm, that five bales of cotton of the crop of 1902 were stolen, but he does not know by whom, but he gives it as his opinion that it was stolen by an ex-convict named Certes, who had served a term in the penitentiary for the crime of forgery, and who, after his term expired, had been employed by the Commission and placed in charge of this and other property of the State.

Judge Turner on the part of the Commission claims that he does not know that any cotton was ever lost. He says that he does not know whether it was a mistake in the count of Foster or whether it was lost. The fact is that immediately after the loss of this cotton was discovered this ex-convict left the employment of the State without notice and has never been seen or heard of since. How much more he carried off or disposed of, if anything, there is no way to find out. Under the present conditions existing on the State farm, and the entire absence of any records of what is produced on the farm, or what is disposed of, it is impossible to tell what is annually lost to the State at this place. Mr. Foster informed the Committee that while he was in charge he knew of several hundred bushels of cottonseed which were stolen.

We found that no inventory of any of the property on the farm had ever been made until Mr. Coombs, the new superintendent, who came into office in November last, took charge. This inventory was not made under the direction or by the orders of the Commission, but was made by Coombs himself for his own protection, and was his private paper, and it was not made in accordance with the law.
because it was required by law. This inventory was not
the inventory that the law requires to be made.

There was no attempt on the part of the Commission
when the change was made in the superintendent of the
farm to have the law complied with as to an accounting on
the part of the former superintendent for the properties of
the State which had been in his possession. No member
of the Commission, nor any one representing that body, was
present at the time the change was made to see that a pro­
er accounting was had with the former superintendent.
Coombs was elected by the Commission superintendent in­
bstead of Foster and was simply directed by the Commission
to go to the farm and receive the property from Foster.
Foster delivered to Coombs no inventory, did not show him
what was on the farm or with what he was chargeable, but
simply stepped out of the position and Coombs came in
as his successor. After Coombs came into the office of
superintendent he made the inventory above referred to
for his own protection.

Your Committee are unable to understand the absolute
failure of the Commission in this important particular to
ob­serve a plain requirement of the law.

In the original construction of the buildings at the State
farm a large amount of money was expended by Foster,
the superintendent, and we find no proper accounting for
this money on his part. We do not say, nor have we any
evidence, but what it was honestly spent, but we have no
evidence whatever that it was properly spent in accordance
with the law. Foster contracted the bills, Foster approved
the bills and they were paid by the Commission without
any examination on their part according to Foster.

Coombs, the new superintendent, testified before the Com­
mittee that when he desired money for any purpose he drew
on the bank at Milledgeville; that when he came there
Capt. Foster informed him that there was certain money
there to be drawn on to pay his bills; that he never put it in the bank and he did not know how it got there; that all he knew about it was that Capt. Foster told him that the money was there and he could draw on it as superintendent; and that Foster was to manage it so that Coombs could draw it out. Coombs did not know how the money got there, or by whose direction or whose authority his checks were paid by the bank. There appears to be no limitation of the power of the superintendent to check on this fund.

We think that the superintendent should be required to make a requisition by a proper voucher directly upon the office of the Prison Commission for the money needed by him, and that he should not have authority to check at will upon the funds of the State deposited in the bank. The cash needed by him should be supplied to him directly by the Commission.

The superintendent also informed your Committee that he was required to furnish a certain amount of tobacco and supplies to the wardens of the two different departments for the use of the convicts; that by the rule of the Commission he was required to furnish for each convict five pounds of meat a week and tobacco to each convict, and that in case the convicts did not use tobacco they were permitted to draw it and sell it. The supplies of both provisions and clothing were issued in bulk on the requisition of the warden, and there was no accounting on their part for it to any one.

Your Committee is of the opinion that in this matter of issuing supplies for the convicts the State is entirely at the mercy of the wardens. Five pounds of bacon a week in addition to a ration of fresh beef for each convict, sick or well, strikes your Committee as not only being liberal but extravagant. It appears from the rations thus issued as much as five hundred pounds of bacon has accumulated in
hands of the warden at one time. The superintendent has no control whatever over either of the wardens, the wardens having absolute charge of the convicts.

We are of the opinion that this should be changed; that the superintendent should be the officer of supreme authority and directly responsible to the Commission for the proper management of the farm and the convicts.

We further recommend that provision be made at once for the employment of a competent bookkeeper at the prison farm, and we recommend that a complete inventory of all the State's property there should be made at once as required by law.

We think that the Commission, or some member of it, should be required at least quarterly to visit the State farm and make a complete and thorough inspection of it in all of its departments.
EXECUTIVE DEPARTMENT.

The records in this department at present are well kept. We found that the law as to keeping a book for the record of bonds had not been previously complied with, but a record of these bonds were kept on the executive minutes. This has now been changed and a book prepared for the record of these bonds.

We found all the bonds required by law to be deposited in this office are in proper shape and all accounted for.

The book of commissions, showing when commissions are issued to all officers, we found kept as required by law.

We found no book as required in sub-section 2, section 141 of the Code, in which is entered a full account of all annual appropriations. There is a warrant book which shows each warrant drawn, for what account, in whose favor, and on what appropriation, but this book is not a compliance with this law.

There is no book kept in reference to the public debt as required by subdivision of section 141, but we find a book similar to this kept in the office of the Secretary of State. We could not find any law requiring this book to be kept there.

Section 141, subdivision 4, requires a book in which shall be kept copies of all bonds of agents disbursing public funds. No such book as this seems to be kept. The bonds above referred to and the record of them are the bonds of certain officers of the State which are required by the law creating the office to be filed with the Governor. In each instance we found that law had been complied with, but the section now referred to seems never to have been complied with in the executive office.

We find properly deposited in this office the bonds of all of the State depositories. We recommend that all of these bonds be required by law to be recorded in a bond book,
and that a copy of the bond taken from said book shall be admissible in evidence whenever the original is shown to have been lost or misplaced in any suit brought on the bond.

We find with but few exceptions that all the bonds of the State depositories are personal bonds, and we believe that the securities on the bonds are generally the officers and directors of the banks.

Subdivision 7 of the above-recited act requires to be kept in the executive office a book or books containing a list of the respective number and districts of the several lots of land disposed of by the several land lotteries. We do not understand how this law comes into the Code, as we cannot find that any such record has ever been kept in the executive office for a number of years. We find that these records are kept in the office of the Secretary of State.

Your Committee desires to commend especially the efficiency of the present clerks in the executive department.
SECRETARY OF STATE.

The records in this office show that the incumbent has fully accounted for all money received by him, has paid the same into the State Treasury and has the proper vouchers. Subdivision 4, section 181 of the Code, requires that this officer shall keep all bonds of agents appointed to disburse public moneys. The Secretary of State informs us that no such bonds are in his office, nor have they ever been deposited there so far as he knows. The law just above referred to requires these bonds to be recorded in the office of the Governor, and another section of the Code requires them to be deposited in the office of the Comptroller-General. No bonds of this character are deposited anywhere under these general sections of the Code. The bonds of the agents of all the educational and charitable institutions are deposited with the local boards of trustees, except that of the Treasurer of the State Sanitarium, which is required by law to be deposited in the executive office. We call attention at another place in this report to the conflict in the laws regulating the different executive officers, and to the codification of many laws in the present Code which have been repealed or are necessarily obsolete.

The Secretary of State informs us that he has never been called upon to perform any of the duties enumerated in subdivision 5 of the above-recited Act, except to furnish to the General Assembly stationery, and that no appropriation has ever been made to him for the payment of bills provided for in that section as required by the same.

We find in this office that there are thirty-four counties in the State of which there is no official map of file. The maps of many other counties are in very bad condition from constant handling, and we recommend that an appropriation be made to have these maps placed in proper shape.
We also find that many of the old records in this office are in very bad condition from age; the pages discolored, the ink fading and the backs rotten. These are manuscript records and of great value to the State. We would recommend that immediate steps be taken to have them transcribed and printed.
STATE LIBRARIAN.

This officer keeps no books, and it was impossible for this committee to take any accounting of the money that has passed through his hands. The methods pursued in this office in reference to the large amount of public money received are entirely too loose. Large amounts of money pass through the hands of the incumbent of the office and nothing more than a memorandum entry of the amount received and the amount paid into the Treasury is made. He should be required to keep a book showing exactly the moneys received by him, from what source, and on what account. He should be required to submit to the Comptroller-General a detailed statement monthly of all the moneys received by him, from what sources received, and on what account, and exhibit a receipt from the Treasurer to balance the same.

There is no inventory of any of the books or other property in charge of this officer in existence. This should be corrected at once.

We further find that many valuable books belonging to the Library are stored in the cellar of the capitol, and that these books are many of them in bad condition and being rapidly destroyed. Adequate provision should be made at once for removing these books and placing them upon shelves in the State Library. When this is done the State will save a great loss from the destruction of many valuable books.
ADJUTANT-GENERAL.

It appears from an examination of the records of this office that there has been received from the United States Government the sum of $3,366.48 on account of the transportation and subsistence and payment of officers and enlisted men of the State troops while in the encampment last summer. This amount was deposited in bank to the credit of the Adjutant-General. This your committee finds is contrary to law and without authority. The law expressly requires that this money should be deposited in the State Treasury, and the Adjutant-General's office has not the power or authority to disburse this fund. We recommend that the Governor be required to see that this money is paid into the Treasury as required by law.
We find the records of this office well kept and this officer has proper receipts for all money paid out or received by him.

We find that there is paid out of the school fund by the School Commissioner fifty dollars a month for a stenographer, and also that the janitor of the department is paid out of this fund. There is no authority to pay the salary of any officer or employee out of the money appropriated for the common schools. These payments we therefore find to be an illegal use of the appropriation.

The School Commissioner also testified that the county school authorities used the money appropriated for the support of the schools in the erection of school buildings. This we also have to report is in our opinion an illegal use of this money.
GEOLOGICAL DEPARTMENT.

In this department we find by authority of the geological survey the State Geologist was authorized to employ a clerk and pay him a salary of fifty dollars a month. The law creating the survey expressly provides that all of the clerical force should be furnished by the Department of Agriculture, and there is no provision of law for paying the salary of this clerk out of the appropriation for the support of the department. We think that this is illegal. The same is true as to the amount paid the secretary of the survey and the amount paid one of the capitol guards. We recommend that until there is authority of law for this use of the money appropriated for this department that these payments from this fund be discontinued.
ATTORNEY-GENERAL.

The Constitution expressly provides that the salary of the Attorney-General shall be two thousand dollars. We find that all of the officers who have occupied this office since the adoption of the Constitution, including the present Attorney-General, have received from the State, in addition to this salary, fees and their expenses for services rendered the State in cases outside of the State. The construction placed upon this clause, as we are informed by the Governor, was that the Attorney-General by virtue of his office was not required to represent the State in cases tried in courts out of the State; that he was only required to render services within the territorial limits of the State, and that in matters arising out of the State requiring the services of an attorney, the Governor was authorized to employ an attorney to represent the State other than the Attorney-General if he saw fit, and that his services in this class of cases was not performed by virtue of the duties imposed upon him as Attorney-General, but under special employment by the Governor. This has been the unbroken construction placed upon this clause of the Constitution by all the chief executives of the State, as we stated above, since the adoption of the Constitution of 1877. We would suggest, however, that this is rather a matter for the Legislature to deal with than the Governor. It is possible that this may have been the intention of the Constitution, but if so, we are of the opinion that payment only could be authorized for these services by the Legislature. It might have the power to give this construction to the Constitution if it sees fit, but we doubt if there is any law in existence that authorized the Governor to pay the Attorney-General for services rendered in this way.
This office has already during the present Legislature been thoroughly examined by a committee from the Senate and House; this committee, except the chairman, who was not a member of the committee at the time the examination was made. The committee did not think it necessary to have the experts make a complete examination of the office, and we had no reports from the experts in this office, as they were suspended in their work by the order of the committee.

The office of the executive, this office and the Treasurer’s office under the system now prevailing is each a check on the other. We examined the records in this office and found them all in fine condition and complete. All the records necessary to the check of the office and all those required by law are properly kept. The work in this office is very much crowded, and with the allowance made by the Constitution for the clerical force of the office it is impossible in the present condition of the office for the work to be properly done. The business of this office has grown immensely and will continue to grow as the taxable property of the State develops. The State has no more faithful and efficient officers than the present incumbent of this office and his able corps of assistants.
STATE TREASURER.

We found all the books required by law to be kept in this office properly kept except as follows: The book required by section 202 of canceled bonds. This book, we are informed by the Treasurer, so far as he knows has never been kept in this office. This section of the Code seems to be in conflict with sub-section 14 of section 199, which requires that when bonds and coupons are paid they are to be deposited in the vault of the Treasurer subject to the order of the General Assembly. The section first above referred to seems to make this record of canceled bonds a permanent one. The section last referred to only requires the deposit of the bonds and leaves them subject to the order of the General Assembly. Section 1007 of the Code requires these bonds simply to be preserved in the office of the Treasurer in the same manner and with the same care as the funds of the State. These acts are clearly in conflict and should be amended or repealed.

The Treasurer and his clerk we find to be men careful, conscientious and faithful in the discharge of their duties. All the money that has been paid into the Treasury has been properly accounted for and the books of this office balance with those in the Comptroller-General's office.

This office has also been examined by your committee at the time the Comptroller-General's office was a few months ago.
KEEPER OF PUBLIC BUILDINGS.

We could not make any very extensive examination of the office of Keeper of Public Buildings on account of the recent death of Mr. Revill, his successor having come into office only the day before your committee visited it.

We found in this office what appeared to be a complete inventory of all of the property of the State in the State House and in charge of the Keeper of Public Buildings and also in the Governor’s Mansion. This inventory was made by Mr. Revill and was hardly completed at the time of his death. It had not been entered on a book or sworn to as required by law. This is the only inventory of this valuable property of the State that we could find, and we do not suppose that any other was ever made. We recommend that Mr. Revill’s successor at once have this inventory entered in a book as required by law, and express the hope that in the future the Governor will see to it that the law in reference to an inventory of the property in the State House will be complied with.
COMMISSIONER OF PENSIONS.

We find the records in this office in a very unsatisfactory condition. The books required to be kept by the Pension Commissioner are correctly kept so far as your committee could ascertain, except that he had issued checks in some cases without proper authority. The pensioners had signed powers of attorney to one person authorizing him to receive the checks, and in some cases he had issued these checks to other persons without authority. This was done, however, for the convenience of the pensioner in the temporary absence of the person to whom the power was given and no loss was suffered by it. We merely call attention to this as an irregularity.

The Pension Commissioner’s vouchers are piled in heaps on the tables and on the floor, and in no condition to be examined and in great danger of loss or destruction. This condition arises not from any fault on the part of the Commissioner but is owing entirely to the want of proper facilities for filing these records. We most earnestly recommend that an appropriation be made at the present session of the Legislature for the filing and preserving of these records.

This department, like the School Department, handles no money directly, but pensions are paid from the Treasury on checks from the Commissioner. No funds are drawn directly by him from the Treasury for the payment of pensions.

The Pension Commissioner is preparing a record for each county, showing the names of all the pensioners of every class. This book is to be filed with the Ordinary and by him sent to the Grand Jury for inspection and the revision of the pension lists as required by law, and we think in this way it will aid in the prevention of fraud.
We find all the moneys received and paid out by this officer properly accounted for. He had all the vouchers for money paid out by him, and proper receipts for all received by him and paid into the Treasury, and statements from the banks showing what amount was to his credit in the various banks.

We find that there is an officer connected with this department known as the Assistant Commissioner of Agriculture, who receives a salary of $1,800 a year, which is paid by the Commissioner to him out of the annual appropriation made for the support of his department. We were unable to find any law creating this office, or authorizing the payment of his salary by the Commissioner from the amount appropriated for the support of the department or from any other source. The present Commissioner stated that he found the office in existence when he took charge of the department, and that so far as his information went this officer had been employed from the time of the organization of the department. The present Commissioner pays the same salary that was received by this officer at the time he was elected, and he is paid in the same way that he was at that time. The Commissioner candidly states that he knew of no law authorizing the payment of the salary of this officer.

Section 8 of the General Appropriation Act of 1902 seems to prohibit the use of money appropriated for the support of this department for the payment of the salaries of officers or employees. The law creating the Department of Agriculture provided for only one clerk in that department, and put the salary of that clerk at $1,200 a year. In addition to this officer the Commissioner employs a record clerk at seventy-five dollars a month, a mailing clerk at sixty dollars a month, and a stenographer at fifty
dollars a month. All of these officers except the record clerk were employed in this department at the time the present Commissioner came into office. He has employed the record clerk since that time.

Your Committee are compelled to find that all of these payments are without authority of law. The work in this office certainly requires more than one clerk at this time, and we would suggest that the Act creating this department be amended so as to authorize the Commissioner to employ a sufficient clerical force, and that the salaries be fixed by law and paid out of the State Treasury out of the fees arising from the inspection of fertilizers. Until this is done we do not think that the Commissioner is authorized to employ these clerks or to pay them from the appropriation.

The Commissioner called the attention of the Committee to the fact that as the law now stands the Commissioner of Agriculture, although he handles a large sum of money, is not required to give any bond. The Commissioner stated to your Committee that he thought at one time of voluntarily making a bond and tendering it to the State, but decided that in view of the fact that it was not required by law, it might have the appearance of reflecting upon his own honesty.

We would further call your attention to the methods used in this department. The Commissioner states that the department was run by the Commissioner in office as he would run his own private business. That he was not required to make any reports to any one except to the Governor quarterly of his disbursements on account of the annual appropriation, but as to the fees arising from the inspection of fertilizers he accounted to no one.

We submit that the law should be amended so as to require the Commissioner to submit a statement monthly to the Comptroller-General of the receipts by him from every
source whatever, showing a detailed report of the amount received by him, at what time received, on what account received and from whom, and to settle his accounts monthly, paying the money into the Treasury and getting a receipt therefor; that these settlements should be made as now required by law of other officers in the State collecting money.

We further recommend that there should be some officer in the State to check the accounts of this office, as suggested by the Commissioner.

We think the law should be changed so as to give the Commissioner more power in ascertaining the sale of guano in the State. He should have power to examine the books of manufacturers and others dealing in fertilizers in this State to ascertain from these books the number of tons sold. He should also have authority to require reports in detail made to him by such manufacturers and by all manufacturers and others outside of the State shipping guano into the State to be sold. These reports should show in a general way the date of the shipment, the number of tons shipped, by what railroad shipped, to what place and to whom consigned.

We call attention to the statement of the Commissioner of Agriculture that while 600,000 tons of guano were sold in this State last year, only about twelve hundred tons were reported to him as having been sold in bulk. Under the law he has no means of keeping up with the sale of guano in bulk, and the great discrepancy in the quantity sold is strong evidence that the State is losing its tax on the guano sold in bulk.

There are seven inspectors employed the year round at $83.50 a month and thirty employed for less periods, varying from one to six months. The Commissioner states that this number is necessary for the proper conduct of the business.
There seems to be a complete system of checking the accounts of the oil inspectors in use in the department. The inspectors report the oil inspected in detail to the General Oil Inspector, and also report to the Treasurer and settle directly with the Treasurer. No money received from the inspection of oil passes through this department at all. The general oil inspector checks the accounts furnished him with those in the Treasurer's office to see that the inspectors have accounted for all the fees received by them.

We find that the office of General Oil Inspector was created by the Act of the Legislature in 1899 at a salary of $1,200 a year to be paid out of the funds arising from the inspection of oil in the Treasury. We find that he has received that salary since that time paid to him directly from the Treasury on the warrant of the Governor, but we do not find that any money has ever been appropriated by the Legislature to pay his salary, and therefore we are compelled to find that the salary has been paid without authority. We call the attention of the appropriation committee to this omission and recommend that an appropriation be made in the general appropriation bill for the payment of this officer.

The Commissioner draws in advance, generally quarterly, the money appropriated for the support of his department, and deposits this amount to his credit as Commissioner in a bank selected by him. This seems to be the practice that has obtained in this department since it was organized, but it is not authorized by law. We see no necessity for the money being drawn in advance by the Commissioner. There is no good reason why he could not draw the money out from time to time in payment of bills contracted or the other necessary expenses of his department; indeed, the Commissioner prefers to do business this way, but is required to draw it out and deposit it in banks and disburse it by his own checks.
On April 24th we found that the Commissioner was carrying on deposit of State funds in certain banks in Atlanta, Griffin and Elberton $18,502.67; that between that time and the second day of June, the date of our examination, he had paid into the State Treasury $8,000, leaving of the State funds deposited to the credit of the Commissioner the sum of $10,502.67. There is no reason that we can see why these large amounts of money should be accumulated by the Commissioner in banks. We recommend that this money be paid into the State Treasury at once.
CONCLUSION.

Your Committee has to report that they find in nearly all of the departments of the government and in all of the institutions a want of proper business methods. The same methods are now used in some of the State institutions that were used in the beginning when they were very small affairs.

The system and methods used in the Executive office, the Comptroller-General's office and the Treasurer's office, as to checks is well-nigh perfect, each one being a check upon the others, and this system should be extended to all of the departments of the State government.

Outside of the departments last mentioned, there is a total want of anything like uniformity in the conduct of the business of the departments. The business of the State of Georgia should be conducted in the same manner and method that corporations and large private concerns are forced to adopt as a matter of necessity, and we see no reason why the State's business affairs should not set the example in thoroughness and efficiency, instead of following old, obsolete and discarded methods. To bring about this desired and much-needed reform in our business methods, your Committee respectfully submit the recommendations that appear in this report.

It is necessary in collecting and disbursing the various and large sums of money now passing through the different departments that a perfect system of accounting should be adopted.

It is impossible under the existing conditions, outside of the Executive, Comptroller-General's and Treasurer's offices, to make anything like an intelligent check of these officers. The Comptroller-General's office is the clearing-
house of the State. The law now is that he shall audit all accounts of all State House officers, but under the present methods and existing circumstances that is absolutely impossible.

We therefore recommend that a law be enacted creating the office of State Auditor of Accounts, and that this officer shall be charged with general supervision of the financial affairs of the State; that the disbursement of all funds shall be directly under his control.

The policy of allowing appropriations to be withdrawn from the treasury by the various institutions and departments of the State and deposited in banks selected by their officers is dangerous in the extreme.

Since your Committee began this investigation, its attention has been called to two occurrences which involve two of the State's institutions. The Treasurer of the State Sanitarium used for his personal account something over twenty thousand dollars of the State's money in his possession, and the authorities of the Sanitarium were compelled to collect the amount from the sureties on his bond. This was a portion of the appropriation drawn in advance for the support of the institution. If it had not been so promptly paid by the sureties on his bond, the Sanitarium would have been seriously involved, because there was no authority to make this deficiency good from any funds in the Treasury. We have already referred elsewhere in this report to the fact that about thirty-five hundred dollars of the money appropriated for the support of the Academy for the Blind at Macon was deposited in the First National Bank of Macon at the time of its failure on or about the 16th day of May last, and no part of this fund has yet been recovered, and it must necessarily have resulted in serious embarrassment for this institution. If this money had not been drawn out from the Treasury, but had been paid out directly from the Treasury in settlement of bills
contracted, these institutions would not be exposed to this risk, and the State would not be in any danger from this loss. We do not think that any money ought to be paid out directly from the Treasury except directly to the person to whom it is due.

We herewith submit a bill providing for a State Auditor of Accounts and defining his duties, and we earnestly urge that it be given immediate and earnest consideration. Our investigation has convinced us that this bill or one similar to it is absolutely necessary for the protection of the interests of the State.

We suggest that it would be to the interest of the State to have all of these charitable institutions in the State under the control of one board. We are satisfied that this would result in a great saving to the State in the support of these institutions.

We recommend that a Committee be appointed at the present session of the General Assembly whose duty it shall be to take into consideration all the existing laws in reference to the various institutions of the State and for the regulation of the different departments of the State government, and report to the next General Assembly such legislation as is necessary to harmonize and perfect the laws on these subjects. All of these laws are now in great confusion as they exist in the present Code.

Prior to 1877 two classes of inmates were provided for in the State Sanitarium, and they were divided under the law into pauper and pay patients. By the Act of 1877 this law was repealed and it provided that all patients should be admitted into the Sanitarium free of cost for their treatment, clothing and maintenance. The codifiers who were employed to prepare the last Code of Georgia codified as law these laws that were repealed by the Act of 1877 and the Act of 1877 itself, and we find in the body of the law relating to the State Sanitarium the two inconsistent pro-
visions requiring the Trustees to admit all citizens of the State free of cost, and in the same chapter of the Code they are required only to admit paupers free of cost.

The same conflicts in the law appear in the whole body of our laws in reference to our State institutions and the different departments of the State government. It is impossible for the officers charged with the execution of these laws to perform their duties under the present Code of Georgia. The laws in this book, in the language of a distinguished judge of one of the courts of this State, "seem to have been thrown together in one conglomerate mass." It is absolutely necessary that there should be at once a complete revision of the laws now in existence, at least in so far as they apply to the State's institutions and the various departments of the State.

We regret to say that we find a prevalent disposition on the part of the officers to follow precedent even where the precedent is in violation of the law and contrary to the law. We would earnestly recommend to all the officers of the State that they follow the law made by the Legislature for their government strictly, and where in their opinion they consider the law unwise or impossible of execution, not to attempt to set it aside themselves, but to call the attention of the Legislature to the defects in the law.

We think that it would be to the interest of the State to sell the present building owned and used by the State as a mansion for the Governor. The building is old and costly to keep in repair, and it is almost now in the business district of Atlanta and is undesirable for a residence. It is entirely too far from the capitol. We think that it is worth much more for other than residence purposes, and that the State could sell it and purchase other property and build a home for the Governor to great advantage to the State. We recommend that a Committee be appointed to take into consideration this portion of the report of your
Committee and report its conclusions to the next General Assembly.

We further find and recommend that the work of your Committee should be continued by subsequent Legislatures. In our investigations we found no point of time from which we could begin, because no investigation of the character made by your Committee has ever been made before. We do not think that it is possible for any Committee or Committees to make the necessary investigation of the different departments and institutions of the State during the session of the Legislature. We think that there should be a standing Committee from the two houses who should be charged with the duty of making this investigation every two years. We think that this investigation could be made at a comparatively small cost.

We herewith report a bill providing for the appointment of this Committee and prescribing its duties.

We further find and recommend that it would be a great saving to the State in the purchase of coal if one officer of the State was authorized to make a contract for all the coal consumed by the State and the various Institutions. This item of coal is a very large one, and if purchased under one contract a great saving could be made.

We further recommend that the authorities of the various charitable institutions of the State should be required by law to submit to the Governor and to the General Assembly an itemized statement of the various amounts required by them for the support of the institution. This report should show what amount is to be disbursed from the appropriation on account of salaries, clothing, wages, fuel, subsistence, transportation and incidentals, and for temporary repairs on the buildings, each under a separate head, and the appropriation should specify that only the amount so estimated should be spent for each item.
We herewith submit for your consideration the reports made by the expert accountants to us.

Your Committee as a whole was engaged twenty-five days in this work. Individual members of the Committee, by direction of the Committee, were engaged some days in addition to the time consumed by the Committee as a whole.

The Honorable P M. Mulherin was while the Committee was in session at the Academy for the Blind at Macon, on the 28th day of December, stricken with a severe illness, and was unable after that time, on account of illness, to attend any of the subsequent sessions of the Committee. The Committee very greatly felt the loss of his valuable aid and services in completing this work, and desire here to express its regret at the loss of his services, and at the same time its pleasure at his restoration to health. He does not join in this report except as to the investigation of the Georgia State Sanitarium, the Normal and Industrial School at Milledgeville and the prison farm.

Jos. H. Hall, Chairman;
S. R. Christie,
J. T. Duncan,
J. E. Hayes,
P M. Mulherin,
P. H. Comas, Secretary.

Note.—Since this report was prepared we have been informed that the Trustees have employed a bookkeeper.

The following is the report from the committee who visited the State Sanitarium:

Mr President.

Your Committee on State Sanitarium desire to report, that we have again visited that noble institution. All that
we have stated in our reports rendered in 1902 and in 1903 we most earnestly reiterate and reaffirm, as we feel that we could not be too extravagant in any language we might use in expressing our approval of the conditions which there exist, or in commending the wisdom and ability displayed by those in charge of its affairs. The people of Georgia are to be congratulated that, from the Board of Trustees to the most humble employee, all seem to work together harmoniously for the welfare of the unfortunates consigned to their care, and their intelligent and efficient labors are conducted with such skill and economy as to appear almost marvelous to those who carefully, and without bias, study what has been and what is now being accomplished.

The necessity for making such appropriations for its maintenance as the Board of Trustees may request will be apparent to every unprejudiced mind, when we consider the character of the men who compose this board, read their report to the Governor for the eight months ending January 1st, 1904, and then learn that since that report was made, there have been 579 applications for admission and 466 patients received, leaving on file 113 applications over and above those received.

The Board of Trustees, last fall, appointed a committee to consider the advisability of instituting a new method of bookkeeping in connection with the supply department. After due investigation, it was decided to adopt a system designed by an expert accountant, who thoroughly acquainted himself with the purposes sought to be accomplished. A bookkeeper has been employed at a salary of $1,200 per annum, whom we think is thoroughly competent, and the daily transactions in this department, even in the most minute details, are clearly shown by the various books which are now kept. The "petty cash" account of the steward received our careful consideration, and we are at a loss to conceive how a more simple, intelligible, and honest record could be kept.
When we consider the magnitude of this, the grandest and noblest charity fostered by the State, think of the vast properties, which are so ably preserved and cared for, real- ized the multitudinous details which demand daily and hourly attention, and ponder over the condition of its in-mates, we are thoroughly impressed with the extraordinary wisdom, fidelity and ability manifested by those in charge, and are almost astounded to know that it has been so economically operated.

J. R. VanBuren, Chairman.

The following Senate bills were read third time to be put upon their passage:

By Mr. Davis—

A bill to require all State House officers to give bond in some security company and said bonds are to be paid by the State.

A bill to be entitled an Act to amend paragraph 1 of section 2 of article 11 of the Constitution of this State by striking the word “two,” in the third line of said para-
WEDNESDAY, JULY 20, 1904.

Section 1. Be it enacted by the General Assembly of the State of Georgia, and it is hereby enacted by the authority of the same, That paragraph 1 of section 2 of article 11 of the Constitution of this State be, and the same is, hereby amended by striking the word "two," in the third line of said paragraph, and inserting in lieu thereof the word "four," so that when so amended the same shall read as follows: "The county officers shall be elected by the qualified voters of their respective counties or districts, and shall hold their offices for four years, or until their successors are chosen and qualified. They shall be removed from office on conviction for malpractice in office, and no person shall be eligible to any of the offices referred to in this paragraph unless he shall have been a resident of the county for two years and is a qualified voter."

Section 2. Be it further enacted by the authority aforesaid, That whenever the proposed amendment to the Constitution shall be agreed to by two-thirds of the members elected to each of the "Houses" of the General Assembly, the Governor shall, and he is hereby authorized and instructed to, cause said amendment to be published in at least two newspapers in each congressional district in this State for a period of two months next preceding the time of holding the next general election.

Section 3. Be it further enacted by the authority aforesaid, That the above proposed amendment shall be submitted for ratification or rejection of the electors of this State at the next general election to be held after the publication, as provided for in the second section of this Act, in the sev-
eral districts of this State, at which election every person shall be qualified to vote who is entitled to vote for members of the General Assembly. All persons voting at said election in favor of adopting the proposed amendment, or either of them, to the Constitution of this State, shall have written or printed on their ballots the words, "For ratification of the amendment of paragraph 1 of section 2 of article 11 of the Constitution," "For ratification of the amendment of paragraph 2 of section 1 of article 5 of the Constitution." And all persons opposed to said amendment, or either of them, shall have written or printed on their ballots, "Against the ratification of amendment of paragraph 1 of section 2 of article 11 of the Constitution," "Against the ratification of the amendment of paragraph 2 of section 1 of article 5 of the Constitution."

SEC. 4. Be it further enacted by the authority aforesaid, That the Governor be, and he is, hereby authorized and directed to provide for the submission of the foregoing proposed amendment to the Constitution of this State to a vote of the people, as required by the Constitution of this State in paragraph 1 of section 1 of article 13, and by this Act; and if either be ratified, the Governor shall, when he ascertains such ratification from the Secretary of State, to whom the returns shall be referred in the same as in case of elections for members of the General Assembly to count and ascertain the result, issue his proclamation, for one insertion in one of the daily papers of this State, announcing such result, and declaring the amendment or amendments ratified.

SEC. 5. Be it further enacted by the authority aforesaid, That all laws and parts of laws in conflict with this Act be, and the same are, hereby repealed.

The bill having received the requisite constitutional majority was passed, and the bill is as follows:

A bill to be entitled an Act to amend paragraph 18, section 7, article 3, of the Constitution of this State, prescribing how corporate powers may be granted, by adding after the words "exercised by the courts," in the sixth line of said paragraph, the following words, to-wit: "or the Judges thereof," so that said section shall read as amended as follows:

Section 1. The General Assembly shall have no power to grant corporate powers and privileges to private companies, to make or change election precincts, nor to establish bridges or ferries, nor to change names of legitimate children, but it shall prescribe by law the manner in which such powers shall be exercised by the courts, or the Judges thereof. All corporate powers and privileges to banking, insurance, railroad, canal, navigation, express and telegraph companies shall be issued and granted by the Secretary of State in such manner as shall be prescribed by law; and if in any event the Secretary of State should be disqualified to act in any case, then in that event the Legislature shall provide by general laws by what person such charters shall be granted.

Sec. 2. Be it further enacted by the authority aforesaid, That whenever the above proposed amendment to the said paragraph, to the Constitution shall be agreed to by two-thirds of the members elected to each of the two Houses of the General Assembly, the Governor shall, and he is hereby authorized and instructed, to cause said amendment to be published in one or more newspapers in each Congressional District of this State for the period of two months next preceding the time for holding the next general election.
Sec. 3. Be it further enacted by the authority aforesaid, That the above proposed amendment shall be submitted for ratification or rejection of the electors of this State at the next general election to be held after publication, as provided for in the section of this Act, in the several districts of this State; at which election every person shall be qualified to vote who is entitled to vote for members of the General Assembly. All persons voting at said election in favor of adopting the proposed amendment to the Constitution of this State, shall have written or printed on their ballots, the words: "For ratification of the amendment of paragraph 18, section 7, article 3, of the Constitution (prescribing how corporate powers may be granted) by adding after the words, "exercised by the courts," in the sixth line of said paragraph, the words, "or the Judges thereof." And all persons opposed to the adoption of said amendment, shall have written or printed on their ballots, the words: "Against ratification of the amendment of paragraph 18, section 7, article 3, of the Constitution (prescribing how corporate powers may be granted) by adding after the words, "exercised by the courts," in the sixth line of said paragraph, the words, "or the Judges thereof."

Sec. 4. Be it further enacted by the authority aforesaid, That the Governor be and he is, hereby authorized and directed to provide for the submission of the foregoing proposed amendment to the Constitution of this State to a vote of the people as required by the Constitution of this State, in paragraph 1, section 1, of article 13, and by this Act; and if it be ratified, the Governor shall, when he ascertains such ratification from the Secretary of State, to whom the returns shall be referred in the same manner as in case of elections for members of the General Assembly, to count and ascertain the result, issue his proclamation, for
one insertion, in one of the daily papers of this State; announcing such result and declaring the amendment ratified.

Sec. 5. Be it further enacted by the authority aforesaid, That all laws and parts of laws in conflict with this Act be, and the same are hereby repealed.

REPORT OF THE COMMISSION ON THE REGISTRATION OF LAND TITLES.

To the General Assembly of Georgia:

The Commission on the Registration of Land Titles, created by a joint resolution of the House of Representatives of the General Assembly of Georgia, the Senate concurring, approved August 5, 1903, begs leave to report:

The Commission on the Registration of Land Titles, charged with the duty of considering and investigating the registration of land titles, particularly the Torrens system for the registration of land titles, entered upon the discharge of its duties very shortly after the adjournment of the General Assembly on August 15, 1903.

In the efforts of the Commission to make and conclude such an examination of the various systems for the registration of land titles as would be of any practical benefit to the people of Georgia, the Commission soon discovered that the work in hand was of such a responsible and ex-
tensive character that more time would be needed than was thought necessary when the work was commenced. The consideration of the defects of the present system of registering deeds and the numerous efforts to remedy those defects which have been adopted by the various States in the Union, as well as by foreign nations, embraces such a vast field of inquiry and investigation that the Commission has simply been enabled to inaugurate its work. The completion of this task, which is fraught with such momentous results, can not be had without another year devoted to it. In none of those States in the Union in which a change has been made from the old system of registering deeds to a new system of registering titles has the time for the consideration and investigation of the measures occupied less than four years; in some five; in some six; and in one seven years.

Your Commission, therefore, actuated by a strong and earnest desire to complete this work intelligently and to prepare and present to the General Assembly such a report as will afford ready, extensive and accurate information of the character of a system of registration of land titles, and whether such a system is advisable and practicable for the State of Georgia, respectfully ask that the Commission be continued in force, with all of its powers and duties, as now constituted, and that it be directed and authorized to make such report as it may deem advisable to the next session of the General Assembly as now fixed by law.

Respectfully submitted,

WASHINGTON DESSAU, Chairman;

T. S. FELDER,
H. A. MATHEW,
P. M. MULHERIN,

By Mr. Clements—

A bill to make it unlawful for any person to appear on any passenger coach of any railroad or electric cars in an intoxicated condition.

The report of the committee was favorable to the passage of the bill. The following is a minority report:

Minority report of Special Judiciary Committee on Senate Bill No. 256 to make it a misdemeanor for any person to be intoxicated on any passenger coach or train of any railroad operated by steam or electricity or otherwise, for the transportation of passengers.

The undersigned members of the Special Judiciary Committee respectfully dissent from the report of the committee recommending the passage of the above bill, and here briefly state some of the reasons which impel us to do so:

1st. Legislation of this kind is neither needful nor proper. It is not the province nor the duty of the lawmaking body, legislating for the good of the whole State, for trivial causes to increase the number of violators of the law, placing upon a large number of our fellow-citizens, who are otherwise eminently respectable, the brand of criminals.

2d. Legislation of this kind is too drastic.

3d. The lawmaking body should be very careful in making any material alteration in the criminal laws of the State.
4th. The State should not act in the dual capacity of furnishing the drink and punishing the drinker.

Respectfully submitted,

B. L. TISINGER,
T. G. HUDSON.

The following is the minority report from the Agricultural Committee:

Minority report against the adverse report of the Senate Committee on Agriculture on the substitute for Senate Bill No. 225:

We, the undersigned members of said committee, favor the passage of said substitute, because we believe it to be fair, just and needful legislation. We do not believe that secrecy in the manufacture of commercial fertilizers
should be permitted under the cloak of the law, or that the publication of facts will be hurtful to the manufacturers of or the consumers of commercial fertilizers. We believe that the farmers of Georgia overwhelmingly desire the passage of the substitute which has been adversely reported by a bare majority of one. We state it as a fact, that artificial fillers used by manufacturers is largely intended to reduce a high grade, natural fertilizer material to a low grade basis, and to make up the weight of the ton, and that all natural fertilizer materials can be as easily distributed in the field without the addition of an artificial filler as with it. We believe that certain artificial fillers that are used in commercial fertilizers are deleterious to the soil; certainly no artificial filler as used at the present time is of material value to the soil, as reported by the manufacturers themselves. That said substitute does not prohibit the use of artificial fillers, but it does provide for publicity in the agricultural bulletins issued by the Department of Agriculture, the same as is now provided for the publicity of the sources from which all plant food is drawn that is used in commercial fertilizers. We believe that the only serious objection to said substitute is made by the large corporations engaged in the manufacture of commercial fertilizers in this State. We contend that the General Assembly of Georgia should make laws for the benefit of the people of Georgia without reference to interstate or uniform laws for all the States, because of the wishes of large corporations who do an interstate business. For these and other reasons we oppose the adverse report of said committee.

The bill having received the requisite constitutional majority was passed as amended, and amendments are as follows:

Amend section 8 by adding at end thereof "The guardrail, or barrier, provided for in this Act shall be used in cases where a convenient-sized room can not be procured for the placing of books therein, according to the provisions of this Act; but where said room can be procured, the walls of said room shall be in lieu of such rail or barrier, except at the doors thereof."

Amend section 1 by adding at end thereof the words "to fill any public office, or to decide any public question."

Amend section 5.—Strike out the word "manager," in ninth line, leaving said line blank.

Amend by striking out the following words in second page of amendment: "The return of the vote on said question in each county shall be made to the ordinary thereof," and substituting the following: "The vote on said question in each county shall be separately consolidated by the election superintendent to consolidate the vote and a report of the result made to the ordinary thereof."

Committee amends by striking out all of section 22, as it stands, and substituting the following as section 22:
Section 22. This Act shall take effect and have the force of law as follows: After the passage of this Act the Governor of the State shall issue a proclamation and cause the same to be published in one or more papers in each congressional district, at least thirty days before the next general election, submitting to the qualified voters in each county in the State the question whether this Act shall become the law, and shall cause said question to be so submitted at said election; and it is herein prescribed that in any proclamation or order or notice by the Governor, or by ordinary of any county in pursuance of this Act, it shall be sufficient to describe and set forth this Act as "the Australian Ballot Law," without publishing the entire Act, and without further description of the same, and the question submitted shall be in form as follows: "For Australian Ballot Law," "Against Australian Ballot Law," which shall be upon the general ticket or ballot. The return of the vote on said question in each county shall be made to the ordinary thereof who, after examining the same and deciding upon all questions which may arise out of said election, shall proclaim the result by a notice to that effect in the official gazette of said county. If the lawful majority in said election in any county is for the Australian Ballot Law, then the provision of this Act shall take effect and have the force of law in said county after the expiration of three months from said general election. If in any county the majority shall be against the Australian Ballot Law, the said question may again be submitted to the qualified voters of said county at any subsequent general election by a similar proclamation or order of the Governor upon the recommendation of two successive grand juries of such county, duly certified to the Governor in sufficient time for the question to be so submitted; and in each case it shall be sufficient that said
proclamation or order shall be published only in the public
gazette of said county, and the subsequent proceedings
shall be for such county as above prescribed in case of a
— at the general election next after the passage
of this Act.

MINORITY REPORT ON HOUSE BILL 186.

We respectfully submit the following:

The Committee on the General Judiciary having reported in lieu of the above bill a substitute, which provides, in addition to a State board of assessors for corporate property, a county board of assessors for individual
property, we disagree to said report, and think the bill as it comes from the House, with a few verbal amendments, should become the law.

1. There seems to be no necessity for boards of assessors for individual property. There was for 1903 an increase in the returns of individual property over 1902 of twenty-two and one-half millions, and probably for 1904 there will be a still larger increase. For the same year, 1903, there seems to have been a decrease of railroad property which was taxed in 1902 of four and one-half millions. There was an increase of about eight millions, but this came entirely from franchises not returned in 1902. Consequently the facts do not indicate any backwardness on the part of individual property-holders in returning their property at proper value.

2. There is a patent and immediate and urgent necessity for some better laws than we now have for ascertaining and arriving at the value of railroad property. Under our present arbitration system, in 1903, after the Comptroller-General had assessed these properties according to a simple rule of arriving at their actual value, approved and commended by all the courts, including the Supreme Court of the United States, this valuation was reduced, in the aggregate, about twenty millions. In the case of the Southern and Seaboard roads, the taxable value of the franchises was reduced from the valuation of the Comptroller-General about two-thirds. Other roads were assessed on their franchises at about double the rate per mile assessed on the Seaboard and Southern. The present system has proved a very unjust one as between the roads, and has produced great loss to the State. The necessity for a better system is apparent.

3. To sidetrack the House bill by a substitute which,
however commendable, is not urgently demanded by the situation, will be to imperil the enactment by this Assembly of a law urgently and immediately needed.

4. The objection that it would be unconstitutional to adopt a different method for ascertaining the value of certain property from that adopted for other property is untenable. It has been always held perfectly legal and constitutional to deal with different classes of property by different methods, suggested by the difference in the character of the property. The following decisions show that the proposed measure is in this respect perfectly legal:

107 Ga. Reports, 357
115 U. S. Supreme Court Reports, 337

Respectfully submitted,

H. H. PERRY,
CLAIBORNE SNEAD.

So that said paragraph, when amended, shall read as follows:

"Paragraph VIII. In case of the death, resignation or disability of the Governor, the President of the Senate shall exercise the executive powers of the government until such disability be removed or a successor is elected and qualified. And in case of the death, resignation or disability of the President of the Senate, the Speaker of the House of Representatives shall exercise the executive powers of the government until the removal of the disability or the election
and qualification of a Governor. If death, resignation or disability of the Governor should occur after the election of a new Legislature, and prior to the organization of the same the President of the last Senate and the Speaker of the last House of Representatives shall nevertheless continue to hold their offices as such President of the Senate and Speaker of the House of Representatives until the assembly and organization of the new Legislature, only in the respect that they shall, in the order named, exercise the executive powers of the government until such disability be removed or until the election and qualification of a Governor."

And that the Senate accept said amendment to said substitute.

A resolution to pay the pension of Irwin Humphreys for the years 1901, 1902 and 1903.

The House has adopted the following joint resolution in which the concurrence of the Senate is asked, to wit:

A resolution authorizing the correction of certain errors in Act No. 494, incorporating the town of Westminster.

The House has tendered the use of the Hall of Representatives next Tuesday evening at eight o'clock to General Fitzhugh Lee and Hon. John Goode, who will address the General Assembly on the Jamestown Exposition of 1907. The members of the Senate and of the House, their friends, and the public generally are invited to be present.

To the Senate and House of Representatives:

The undersigned, the committee appointed under a joint resolution of the Senate and House, known as House resolution No. 460, beg leave to submit the following report:

First—Your Committee, through the investigations they have been able to make, report the number of convicts in the State of Georgia under the age of sixteen to be approximately one hundred and twenty-five (125). Of this number about one-third are white and the balance are negroes. There are no white females, and the number of colored females will not exceed ten or twelve. Twenty-five
of the juvenile convicts are felonies, and are located on the prison farm, the balance being misdemeanors are confined in the various local chain-gangs of the State.

Second—Your Committee is of the opinion that the sum of Eighteen Thousand ($18,000) Dollars will be a sufficient and proper amount with which to purchase a necessary site for a reformatory adequate to accommodate the class of convicts proposed, and to construct the necessary buildings and equip the same.

The sum of Ten Thousand ($10,000) Dollars will maintain and operate such a reformatory for the first year, and your Committee is of the opinion that after such an institution is maintained for a short time by the State it will be self-sustaining, and the State will not be called on for a dollar appropriation for maintenance.

Third—Your Committee believes it is practicable for the State to at this time establish a reformatory, or rather a juvenile prison farm with many of the reformatory features, and that the same should be done. There appears to your Committee no valid reason why these infant criminals should be confined with those hardened in crime, and simple justice and humanity would seem to require that they should be kept separate.

Fourth—Your Committee, in accordance with the instructions contained in said resolution, drafted a bill looking to the creation of a State Reformatory for juvenile criminals of the age of sixteen years and under, and early in the present session introduced the same in the House, where the bill is now pending and known as House bill No. 1056. While the measure proposed may not be perfect your Committee hopes that its main features will be
approved by the General Assembly and finally enacted into a law.

Respectfully submitted.

T. S. FELDER,
WALTER E. STEED,
C. E. DUNBAR,
Committee on part of House.
GORDON LEE,
E. H. McMICHAEL,
Committee on part of Senate.

Report was adopted.
To the Honorable Standing Committee of the Senate on the Western and Atlantic Railway:

Your special sub-committee appointed to investigate the condition of the Western & Atlantic Railway and the property of the State therein and thereto appertaining, respectfully submits the following report:

Your committee left Atlanta on Saturday morning, August the 6th, with schedule arranged so that the committee was enabled to give thorough inspection to all the property, the road-bed, track, right-of-way, the depots, and such of the bridges of the road as the committee desired.

We beg to report that we found the road in its entirety in first-class condition, and that, so far as the committee could determine, the lessees are complying with the terms of the lease in every particular. All of the depots seem to be kept up in good shape, and are in every particular in thorough keeping with the importance of the road and terms of the lease.

We note that, instead of the sixty-eight-pound rail with which the road-bed is laid, there is being rapidly substituted theretofor eighty-pound rails, already fifteen miles have been laid, and the rest will be completed as soon as possible. The road, with the exception of ten miles cinder ballast, the entire road-bed is being covered with limerock rock ballast from eight to twelve inches in thickness.

Respectfully submitted,

WALTER G. PARK,
Chairman ex officio.
