A resolution—
That the House adjourn to-day at the hour of 1 o'clock p. m., to meet daily hereafter at 9 o'clock a. m., and adjourn at 1 o'clock p. m.

The following resolution offered by Mr. Butt, of Marion, was then read and agreed to, to-wit:

A resolution—
That all restrictions as to the introduction of new matter and limit of debate, imposed prior to adjournment in December last, be and the same are hereby rescinded, and the regular rules of the House be declared in force on these subjects.

Leaves of absence were granted Messrs. Bartlett, Moore, Wilson of Camden, Terrell, and Smith of Bryan.

Mr. Speaker:

I am directed by his Excellency, the Governor, to deliver to the House of Representatives a communication in writing.

On motion of Mr. Lamar, of Pulaski, the message just received from the Governor, was taken up and published to the House, and is as follows:

STATE OF GEORGIA, EXECUTIVE DEPARTMENT.
ATLANTA, GA., JULY 8, 1885.

To the Senate and House of Representatives:

The provision made in the act of December 23, 1884, for the payment of $3,455,135 of principal of the public debt maturing in 1885 and 1886, has been carried into effect to an extent which justifies the belief that further legislation for that purpose is unnecessary. Grave difficulties attended the execution of the statute, from the fact that of this amount $18,035.00 matured January 1, 1885, $91,000 April 1, 1885, while $120,200 will mature February 1, 1886, $99,000 April 1, 1886, and $2,968,000 July 1, 1886, and $158,900 August 1, 1886. Bonds to meet these amounts respectively, might have been issued and sold, but not on satisfactory terms. It was considered advisable to issue one series only, bearing date July 1, 1885, and when sold to deliver them at such times and in such amounts as
might be needed to pay maturing bonds, the State withholding accrued interest.

For the purpose of attracting attention and securing competition in the sale, bids for the whole amount, or for any part of it, were, on March 10, 1885, invited in the following advertisement, extensively published in all portions of Georgia and in leading Northern cities:

GEORGIA BONDS—FIVE PER CENT.—THIRTY YEARS.

Executive Office,
Atlanta, Ga., March 10, 1885.

Under authority of an act, approved December 23, 1884, authorizing the Governor to issue bonds for payment of principal of bonds maturing in 1885 and 1886, sealed proposals will be received at the office of the Treasurer of Georgia up to twelve o'clock m. on April 15, 1885, for three million four hundred and fifty-five thousand dollars ($3,455,000) five per cent. (5) thirty year coupon bonds, as hereinafter set forth, bearing date July 1, 1885. Principal and interest payable in the city of New York, at the fiscal agency of Georgia; and at the office of the Treasurer of Georgia in the city of Atlanta. Interest payable semi-annually on January 1 and July 1 respectively.

Bids will be received for two hundred thousand dollars ($200,000) of the amount to be delivered on July 1, 1885. And for two hundred and twenty-five thousand dollars ($225,000) to be delivered January 1, 1886, the accrued interest being withheld by the State. And for the remainder of the amount of three million four hundred and fifty-five thousand dollars ($3,455,000), (or so much thereof as may be necessary for the purpose aforesaid), on June 1, 1886, the accrued interest withheld as aforesaid. As to last delivery, however, successful bidders will have the option of tendering any Georgia bonds maturing as aforesaid, at their par value, in payment therefor, at any time after July 1, 1885, and receiving new bonds.

Bids must specify amount of bonds desired in multiples
of one thousand dollars ($1,000) accompanied by certified check, or certificates of deposit of some solvent bank for five per cent. (5) of the amount of such bid, payable to the order of the Treasurer of Georgia, or by a deposit of bonds of the State of Georgia.

Bids will be opened and declared by the Governor and Treasurer, the State reserving the right to reject any one or all of the bids.

The State will issue registered bonds in lieu of any of the above named 5 per cent. bonds as provided in said act at any time on demand of the owner. Copies of the act of the Legislature, and information touching the proposed issue of bonds, will be furnished on application to the Treasurer.

By the Governor:

R. U. Hardeman, 

Treasurer.

Henry D. McDaniel, 

Governor.

Proposals for $200,000, deliverable for cash on July 1, 1885, would attract better bids than for $109,000. And it was advisable to prepare for sale of only the former amount, in the event satisfactory bids were not made for the later deliveries. To meet the difficulty of deliveries long before the money was needed, and at the same time to secure the advantage in price of speedy deliveries, an option was offered to persons holding bonds which mature in 1886, to tender such bonds in payment of bids on the latest delivery at any time after July 1, 1885, at par value, and to receive new bonds. In that case the State would pay the coupons on old bonds at maturity, and cut off an equal number of coupons from the new bonds, so that the principal of the old bond would count as cash in the transaction, the purchaser paying whatever premium he might bid for the new bonds. This would be an exchange of bonds on terms fixed by competitive bidding. Five per cent. bonds were proposed because the General Assembly had named that as the maximum rate, and a fair opportunity would be presented to test what rate of interest would secure the best results.
The following bids were received at the Treasury up to noon of 10th of April, 1885:

It will be seen that the bid of Moses, Taylor & Co., of New York, was the best for the whole amount on the terms advertised, that bids for the $200,000 deliverable July 1, 1885, and for part of the latest delivery, considerably higher than the former were made, and that the highest bid for the entire amount, or for any part of it, was that of Fred. Wolffe and C. W Rogers, being par for 4\% per cent.
bonds, deliverable at their option at any time after July 1, 1885. The bid of Moses, Taylor & Co., was lower in price than bids of Georgians for portions of the amount, and the latter bids were lower than that of Wolffe & Rogers for the entire issue. But the last named bid could not be accepted, because it would have been unwise, even if authorized by the provisions of the law, to place a large amount of money in the Treasury so long before it was needed, or could be used under existing law, for the payment of maturing bonds.

For these reasons I decided, after careful consideration, that the public interest required the rejection of all the bids. The law expressly provided for such rejection, and the right was reserved in the advertisement.

Attention having been sufficiently attracted to the proposed loan by the advertisement and the publication and rejection of bids, it was unnecessary to advertise for further bids. The statute provided for the sale by private negotiations on failure to obtain satisfactory bids by advertisement. Accordingly, private offers were received and entertained for four and a half per cent. bonds, for the entire issue and for portions of the amount, none of them below par. Mr. Albert Netter, of Cincinnati, proposed to buy the entire issue, 4½ per cent. bonds, at a premium of 4 of one per cent., to receive and pay for them in amounts and at times named in the previous advertisement for bids, and to give a satisfactory guaranty of performance of the contract. No offers were made for portions only of the loan at a higher rate than par, and these contemplated speedy delivery. Messrs. Wolffe & Rogers renewed their proposal to purchase the entire loan, on terms better for the State than any other person offered for the whole or a part only of the bonds. After full consultation with the Treasurer and the Attorney General, I decided to contract for the sale of all the bonds in one transaction. On May 5, 1885, a contract, prepared by the Attorney General, was made with Messrs. Wolffe & Rogers for the sale of all the bonds it was deemed necessary to issue, to-wit: $100,000 July 1, 1885; $250,000 January 1, 1886; and $3,042,000
May 1, 1886—to bear date July 1, 1885, interest 4\frac{1}{2} per cent., payable semi-annually at Treasury, or State's agency in New York—due July 1, 1915. The price to be paid is par, and a premium of five-sixteenths of one per cent. in legal tender Treasury notes of the United States, or its equivalent in good and lawful money at the Treasury of the State, or State's fiscal agency in New York, at option of the State, on delivery of the bonds.

As security for the faithful performance of every part of the contract, the purchasers have deposited in the Treasury the sum of one hundred and seventy-two thousand and fifty-six dollars and seventy-five cents in cash, on condition that the State may use the same as a temporary loan, and return it with 6 per cent interest from 27th June, 1885, upon such compliance; or, in the event of failure to comply with any part of the contract on the part of the purchasers, or their assigns, that said sum of money, and all right to interest thereon, shall be absolutely forfeited to the State, and the same shall not be repaid.

The forfeit of said sum of money will not relieve said purchasers from liability for any loss by the State arising from non-compliance with the contract, beyond the amount so forfeited.

In case the purchasers present maturing bonds, at any time after July 1, 1885, an equal amount of 4\frac{1}{2} per cent. bonds will be delivered to them, the principal of the old bond counting as cash for its par value, the purchasers paying the premium of 5-16 of one per cent. and retaining all unpaid coupons for presentation at maturity, while the State will retain and cancel an equal number of the first coupons on the new bonds. This provision is intended to facilitate speedy deliveries, not only without loss of interest to the State, but with actual saving of interest, because, to that extent, it would not be necessary to place the money paid for the new bonds in the Treasury in advance of the maturity of old bonds, so as to promptly pay them. In addition to this saving of interest, the State would redeem and cancel
maturing bonds, and deliver new bonds in the same trans-
action.

The security for this contract is in our own hands. The bonds
will not be delivered except on payment of the purchase
money. Times of delivery are arranged to give ample op-
portunity to sell the bonds to other parties so as to meet
maturing bonds, in case of failure by the purchasers to c m-
ply with their contract.

With the cash guaranty of $172,756.75 in the Treasury,
there is little danger that the purchasers will not comply
with their contract; and to have postponed the sale until
next year, upon the near approach of maturity of existing
bonds, would have involved the State in all the risks of un-
favorable changes in the money markets.

Two important ends are secured, viz.: a reasonably cer-
tain provision to pay the bonds of the State at maturity, and
the sale of new bonds at a price which should be satisfactory
to the people.

The terms of sale, in comparison with the best of the bids
submitted April 15th, and rejected as above mentioned,
viz.: that of Wolffe & Rogers, present decided advantages
to the State. In interest alone on sums of money placed in
the Treasury before maturity of bonds, there is a saving of
more than $90,000, which added to the premium, $10,600
will show the actual present cash difference to be more than
$100,000. The reduction of annual interest on the public
debt, effected by this sale, deserves attention. On the
$3,455,135 maturing bonds the State paid in 1884, $240,-
427.40 interest. An equal amount of 4½ per cent. bonds
after July 1, 1886, will bear $155,481.07 annual interest—
a reduction of $84,946.33. To this, if we add the reduction
of interest in 1884, through the payment of $750,000 of the
principal of the same series of bonds, $50,053, it will appear
that a reduction of $134,999.33 per annum has been made
in the interest charge upon the State in the period from
February 28, 1884, to July 1, 1886.

The sale of $3,392,000 of bonds at 4½ per cent., saves to
the tax-payers of Georgia annually, $84,800 in reduction
of interests below the average rate heretofore paid; and this saving, in the thirty years the bonds have to run, will aggregate the handsome amount of $2,544,000, without making any allowance for the premium received, or computation of interest on the annual saving.

On the 1st of July, instant, the purchasers of the new bonds received and paid for the first $100,000 of the issue, as provided in the contract.

The only expense attending the issue and sale of the 4½ per cent. bonds will be the cost of engraving and printing, $2,300; on account of advertising for bids, $496.80; and the necessary expenses of the Treasurer in visiting New York and Philadelphia on business connected with the transactions, $381.53. Total, $3,178.33.

It affords me pleasure to acknowledge the valuable assistance rendered by the Attorney General, Hon. Clifford Anderson, and the Treasurer, Hon. R. U. Hardeman, in the negotiation and sale of these bonds.

The Trustees of the University of Georgia, on the 21st of April last, deposited in the Treasury matured bonds of the State to the amount of $63,000, for which they were entitled to receive the State's obligation in accordance with the provisions of an act entitled "an act to make permanent the income of the University of Georgia," approved September 30, 1881. For that reason the amount of bonds sold was $3,392,000, instead of $3,455,135, as contemplated by the act. On May 15, last, a further deposit of similar bonds to the amount of $23,000 was made by the Trustees. And on 21st of June obligations of the State, in pursuance of the statute aforesaid, for $86,000 were issued and delivered to them.

The question pending before officials of the State of New York, whether or not savings banks, under the laws of that State, could invest in Georgia bonds, was made by private parties after the sale of the bonds. No official of the State of Georgia has had anything to do with the matter, directly or indirectly, nor is the State in any sense a party to that controversy.
The steady improvement in the credit of the State should cause general satisfaction. All classes of the people share in the benefits. It were better that the thrift of the people of Georgia made them lenders of money to other communities. Then they would not only supply the private demand for loans in the State, but would absorb public loans at home and abroad, and all the interest would be kept at home. But so long as our business men and corporations borrow money in other States, it is a matter of congratulation that the State can sell a large amount of 4½ per cent. bonds at a premium.

The success attending these transactions encourages the belief that bonds bearing even a lower rate of interest can be sold to pay the large amount of public debt maturing in the years 1889 and 1890. To secure this result, provision should be made by improvement in the laws for the return and valuation of property for taxation, or by an increase in the rate of taxation, to raise money enough to pay off the floating debt—to meet the expenses of the State, and to create an annual sinking fund of one hundred thousand dollars, required by the Constitution, for the gradual extinguishment of the public debt. These duties are imperative, and referring to the recommendations in this behalf, submitted in my message to the General Assembly upon its organization in November last, I invite your earnest consideration of measures best adapted to secure such result.

HENRY D. McDaniel.

MINORITY REPORT.

A minority of the Committee of Finance, to which Committee the resolutions making appropriations for the purpose of procuring oil portraits of the Rev. Jesse Mercer and Bishop Pierce, beg leave to dissent from the report of the majority of said committee recommending said appropriations, for the following reasons:

The Constitution of the State, article 7, section 1, paragraph 1, says:

"The powers of taxation over the whole State shall be exercised for the following purposes only—

1. "For the support of the State Government and public institutions."
2. "For educational purposes, in instructing children in the elementary branches of an English education only."
3. "To pay the interest of the public debt."
4. "To pay the principal of the public debt."
5. "To suppress insurrection, to repel invasion, and defend the State in time of war."
6. "To supply soldiers who lost a limb or limbs in the military service of the Confederate States, with substantial artificial limbs during life."

We fully and heartily endorse the sentiments of admiration and reverence expressed in said resolution for these great men; but as these appropriations, if made, necessarily come from the taxes of the people, we fail to see any authority, under the restrictions of the Constitution, the General Assembly have to make said appropriations.
While these gentlemen were the acknowledged head and representatives of the two denominations comprising a majority of the people of Georgia, yet there are many other denominations of religious bodies who are equally entitled to have their representative men so honored. Governments are not found for majorities only, and we think that invidious distinctions should not be made.

If we thought that the General Assembly had the constitutional power to make said appropriations, we doubt the propriety of doing so in any instance. Georgia has had, and has at this time, great and good men, who in peace and in war illustrated her in every calling and profession. It would be difficult to measure their services and draw the line between these great men as to who were entitled to such distinguished recognition and who were not. And as it would be impossible to so honor all of them, we think that it would be best for the General Assembly not to enter this doubtful field.

Mr. Jenkins, chairman of the Committee on Privileges and Elections, submitted the following report:

Mr. Speaker:

The Committee on Privileges and Elections have had under consideration the contested election of David R. Procter against Anthony Wilson, from the county of Camden, and submit the following report, to-wit:

It appears that at an election held in the county of Camden for Representative in the General Assembly, on the first day of October last, David R. Procter, the contestant, received 389 votes, and Anthony Wilson, the contestee, received 500 votes, being a majority of 111 votes in favor of the latter.

It was insisted by the contestant that the votes polled at Tarborough precinct, in said county, where he received 58 votes and the contestee received 147 votes, should not be counted.

First, because one of the managers, it was alleged, was not a freeholder, as is required by law; and secondly, because another of the managers was not properly sworn.

Your committee is satisfied from the evidence that neither ground of objection is good. The evidence shows conclusively that the first manager had a deed conveying to him a fee simple estate in land, and that his grantor, prior to its delivery, considered and treated the property conveyed as his own. It was only claimed by the contestant that the
evidence did not affirmatively show that the property conveyed by the deed was put into possession of the manager. In the case of the other manager, it appears from the evidence that the three (3) managers placed their hands upon the book at the same time, and one of them whose oath is questioned, read the oath aloud to all, which was thus taken.

Your committee are of opinion that whether the oath was regularly administered or not, a mere informality, under section 1334 of the Code, cannot vitiate the election. It was further insisted by the contestant that the contestee received 137 illegal votes, because of the non-payment of the taxes by the voters. In support of this claim no evidence whatever was offered, except transcripts from the records of the Ordinary allowing the insolvent lists in favor of the Tax Collector of that county in his yearly settlement of tax accounts. It seems that no lists of defaulters were furnished the election managers, and the contestant offered in evidence no tax liens against any of the alleged illegal voters. The evidence submitted, your committee thinks, insufficient to overcome the presumption in favor of the loyalty of the votes polled. Your committee are of opinion, therefore, that the sitting member should retain his seat, and to that end submit the following resolution, and recommend its adoption:

Resolved, That at an election for Representative, held on the first day of October, 1884, in the county of Camden, Anthony Allison received a majority of the votes cast, and that he retain his seat in the General Assembly.

Respectfully submitted.

MINORITY REPORT.

The undersigned, for a minority of the Finance Committee, to which was referred—

A bill to appropriate money to the Board of Trustees of the State University for the use of the branch colleges, and for other purposes, beg leave to dissent from the report of the majority of said committee on the following grounds:

1. The majority of the committee base the authority of the General Assembly to make said donation on a part of article 8, section 6, paragraph 1, of the Constitution of the State, which, so far as it relates to the University of Georgia, and the bill under consideration, is as follows: "The General Assembly may, from time to time, make such donations thereto (i. e., the University) as the condition of the
Treasury will authorize.” This clause of the Constitution gives to the General Assembly authority to grant donations to the University “Conomenie,” and it is, to say the least of it, doubtful whether by the most liberal construction it could be made to apply to institutions established in different parts of the State, remote from the University, under the control of local Boards of Trustees, and evidently connected with the University solely for the purpose of bringing them under the appropriating power of this clause of the Constitution. But, pretermitting any argument on this question, which we think cannot be denied, we submit:

2. That if the connection of these so-called branch colleges with the University were real and bona fide, instead of for the purpose above named, the power of the General Assembly given by this clause of the Constitution can be exercised only “when the condition of the State Treasury will authorize it.” Does the condition of the Treasury at the present time authorize this donation?

This is a question which we, as representatives of the people of the State, and not as representatives of a class, or of any particular locality, are called on to decide. It will be remembered that by the report of the State Treasurer which was before us at the last session, we were confronted with a deficit in the finances of the State amounting to about $242,000. The expenses and appropriations of the fall session increased this deficit very materially, and to include the necessary expenses of the present session, it is estimated, and we think correctly, that at the end of the present fiscal year this deficiency will reach very nearly the sum of $400,000.

In addition to this, the House of Representatives has already voted, had recommended to it favorably by the Finance Committee, and introduced in the House with a favorable prospect of passing the same, appropriations as meritorious as the one under consideration and of equal constitutionality, as follows:

1. School of Technology . . . . $65,000
2. School of Technology for Colored Students . . 45,000
3. University at Athens . . . . 5,000
4. New Judicial Circuit . . . . 2,250
5. Geological Survey . . . . 10,000
6. Experimental Stations . . . . 5,000
7. Marietta Cemetery . . . . 3,500
8. Agricultural Society (back claims) . 20,000
9. Lunatic Asylum 15,000
10. Provisions for Principal, Physician and family and board for two horses (estimated) . . . 1,500
11. Additional amount required for reducing the time of appropriations to Confederate soldiers from three to two years (estimated) . . 20,000
12. Marietta and North Georgia Railroad, on bonds 66,000
13. Wilkinson county, small-pox 3,300

Making the sum of 261,050
Which, added to the estimated deficiency, will aggregate 661,050

To this may be added a number of smaller appropriations (including the return of taxes on liquor dealers) which in the aggregate amounts to a large sum.

To this must be added prospectively the extra appropriations asked for annually, which are—

1. To the University, annually . $ 2,000
2. To State Agricultural Society 2,500
3. To building State Capitol . 200,000
4. To volunteer militia . 20,500
5. Mr. Russell's educational bill 63,000
6. Sinking fund required by constitution 100,000

Making an annual amount of 387,000

over and above the annual appropriations necessary to carry on the government. To meet these heavy requirements we are compelled to rely on increased taxation of the people, and in their present depressed financial condition we respectfully submit to their representatives whether it is wise or prudent to further increase their burdens by making this donation.
3. If the condition of the Treasury was such as to create no extra burden on the people, we respectfully submit that the donation provided for in said bill is an unjust and inequitable discrimination between localities and classes of our people, and a grievous wrong to an overwhelming majority of them. These colleges are—whatever name may be given them—only local schools, the benefits of which are confined to those who reside in the immediate vicinity of the places where they are located, or to those in other parts of the State who, by reason of their financial ability, can pay their board and attend them. If it were proposed to establish with the general fund a school for a particular locality only, or one for a particular class only, we think that no one with a sense of justice and a proper appreciation of the spirit of our government could be found to favor it. If it were proposed to donate an amount to only one locality, we know that a majority of the committee would not favor it, for this was demonstrated on the bill to donate to the Dahlonega College an amount asked for by it, by the recommendation of the Finance Committee, reported to the House a few days since, that "the bill do not pass." Yet, when both of the above named conditions meet in different localities, and are plastered over with eloquent appeals in favor of an undefined and undefinable public good, it enlists the combined efforts of the friends of each locality which seeks to share in its benefits, and secures a recommendation.

4. The report of the State School Commissioner shows over 507,000 children in the State of school age. The fund for their education in the elementary branches of an English education only averages 90 cents per capita annually. They and their parents pay the taxes that aggregate the public fund, and it is proposed by this bill to take from that public fund a large amount and devote it to what is denominated "higher education," which can only be enjoyed by a few of the classes above mentioned. This is not only levying a forced contribution upon the class entitled to only an English education, for the education in the "higher
branches" of the few who reside in the favored localities, and those who are financially able to educate themselves, but lessening the chances of this class in obtaining a common education.

We reprobate a system that works such injustice, and confidently assert that age, precedent nor custom can cover its iniquitous partiality. Even the eloquent argument that it makes great statesmen and illustrious public men loses its power in view of the fact that the preparation and equipment of these great men are in the last analysis the sacrifices and privations of that large majority of the children of the State, many of whom might have been with equal facilities at least their equals.

We cannot reconcile to our sense of justice this unjust discrimination, and therefore recommend that this bill do not pass.

MINORITY REPORT.

Mr. Speaker:

The undersigned, members of the General Judiciary Committee, to whom was referred Senate bill No. 15, which is a bill to be entitled an act to provide for the licensing of all foreign companies, corporations and associations operating and doing business in this State; to annex conditions for retaining such license; to fix penalties for doing business without such license, and for other purposes, and which has been reported to the House by said committee with the recommendation that it do pass, respectfully submit to the House that this bill should not pass.

In our judgment it is unwise, unjust and contrary to public policy, and the general interest of the people of the State. It seeks to take away from the persons sought to be affected by it, rights to which they are entitled by virtue of the Constitution and laws of the United States. To say the least of it the bill is of doubtful constitutionality. We believe that the Supreme Court of the United States, if opportunity is afforded it, will declare it unconstitutional. We therefore dissent from the report of the majority of said committee, and recommend that this bill do not pass.

Respectfully submitted.

Also, a bill for the relief of Emsley Stegall; to appropriate money, and for other purposes.

N. E. HARRIS, Chairman.
Mr. Harrell, of Webster, submitted the following minority report:

The undersigned, a minority of the Finance Committee, to which was referred a resolution to appropriate five hundred dollars to purchase a picture of ex-Governor Milledge, beg leave to dissent from the report of the committee, on the following grounds:

1. The powers of the General Assembly to levy a tax on the people is limited by the Constitution to the following purposes:
   - First. For the support of the State government and the public institutions.
   - Second. For educational purposes in instructing children in the elementary branches of an English education only.
   - Third. To pay the interest on the public debt.
   - Fourth. To pay the principal on the public debt.
   - Fifth. To suppress insurrection, to repel invasion, and defend the State in time of war.
   - Sixth. To furnish the soldiers who lost a limb or limbs in the military service of the Confederate States with substantial artificial limbs during life.

This limitation is specific, express and absolute. And we fail to find in the powers, so carefully guarded, any authority for the General Assembly to make the appropriation asked for. A strict regard for the limitations of the organic law, by their representatives, in a republican form of government, is the only safe-guard of the people, and if we tear loose from these limitations, we have no guide but the personal wishes, prejudices and sentiments of the representatives. These may or may not be for the general welfare, and the people are remitted to a form of government dependent upon the whims and taste of each succeeding General Assembly instead of the one formed by themselves and based on solid, substantial principles. That this appropriation is small, does not change the principle. If it is right
in one instance, it would be just as right in a thousand, and the revenues of the State would be at the mercy of a sentiment. The faithful private who cheerfully gives to his country all he has—his life—is as much entitled to this marked distinction as his more favored leader, or those who distinguish themselves in civil life.

2. The purchase of a picture of one of Georgia's distinguished sons, or of a dozen of such, is an invidious distinction between those who have deserved well of the Republic. In a history of only one century, our State has developed hundreds (may we not say thousands) of citizens who, in peace and in war, have illustrated her greatness. To choose certain ones to invest with this unusual honor, would, in our opinion, be an unjust discrimination against all the others.

To make this appropriation to the distinguished man named (and to whom we accord all honor for his patriotism and estimable qualities, both of heart and head) as an ex-Governor, we should have to overlook more than fifty ex-Governors, who in their day and generation illustrated the State.

To make it in honor of his bequest of four thousand dollars worth of land to the State University, we should have to pass over a Gilmer and a Terrell who made donations to that institution of equal if not larger amounts.

3. We believe the whole principle upon which such appropriations are sought is wrong. And that the taxes imposed on the people should be used only for the purposes specified in the Constitution, and we therefore recommend that said resolution do not pass.

The undersigned members of the Special Judiciary Committee dissent from the report of the majority of said committee on bill No. 752, to be entitled an act to repeal an act, entitled an act to prohibit the sale of alcoholic spirits, etc., in Pike county, etc., on the following grounds, to-wit:

1. The majority of the committee base their refusal to recommend the passage of the bill on the ground of an alleged variance between the title of the bill and the advertisement. We do not think the point made is a good one. The title proposes to repeal the act now in force in said county. The bill follows the title, but further provides that the repeal shall not go into operation till the same is submitted to a vote of the people. If it is contended that the title of the bill should set out the fact that an election must first be held before the act goes into effect, we think this could be so amended without doing violence to any statutory or constitutional provision whatever. (There is a precedent for this at the present session of the Legislature. The title to the bill of the gentleman from Effingham, prohibiting hunting and fishing in that county, was amended to make the same conform to the provisions of the bill, notwithstanding it had not been so advertised, and the House adopted the amendment, after having its attention called to the same, and the bill was so passed.) It would be carrying this doctrine to a great length to hold that the title of a local bill, as advertised, must necessarily and in so many words be the title of the bill as passed, and that no amendments could be added thereto. Consolidated bills could never be passed under such a ruling. We think, therefore, that the bill ought not to be killed in committee on such a ground, especially as the introducer was present and anxious to amend the same. The object of the advertisement is simply to put the people of the county on notice of the intention to introduce the bill. In this case the facts show that full notice has been had, for several committees against the bill have been heard.
2. The bill is a local bill. It was proposed by the introducer to so amend it as to provide that the election should not take place till two years after the date of the election, which has already been held.

We think this policy was settled by the local option bill passed at the present session of the General Assembly, and it is not asking too much, in our opinion, to allow to this county the privilege which will be secured to all other counties acting under the general law of the State.

Respectfully submitted.

The House proceeded to the regular order of business, the same being the reading of House measures the third time, and putting them on their passage.

Resolution of the House, No. 133, providing for the redemption of bonds of the State therein described, and for other purposes, was read the third time.

Pending further action on the bill Mr. Arnheim submitted the minority report, which was read, to-wit:

Mr. Speaker:

The undersigned members of the Committee on Finance beg to submit the following minority report concerning resolution of the House, No. 133, providing for the redemption and payment of certain bonds of the State.

The legislation proposed by this resolution is based upon conjecture, yet it appropriates to the holders of the bonds, known as the Atlantic and Gulf Railroad bonds $8,370, the interest on $279,000, yet outstanding, for six months, to be donated to them.

This resolution may prove still more costly, for the bonds now legalized by this act may, entirely or in part, prove not to be the legal authorized issue of the State. The resolution itself sets forth error and mistake on their face; therefore a presumption that bonds, in strict conformity with law, are in existence seems not unreasonable. The legal bonds had attached to them, as apparent by the last and fortieth coupon, forty semi-annual coupons; thus interest for twenty years had been provided for, and the capitalists who purchased can certainly never expect this or any succeeding
Legislature to grant to them additional interest as now proposed, by issuing to them the new bonds of the State, six months in advance with the interest coupon attached thereto.

We dissent from the majority and recommend that this resolution do not pass.

Respectfully submitted.

LOUIS ARNHEIM,
A. S. CLAY.

The report of the committee was agreed to.

EXECUTIVE DEPARTMENT,
Atlanta, Ga., Sept. 30, 1885.

To the General Assembly:

I respectfully submit the information sought in the resolution of the Senate and House of Representatives relative to escapes of convicts from the Penitentiary and the liability of the Lessees for the same.

Penitentiary Company No. 1 had five escapes from the beginning of the term of Governor Stephens, on November 4, 1882, to July 1, 1885. The sum of $200 for each of said escapes, making a total of $1,000, has been paid into the Treasury by said Company.

There have been, in the period aforesaid, thirty-six (36) escapes from Penitentiary Company No. 2. On examination, as provided by law, the excuses and explanations rendered were adjudged satisfactory as to eighteen (18) of this number, and unsatisfactory as to the other eighteen (18).
Of the number not excused the Company has paid into the Treasury the penalty for nine (9), to-wit, the sum of $1,800. Suit has been ordered, and will be commenced, on the bond of this Company, to recover the penalty for the remaining nine.

Penitentiary Company No. 3 had, in the period aforesaid, twenty-one (21) escapes. The excuses for fourteen (14) of these were adjudged satisfactory, and unsatisfactory as the remaining seven (7). The penalty has been paid into the Treasury for all of the latter, to-wit: $1,400.

The Marietta and North Georgia Railroad Company had, during that portion of said period, in which convicts remained in its charge, ten (10) escapes. The excuses submitted for eight (8) were considered satisfactory, and for two (2) unsatisfactory, for which the Company has paid into the Treasury the sum of four hundred ($400) dollars.

The decisions aforesaid were made, after full consultation, with the Attorney-General.

HENRY D. McDaniel.

MINORITY REPORT.

We, the undersigned members of the Committee on Rail­
roads, to which was referred Senate bill, No. 14, proposing
amendments to the Railroad Commission law, being firmly
convinced that the bill should not pass, beg leave to submit
the following report:

We consider the bill unconstitutidnal, impracticable in
its provisions, expensive in its operations, and dangerous to
the rights guaranteed the people in the fundamental law of
this State.

The bill, in substance, takes from the Commission the
power to make just and reasonable rates, and gives it to
the railroads; any person, town, city or corporation affected
by the rates, may make complaint, in writing, to the Com-
missioners, distinctly setting forth the objections to the rates
claimed to be unjust and unreasonable, and stating the rate
claimed to be just and reasonable; if the Commissioners,
upon a hearing of the case made by the pleadings, shall
adjudge the rate unjust and unreasonable, they shall fix a
just rate; from this decision an appeal may be had to a
jury, and from its verdict to the Supreme Court; pending
the appeal, the rate of the Commissioners shall prevail; the
final judgment shall be a precedent to the courts, and no
more appeals shall be allowed in similar cases.

In our opinion, the bill violates the Constitution and its
spirit, which it is made our highest and supreme obligation
to obey: First, because in the creation of an appeal it con­
ers upon the courts the power to fix the rates, and thus
transfers from the Legislative to the Judicial Department
of the government a power, the possession and exercise of
which is, in unmistakable language, conferred upon the
General Assembly. Secondly, because it gives to the rail-
roads the power to make their own rates, and supercedes
the authority of the General Assembly, now lodged in the
Commission, as its agent, to interfere therewith, except
upon complaint.

The second section of article 4th of the Constitution,
declares: "The power and authority of regulating railroad freights and passenger tariffs, preventing unjust discriminations, and requiring reasonable and just rates of freight and passenger tariffs, are hereby conferred upon the General Assembly, whose duty it shall be to pass laws from time to time to regulate freight and passenger tariffs; to prohibit unjust discriminations on the various railroads in this State, and to prohibit said roads from charging other than just and reasonable rates, and to enforce the same by adequate penalties." The power to declare what is just and reasonable, is conferred on the General Assembly. It is beyond the power of words to delegate it more clearly. It defies criticism.

This provision of the bill is also sternly confronted by paragraph 23, section 1, article 1st., of the same instrument, which declares: "The Legislative, Judicial and Executive powers shall forever remain separate and distinct, and no person discharging the duties of one, shall, at the same time, exercise the functions of either of the others, except as herein provided.

This bill proposes to confer a power, a duty, declared by the Constitution to the legislative upon the Judicial Department of the State.

To this argument we beg leave to add the weight of authority. In the Tilley case, where this Railroad Commission law was tested to the uttermost, Justice Woods construed these two sections together, and in reference to section 2, article 4, uses the following language: "How a delegation of power to declare what is just and reasonable could be more plain and explicit it is difficult to see. It is not conferred on the courts; the railroad companies have no part or lot in the decision of the question, but the Constitution declares, 'It is hereby conferred on the General Assembly.'" That court and our own Supreme Court, in cases made to test this very law, have sustained the constitutionality and wisdom of the act of October 14, 1879, creating the Commission and delegating to it this power.
Therefore, to authorize the courts to declare what is just and reasonable is to do what is expressly forbidden by the Constitution.

The same argument and authority sustain the second objection. To give to the railroads this power is to take it from the General Assembly, where it was absolutely and irrevocably lodged. To give it to the railroads is to place it in the very hands where the makers of the Constitution found it, from which they designed to take it, to which they never designed to return it. To prohibit, as this bill does, any interference by the General Assembly, or its agents, with the rates, except upon complaint, is to erect a barrier between the rates and the exercise of the power conferred upon the General Assembly. To do this is to defeat the letter and the spirit of the Constitution, whose purpose it was to confer on the General Assembly, for the protection of the people, this power over the rates, absolutely, unconditionally, independent of any complaint, petition or appeal.

Believing this to be the proper construction of the Constitution, under our solemn obligation to obey it, we feel compelled to protest against the passage of this bill.

The object of the Constitution was to protect the people from loss and oppression by conferring on the General Assembly a constant, continuous, "from time to time" supervision and control of the rates. The act of October 14, 1879, passed in pursuance of the Constitution, accomplishes this purpose.

This bill proposes to protect the people from unjust rates by allowing an appeal to the Commission, and thence to the courts. One of two results must attend the practical operation of the law. The large class of the consumers, on whom the burden always falls, will either make complaint, or submit to the increase of rates. The smallness of the amount extorted from each individual will not authorize the employment of counsel or the loss of time incident to litigation. But if the people, in the energy of despair, should resolve to test the justness and reasonable-
ness of the rates fixed by the roads, it is fair to presume from the dissatisfaction manifested by the roads with the rates fixed by the Commissioners, that there will be appeals from their decisions. It is legitimate to ask who will represent the citizen before the courts? Who will present the proof to rebut the evidence peculiarly in the possession of the railroads touching the rates? Who will make out for the citizen his case, necessarily complicated, the determination of a single rate involving a consideration of all the various elements entering into the operation of a railroad? Competent and skilled counsel must be employed to insure an intelligent presentation of his case, the expense of which will often exceed greatly the amount involved, and must frequently work a denial of justice. In addition to this expense of the individual, incurred in the assertion of his right, any and all court expenses incident to an adjudication of these appeals must be borne by the county treasury, to which the railroads contribute nothing by taxation.

But it, on the other hand, the people submit, they will practically occupy the same position they did before the creation of the Commission—the rates fixed by the roads, the amount extorted too small to authorize litigation, but the aggregate thus levied upon the people amounting to immense sums.

In our opinion the cumbersome machinery of the bill will aid the railroads in the collection of the rates fixed by them, however unjust and unreasonable. So that either of the two results—the expense incurred in the assertion of his rights in the first instance, or the submission and payment of the rate in the last instance—will defeat the object of the law, which was to protect the people against loss from unjust and unreasonable rates.

We call special attention to the following provision: "Provided, that when an application has been made to the courts, and the case has been decided by the Supreme Court, then the decision in such case shall be regarded as a precedent by the courts of this State, and no appeal shall be allowed on similar cases to the courts." If by error of judgment,
collusion, or otherwise, the rate is fixed so as to oppress the people, the citizen is prohibited by the terms of the bill from ever setting aside this judgment, but the same inures to the perpetual benefit of the railroads. It is a precedent to the courts and estops the citizen. But if the rate adjudged by the court does not meet the approval of the railroads under the terms of the bill, authorizing the "railroad companies from time to time, and as often as circumstances may require," to "change and revise said schedules," they have it in their power, being made the judges of the sufficiency of the circumstances, to nullify the results obtained by the citizen after protracted and costly litigation, and evade the judgment of the court by a simple change of the schedules, which is the exercise of a discretion conferred upon them by the bill.

Against this glaring and dangerous privilege in favor of the railroads and against the citizen, we enter our solemn and earnest protest.

For these and other reasons, after a careful consideration of the whole matter, we deem the proposed legislation unwise, dangerous, unconstitutional.

Respectfully submitted.

The Journal of yesterday was read and approved.

Mr Harrell, of Webster, moved to reconsider so much of the action of the House on yesterday, as relates to the concurrence of the House in Senate amendments to House resolution, No. 115, the same being a resolution providing for the adjustment of certain claims of the Marietta and North Georgia Railroad Company against the State.

Mr. Harrell, of Webster, offered the following protest, which was published before the House, to-wit:

HOUSE OF REPRESENTATIVES,
September 6, 1885.

The undersigned, member of the House of Representatives, protests against the action of the House on yesterday in adopting the Senate amendment to House resolution, No. 115, entitled:

"A resolution to provide for an adjustment of the claims, equitable and otherwise, of the Marietta and North Georgia
Railroad Company against the State, and for other purposes."

The amendment, so adopted, is in the following words:

"Within twenty months from the first day of January, 1886, and build on an average of not less than one and a half miles per month thereafter. Then the State agrees to fully release the said railroad company from the payment of the bonds of said railroad company, and accrued interest of the same, now held by the State, in the following manner, viz:

"For each and every one and one-half miles so completed, if completed within the above specified time, the Governor is hereby authorized to credit upon the said bonds now held by the State $2,000, and whenever said road is completed to the North Carolina line, it completed within the time specified, then the Governor is hereby authorized and ordered to surrender to said railroad company all of the bonds of said railroad company now held by the State, discharging the mortgage held by the State, taking for said railroad company a full and complete release from all claims of said railroad company against the State, both equitable and otherwise, on account of the loss of convicts."

The virtual effect of this amendment to the resolution is to appropriate the sum of $88,256.28 to the Marietta and North Georgia Railroad Company in consideration of its building and finishing a certain part of said railroad within a certain time, and makes said resolution a clear and palpable violation of the part of article 7, section 5, paragraph 1, of the Constitution of the State, which says: "The credit of the State shall not be pledged or loaned to any individual company, corporation or association."

Another clause of said amendment states that said appropriation is made in consideration of the "release by said railroad of all its claims equitable, or otherwise, against the State, on account of its loss of convicts."

This makes said resolution fully and unquestionably and as clear a violation of article 7, section 16, paragraph 1, which says:
"The General Assembly shall not by vote, resolution or order, grant any donation or gratuity in favor of any person, corporation or association."

The appropriation granted in said resolution must be for one or the other objects expressed in said resolution.

If it was for the first consideration expressed therein, the question of its violation of the section of the Constitution first above quoted is too plain for argument. The wayfaring, though a fool, may "read as he runs."

If said appropriation is granted on the second consideration therein expressed, it falls as surely, plainly and openly under the restrictions of the last clause of the Constitution above quoted.

Because a full, fair and thorough investigation of the law and the facts connected with said claim will show that it is a mere pretext, and that no claims, either equitable or otherwise, in favor of said railroad against the State can be established, and in proof thereof we respectfully submit the law as it is embodied in the statutes of the State and the facts as judicially passed upon by our highest tribunal, the Supreme Court.

1. By the first section of the act of February 23, 1878, page 41, there was granted to said railroad company the use of two hundred and fifty convicts for the term of three years, without charge. This grant was previous to the adoption of the Constitution of 1877, and was therefore valid, and its validity was recognized by the ordinance of the convention which formed the Constitution. Journal of Convention, 1877, page 526.

2. A resolution was passed by the General Assembly, October 21, 1879, page 439, by which the Principal Keeper of the Penitentiary was instructed to furnish said company with 250 convicts, as provided for in the act of 1876.

3. Another resolution was passed by the General Assembly, September 6, 1883, page 687, by which the Governor was directed to turn over to said company 250 convicts to be worked for three years, or until the road was completed. This resolution was a new grant by the State, and so declared
by the Supreme Court. 71 Ga., page 352, 20 lines from top.

The only effect of the ordinance of 1877 by the Constitutional Convention was to confirm the original grant of two hundred and fifty convicts to said company for three years. Indeed, the resolution of 1883 was expressly pronounced a new grant by the Supreme Court, (71 Ga. Reps., page 352, 20th line from bottom), and thus came under the restrictions of the constitution. The passage of the resolutions of 1879 and 1883 could only be in confirmation of said grant, for the General Assembly being bound by the organic law, as above quoted, could not enlarge this grant beyond its original terms, that is, the use of two hundred and fifty convicts for the term of three years. This being true, beyond any doubt as to the law of the case, it only remains to consider whether said railroad company has had the full benefit of the grant of the use of two hundred and fifty convicts for the term of three years. If it did then no claims, equitable or otherwise, could arise in its favor. If it did not, then a claim would arise to the extent of their failure to receive said convicts, and no more. That they did so receive the full grant to them by the act of 1876, confirmed by the ordinance of the Convention of 1877, is as plainly proven as the law of the case. In the statement made in the decision of the Supreme Court upon the sworn testimony in the case of Penitentiary Companies Nos. 2 and 3 vs. Nelms, Principal Keeper, in which case the Marsetta and North Georgia Railroad appeared by their own counsel, and were, therefore, bound as parties to said litigation, appears the following statement, 71 Ga. Reps., page 305, 4th line from top:

"From time to time convicts were delivered to that company, and on December 17, 1880, it had had convicts under said 250 clause equal to 250 for three years." This was a full compliance of the obligation of the State by the act of February 25, 1876, and which could not be enlarged by any act, or resolution, passed by the General Assembly after the adoption of the constitution of 1877, and the resolutions of 1879 and 1883 were both adopted after that.

We submit that the facts are as conclusive, under the
sanction of the Supreme Court, as the law is plain and unmistakable in the statutes of the State, and that the adoption of the amendment of the Senate by which over $88,256.28 of the money justly due to the State by that company, and which is to be replaced by taxes upon the people, is an open, clear, and palpable violation of the Constitution which we, as Representatives, are sworn to support, whether it be considered as aid to said railroad to secure the building of the same, or as donation to the said company. And in the name of the people of the State, whose interests are affected by this unauthorized legislation, I enter my solemn protest.

I have not thought it proper to criticise the manner of the passage of the bill, although it might justly be made the subject of criticism. Here was a resolution making an appropriation of the people's money of $88,256.28, called up in the House, and within ten minutes from the close of its reading, under a call for the previous question, thus cutting off all debate without investigation, and with a refusal to record the yeas and nays, passed with unseemly haste, depleting the treasury of the State to the amount of $88,256.28.

It may have been that the method so taken was in full accord with the object to be attained, and the unqualified wrong of the one overshadowed the indecorum of the other.

D. B. HARRELL.

Mr. Tate moved to lay the motion to reconsider on the table.

On this motion, Mr. Harrell, of Webster, called for the yeas and nays, which call was sustained, the roll was called, and the vote is as follows:

Those voting in the affirmative are Messrs.—

Abbott, Harris, Peeples,
Avary, Harrison, Pringle,
Bartlett, Heard, Raybon,
Beach, Hightower, Reilly,
Bond, Humphries, Russell of Clarke,
Boyd, Jenkins, Russell of Harris,
Brantly, Johnson of Floyd, Scott,

Those voting in the negative are Messrs.—

Those not voting are Messrs.—

Alexander, Baker, Barksdale, Beck, Berner, Brandt, Fite, Hackett, Harrell of Decatur, Harrell of Lowndes, Hartridge, Heath, Moon, Niblack, Patterson, Perry, Ray, Reagan,
Brown, Herndon, Robbe.
Butt of Marion, Hollingsworth, Shurley.

Chaney, Jones of Troup, Stewart.
Chandler, Lewis of Greene, Tarver.
Davenport, Lovett, Terrell.
Eason, McWhorter, Mr. Speaker.
Everett, Mason.

Yeas 77. Nays 54. Not voting 44.

So the motion to table the motion to reconsider prevailed.

So the motion to table the motion to reconsider prevailed.

Mr. Harrison, chairman, etc., submitted the following report:

Mr. Speaker:

The undersigned were appointed a committee under a
resolution of the House, of which the following is a copy:

WHEREAS, An editorial in the Macon Telegraph of October 12, 1885, charges that a clerk of the House falsified the records of the House by according the vote of a member, after the vote had been finished and declared, and whereas, it is incumbent on this House to protect itself by seeing to it that its records in all instances speak the truth, and that its officers and employes be such as it can rely on with confidence, and none others, therefore, be it—

Resolved, That a committee of five be appointed to investigate these charges fully, and report its findings to this House, with such recommendations as they may deem proper in the premises, or may deem necessary for the welfare of the House.

In the execution of their duty and to ascertain the whole truth touching the matters therein, examined the following witnesses: W. A. Little, G. W. Gustin, W. W. Gordon, W. B. Butt, J. M. Terrell, Thomas Eason, H. L. Patterson, F. C. Tate, L. M. Lamar, J. D. Harrell, W. G. Brantley, A. L. Adderton, M. V. Calvin, B. F. Abbott, E. W. Watkins, J. A. Stewart, W. W. Turner, (a Clerk of the House), E. P. Speer, C. P. Hansell, W. G. Whidby, Robert Hayden,

After a careful and earnest consideration of the evidence, and of the rules and customs governing the conduct of the business of the House, the committee submit as the result of its investigation—

1st. C. P. Hansell, the Assistant Clerk, and on the occasion in question the acting official, did not falsify the records of the House by recording a vote of a member after the vote was finished and declared. The evidence discloses nothing to impair the confidence of the House in his official integrity and faithfulness, on the contrary, the testimony, and the conduct before the committee, justifies it in sustaining the high opinion entertained of him by every member of the House, and declaring him to be a most honorable and efficient officer.

2d. The proof shows that the vote of Mr. Tate, which was the vote in question, had been recorded in the negative
before the completion of the record, and before the “yeas and nays” was handed to the Speaker, and that there has been no change of the record since the announcement of the vote.

3d. The testimony touching the time when the vote of Mr. Tate was recorded is conflicting, as is natural it should be, in view of the confusion and excitement prevalent on that occasion. The committee, after weighing it all, with care and caution, is of the opinion, that the preponderance of the evidence goes to show it was cast and recorded after the verification and before the announcement of the vote by the Speaker. The proof shows it was cast without addressing the Speaker, and as a request or statement to the Clerk near whom the member was standing at the time. Upon this point the committee find that for years it has been customary for the members to have their votes recorded at any time prior to the announcement of the result by the Speaker, and that too, without addressing the Speaker, unless challenged for a breach of the rules. Especially has this custom obtained in cases like the present, when the vote did not effect the result. In the casting and recording of the vote in question, this custom was followed—not established. But the committee feel it a duty to say that there is no parliamentary law in their knowledge to sustain this custom; its breach is better than its observance; and that it is safest and wisest to prohibit the casting of a vote after roll-call, unless the member casting it, shall first address the House through the Speaker; and especially should this be so, if the member wishes to vote after a verification of the record by the Clerk.

Respectfully submitted.

W. B. Butt,
Robert Berner,
N. E. Harris,
Wm. W. Gordon,
William Hanson, Chairman.

Mr. Harrison moved to adopt the report.
Mr. Wheeler called for the previous question, which call was sustained and the main question was ordered. The report of the committee was then adopted.

Resolved, 1. That it is the opinion of the House that Charles P. Hansell, the Assistant Clerk of this House, has not falsified the record thereof.

Mr. Speaker:

The Joint Committee of the Senate and House of Representatives have, through a sub-committee, examined the offices of the Comptroller-General and State Treasury, as required by section 186 of the Code, and herewith submit the report of the sub-committee, which has been adopted and is presented as the report of the Joint Standing Committee on Finance.

John S. Davidson,
Chairman Finance Committee, Senate.

Chas. A. Robbe,
Chairman pro tem. House Finance Committee.
Report of the Sub-Committee from the Standing Committees on Finance, examining the accounts, vouchers, and books of the Comptroller General and Treasurer.

The undersigned, constituting the Sub-Committee from the Standing Committees on Finance, of the Senate and House, have, as required by section 186 of the Code, made such an examination of the accounts, vouchers and books of the Comptroller General and Treasurer as was possible with the time that they could devote to it without neglect of imperative duties upon the floors of the respective Houses, and respectfully submit, that the books of these officers are kept neat, and in accordance with correct business methods, and clearly indicate their knowledge of, and capacity for doing full justice to the great trusts confided to them.

The bond books do not fulfill the purposes for which they were intended, and we respectfully submit that the style of book now used almost universally should be adopted, and that the Treasurer be required upon the payment, and cancellation of bonds and coupons to paste them into said book in their appropriate places, where they will be of easy access for reference whenever desirable. The books of the Treasurer, on the 6th of September, 1883, the day when our predecessors examined into the affairs of that office, showed on hand at the close of that day $699,419.47, and said amount corresponded with the books in the Comptroller General's office. From that date your committee examined the accounts, vouchers, etc., in the office of both the Treasurer and Comptroller General, up to, and including the 13th day of August, 1885, and the balance on hand at the close of that day's business, as shown by the books of the Treasurer, was $420,615.82. They checked the vouchers for payments made, and verified by actual count the money balance in the Treasury, counted the coupons that had been paid, and not yet covered by Executive warrant, and verified by the entries on the books of the Treasurer, the balances due by the State depositories (an itemized statement of which is hereunto appended), and the advances made to the General Assembly, and Civil Establishment.
The balance on the Treasurer’s books was accounted for as follows:

Mr. Bartlett, from the joint special committee, appointed to investigate the use of the right-of-way of the Western and Atlantic Railroad by the Georgia Pacific Railroad, submitted the following report, to-wit:
To the Senate and House of Representatives:

Your committee was appointed under the following resolution:

"Be it resolved by the House of Representatives and the Senate of Georgia, That a committee of seven from the House and four from the Senate be appointed to investigate and report to this House by what authority the Georgia Pacific Railroad Company now use and occupies the right-of-way of the Western and Atlantic Railroad Company, the property of the State; what contract exists between said Georgia Pacific Railroad Company and the State for such use; what the State has ever received therefor, and what it now receives, and to report to this House the facts connected with the same; and what proceedings, if any, should be begun to compensate the State for the use of its property, and to this end the said committee shall have authority to send for books and papers and subpoena and compel the attendance of witnesses, to swear such witnesses and take all the testimony they may deem proper and pertinent."

After an investigation of the matters therein specified, your committee respectfully submit the following report:

The Georgia Western Railroad was chartered under an act of the Legislature in the year 1854. This charter was amended by an act of the Legislature in 1860, and section 2d of that act reads as follows: "That his Excellency, the Governor of this State, be, and he is hereby authorized to grant to the Georgia Western Railroad Company the right to construct and build their railroad on the right-of-way of the Western and Atlantic Railroad, within, and adjacent to, the city of Atlanta, or, if expedient, to any distance east of the Chattahoochee River, on the same condition as the grant to the Dalton and Gadsden Railroad Company, embraced in an act entitled an act to authorize the Governor of this State to grant certain rights and privileges to the Dalton and Gadsden Railroad Company, approved the 14th of December, 1859."

A proviso to this act: Provided, that the right-of-way granted should not extend beyond one mile from the depot
in Atlanta, and upon said road paying so much therefor as the Governor might deem right and proper for the interest of the State.

This act of 1860 was amended by inserting four miles instead of one mile by an act of the Legislature, approved December 11, 1866.

In 1872 the act of 1854 was further amended by an act which is as follows:

"That the Georgia Western Railroad Company be, and they are hereby authorized and empowered to construct their road on the right-of-way of the Western and Atlantic within and adjacent to the city of Atlanta, and to any distance east of the Chattahoochee River; Provided, that the right-of-way of the Western and Atlantic Railroad shall not be used beyond the limits now allowed by the statute, except by the written consent of the lessees of the Western and Atlantic Railroad."

By an act of the Legislature in 1877, any purchaser of the Georgia Western Railroad, under sale by virtue of any order, judgment or decree of any court in this State, was entitled to all the rights and privileges granted in the foregoing acts to the Georgia Western Railroad. In order to fully set forth the title by which the Georgia Pacific Railroad claims the right-of-way mentioned in the resolution, we recite the following petition and Executive order granted thereon:

EXECUTIVE DEPARTMENT,
ATLANTA, GA., Aug. 6, 1881.

WHEREAS, The Georgia Pacific Railroad Company has petitioned for the right-of-way over a portion of the Western and Atlantic Railroad, it is therefore

ORDERED, That, in pursuance of the authority conferred by the acts of the General Assembly, which acts are specially referred to in the petition, that the privilege is granted to the Georgia Pacific Railroad Company of building its road on the right-of-way of the Western and Atlantic Railroad for a distance not to exceed four miles
from the depot in Atlanta, but upon the following conditions:

1st. That the Georgia Pacific road shall grant the same privilege to the Western and Atlantic Railroad, if so desired.

2d. That the occupation and use of the right-of-way by the Georgia Pacific road as herein granted shall be so exercised as to interfere as little as possible with the use of the said Western and Atlantic road by the present lessees, and any change which may be necessary to be made by reason of the removal of the present track or the change of their location, or in any other way shall be at the expense of the Georgia Pacific Railroad Company. But prior to the occupation and use of the right-of-way of the Western and Atlantic Railroad, the officers of the company shall be consulted.

3d. Believing that the building of the Georgia Pacific road and its extension by a continuous line to the West is of great importance to the people of this State, and that the enterprise should be fostered and encouraged while in its inception; and further believing that pecuniary compensation for the use of the right-of-way, which as above guarded cannot be injurious to the interests of the State Road, should be moderate, the privilege of the right-of-way is hereby granted in consideration of the sum of one thousand dollars to be paid.

It is further ordered, That this order and the petition of the Georgia Pacific Railroad Company referred to above be entered upon the Minutes of the Executive Department.

(Signed,)  
ALFRED H. COLQUITT,  
Governor.

I. W. AVERY,  
Sec. Ex. Dep’t.

Executed and delivered in presence of J. W. Warren, John Rhea, Notary Public and ex-officio Justice of the Peace, 1234th District, G. M.

To his Excellency, Governor Alfred H. Colquitt:

The Georgia Pacific Railroad Company respectfully rep-
resents to your Excellency the following facts, to-wit:
That on the 14th day of December, 1859, by act of the
Assembly, approved on that day, the Governor of this
State was authorized to grant to the Dalton and Gadsden
Railroad Company the right to build its road a short dis­tance on the right-of-way of the Western and Atlantic
Railroad; Provided, The said Dalton and Gadsden Rail­
road Company should grant a similar privilege to the
Western and Atlantic Railroad; and provided, in his
opinion, it should not be incompatible with the public
interests; that by an act of the Assembly, approved
December 20, 1860, the Governor of this State was author­
ized to grant to the Georgia Western Railroad Company
the right to build its road on the right-of-way of the Wes­
tern and Atlantic Railroad within and adjacent to Atlanta,
on the same conditions as those granted to the Dalton and
Gadsden Road, as embraced in the foregoing act; provided,
however, that the privilege of the right-of-way shall not
exceed one mile from the depot in Atlanta, and upon the
condition of paying so much for the right-of-way as the
Governor might deem right and proper for the interest of
the State.

By an act, approved December 11, 1866, the word “four”
was substituted for the word “one” in the preceding act,
thereby giving the privileges of the right-of-way not to
exceed four miles instead of one mile from the depot, as
specified in the act of December 20, 1860.

The Georgia Pacific Railroad Company has been lately
incorporated under the laws of this State, and is now the
owner of the property of the Georgia Western Railroad
Company and the franchises appertaining thereto, and is
making arrangements for building a road extending in the
direction of the Mississippi river, and with the expectation
of a continuous line from the city of Atlanta to some point
almost due west therefrom upon the Mississippi river be­
yond. It is exceedingly important, if not absolutely neces­
sary, that the right-of-way provided for by the acts of the
General Assembly before recited should be secured to the
Georgia Pacific Railroad Company, and your Excellency is hereby earnestly petitioned to exercise the power bestowed upon you by the acts aforesaid, and to grant to this company the right-of-way over the Western and Atlantic Road, as provided in the acts aforesaid.

(Signed) Georgia Pacific Railroad Company,
by John B. Gordon, President.

(The above and foregoing pages copied from the Minutes of the Executive Department, folio 6, date, August 8, 1881.)

Your committee find from the evidence that the Georgia Pacific Railroad Company uses about four miles of the right-of-way of the Western and Atlantic Railroad Company; that about three miles of that was graded by the Georgia Western Railway before the sale of that road; and that the Georgia Pacific Railroad laid its rails upon this graded road. From this point to the depot in the city of Atlanta the Georgia Pacific runs its trains upon the tracks of the Western and Atlantic Railroad, for which it pays a stipulated monthly rental estimated by the witnesses to be from one hundred and fifty to two hundred dollars per month. It was shown in the investigation that the Georgia Pacific Railroad was debarred from the use of the right-of-way over the portion thus rented by the fact that the Western and Atlantic Railroad had occupied the whole space of the right-of-way with its tracks. The evidence developed the further fact that when the Executive imposed upon the Georgia Pacific Railroad Company the payment of one thousand dollars, he did so without a knowledge of the act of 1872. This sum has never been paid.

The evidence shows that the value of the right-of-way is from five hundred to seven hundred dollars per annum. It was further shown that the Georgia Pacific Railroad pays twenty-four hundred dollars for use of one mile of the track.

The evidence of Senator Colquitt, and the recitals in the manner referred to, shows that he was governed more by the policy of the State, as recited in the acts referred to, and the action of previous administrations, than by the actual
money value of the right-of-way in fixing the amount
compensation to be paid by the Georgia Pacific Railroad
Company.

Your committee are of the opinion that, under the
various acts, the Georgia Pacific Railroad Company
entitled to the right-of-way specified in these said acts.

Your committee find that, as it was insisted, as shown
the testimony of Senator A. H. Colquitt, at the time of is-
ing the Executive order of August 6, 1881, by the Georgi-
Pacific Railroad Company, that the Governor should nar-
some amount to be paid as compensation to the State; th-
the question of the liability of said Company to pay the
sum named should be referred to the Attorney-Gener-
with instructions that if, in his opinion, said Company was
liable to pay said sum, that he institute proper proceedin-
for the recovery of the one thousand dollars named.

Your committee herewith submit the evidence given befo-
them, and request that the report and evidence be print-
