JOURNAL

Senate Chamber, Atlanta, Ga.,
Wednesday, October 26, 1898, 10 o’clock a. m.

The Senators-elect for the years 1898 and 1899, met at 10 o’clock a. m., on the 26th day of October, 1898, in the Senate Chamber, and were called to order by the Hon. Wm. Clifton, Secretary of the last Senate.

The Secretary of State submitted to the Secretary the following certified list of Senators-elect:

First District—A. W Grovenstein.
Second District—William Clifton.
Third District—J. R. Dowling.
Fourth District—Rufus S. Lang.
Fifth District—R. G. Dickerson.
Sixth District—W S. West.
Seventh District—W S. Humphreys.
Eighth District—J. L. Hand.
Ninth District—R. B. Odom.
Tenth District—E. L. Wight.
Eleventh District—T. C. Sutton.
Twelfth District—A. P Passmore.
Thirteenth District—W A. Dodson.
Fourteenth District—Mark T. Hodge.
JOURNAL OF THE SENATE.

Fifteenth District—E. K. Wilcox.
Sixteenth District—R. J. Mowe.
Seventeenth District—J A. Brannen.
Eighteenth District—William Little.
Nineteenth District—Columbus Heard.
Twentieth District—William Rawlings.
Twenty-first District—J S. Wood.
Twenty-second District—J. F. Redding.
Twenty-third District—W E. Steed.
Twenty-fourth District—Leonidas McLester.
Twenty-fifth District—J. H. McGehee.
Twenty-sixth District—S. T. Blalock.
Twenty-seventh District—B. E. Thrasher.
Twenty-eighth District—S. T. Wingfield.
Twenty-ninth District—M. W. Gross.
Thirtieth District—George C. Daniel.
Thirty-first District—M. T. Perkins.
Thirty-third District—J. K. Thompson.
Thirty-fourth District—W M. Morrison.
Thirty-fifth District—R. T. Nesbitt.
Thirty-sixth District—J. Render Terrell.
Thirty-seventh District—W. J. Davis, Jr.
Thirty-eighth District—W. C. Bunn.
Thirty-ninth District—W. J. Webb.
Fortieth District—W. J. Greene.
Forty-first District—Thomas R. Johnson.
Forty-third District—C. N. King.
Forty-fourth District—W. E. Mann.
The foregoing official list was called to ascertain the presence of a quorum. This having been done, and a quorum being present the blessing of God was invoked by the Rev. J. W. G. Watkins, at the request of the Secretary.

Senators-elect then presented themselves at the Secretary's desk and took the prescribed oath of office, the same being administered by the Hon. Jno. S. Candler, Judge of the Stone Mountain circuit. The Secretary then announced that the next business in order was the election of a President of the body.

Whereupon, Mr. Wingfield placed in nomination for that office the Hon. Wm. A. Dodson, of the county of Sumter. This nomination was seconded by several.

There being no other nominations, the call of the roll was proceeded with, Senators voting viva voce.

On casting up the vote, it appeared that Hon. Wm. A. Dodson had received forty-two, the entire vote cast.

The Hon. Wm. A. Dodson having received a majority of the whole number of Senators, was declared duly elected President of the Senate.

The Secretary appointed a committee of three to acquaint the President of his election, ask his acceptance and conduct him to the presidential chair.

The Secretary appointed Messrs. Sutton, Wingfield and Brannen.
The committee performed the duty imposed and the President-elect being conducted to his chair, rose and addressed the Senate, and at the close of his address called the body to order.

He then announced the election of a Secretary as the business next in order, and that nominations for that office would be received.

Whereupon, Mr. Steed, of the Twenty-third district, placed in nomination the Hon. G. S. Northen of the county of Fulton.

The nomination of Mr. Northen was unanimously seconded.

There being no further nominations, the President ordered the call of the roll for the election.

It appeared, upon casting up the votes cast, that Hon. C. S. Northen had received forty-three, the entire vote cast.

The President declared that the Hon. C. S. Northen having received a majority of the entire Senate, was duly elected Secretary.

The President announced the election of a President pro tem. as the next business before the Senate, and that nominations were in order for that office.

Mr. Blalock, of the Twenty-sixth district, nominated the Hon. J. Render Terrell for that position.
This nomination was seconded by several.

There being no other name presented for this office, the call of the roll was proceeded with, resulting in the Hon. J. Render Terrell receiving forty-three votes, which being a majority of the whole Senate, the President declared him duly elected President pro tem.

The next business was the election of Doorkeeper.

Mr. King, of the Forty-third district, nominated Mr. R. E. Wilson of the county of Whitfield.

Mr. Perkins, of the Thirty-first district, nominated Mr. Green.

Mr. Wilson having received a majority of the votes cast, was elected Doorkeeper.

The next business was the election of a messenger of the Senate.

Mr. Dickerson, of the Fifth district, placed in nomination Mr. Dan Pauk.

Mr. McGehee, of the Twenty-fifth district, placed in nomination Mr. Flint Garget of the county of Harris.

Mr. Harget having received a majority of the votes cast, was elected messenger.

The following resolutions were read and adopted:
By Mr. West of Sixth district—

Resolved, That the Secretary of the Senate notify the House, that the Senate is organized and ready to proceed to business.

By Mr. Humphries of Seventh district—

Resolved, That the President of the Senate be authorized to appoint the gallery keepers and pages, and the Secretary appoint the porters.

Also by Mr. Terrell of Thirty-sixth district—

Resolved, That the rules of the last Senate be adopted for the present one until the Committee on Rules reports new ones.

The following committee was appointed to nominate a chaplain:

Messrs. McGehee, Nesbitt and Wight.

The committee nominated the Rev. J. W. H. Watkins, who was unanimously elected chaplain of the Senate.

The following resolution was read and adopted:

By Mr. Morrison of the Thirty-fourth district—

Resolved, That a committee of three from the Senate and five from the House be appointed to notify the Governor that the General Assembly has organized and ready to proceed to business.
Wednesday, October 26, 1898.

The committee on part of the Senate is Messrs. Morrison, Terrell and Hand.

Upon motion of Mr. Humphries the Senators withdrew and drew for seats.

Upon motion of Mr. Humphries the Senate took recess for thirty minutes.

The thirty minutes having expired, the President called the Senate to order.

Upon motion of Mr. Terrell the session was extended until the Senate could receive a message from the House of Representatives.

The following message was received from the House, through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

I am instructed by the House of Representatives to inform this branch of the General Assembly that the House is now organized and is now ready to proceed to the discharge of the regular business of the session, and has elected as Speaker the Hon. John D. Little, as Speaker pro temp., the Hon. A. O. Blalock, as Clerk, John T. Boifeuillet, as messenger, F. M. Durham, and as doorkeeper J. H. Williford.

The following message was received from the House through Mr. Boifeuillet, the Clerk thereof:
Mr. President:

The House has concurred in the following resolution of the Senate, to wit:

Resolved by the Senate, the House concurring, That a committee of three from the Senate and five from the House be appointed to notify the Governor that the General Assembly is now organized and ready to receive any communications he may desire to make, and has appointed on the part of the House, Mr. Freeman Allen of Baldwin, Ford of Worth, Rogers of Marion, and Mr. McLaughlin.

The following message was received from the House through Mr. Boifenillet, the Clerk thereof:

Mr. President:

The House has adopted the following joint resolution, to wit:

Resolved by the House, the Senate concurring, That the House and Senate convene in joint session on to-morrow, Thursday, 27th instant, at 11 o'clock a. m., for the purpose of opening the returns of the State election and declaring the result.

Upon motion of Mr. West, the above House resolution was concurred in.

Leave of absence was granted Mr. Davis for to-day and to-morrow.

Upon motion of Mr. Underwood, the Senate adjourned until to-morrow at 10 o'clock.
The Senate met pursuant to adjournment; was called to order by the President.

Prayer was offered by the Chaplain.

Upon the call of the roll the following members answered to their names:

| Blalock, | Humphreys, | Redding, |
| Brannen, | Johnson,   | Steed,   |
| Bunn,    | King,      | Sutton,  |

The Journal of yesterday was read and approved.

The following invitation was accepted:

To attend the oratorical contest to be held at the Grand Opera House, Saturday evening, October 29, 1898.

The following communication was received from his Excellency, the Governor, through his Secretary, Mr. Warren, to wit:

Mr. President:

I am directed by the Governor to deliver to the Senate a communication in writing.
MESSAGE

STATE OF GEORGIA,
EXECUTIVE OFFICE,
ATLANTA, GA., Oct. 26, 1898.

Gentlemen of the General Assembly of Georgia:

In obedience to the requirement of law, I send this communication to inform you of such transactions since the adjournment of your predecessors in office as may better enable you to discharge your duties as members of the General Assembly; and make to you such recommendations as will, in my opinion, aid in the perfection of our laws and promote the growth of our material interests.

The reports from each of the regular Departments of the Government, as well as from each of our eleemosynary and educational institutions, will be printed and furnished to each of you. Coming, as these reports do, from men of recognized ability, who are thoroughly acquainted with the subjects discussed, I cannot too earnestly urge upon you the importance of giving careful consideration to every recommendation made.

ELECTION OF JUDGES AND SOLICITORS-GENERAL BY THE PEOPLE.

The amendment to the Constitution proposed by the General Assembly, providing for the election of Judges and Solicitors-General by the people, was in accordance
with the law submitted to the people at the general election this year, and ratified at the polls. On ascertaining the result of the election, I issued my proclamation declaring the result, and the proposed amendment became a part of the fundamental law of the State.

SPECIAL ATTORNEY WESTERN & ATLANTIC RAILROAD.

For a number of years the State has employed a Special Attorney to look after questions arising in connection with the Western & Atlantic Railroad, and to represent the State in the settlement of a number of disputes which had arisen as to rights-of-way. Having arrived at the conclusion that this office should not be a permanent one, in the early part of this year I entered into a contract with Hon. W. A. Wimbish, Special Attorney, in which it was agreed that for the amount appropriated as salary for this year, he should dispose of all unfinished business. This contract is now on file in the Executive Office. I, therefore, recommend that there be no further appropriation made for the payment of the salary of the Special Attorney of the Western & Atlantic Railroad. Whatever legal business may arise in connection with this property can hereafter be done by the Attorney-General.

TEMPORARY LOAN.

Early in July I received an official communication from the State Treasurer, in which he informed me that, in order to carry out the law providing for the quarterly payment
of the salaries of teachers, it would be necessary for the State to borrow two hundred thousand dollars. This condition of the Treasury was due to the fact that the increase in the appropriation for common school purposes of four hundred thousand dollars would not reach the Treasury until the collection of the taxes for this year, and would not likely be available until some time in December. It became necessary, therefore, for me to decide whether it would be better to ignore our obligations to pay the teachers quarterly, or to exercise the authority given me by the last General Assembly to borrow money and meet the demands promptly. I reached the conclusion that it would be better for the State to pay the interests upon this amount than to ignore the obligation to the teachers and require them to discount, at ruinous rates, their claims against the State. Fortunately, the condition of the Treasury was such that we did not need the entire four hundred thousand dollars, and by making a loan of two hundred thousand dollars, anticipating the revenue which would come in on the collection of the fall taxes, we could meet every demand. I, therefore, went to New York and secured a loan of two hundred thousand dollars at the very low rate of 2½ per cent. per annum. We had on hand one hundred thousand dollars, known as the sinking fund, accumulated for the purpose of paying the public debt, which, under our constitution, could not be used for any other purpose, and consequently was not available to pay the teachers. We had a right to place this money in any one of the State depositories. In the exercise of this right I left it on deposit with banks which
agreed to pay for the use of the loan the amount which the State contracted to pay. The State, therefore, while borrowing two hundred thousand dollars, paid interest on only one hundred thousand dollars at two and a half per cent. per annum, and the banks having on deposit the sinking fund paid the interest on the other one hundred thousand.

**CHICKAMAUGA MONUMENT.**

I regret exceedingly to be obliged to report to you that the monument for which the State has made an appropriation, to be erected on Chickamauga battle-field, has not been completed. The reasons for this will appear from the report of the Board having the work in charge. I am confident, however, it will be completed and ready for dedication in the early part of 1899, and respectfully recommend that you take such action as you may deem proper to provide for the ceremonies of the dedication.

**TROOPS FOR THE SPANISH-AMERICAN WAR.**

On April 22d the President of the United States called upon the State of Georgia to furnish, for service in the Spanish-American war, two regiments of infantry and two batteries of light artillery; and on May 26th another call was made for one regiment of infantry. On the receipt of the call, I at once issued my proclamation calling for volunteers, and am gratified to report that both calls were responded to with commendable promptness. Under the first call we were the third of the original thirteen States, the
ninth of all the States of the Union, and the first of the Southern States, in completing our organization and turning them over to the Federal government. The people of Georgia have reason to be proud of the character of the men and officers furnished by this State in response to the calls made upon it. These were splendid bodies of men, which, I do not believe, could be surpassed by any volunteer soldiers in the world.

EXPENSE OF ORGANIZING THE TROOPS.

Soon after the declaration of war, the Federal government declined to furnish a regular army officer to assist the State in the office of Adjutant-General, as had been done for a number of years. On this account, and because of the large increase of the work incident to organizing the military forces, it became necessary for me to employ some one to aid in the Adjutant-General’s department. Colonel W G. Obear, an able and experienced militia officer, was employed at a salary of one hundred and fifty dollars per month, which was paid out of the military fund. This employment has continued up to the present. There was necessarily a large expense to be incurred in raising the troops, and the problem was presented to me of determining from whence this fund should be derived. On account of the expense which would have been incurred by so doing, it was not considered advisable to convene the General Assembly and ask for an appropriation for this purpose; and it was, therefore, determined to use the fund appropriated by the State for
military purposes. Itemized accounts of the amounts ex­
pended have been carefully kept by the Adjutant-Gener­
al's Department, and will in a few days be in a condition
to be presented to the Federal government for payment.
Most of the expense incurred in organizing the troops will
be refunded to the State by the United States government
in a very short time.

THE STATE MILITIA.

The State militia organizations were so much impaired
this year by having taken from them officers and men who
entered the volunteer forces of the United States, that it
was deemed advisable not to have the usual State encamp­
ment. In the organization of the volunteer force of the
United States, furnished by this State, the militia proved
an invaluable source from which to draw officers and
men. The experience acquired in the service of the State
Militia proved to have been of incalculable value to the
forces furnished by this State, under the call of the national
government. My experience, however, while organizing
this national force, has convinced me that it is of the ut­
most importance that the laws governing the militia or­
ganizations be revised and radical changes made therein.

I respectfully urge that your committee on military affairs
take this subject under consideration and ask for the pass­
age of the needed legislation. I hope your body will con­
tinue its aid to the State Militia. When reorganized under
such new legislation as may be had, it will be of more value
than ever before in preserving peace, enforcing obedience
to law, and furnishing a source from which a volunteer
army may be quickly raised in time of war.
PENITENTIARY DEPARTMENT.

Pursuant to the Act of the General Assembly approved December 21st, 1897, I appointed, on the date named, as Prison Commissioners, the following gentlemen, viz.: Hon. Clement A. Evans, of the county of Fulton; Hon. Jacob L. Beach, of the county of Glynn, and Hon. Joseph S. Turner, of the county of Putnam, who immediately qualified, gave the bond required by said act, and entered upon the discharge of their duties.

For full information as to the work of this department, I refer you to their report, which has been written and laid upon your desks.

Referring to but one portion of this report, it will be seen that the misdemeanor convicts have, by virtue of the authority conferred upon the Commission, been brought under direct State supervision and that satisfactory progress has been made toward bringing all misdemeanor camps up to a uniform standard.

All private chaingangs have been abolished, and a large majority of the convicts are now being worked upon the public roads, much to their improvement, and the ultimate benefit of the counties so using them.

NORTH EASTERN RAILROAD.

The last General Assembly conferred upon the Governor authority to sell the North Eastern Railroad whenever he thought advisable.

I have not offered this property for sale, because I did not deem it advisable in the present condition of the
country, but I feel sure that soon a sale can be perfected, in compliance with the conditions imposed, for as much as or more than the amount of the bonded debt for which the State is liable.

For full details of the management of this property I refer you to the report of Hon. R. K. Reaves, State Agent, in charge, which will be printed and laid before you.

OMAHA EXPOSITION.

In compliance with a resolution of the General Assembly, approved December 18, 1897, authorizing the Governor to appoint a committee of fifteen citizens, to secure an exhibit of the products and resources of the State of Georgia at the Trans-Mississippi and International Exposition, I appointed the following named gentlemen thereon: Hons. W J. Northen, C. E. Harmon, W A Hemphill, F H. Richardson, J. B. S. Thompson, and Geo. C. Smith, of the county of Fulton; J. F DeLacy, of the county of Dodge; Edwin Brobston, of the county of Glynn; W A. Knowles, of the county of Floyd; Thos. K. Scott, of the county of Richmond; Geo. Ketchum and J. F Hanson, of the county of Bibb; H. M. Comer and P. A. Stovall, of the county of Chatham.

These gentlemen, at a great personal sacrifice of time and money, secured and placed in position at Omaha a magnificent exhibit which has attracted the attention and admiration of thousands of visitors, and which, it is expected, will be productive of much good to the State.
PENSIONS.

It has become the just, humane and settled policy of the State to pay pensions to Confederate soldiers and their widows, where the circumstances justify it. Since 1866 all legislative action has tended to that end, and on three several occasions the question has been submitted to the people, and each time by a practically unanimous vote they have amended the Constitution for that purpose. It is a patriotic and noble spirit which inspires and puts in active operation the discharge of this obligation.

In legislating for that purpose such restrictions should be kept in view as will tend to keep the pension roll as a roll of honor. No exact statement can be made of the number of soldiers Georgia furnished the Confederate cause, but conservative estimates put the number at 125,000, and there are less than 10 per cent. of that number of pensioners on our rolls, while the Federal pension rolls show nearly 1,000,000 names, approximating the number in the entire Federal army.

The above comparison is made to show the danger of imprudent or unwise legislation, and not in any sense to restrict payments so as not to reach those justly entitled.

In extending aid to indigent and disabled Confederate soldiers the State has adopted the policy of paying direct to the beneficiary the money appropriated for his benefit. To show what Georgia and other States have done and are doing for the old soldiers, the table below is submitted. The figures, except for Georgia, are for 1897.

It will also be remembered that it is provided by law that such Confederate soldiers as cannot support themselves, by reason of poverty and infirmity, shall receive food and clothing from the county authorities (see Section 432 Vol. 1, Code 1895) and thus they may supplement the amount paid by the State. Besides on the same line by the Act of 1897, page 24, no license for peddling can be demanded of any disabled or indigent ex-Confederate soldier, and in some instances they are exempt from poll tax, as provided in Section 766 Vol. 1, Code 1895.

There are now pending in the Pension Office 2,715 claims, of which, probably 1,000 under the proofs are entitled to be paid; and to cover such payments $60,000 should be appropriated for 1899 in addition to the sum appropriated for 1898.

FEE SYSTEM.

I am persuaded that the interest of the State will be conserved by abolishing the fee system, and suggest the passage of a law providing a different method of compensation for our public officials. All officers who are com-
compensated in this way should be required to keep an itemized account of their receipts, and make return thereof under oath. A maximum limit ought to be fixed, and receipts in excess of this limit covered into the Treasury. The limitation should be sufficiently liberal, however, to secure the services of our best men, and I apprehend no difficulty in adjusting the new system so as to satisfy all requirements. I commend the matter to your serious attention.

BIENNIAL SESSIONS.

Another step in the direction of retrenchment which I would propose, is an amendment to the Constitution providing for biennial sessions of the Legislature. Heretofore much of the time of our assembly meetings has been taken up in balloting for Judges and Solicitors, but now that the Constitution has been so amended as to require the election of these officials by the people, ample time will be allowed for the purposes of needful legislation within the period now fixed for a single session—fifty days. This change will result not only in a net saving to the State of $70,000 for the session dispensed with, but will have a good effect in other respects. Annual sessions are prolific of much needless legislation, and too much legislation has a disturbing effect upon business and commercial affairs. All States of the Union, except Georgia and five others, now have biennial sessions, and the experiment has proven so satisfactory, that it will be only a question of a short time when the plan will be adopted also in the States.
to which I have referred. It is not necessary to hold a constitutional convention in order to give practical effect to this suggestion. It can be accomplished more directly and at less expense by amending our present organic law, in the usual way. Conventions are expensive, both in the matter of primary deliberation and in the subsequent legislation necessary to make our laws conform to the requirements of the new instrument. When a change in our fundamental law becomes necessary, it can be done just as effectively by amendment, and at a cost comparatively trifling. Numerous arguments can be adduced in favor of the proposed change, but it is not necessary to appeal to your intelligence by such a course of reasoning. The advantages to be derived are so obvious that specification would be useless.

TAX ON INHERITANCES.

As a means of adding to the State's revenue, I recommend the imposition of a tax on inheritances, direct as well as collateral. Other States have set us a good example on this line, which we would do well to follow. A measure providing for a levy of this sort would, I believe, receive the approbation of the people, and add materially to the State's revenue.

EDUCATION.

The State has made most gratifying progress in matters affecting its educational advancement. Perhaps never before in the history of Georgia has there been such widespread interest in the cause of popular education. The
Legislature, in answer to the demands of the people, has made liberal appropriations for the support of all our schools. These large investments that the State is annually making for the education of the masses, will yield larger returns than the State could derive in any other way. The problem before us as a people is to make our own children capable of developing our own resources. It is extremely gratifying to me to note the steady and rapid improvement in our educational conditions.

The public school term has been lengthened from one hundred days to one hundred and thirty. The public school fund has grown from $937,871.12 in 1894, to $1,640,381.00 in 1898. Within the same length of time we have added to our teaching force one thousand teachers, who have been professionally trained in Normal schools. The enrollment of children of school age in the common schools has also largely increased over the enrollment of previous years. The building of new and comfortable modern school-houses is steadily going on in all parts of the State. The two Normal schools supported by the State—the Georgia Normal and Industrial School at Milledgeville and the State Normal School at Athens—have been taxed to their utmost capacity to make room for the pupils that apply for entrance in both institutions. During the present year, indeed, a large number of applicants have been denied admission in both of these schools for lack of room. Teaching is no longer an avocation. It is now a profession, and teachers who are wanted everywhere are those who have had professional training. These two schools, therefore, that are providing profes-
sional training to our teachers, deserve the liberal support that the Legislature has provided.

We have come to a time when practical education is demanded for the changed conditions that confront us. Our children must be taught in the schools to do what the world wants done. Most of the manual labor of the future will be done with a machine. This will be true, not only of the manufactory and workshop and printing house, but it will be true to a large extent on the farm as well. We have come to the age of the machine. Such changes should be made, therefore, in the courses of study in our common schools as will broaden the foundation of popular education, by including such industrial branches as the times demands of us.

The addition of training like this for industrial pursuits in all our schools, will hasten the day when Georgia will work into manufactured products all of the raw material that the State produces. The State can never reach that proud place of independent sovereignty that she should hold, in fact as well as name, until she has made the children of all her people independent and intelligent producers of wealth, and until there is not only no badge of reproach for honest toil, but everywhere in every department of human endeavor, respect and honor and remunerative rewards for well-diversified and intelligent labor.

GEORGIA SCHOOL OF TECHNOLOGY

The rapid advance of all nations in industrial and mechanical lines directs attention to the conditions existing in Georgia for the cultivation of natural resources and
scientific talent. The State should provide the means for enabling Georgians to fill the most remunerative positions in the material advancement of the State. The heads of industrial enterprises and the high salaried men in our manufacturing establishments should be natives, and not, as is often the case, residents of foreign countries and other sections.

By giving our young men the opportunity to obtain practical and scientific education of high grade in the different fields of Engineering and Industrial Science, we continually add to the population a class of citizens, familiar with our resources, capable of organizing manufacturing plants, and qualified to increase the wealth and importance of the State. In view of these facts, I recommend for your continued support the Georgia School of Technology. Its thorough courses and the excellent records of its graduates are commanding the attention and admiration of every Southern State. The dormitory built by the State is inadequate for the accommodation of the hundreds of boys who desire to attend the school at cheap rates and under wholesome regulations.

I recommend that you appropriate money for another dormitory, as the present buildings are now too crowded for comfort and health.

As the attendance at the school has been more than doubled in the past few years, I recommend such increase in the maintenance fund as you may find necessary.

In my last message I recommended the establishment, in the school, of a Department of Textiles, and the General Assembly appropriated $10,000.00 for such purpose,
provided friends of the school would give an equal amount in money or equipment.

I am gratified to announce that donations have been made as follows:

A list of the donors and the amounts given are appended to this message.

The most important donation was made by Mr. Aaron French, a citizen of Pittsburg, Pa., who became an interested patron of the school through his friendship with President Lyman Hall.

Mr. Oscar Elsas, Vice-President of a large manufacturing firm in Atlanta, and an ex-student of the school, rendered valuable services in securing donations of machinery. Both of these gentlemen deserve the thanks of the people of Georgia.

Including the donations and the State's appropriation the Textile Department will have an equipment in building and machinery of $32,000 00, and in the line of Cotton Textiles, it will have no superior. At one-third the cost, Georgia has secured this equipment for the instruction of her sons and daughters in designing, weaving, dyeing, etc., of our great staple whose manufacture has heretofore enriched other sections of the country. It is Georgia's duty to provide liberally for the support of this Department.
THE UNIVERSITY.

I recommend the continuation of the State's support of the University.

The intellectual supremacy of a people is the key to prosperity and material greatness, and the University of the State, if properly supported, will continue to add to the growth and greatness of the State. I advise that the excellent dormitory system now existing at the School of Technology be provided for at the University, so that young men of limited means may obtain the advantages of the institution at small cost and that parents may feel that their sons are under the continual guardianship and protection of the authorities.

SCHOOL BOOKS QUESTION.

I would again invite your attention to the importance of legislation looking to a reduction of the cost of school books used in the Public Schools of this State, and urge upon your body the growing necessity for action thereon.

In this connection I refer you to the special message on this subject which I had the honor of laying before the last General Assembly. In that message I submitted some comparative figures that are worth considering in this connection, to wit:

The following statement presents clearly the comparative cost of our Code published upon State's account under the competitive bid system and what we are actually paying for the school books used by our children in the public schools.
CODE.

Three volumes of Georgia Code, containing 1,500,000 words, cost $4 00

SCHOOL BOOKS.

Five School books, containing 659,000 words,
   cost 1 88
Five School books, containing 215,000 words,
   cost 4 00

The cost of printing the same number of words
in school-books as in the Code, would be 9 52

In this calculation I have not computed the compensation which must be paid to authors nor other necessary expenses which will readily suggest themselves to you. On the other hand, it must be borne in mind that only a few thousand copies of the Code were printed, while school books are issued by the hundreds of thousands and their printing should, therefore, cost less.

ANOTHER COMPARISON.

At my request, one of the best equipped and reliable publishing houses in the State has furnished me the following statement showing what is now being paid for school books in Georgia, and at what price it would be willing to print the same books in lots of one hundred thousand:

This company is able and willing to take the contract to publish at the prices named and give bond to comply with their contract.

You can add to these prices a fair royalty to be paid to the author and draw your own conclusions as to whether or not we are being made to pay an unreasonable and unjust tribute to a lordly trust.

I submit to you the consideration of the question, with the confident belief that you possess the wisdom to discern and the courage to apply the remedy.

BALLOT REFORM.

For some years past there has been considerable discussion in regard to a change in our election laws, making them conform, in some degree, to the advanced laws on this subject in other States. In my first message to the Legislature in 1894, and in every subsequent message, I have adverted to this measure. In one of these I said:

"The decided advance taken by our State in the passage of the Registration Law, recently enacted, has met with the hearty approval of the people of the State, and they hope for such advancement in the reformation of our election laws, that no honest man's vote can be neutralized by a dishonest or fraudulent ballot. I earnestly urge upon you a thorough study of the election systems of other States, that such election laws that may be passed by you will be in harmony with the best methods of the day, and serve to secure honest elections and a government wherein the ballots of honest men will certainly control."
Now that the agitation has become general throughout the State, and is being advocated by those who formerly opposed it, I hope for definite action by your body, and again add my urgent appeal to the general demand.

BETTER PRIMARY ELECTION LAW NEEDED.

Fully as important everywhere as stringent election laws, and a more crying demand in Georgia, is the necessity for the strictest regulation of the party primary. For thirty years past the welfare and destiny of this State have been in the hands of one party, and the recent election has but furnished a fresh demonstration that this condition is to continue indefinitely, or at least so long as the present party alignments remain. The democratic primary not only virtually, but actually, determines who shall fill every important office in the State, and in nearly every county, and what shall be the policy of the State government - so far as these officers may determine it. The constitutional amendments of two years ago and this year, making the Supreme and Superior Court Judges elective by the people, vastly increase the responsibility of the dominant party by adding the burden of choosing a pure judiciary.

The most vital part, then, of our politics is the primary, and any reform that does not include this inceptive function in its scope will fail to strike at the root of the real evils of which the people are complaining.

Politics has features which have led many good people to unthinkingly deprecate its existence; but politics will never cease so long as this remains a party government,
and men seek preferment under it. We should not expect a political millennium under any circumstances, but we can and should seek every opportunity to be rid of unsatisfactory leaders and to make the political organization responsible to its voters. Thus far the reformer and the liberal partisan can go together, and in this unity of purpose lies the hope of better primaries.

The growing demand for better party methods was recognized by the Legislature as far back as 1891, when an Act was passed and approved by the Governor “to protect primary elections and conventions of political parties in this State, and to punish frauds committed thereat.” This law was modeled very much after the pattern of our present election laws, with the one glaring deficiency that it was not mandatory upon the party managers to apply the primary in the selection of delegates and nominees for offices; and in practice it has been applied with about the same laxity, all of its provisions seldom being complied with and none of its penalties ever enforced, and has long since been outgrown by the movement for better primaries. It may be safely said that the volunteer reforms inaugurated by the democratic conventions in 1894 and 1896, and continued by the convention of this year, and effectively urged in the campaign against the caucus methods into which the populists had fallen in their turn, caused great numbers of the latter party to stay away from the polls, while others returned to their former affiliations. I call attention to these facts to show how the people stand in this movement for better primaries, which is really a revolt against bossism.
The present demand for primary reform is not confined to Georgia. Few States have been, or are, entirely without statutory regulation of the primaries, but in most cases these, like ours, are ineffectual. Ten important States now have statutes more or less complete controlling primaries, and as many more are considering and investigating the problem. Recognized as the most progressive of the Southern States, there is every consideration why Georgia should lead in this as well as in other improvements in the South. The practice of general primaries upon a stated day, under fixed rules, which has been found so satisfactory in recent years, should be made the statutory law, which cannot be changed at the whim of a committee, or the will of a candidate who may control a majority of its members, and should be binding upon all parties. In framing such a statute, there will be many additional features besides those with which we have been made familiar, the character of which I can only suggest here, leaving the details to the wisdom of your body, should you give this matter the consideration which, in my earnest opinion, its importance demands.

In the first place, I cannot too strongly emphasize the statement that the ballot should be made absolutely secret. No possible opportunity should be given to the briber to see that the vote corruptly purchased is faithfully delivered, and thus corruption will be discouraged. Neither should an employer have any method of ascertaining how his employees really vote, and thus the laboring man, whose interest may not always be the same as that of the capitalist, but whose views are equally worthy of expression in
a free government, cannot be successfully coerced. This becomes more vitally important every year, as industrial and corporate factors enlarge their scope and employ increasing numbers of intelligent suffragists, whose franchise cannot be too vigilantly protected against any improper influences.

So satisfactory has been the practice of holding State primaries on one day that I would by all means incorporate this in the law; and I would also advise that the date of the primary be made a fixed day, at such season as may be most convenient to the masses of the voters. If necessary, separate succeeding days might be named for each party, or all could be held on one day. The first provision prevails in New York, whose Legislature last March unanimously passed what is generally regarded as the broadest and most complete law regulating primary elections, political committees and conventions; the second provision is part of the recently-enacted law of Michigan. Such a proviso would be perfectly just and satisfactory to all candidates and factions alike, and would remove a serious cause of complaint recently made.

Candidates for all offices should, of course, be directly voted for, and provision made for delegates who will express that vote in the convention. In some States, notably the neighboring one of South Carolina, the nominees are named by the consolidated vote of the whole State, a majority of the whole vote being required to nominate. In any case, conventions would seem to be necessary to promulgate principles, and these conventions, in turn, should be regulated by a provision against proxy and secret
voting, and by proper restrictions against interference with the temporary organization.

With these safeguards, including also a provision for securing the fair submission of all party questions to the members of that party, we would have a law unexcelled by that of any State in the Union, and our primaries would command the confidence and respect of all parties. Then party organizations will always be responsible to the people, and political leaders will become liberal statesmen, advocating beneficial public measures, instead of scheming politicians, caring only for the favor of those in control of the machine.

EQUALIZATION OF TAXES.

A great deal of comment has been made recently about the high rate of taxation in Georgia. That the tax rate is higher than the people who pay the taxes can well afford is an indisputable proposition; but I fail to see how the amount of appropriations made can be materially reduced without receding from the position which the State has taken respecting its treatment of the old soldiers and the education of its children, and against this policy of retrogression all are mutually pledged.

I am as much in favor of economy in State affairs as any one can be, as I think the record of my administration will show; but the proper and only way to reduce the taxes that everybody pays, is to make everybody pay his taxes. If there were a just and equitable system of tax assessment in the State, instead of leaving each taxpayer to swear to the amount that he is willing to pay taxes upon, according
to investigations that have been recently made in different localities and according to the painstaking report of Comptroller-General Wright, to which your careful attention is called, the valuation of property would be so increased—so much additional property would be placed upon the tax books—that the rate of taxation would be decreased one-third, and still afford the same amount of revenue that we are receiving to-day.

In 1892 tax values were fixed, not by the taxpayer, who has a direct interest in omitting to give in property, or in placing the lowest possible value upon it, and thus burdening his neighbor with a part of the taxes which he should pay, but were fixed by a board of disinterested tax assessors. As a result, tax values increased from $444,000,000 in 1891 to $463,000,000 in 1892. This act was repealed in the fall of 1892. The next year there was a decrease of $11,-000,000 in the returns of taxable property, and now, after a constant decline, it is $54,000,000 less than in 1892, when valued by tax assessors. If so much good was accomplished in one year, with the experience of this effort, tax values ere now would have been equalized and largely increased, and vast amounts of property, real and personal, which now escapes taxation, would be bearing their share of the common burden.

This law was not a failure, as was claimed by its opponents, some of whom suffered by its operations, and made other people believe that they also suffered, so that there was a general clamor for its repeal, to which a succeeding legislature succumbed. It had its imperfections, as any law which you may enact will have, but these defects should have been
remedied by further legislation. I have repeatedly called upon the legislature to enact some measure that would bring about reform in this matter of taxation.

In my message to the General Assembly of 1895, and again referred to in my message in 1897, I said:

"In reference to the value of property as shown by the Comptroller-General's report gathered from tax returns, it is my duty to say to you that it does not approximate the real or market value of the property of the citizens of the State subject to taxation. Under the present system of making tax returns, outside of where the returns are affected by local assessment systems of towns and cities, each man is his own tax-assessor and places upon his property such value as he sees fit, even himself in many instances confessing that the amount at which it has been returned by him for taxes bears no approximate relation to the real value of the property. While the legislature nominally fixes the tax rate for the State to be collected from her citizens, each citizen has the power to fix his own tax rate, and many of them do fix it at an unjustly low rate by placing a valuation upon their property far below its value, and on a scale much lower than that by which the property of their neighbors are valued. The man who pays taxes upon property unfairly valued at $500, while on property of the same value his neighbor pays on $1,000, is lowering his own tax rate one-half, depriving the State of its just revenue, and placing an unjust burden upon his honest neighbor who values his property correctly. I most earnestly recommend that some plan be devised by which the State can arrive at something like a just valuation of the property of its citizens subject to taxation, and protect the man who honestly returns his taxes against imposition from those who return their property at an improper valuation. It is well to bear in mind that any plan which you may adopt will, when put into practical operation, prove imperfect; but as these defects appear it will be the duty of your successors to correct them and continue to perfect the law. Certain it is that no system which can be adopted can be open to greater abuses or more flagrant in-
justice than the law under which our property is now returned for taxation. A proper plan for assessment of property for taxation will not only equalize values, but place upon the tax-books a vast amount of personal effects which now escape taxation."

I now appeal to your body to respond to an awakened public interest on this subject, and am persuaded that effectual steps will be taken in the direction indicated.

SUPPRESSION OF LYNCHING.

I respectfully but urgently invite your attention to my message to your predecessors, in which I asked for legislation for the suppression of lynching in this State, and suggested legislation for their consideration. The Democratic platform in 1896 declared in favor of legislation on the line of my recommendation, and I respectfully call attention to the fact that this pledge of the party has not been fulfilled.

WORK OF LAST FOUR YEARS ADMINISTRATION.

In sending this, my last official communication to the General Assembly, I will take the liberty of calling your attention to many results which have been accomplished during my administration.

The State now collects interest on its money deposited with banks.

The Northeastern Railway has been sold and is now the property of the State, yielding a net income.
The public debt has been decreased four hundred and ten thousand dollars.

The annual interest account of the State has been decreased $40,905.

All State bonds which will mature prior to 1915, except those which can be paid with the sinking fund received annually, have been either paid and cancelled, or retired by substituting in lieu thereof bonds bearing a rate of interest much lower than the rate of the retired bonds.

The State has borrowed money at the low rate of $2\frac{1}{2}$ per cent. per annum.

The amount of pensions to Confederate soldiers annually has been increased one hundred and eighty-five thousand dollars.

The annual common school fund has been increased six hundred and ninety-four thousand dollars.

The State Normal School at Athens has been opened and maintained by the State.

New buildings have been erected at the State University State Normal School, School of Technology and at the Georgia Normal and Industrial College.

A textile department has been established in the School of Technology.

Large additions have been made at the lunatic asylum, and substantial improvements made at the School for the Deaf and Dumb.

The penitentiary question has been met and solved by the adoption of a system which will guarantee state control of all its convicts, felony and misdemeanor, secure just and humane treatment to all and yield to the State a net
income approximating one hundred thousand dollars per annum.

A State Board of Medical Examiners has been established.

Our election laws have been improved by the passage of the Registration Act.

The State School Commissioner has been made elective by the people.

Three additional Justices have been added to the Supreme Court, and the entire bench is elected by the people.

The Constitution has been so amended as to provide for the election of the Judges and Solicitors-General by the people.

A new Code has been adopted and published.

An Act has been passed revising the criminal laws of the State.

The resources of the State have been exhibited at three expositions of a national character, to wit: The Cotton States International Exposition, at Atlanta, the Tennessee Centennial Exposition, at Nashville and the Trans-Mississippi International Exposition, at Omaha.

Specimens of the products and resources of the State have been collected, which may, at small cost, be transported for exhibit at any future exposition.

The office of Governor has been relieved of a large part of its work and responsibility because of the action of the General Assembly in creating the office of Pension Commissioner and giving to the Prison Commission the power of pardon, in so far as it could be done under our
Constitution. But for the immense amount of work imposed upon the Governor in organizing the volunteer force of the United States, the duties of the position would, this year, on account of the reduction of the work of the Governor by the two above mentioned Acts, have been vastly lighter than it has been for years.

During the last four years the democratic party, which has been in control of the affairs of this State, has shown a disposition to correct existing evils and to inaugurate such reforms as the interest of the country demanded. The exhibition of this spirit has gone far to convince all the people of the State that there is no good to come from divisions and dissensions; but that within the ranks of this party all may come who desire to take part in perfecting our laws and advancing our business interests.

There is no reason to doubt that the same forces which have carried us forward during recent years will continue in the line of progress and reform, detecting and eradicating defects and upbuilding every interest which looks to the advancement and progress of all the people.

I cannot take leave of your body without, through you, extending to the people of Georgia my sincere gratitude for their many kindnesses to me. If, in the discharge of the duties imposed by their partiality, I have in any way contributed to the happiness of the people and the greatness of my State, it is to me a rich reward.

W. Y. ATKINSON,
Governor.
THURSDAY, OCTOBER 27, 1898.

PRESIDENT'S OFFICE,
GEORGIA SCHOOL OF TECHNOLOGY,

ATLANTA, GA., OCTOBER 10, 1898.

His Excellency, Governor W. Y Atkinson, Atlanta, Ga.:

DEAR SIR—I have the honor to submit, at your request, the following list of donors to the Textile Department of the Georgia School of Technology:

The following bill was read the first time, to wit:

By Mr. McLester of the Twenty-fourth district—

A bill to provide for a Board of Equalization of real and personal property subject to taxation in this State.

Referred to Committee on Finance.

By order of the President, the Governor’s Message was taken up and read.

The following resolutions were read and adopted.

By Mr. Humphries—

Resolved by the Senate, That the President be, and he is hereby authorized to appoint a committee of five to prepare rules to govern this body, and that the President, Hon. Wm. A. Dodson, act as ex-officio chairman.

The following resolution was adopted:

By Mr. Terrell—

Resolved, That the election returns for Governor and State House officers, which have been transmitted by the Secretary of State to this body, be immediately transmitted to the House of Representatives, as provided by law.

The President appointed the following Committee on Rules:
Mr. Dodson, chairman ex-officio, Mr. Humphries, Mr. Fouche, Mr. Redding, Mr. West and Mr. Little.

Mr. Terrell moved that 500 copies of the Governor's Message be printed for the use of the Senate; which motion was lost.

Mr. West moved to reconsider the action of the Senate on defeating the motion to print 500 copies of the Governor's Message; which motion was carried.

Mr. West also moved to amend the resolution by striking 500, and inserting 200.

The amendment was agreed to, and the resolution was adopted.

Senator Gross was granted leave of absence for the remainder of this week.

The hour of 11 o'clock having arrived, the President announced that the time of meeting in joint session had arrived, and the Senate would repair to the House of Representatives.

The President and Secretary, followed by the Senators, proceeded to the Hall of the House of Representatives, where being announced by the Doorkeeper, they were received by the House of Representatives standing.

The President took the chair and called the General Assembly to order.
The Clerk of the House, by direction of the President, then read the joint resolution by authority of which the joint session was convened.

It was moved and seconded that the presiding officer appoint tellers to open, count and declare the votes cast at the late election for Governor and State House officers; one from the Senate and two from the House.

The motion prevailed and the President appointed as tellers, on the part of the Senate, Mr. Brannen, and on the part of the House, Messrs. Bower and Copeland.

The business of the joint session was commenced and proceeded with until 1 o'clock p. m., when, on motion, the General Assembly was dissolved until 3:05 o'clock p. m., when the pending business would be resumed.

The Senators returned to the Senate Chamber and were called to order by the President.

Upon motion of Mr. Steed, the Senate adjourned until 3 o'clock p. m.

The Senate met pursuant to adjournment, at 3 o'clock; was called to order by the President.

Upon motion of Mr. Mann, the roll call was dispensed with.
The hour of 3:05 o'clock having arrived, the Senate repaired to the House, and being received by the House of Representatives, the President called the General Assembly to order.

The unfinished business of the morning was resumed and proceeded with until the votes cast for Governor and State House officers were opened and counted.

The President then announced that for the office of Governor, the Hon. A. D. Candler had received 117,455 votes, and the Hon. J. R. Hogan had received 50,841 votes. He then declared that the Hon. A. D. Candler, having received a majority of all the votes cast, was duly elected Governor of the State of Georgia for the ensuing term.

The Hon. Philip Cook, for Secretary of State, received 118,818 votes, and the Hon. L. O. Jackson, 49,080. The President declared that the Hon. Philip Cook, having received a majority of all the votes cast, was duly elected Secretary of State for the ensuing term.

J. C. DANIEL, Chairman.

The following communication was received from his Excellency, the Governor, through Mr. Warren, his Secretary, to wit:

Mr. President:

I am directed by the Governor to deliver to the Senate a communication in writing.

The following communication was read from his Excellency, the Governor.
MESSAGE.

STATE OF GEORGIA, EXECUTIVE OFFICE,
ATLANTA, November 9, 1898.

To the Senate and House of Representatives:

It is by the constitution made the duty of the Governor to give to the General Assembly, from time to time, "information of the State of the commonwealth," and in the discharge of this duty it is incumbent on me at the very threshold of your official duties to advise you of a serious deficiency in the public revenues.

For several years past a spirit of liberality in the appropriation of money from the public treasury, not warranted by the stringency of the times and the ability of the people to pay taxes, has been apparent, and frequent large supplemental appropriations have been made at the second session of each legislature, for the payment of which no adequate provision has been made. We have, in our anxiety to provide for the necessities of the institutions and objects for which it is the duty of the State to provide, lost sight of the constantly growing inability of the people to bear the ever increasing burden of taxation. Our annual appropriations from the treasury and the annual rate of taxation have increased year after year, while all values have shrunken, and the prices of our annual crops and of labor, and of all the products of labor, have gone continually lower and lower, and the ability to pay of all those
who have to bear the burthens of taxation has grown constantly less.

Owing to the continual increase in the shrinkage in values, and the disposition of men to evade in hard times the demands of the tax-gatherer, and to conceal from him such property as can be concealed, the annual revenues of the State have, year after year, fallen short of the estimates. From these causes, and the additional fact that in some instances appropriations have been made without adequate provision for their payment, there will not be in the treasury, on the first of July, money enough to meet the demands on it; and this, too, in the face of the fact that the rate of taxation and the aggregate amount of taxes collected from the people is the largest in the history of the State. It is to advise you of this grave situation that this communication is sent you, in order that you, in your wisdom, may provide by proper legislation to meet the emergency, and prevent a recurrence of the condition that now confronts us.

In order to be fully advised of the real condition of the treasury as it now is, and as it will be on the first of July, I, on the 7th instant, addressed to the State treasurer a communication calling for a statement of the actual available cash balance in the treasury on the first day of the present month, the probable receipts at the treasury from all sources between that date and the first day of July next, inclusive, and the probable disbursements on all accounts on and prior to the last named date, so as to show the condition of the treasury on the first day of July, 1899. This date has been selected because at that time
The cash balance in the treasury is usually at its lowest. The statement asked for was promptly sent to this department by the treasurer, and is as follows:

**Total:** $3,390,051 76

**Deficit:** $84,863 50

From it, it will be seen that there will be a probable deficit of nearly eighty-five thousand dollars on the first day of July. In other words, the money now in the treasury and that to be paid into the treasury between now and the last named date will lack about eighty-five thousand dollars of being sufficient to meet the legitimate demands on the treasury for the same period of time. In this estimate is not included four hundred thousand dollars which will be due the teachers of the public schools on the 20th
of July, 1899, for their second quarter's work, for the payment of which no provision has been made.

In this connection it is perhaps my duty to add that there remains approved by the Pension Commissioner and unpaid for the want of funds, pension claims to the aggregate amount of about sixty thousand dollars. It must be borne in mind that these deficits are all for the present year. If the same appropriations are made for the next year, and the rate of taxation remains the same as for this year, the aggregate amount of deficit on July 1st, 1900, will be at least twice as great as it will be in July, 1899.

Thus the condition that confronts us is this: we must either reduce appropriations or largely increase the rate of taxation, when it is already greater than it has ever been in the history of the State, and when our people, especially our farmers, upon whom the burden of taxation largely falls, are, owing to the unprecedentedly low price of their products, less able to pay taxes than they have ever been in the past. This is a grave situation, and it behooves us to meet it with due regard alike for the taxpayers of the State and the persons and institutions for which the State is both legally and morally bound to provide.

I submit these facts to the representatives of the people for their consideration and prompt action, feeling assured that they in their wisdom will solve the problem presented without any increase in the present rate of taxation, which under existing circumstances is already onerous and all that our people should for any purpose whatever be required to bear.

A. D. CANDLER,
Governor.
Mr. Hand moved that 200 copies of the Governor's message just read be printed for the use of the Senate, which motion was carried.

Upon motion of Mr. Steed the Senate adjourned till tomorrow at 10 o'clock.

By Mr. Park—

A bill to repeal the Act requiring the bank examiner to examine private banks.

By unanimous consent Senator Passmore was added to the Auditing Committee.

The following communication was received from his Excellency the Governor, through his Secretary, Mr. Hitch, to wit:

Mr. President:

I am directed by his Excellency, the Governor, to deliver to the Senate a communication in writing.
To the Senate and House of Representatives:

On the 9th instant I had the honor to call the attention of your honorable bodies to a special report of the State Treasurer, showing that there would be a deficit in the public revenues on the 20th of July next, of about five hundred and forty-five thousand ($545,000.00) dollars. In this message I expressed the hope that the representatives of the people would find some way of meeting the condition that confronted us without resorting to a further increase in the rate of taxation, which is already the highest in the history of the State, while the ability of the great body of our people, those engaged in tilling the soil, is, owing to the unprecedentedly low price of their products, less than it has ever been in the past. But I made no specific recommendation as to how to supply the deficiency in revenue, believing that the General Assembly, in its wisdom, would be able without suggestion from me to solve in the wisest manner, the problem that confronts us. But the discussion of the questions of taxation and revenue has developed so much diversity of opinion, not only as to the actual condition of the treasury, but as to how to surmount the difficulties that confront us, and so much hesitation in suggesting a remedy is manifested, that I deem it my duty to communicate to you the conclusions at which I have arrived after a most careful consideration of the question.

It has been suggested that a revision of our entire taxing
system will develop an amount of property which now escapes taxation, large enough to yield revenue sufficient to make up the deficiency in the State's revenues. No doubt such a revision, the importance of which I most earnestly urge upon the attention of the General Assembly, would uncover for taxation a large amount of property which now eludes the hand of the tax-gatherer, but not a sufficient amount to make up the deficiency in the State's revenue. The class of property which escapes the taxing officer is usually stocks and bonds and other evidences of indebtedness. While much property of this character undoubtedly escapes taxation, it is not as much as many suppose, for our high rates of taxation, State, county and municipal, have driven it largely out of the State. The price of money is exceedingly low. No good bond now sells in the market higher than a three and a half per cent. basis. In most of the counties the State and county taxes amount to one per cent., and in most of the cities the tax gatherer demands about as much for municipal purposes. Hence, to the holder of such securities, there is left, after paying taxes, State, county and municipal, only one and one-half per cent. net on his investment. This is so low, that it is to his interest to place his money elsewhere, where it will yield a better profit. He therefore seeks refuge in New England trust companies and savings banks, where he escapes taxation. This being the case, no taxing system can be devised that will reach this class of property, while our tax rates are so high, and even if, as hoped by some, large amounts of this sort of property could be reached and made to bear its share of the burdens of government, it could not be done in time
to meet the liabilities of the State which will press upon us in the next six or eight months—too early for a new taxing system to be enacted and put into operation. Hence, to meet the emergency some other remedy must be found, and after a most careful consideration of the matter, and with the utmost reluctance, I am forced to the conclusion that the only practicable way in which to deal with the question is, for a time at least, to curtail expenditures and reduce appropriations. To this conclusion, I believe all who study the question fairly and impartially must come at last.

This being conceded, the question presents itself, what appropriations can be reduced so as to bring the State's outgo within her income with least detriment to the best interests of all the people? There are some appropriations that cannot be cut, such as the public debt, including the $8,000.00 due the University annually, the interest on the $90,000.00 landscript fund still held by the State; such salaries as cannot under the constitution be reduced during the term for which the present incumbents were elected; insurance premiums on public property and the sinking fund. These are fixed charges on the treasury that cannot be reduced and must be met without abatement. Taking the total of all of these appropriations from the total of the estimates made by the treasurer for the next year, we have about three millions left on which to work in our effort to bring the State's expenditures down to her receipts without increasing the tax rate. Of this three million dollars, $640,000.00 goes to pensions and $1,650,000.00 in round numbers goes to common schools, a total of nearly

16 s1
$2,300,000.00, leaving only $700,000.00 estimated for all other purposes, an amount little more than sufficient to meet the demand on the treasury during the next eight months, unprovided for. In other words, if you wipe out your printing fund, your contingent fund, your military fund, your public building fund, etc., etc., and if all salaries and compensation to all officers of the legislative, executive and judicial departments of the State's government be abolished, and these officers work for nothing, you would not, at the present rate of taxation, after paying the fixed charges on the treasury which cannot be lessened, and the estimated appropriations to schools and pensions, have a dollar left.

Thus it is demonstrated that you must either raise the present rate of taxation or reduce your appropriations for schools and pensions. Much sympathy and sentiment has been indulged in by some people and some newspapers, professed friends of the schools and pensioners, about the sacredness of the appropriations for the old soldiers and the school children, and it is right for us to guard with jealous care these two objects of the State's care, but, at the same time, we must not lose sight of the fact that those who pay the taxes are entitled to as much consideration as those who get the benefit of them. We are the guardians of their rights as well as of the rights and interests of the school children and of the Confederate veterans. We are bound to exercise due care and consideration for the interests of each without unnecessary injury to the other. Every patriotic Georgian is willing to be taxed to the verge of confiscation, if necessary, to provide for the wants of the needy
veterans of the Confederacy, who stood a wall of fire, between our homes and an armed invader, and for the wants of his needy widow, and see to it that none of them ever want or go to a poor house; but neither sentiment nor justice requires us to levy taxes upon the poor mechanics and small farmers of the State, many of them themselves veterans, who have at best in such times as these, a hard struggle to live and feed and clothe those dependent upon them, to pay pensions to those who are better off than they are and who do not need the bounty of the State to supply their actual wants. The same may be said of our schools. The constitution wisely provides that schools shall be established and supported by the State, in which all the children in the State, between six and eighteen years of age may be taught the "elementary branches of an English education," and it is our duty to see to it that this provision of the constitution is carried out in letter and in spirit. Every patriotic Georgian is willing to be taxed to the utmost limit of his ability to pay, to do this, but we have been going too fast in this matter of education, as we have in appropriations for pensions. But few of our schools are confined to the "elementary branches of an English education." Other and higher branches are taught to a few (sometimes only two or three pupils) in many of the schools, necessitating higher priced teachers, and thus creating a demand for larger appropriations for the free schools. This is wrong, and was never contemplated by the framers of the constitution. Those who want to have their children taught Greek and Latin and higher mathematics are usually able to pay for it, and ought to do so without requiring their
neighbors, whose children are too poor to indulge in these luxuries, to be taxed to do it for them.

Again, the children in the rural districts for whose benefit the State's schools were primarily intended, for the towns and cities usually have school systems of their own, would not, if schools were taught at their doors twelve months in the year, be able to go to school more than four or five months, because they, both male and female, have in most cases to work in the field to aid their parents in supporting the family. This is a fact well known to all who are at all familiar with the conditions that prevail in the agricultural sections of our State, which embrace all of the State, except the cities and towns. Hence it is not necessary to overtax our people to support schools six, seven or eight months in the year, for the white children cannot, with few exceptions, avail themselves of them.

In view of all these facts and with a due regard for the best interests of all classes of our people, I have arrived at the conclusion that the tax rate, already the highest ever levied in the State, not only should not be raised higher, but should and can be lowered, and that appropriations should be reduced wherever it is possible to do so, and that this can be done in many places without injustice to any deserving, needy beneficiary of the State's bounty.

I therefore recommend that no extraordinary appropriation be made at this session for any purpose whatever, and that every ordinary annual appropriation which is not a fixed charge upon the treasury be reduced to the lowest possible limit compatible with the efficiency of the public service. The estimate for military purposes, for instance, can,
in my judgment, be reduced one-half. The estimates of ap­propriations to some of the institutions supported by the State which are approximately as high now as they were when the cost of living was much greater than it is in this era of low prices, may be reduced without injury to these institutions. I advise that the committees charged with the care of these institutions look carefully into their manage­ment and their requirements, and that wherever it is possible to retrench in the expenditure of money on their ac­count, it be done.

After all of this is done, however, further retrenchment will be necessary to bring the expenditures of the State down to her revenues and lower the rate of taxation, and the schools and pensions will have, for a time at least, to submit to the same inexorable necessity that all other objects of appropriation do, and it will be necessary to revise the pension laws so as to confine the State's bounty to those Confederate soldiers and those widows of Confederate soldiers, who actually need the aid of the State to supply their necessities and save them from want, and appeal to the patriotism of those who can live comfortably without pensions to do so until the condition of the country and the ability of our tax-payers will warrant a resumption of the present liberal pension policy. I believe these patriotic men, who on a hundred battle fields, from 1861 to 1865, manifested a heroism and self-sacrifice unparalleled in the annals of the world, can be relied on to make without mur­mur, this temporary sacrifice for the good of the State, in whose defense they shed their blood and offered their lives.

I advise, also, that the extra four hundred thousand dol­
lars added to the school fund this year be left off for the
next two years. This can, as I have already shown, be done
without impairing the efficiency of the schools, and without
depriving any child in the State of an opportunity of going
to school five months in each year, which is as long a time
and longer, than most of them could go even if the schools
were kept open twice that long.

These suggestions, gentlemen of the General Assembly,
are made to meet the emergency that confronts us, and that
the necessities of the State and of the tax-payers of the
State demand their adoption there can be no doubt, and that
those persons and institutions who are called upon to make
the temporary sacrifices suggested will do so willingly and
cheerfully, I firmly believe, for Georgians have from the
dawn of the revolutionary war down to this day been as
remarkable for their moderation and conservatism in mat-
ters of State policy as for their intrepidity and heroism on
the field of battle, and there is no instance in the history
of the State in which, when their representatives have
found it necessary to call on them to make sacrifices for the
public good, that they have not cheerfully made them.

ALLEN D. CANDLER.

Also, a bill to amend the charter of the city of Valdosta.

Also, a bill to incorporate the town of Edgewood in DeKalb county.

Respectfully submitted.

W S. WEST, Chairman.

Mr. Perkins, Chairman on the part of the Senate to visit the different States to investigate the Australian ballot, submitted the following report:

Mr. President:

We, the joint committee, appointed under a resolution of the General Assembly, to visit some State using the Australian ballot, investigate its operations and report our observations upon the same, beg leave to make the following report:

Your committee visited the State of Tennessee, where the general election was held in November.

Congressmen, Governor and State house officers, and members of the General Assembly and other officers were elected at the November election.

The committee visited Chattanooga and Memphis, and received special courtesies at the hands of the officers and citizens of each city.

Ample opportunities were given the committee to witness said election in all its operations, under the Australian ballot law of Tennessee.
The committee examined the preparations for holding elections and witnessed the management by the superintendents and other officers, also the counting out of the ballots after the polls were closed.

MANNER OF VOTING.

Prior to registering, the voter must pay his poll tax. This is required of every voter between the ages of 21 and 50 years.

There are three County Registrars appointed biennially by the Judge of the Superior Court for each county.

These three appoint assistant Registrars for each voting precinct and also a Commissioner of elections and managers for the elections at each voting precinct.

The arrangements for voting are simple and inexpensive.

A hollow square about 10 by 12 feet is enclosed with 2 by 4 lumber.

This square is occupied by the Judges of election and Clerks.

A rope is fastened around the front of the house in which the election is held, leaving an entrance on each side which is guarded by an officer. The entrances fifty feet from the door.

One of the assistant Registrars occupies a position at the door. He has all the tickets for that precinct, which are printed by the government and not distributed, except to qualified voters as they appear at the door.

A person wishing to vote approaches the door, exhibits to the assistant registrar, who has the tickets, his registration certificate and his poll tax receipt. Being properly
identified by this officer, he is given a ticket and allowed to pass within. He hands his ticket, poll tax receipt and registration certificate to the Commissioner of elections, who places a corresponding number on all three and returns them to the voter. The voter then enters a small booth in which is a shelf. The ticket contains the names of all the candidates, arranged in alphabetical order without other distinction. The voter makes a cross mark immediately in front or after the name of each candidate for whom he wishes to vote. He will then fold his ticket and return and hand it to one of the Judges of elections, together with his poll tax receipt and registration certificate. If the numbers on all three correspond, and the voter is otherwise identified as a legal voter, his ballot is deposited in the election box and the voter retires.

Only one voter is allowed to enter the booth at the same time, and he is allowed ten minutes to prepare his ballot if no others are following, and five if others are following.

The prerequisites to registration are similar to the same under Georgia laws except the payment of taxes. Under the Tennessee law the payment of poll tax is all that is required so far as taxes are concerned. All candidates are nominated by primary elections, held under similar rules to those prescribed by political parties in Georgia.

Your committee was much pleased with the good order preserved around the voting precincts—the same being absolutely free from strife and turmoil.

So far as observed, the elections are fair and honest—no inducement being offered to any voter.

Under a proper and faithful management of an election
under this law, fraud and bribery, and the use of improper means seem to be impossible.

The voting is undoubtedly secret, each voter marking and preparing his own ticket, unless blind or otherwise physically unable to prepare a ticket for himself.

No person is allowed to accompany the voter after he reaches within fifty feet of the door of the house in which the election is held.

Without favoring or expressing a preference for the enactment of the Australian ballot law or any other special ballot law, your committee is profoundly impressed with the necessity of some kind of ballot reform for Georgia, a reform that will prevent the purchase and sale of votes with money or other corrupting influences.

A resolution, extending congratulations to Lieutenant Thomas M. Brumby, the now distinguished Georgian, who raised the first American flag over Manila.

The House has also passed the following bill of the Senate, by the requisite constitutional majority, to wit:

A bill to amend and consolidate and supersede the several Acts amending the charter of the city of Cedartown in the county of Polk.

Passed. Ayes 96, nays 0.

The House has also adopted the following joint resolution of the House, in which the concurrence of the Senate is asked, to wit:

A resolution to authorize the Governor to decorate the capitol in honor of the President.
The House has also passed by the requisite constitutional majority, the following bill of the House, to wit:

A bill to amend the Act incorporating the town of Lumpkin.

Passed. Ayes 92, nays 0.

The following House resolution was read and adopted:

By Mr. Park—

A resolution authorizing the Governor to decorate the capitol in honor of the President.

The following House bills were read the first time:

By Mr. Everett—

A bill to amend an Act incorporating the town of Lumpkin in Stewart county.

Referred to the Special Judiciary Committee.

Mr. West, Chairman of the Committee on part of the Senate to investigate the condition of the W and A. R. R., submitted the following report:

MR. PRESIDENT:

The Special Joint Committee appointed to consider the report of the Special Attorney for the Western & Atlantic Railroad and report their conclusions and recommendations, beg to report as follows:

The committee, in so far as the time at their disposal
would permit, have reviewed the work of the office as shown in the official reports and as brought to their attention by the Special Attorney.

For more than twenty years prior to the appointment of the Special Attorney the State had no direct representative charged with the guardianship of its interest in this great property. In consequence, valuable properties pertaining to the Western & Atlantic Railroad had passed into the possession of and were adversely claimed by others, records had been scattered, lost and destroyed, and the rights of the State were otherwise confused, unsettled and difficult of ascertainment. The terminals both at Atlanta and Chattanooga were in dispute. Serious controversies existed with several railway companies concerning rights of way, and at almost every station encroachments existed, and adverse rights were claimed.

Thus, with regard to the terminal at Atlanta, it appears that the State's lessee was in undisputed possession of only nineteen feet of the right of way between Forsyth and Whitehall streets, the remainder being occupied by a railway company which claimed to have acquired it in 1846; the ownership of the Union Depot was in dispute, the State being accorded only a three-tenths interest therein; Wall street was adversely claimed by the city of Atlanta, and the State had no evidence of title to a considerable portion of the right of way between Whitehall and Pryor streets. All of these matters have been adjusted favorably to the State by the special attorney through litigation or otherwise; the title of the State to the full width of its right of way of one hundred feet between the points named
has been established. Complete title to the right of way between Whitehall and Pryor streets has been acquired. The status of Wall street has been declared, with the consent of both the State and the city, and the right of the State to the Union Depot has been ascertained.

The foregoing is given as an illustration of the character of the difficulties encountered and the results accomplished. A similar state of affairs existed with reference to the Union Depot at Chattanooga, and like results have been accomplished, after litigation in the courts of Tennessee.

The entire right of way has been practically freed of encroachments. The East & West Railroad was occupying the right of way for the distance of about one mile at Cartersville; the Marietta & North Georgia Railroad was trespassing for the same distance at Marietta; and the Belt Railroad seriously encroached upon the right of way at Atlanta. All of these have been satisfactorily adjusted.

Numerous parcels of outlying property, some of which had been entirely lost sight of, were in the possession of third persons under claim of title. Some of these claimants had held possession for more than forty years. All of these properties have been recovered. Numerous other instances might be cited, but these are sufficient for the purpose of this report.

It seems that in every case the rights of the State have been established. The Special Attorney has been uniformly successful, both in the courts and before special tribunals.

The value of the property recovered, and in which the rights of the State have been favorably established, may-
be conservatively estimated as exceeding a half million dollars. Important legal precedents have been established in the courts of both Georgia and Tennessee, which will afford future protection to this property.

Thus, it has been held that the State owns the railroad in her sovereign capacity; that, as affecting this property, estoppel does not apply, prescription does not run, nor is it within the meaning of any statute affecting private rights, unless the State be included within the express term.

Complete official maps of the entire road, including both terminals and rights of way, have been prepared and filed. These maps are admissible in evidence in the courts as *prima facie* true and correct. They constitute constructive notice of their contents, and are invested with other like qualities given by the law to the record of deeds to lands. Boundaries of the State’s property are thus defined and perpetuated, and the public is put upon notice, so that trespassing thereon may be avoided.

Several highly important matters remain to be disposed of. The building of a new Union Depot at Atlanta has been recently much agitated, and it seems that the matter is now being seriously considered by the parties at interest. An adequate passenger station on the present site would materially enhance the value of the Western & Atlantic Railroad, and would thereby enure to the benefit of the State. The State should not consider an abandonment of the present site, nor should it, in our opinion, entertain any plan that would deprive it of the absolute control of this terminal at the expiration of the present lease. Should the State consent to a lease to a terminal company beyond the
expiration of the term of the present lease of the Western & Atlantic Railroad, it should reserve the privilege or option of acquiring all outstanding interests at a valuation to be arrived at in a definite manner.

Thus, a value might be fixed upon each year's use with reference to the amount expended in the erection of the station, so that the value of the outstanding interest could be definitely ascertained at any given time. Should such a privilege be reserved and not exercised, the State should require the payment of a ground rent after the expiration of the present lease.

The rights and interests of the State and of the Western & Atlantic Railroad should be most carefully guarded in any plan that may be adopted. In view of the fact that no final plan has been as yet submitted, we recommend the appointment of a commission, to consist of the Governor, the Attorney-General and the Special Attorney for the Western & Atlantic Railroad, together with two members from the House to be appointed by the Speaker, and one from the Senate to be appointed by the President, who shall have authority to consent, in behalf of the State, to such plan as may meet with their unanimous approval.

We submit with this report the draft of a bill which embodies the ideas of the committee in this regard.

Official map number six shows the entire right of way through lots numbers 243 and 244 in Fulton county to be of the width of 200 feet. This appears to be clearly a mistake. It is only from the point of intersection of the original right of way with that subsequently adopted that the width is 200 feet. We recommend that a correction of the
map be authorized and present herewith form of a joint
resolution to this effect.

There are three cases now pending in the courts of this
State: One in Fulton Superior Court, involving the right
of the Southern Railway to use and occupy the right-of-
way for six miles in and near Atlanta; one in Whitfield
Superior Court, involving the right of the Southern Rail-
way to use the right-of-way for seven miles south of the city
of Dalton; and one in Cobb Superior Court, involving an
encroachment on the right-of-way in the city of Marietta.
The cases against the Southern Railway involve questions
of the most far-reaching importance.

It appears that in 1860 Governor Brown made a convey­
ance to the Nashville & Chattanooga Railroad of about
eight acres of the original depot grounds at Chattanooga.
A part of this property is used and occupied by the Nash­
ville, Chattanooga & St. Louis Railway, which is the suc­
cessor of the Nashville & Chattanooga Railroad, and a
large part of the property has been sold to private per­
sons and has been extensively improved. The Supreme
Court of Tennessee, in the recent case involving the own­
ership of the Chattanooga Union Depot, declared that
this deed of Governor Brown was unauthorized, and there­
fore its recitals were not binding upon the State by way of
estoppel. While this does not adjudicate the question, it
apparently reflects the opinion of the courts of Tennessee
thereon.

Should the State seek to enforce what is conceived to
be its right in this regard, suit would be brought in the
Supreme Court of the United States. It is proper to say
that the questions involved are delicate and uncertain, and the result of such a suit cannot be predicted with any degree of confidence. It is also a question of policy whether the State will, after a lapse of forty years, question the title of innocent third persons who seem to have acquired the property in good faith and for a valuable consideration.

The General Assembly has heretofore adopted a joint resolution requesting the General Assembly of the State of Tennessee to enact proper legislation authorizing the filing of the official maps of the Western & Atlantic Railroad in Hamilton county, and to give to the same when so filed the force and effect of records of deeds to lands. We are advised that the Governor of this State and the Special Attorney for the Western & Atlantic Railroad have several times endeavored to secure the co-operation of the Governor of Tennessee upon this subject, but their efforts have been fruitless. The General Assembly of Tennessee will convene in January next, and we think it important that an effort should be made to secure the legislation requested.

The General Assembly, at its last session, directed the Special Attorney to prepare a hand-book of the Western and Atlantic Railroad, setting out either substantially or at large all important acts and resolutions of the General Assembly of this State and of the State of Tennessee touching this property, together with such ordinances of the cities of Atlanta and Chattanooga, all important contracts and agreements, and a digest of all judicial decisions in the courts of this State and of the State of Tennessee and of the United States affecting the Western & Atlantic Railroad. The purpose of the resolution was to obtain a
record of the legislative, executive, judicial and physical
history of the Western & Atlantic Railroad.

The Special Attorney has made considerable progress on
the work, the first draft thereof being now in manuscript.
The importance of this work seems manifest, and its value
will increase as time passes. When the State comes to
deal with a disposition of the Western & Atlantic Railroad
at the expiration of the present lease, it would seem that
the value of this work would prove very great. We find
that the Special Attorney has been forced to employ cler­i­
cal assistance in the preparation of the manuscript, and
further assistance of the same character will be necessary.
In our opinion such clerical expenses should be paid out
of the contingent fund.

At the beginning of the present year, when it was
thought that the work originally contemplated could be
finished within the year, the Special Attorney undertook
to complete such matters as were then pending without
additional compensation. Under this agreement the
Special Attorney would in any event continue to represent
the State in the case pending at Marietta and in the two
cases against the Southern Railway Company, and would
also complete the hand-book. Other matters within the
purview of the agreement have been satisfactorily disposed
of.

Your committee recommends that the office be not dis­
continued at this time. The value of the services
rendered by the Special Attorney has far exceeded the cost
of the office, and it is fair to presume that such will con­
tinue to be the case. When it is remembered that the rental
paid to the State by the present lessee of the road exceeds five per cent. on eight millions of dollars, and that the annual cost of the office of Special Attorney is less than the value of two days' rental, the State's interests would seem to require the services of the Special Attorney for their due protection and preservation. No corporation owning property of such magnitude would consent to dispense with the services of a special representative who had so successfully guarded its interest.

In addition to what may be termed the current work of the office involving new matters and questions that must constantly arise, the special work outlined and now in progress requires that the services of the Special Attorney be retained.

The committee begs to further say that the Special Attorney, Hon. W. A. Wimbish, has brought to the discharge of his duties a high degree of fidelity, zeal and professional ability. His work has been eminently satisfactory; and in view of his special fitness we think the State could ill afford to lose the benefit of his service at this time.

Mr. West, Chairman on the part of the Senate, to consider the report of W. A. Wimbish, on the true northern boundary of the State, submitted the following report:

Mr. President:

The Special Joint Committee, appointed for the purpose of considering the report of W. A. Wimbish, Esq., concerning the true northern boundary of this State, and to recommend such action on the part of the General Assembly as should be appropriate, beg to report as follows:

It seems reasonably certain that the true and ancient boundary of the State was some twelve miles north of the 35th parallel of north latitude, which parallel marks the present boundary between Georgia and Tennessee, and Georgia and North Carolina. In 1804 the General Assembly of this State adopted an Act, in the preamble to which it was recited that the northern boundary was defined by the 35th parallel. This declaration has since been frequently repeated.

In 1887 Georgia passed an Act, declaring that the line between Dade county, Georgia, and Marion and Hamilton counties, Tennessee, was unsettled, and providing for the appointment of commissioners to meet similar commissioners on the part of Tennessee, "whose duty it shall be to survey, establish and proclaim the true line between the disputed points." In 1889 Tennessee adopted a reciprocal Act containing similar recitals. The commission so authorized by the two States has never acted.

If these Acts are to be construed to mean merely that the true location of the 35th parallel is in doubt, this sim-
ple question can be easily determined. If, however, the proper construction be that the true and ancient boundary is in dispute, then the whole question is opened on its merits, and the State of Georgia should take appropriate action.

The committee would recommend legislation providing for the appointment of commissioners to consider and determine the whole matter; and that reciprocal legislation be invited on the part of Tennessee and North Carolina. A resolution expressing the ideas of the committee is submitted herewith.

Mr. Wood, Chairman of the Committee on School for the Deaf, submitted the following report:

Mr. President:

The Committee on the School for the Deaf, located at Cave Springs, have visited that institution, and beg leave to submit the following report:
The general hygienic surroundings of the institution are
good, and the health of the inmates is as good as can be
expected in an institution of this kind anywhere.

The school is growing, and both departments, white and
colored, are well filled.

We find the grounds and buildings well kept and in
good condition, except the negro building, which needs
some slight repairs.

The disbursement of all funds appropriated by the State
and expended by the institution are properly vouched for,
and we desire to commend the treasurer, Mr. Simmons,
for the careful and correct manner in which the books of
this department are kept.

We feel that the principal, Mr. Connor, deserves the
commendation of this body and the thanks of the people
of Georgia for the efficient and painstaking service he is
giving this institution.

We desire also, to express our perfect satisfaction with
the whole management of the institution, and the efficiency
of all teachers and officers connected therewith.

We believe that the institution needs an additional ap­
propriation for building purposes, but in consideration of
the stringent financial condition of our State, we recom­
mand that no appropriation for that purpose be made at
this time.

Respectfully submitted.

J. S. WOOD, Chairman.

Mr. McGehee, Chairman of the Temperance Commit­

Mr. Wight, Chairman of the Committee on the part of the Senate, submitted the following report:

Mr. President:

The Joint Committee appointed to prepare suitable resolutions upon the death of Hon. W T. Jones, representative of Dougherty county, submits the following memorial:

Whereas, In the death of Hon. W T. Jones of the county of Dougherty, the county has sustained the loss of one of its most valued citizens, and the General Assembly of Georgia one of its most active and progressive members; be it resolved,
1st. That in the untimely demise of Judge Jones, we, the members of the General Assembly, have met with an irreparable loss. As a man, a citizen, an officer, he had fully met and faithfully performed the duties devolving upon him. He was born in Dougherty county, Ga., where he lived all his life; was a lawyer of high standing; was Judge of the county court of Dougherty for twenty years; was many times elected member of the city council of Albany. All who knew him testify to his unblemished and high record. We mourn his death, and his services will be sadly missed in the body of which he was so conspicuous a member.

2d. That we tender to the bereaved family our deepest sympathy, and express to them our sincere and earnest sorrow in the early death of this upright and zealous citizen, and our faithful fellow-worker.

3d. That a copy of these resolutions be forwarded to his family, whose sudden affliction calls forth our tenderest compassion.

Respectfully submitted.

ED. L. WIGHT, Chairman.

The report was adopted.

Mr. Nesbitt, Chairman of the Joint Committee, appointed to visit the Girls' Industrial School, the State Normal School and the State University, submitted the following report:

*Mr. President:*

The Joint Committee, appointed from the Senate and the House of Representatives, under House resolution No. 43, to visit the Girls' Industrial School at Milledgeville, and also the State Normal School and the State University at Athens, beg leave to make the following report:

We were much surprised with the grand work being done for the girls of the State at Milledgeville, and refer to it with both pride and pleasure. The scope and character of the instructions, the home-like influences, thrown around the students, the care and neatness required in the arrangements of the dormitories, the general air of thoroughness, all speak in unmistakable tones of the watchful care of the teachers, who are entrusted with the training of such a large number of the girls of our State, those who are, at no distant day, to take their places in the busy ranks of our modern bread-winners. The plan of industrial education pursued at the institution fills a long-felt want in the training schools of our State.
The buildings, unfortunately, are over-crowded, and many applicants have to be turned away. But for our present financial straits, we would gladly recommend that funds be appropriated for increasing the boarding accommodations.

Some needed repairs are in evidence, and we would recommend that a sum sufficient for the necessities be advanced from the State treasury.

The girl who receives her diploma worthily from the Industrial School at Milledgeville starts out with the assurance that she has the moral, mental and physical training for a life of usefulness. We cannot speak in too high praise of this valuable school.

THE UNIVERSITY.

At Athens we were shown through the different departments of the University. We were gratified to note the improvement in the general appearance of the buildings on the campus. The last legislature made an appropriation for the erection of a much-needed building for the offices, recitation-rooms and laboratory, and its completion has relieved, to a great extent, the congestion which existed previously. We found the morals of the students good, and the attendance encouraging, when depressed business conditions are considered. The faculty have started a cooperative boarding-house, which enables a student to obtain board at about $8.00 per month, under conditions which are neat and desirable. Additional dormitories are greatly needed.

The trustees have purchased a most eligible farm near
the city limits, where the student desiring light upon scientific agriculture will have every opportunity afforded him of studying and experimenting along this line. And just here, perhaps a word of explanation may not be amiss. It is not generally understood that the Act of Congress, donating the lands, from which the fund for the Agricultural College is derived, distinctly stipulates that this fund shall only be used for the demonstration of scientific knowledge.

Another rigid condition is, that the funds shall not be invested at an interest of less than five and one-half per cent. Therefore, any effort in the legislature or elsewhere, to divert this money from its proper channel, or to invest it at three and one-half or any other lower per cent. than required by Congress, can but prove futile. Its status is fixed by law, and if we would enjoy its benefits, we must comply with its conditions.

Another misapprehension is, that the University is a heavy expense, yearly, to the State, whereas, the truth is, that the University does not receive one dollar of annual income from the State, but is supported by certain specific bequests, and from the landscript fund from the United States Government. Georgia makes no appropriations to the University, except for the erection of buildings, when absolutely needed. The landscript fund referred to was realized from the sale of 240,000 acres of land donated by the United States Government, and amounts to $232,000. Of this amount, all except $90,000 is invested in Georgia State bonds at 7 per cent. The $90,000 is in the treasury, the State paying the interest at 7 per cent. From
this source, and from the Milledge, Terrell, Brown, and other legacies, the annual income of the University is about $44,000. That the University has a farm where scientific experiments may be illustrated, is due rather to the careful business management of the trustees, than the liberality of the State. This farm does not belong to the State, but to the University. Nor does the State appropriate one cent toward its maintenance. We make these statements to correct some wrong impressions which have gone abroad, and in justice to an institution which is doing a grand work for the youth of our State, and of which every Georgian should feel justly proud. Here too, more room is needed, but the stringency of the time prevents an application for help.

THE STATE NORMAL SCHOOL.

Here we found the students in their recitation-rooms, undergoing their examinations before the close of the present session. Between five and six hundred students have matriculated during the year just passed. The buildings are in good condition, but not large enough to accommodate the number of young men and young women who are fitting themselves for teachers. The dormitories are comfortable, and the mess hall neat and well conducted. The board, while ample and wholesome, has been reduced to a minimum. The student obtains food, fuel, lights and washing for the very small sum of $7.00 per month—an amount so small in comparison with the benefits received, as to be almost incredible.

The instruction is of a high order, and offers unsurpassed
opportunities for teachers wishing to thoroughly prepare themselves for their profession.

Altogether, our trip was both encouraging and instructive. Every opportunity and facility was extended us to enable us to investigate every item of income and disbursement as well as every line upon which education is being conducted. We feel that, as a people, we have reason for gratitude, in that our institutions of learning are contributing so much to the general advance of knowledge.

In conclusion, we beg leave to say, that while present general conditions are unsatisfactory, and the clouds over the future are dark and lowering, the minds of our young men and women are being developed along lines, which, if properly directed, will enable them to lift the clouds, and finally to bring our common country into the broad sunlight of renewed prosperity.

All of which is respectfully submitted.

R. T. NESBITT,
Chairman of the Committee on the part of the Senate.

J LINDSEY JOHNSON,
Chairman of the Committee on the part of the House.

By unanimous consent, the following Senate bill was taken from the table to be put upon its passage:

Respectfully submitted.

W S. WEST, Chairman.

By unanimous consent, Senators Daniel, Heard and Moye were added to the Committee on Corporations.

By unanimous consent, the following House bill was taken up, read the third time to be put on its passage:

By Mr. Willingham—

A bill to amend the Act creating a Board of Commissioners of Roads and Revenues for Monroe county.

Upon the passage of the bill, the ayes were 35, nays 0.

The bill having received the requisite constitutional majority was passed.
Mr. Heard, Chairman of the Engrossing Committee, submitted the following report:

_Mr. President:_

The Committee on Enrollment report as duly enrolled and ready to be transmitted to the House, the following Senate bills, to wit:

A bill to provide for the more full and complete transfer and assignment of rent notes and mortgages.

Respectfully submitted.

COLUMBUS HEARD, Chairman.

The following Senate bills were read the third time to be put upon their passage:

By Mr. Brannen—

A bill to amend section 2636 of the Code of Georgia, which provides a penalty for violation of using the name of a person in a partnership, who is not a member thereof.

Upon the passage of the bill, the ayes were 31, nays 0.

The bill having received the requisite constitutional majority was passed as amended, and the amendments were as follows:

Amend by inserting after the word "permission" in the 6th line the following words, "which permission shall be in writing and witnessed by two persons, one of whom
shall be an officer authorized to witness deeds.” Also, amend by adding after the word “permission” in the last line of the bill, the following words: “which permission shall be in writing and witnessed by two persons, one of whom shall be an officer authorized to witness deeds.”

The following message was received from the House, through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

The House has passed by the requisite constitutional majority the following bills of the House, to wit:

A bill to amend sections 1778 and 1781 of the Code of 1895, and for other purposes.

Passed. Ayes 105, nays 36.

Also, a bill to amend section 1262 of the Code of Georgia, volume one, of the year 1895, and for other purposes.

Passed. Ayes 94, nays 54.

Also, a bill to repeal an Act to provide for and regulate municipal elections in the city of Savannah, and for other purposes.

Passed. Ayes 108, nays 0.

Also, a bill to amend section 1250 of volume 1 of the Code of 1895.

Passed. Ayes 93, nays 52.
Also, a bill to provide for the registration of voters to vote at the municipal elections in the city of Savannah, and for other purposes.

Mr. Rawlings, Chairman of the Committee on the part of the Senate to visit the Georgia Sanitarium, submitted the following report:

Mr. President:

Your standing Committee on the Georgia State Sanitarium, after a careful investigation of the methods of its present operation and expenditures, and a thorough inspection of the buildings, machinery, livestock, farms and garden, beg leave to report as follows:

The buildings, which are every way ample for present usage, are all in good condition as to repair and sanitation. The grounds and yards carefully and neatly kept, and the drainage good.

The manner in which the apartments for the inmates are kept, and the neat and cleanly condition of the floors and walls of the hallways, and the interior parts of all the buildings show diligent efforts on the part of the present management to keep the buildings in the most perfect state of preservation and sanitation.

An inspection of the machinery showed the pumps and heating apparatus in first class condition. Two of the engines are getting old; though doing good work at present, will have to be replaced with new ones in the near future. We also find two of the boilers from long and constant use, show signs of failure and will shortly have to be replaced.
The ice plant, which the management has recently erected in connection with the institution, is in good condition. The machinery propelling the laundry and planing mill are all in fine condition.

We find the gas plant doing good work and supplying ample quantities of gas for the institution.

All of the above machinery show signs of having been well cared for, clean and neat, location fine, the buildings well kept, and we take occasion to congratulate the management of the institution in securing the service of so competent an engineer, Captain Dessau.

We find that the farm and gardens connected with this institution yield to it annually a great quantity of fresh vegetables, potatoes, fruits, cereals and hay, which are gathered and used as needed, adding much to the necessities as well as the comforts of the inmates thereof, which perhaps could not be had so cheaply otherwise. The dairy department is likewise a blessing to the institution, furnishing to it daily, fresh, and of the finest quality, milk and butter, as well as large quantities of beef as the surplus cattle of the dairy farm are used. There are now at the farm 120 milk cows, 23 calves and 24 heifers. This farm yields to the institution annually large quantities of pork, there being on hand now 242 pork hogs.

We find all other stock, farming tools and farming machinery suitable, modern, and well cared for.

We examined into the finances through a sub-committee from your General Committee, and after a careful and painstaking examination of the various items which go to make up the total expenditures for this institution since
an examination was had by a former committee of the Georgia Legislature, comparing bills, vouchers and receipts, we are able to say that the system of bookkeeping is entirely satisfactory, and the verification which was exhibited showed the work in this department faithfully and honestly performed.

We find that the medical department of the Georgia State Sanitarium, consisting as it does, of Dr. T. O. Powell, superintendent; Dr. J. M. Whitaker, 1st assistant, and Dr. L. M. Jones, Dr. J. C. Patterson, Dr. W A. O’Daniel, assistant physicians, and Dr. ———, Pathologist, are thoroughly competent for their work, courteous and obliging to patients, and diligent in their attentions to the unfortunate inmates who are by distribution assigned to their charge.

We were careful to ascertain the satisfaction given by the physicians there employed, and are pleased to report that their labors have given entire satisfaction, both to the authorities and patients, and feel that their places would be hard to fill.

The Steward’s department of this institution was examined also by the sub-committee. The books and accounts and vouchers in this office, so far as time allowed for examination, were found to be correct, and all of the business in said office seemed to be carried on in a systematic business way.

It is through this department that all clothing, bedding, furniture, food, fuel, and feed supplies required for the institution are purchased, and your committee has taken occasion to carefully examine the method in which these con-
tracts are let, to whom and whether or not they had been so let as to not only comply with the law, but to secure to said institution the best business management. In this investigation we have been confronted with certain facts which lead us irresistibly to conclude, that the best business conduct has not been exercised in behalf of said institution.

We find, from evidence submitted to your committee, and admissions by one of the trustees, to wit: A. Joseph of this institution, who receives his compensation as trustee from the State, has been the contractor with said institution for the purchase of almost every article used by said institution, in the way of dry goods for the past two or three years. It is true, that the goods furnished to said institution did not always go by direct purchase from said trustee, but did go through said trustee, either directly or indirectly, and from every purchase so made, said trustee was using his relation to said institution for the purpose of gain and profit, having made large sums of money from said contracts, whether the articles were sold directly by him to said institution, or whether he submitted bids in the name of others, and the purchases made nominally by other parties or not. This trustee frankly admitted to your committee the truth of above statements, claiming that he had a perfect right to do so, notwithstanding, we find the following paragraph in the By-laws, Rules and Regulations adopted by the trustees of the Georgia State Sanitarium, at Milledgeville, Ga., May, 1898, to be found on page 4, section 7:

"No trustee, or any of the officers created by them, shall
be interested directly or indirectly, in any contract or sale of any supplies to the institution."

This trustee claims that no loss has come to this institution by reason of his conduct, but your committee are forced, in justice to themselves and this institution, to declare this conduct improper and not calculated to subserve the best interest of the institution on the part of the trustee. Be it therefore

Resolved, That this committee, in view of the facts developed, recommend the appointment of a joint committee of three (3) from the House and two (2) from the Senate to make a thorough investigation of the management and report at the next session of the legislature.

We desire especially to commend the board of trustees for their effort in securing the extension of the Central railroad into the grounds and to the depot of the Sanitarium.

This will be a great saving in the item of freight to the institution. The State is largely indebted to the trustees for this improvement.

Your committee, after having carefully examined every department of said institution desire to state before concluding this report, that they desire to commend in the highest terms the management generally and in detail of the present superintendent, and to declare in behalf of his eminent ability for the position he occupies.

We recommend that the following appropriations be made:

For support and maintenance of the institution for the year 1899, $280,000.00.
For support and maintenance of the institution for the year 1900, $280,000.00.

Respectfully submitted.

WM. RAWLINGS,
Chairman of Senate Committee.

Upon motion of Mr. Redding, the report of the committee on Senate bill No. 2 was disagreed to, and the bill was recommitted to the General Judiciary Committee.

The following Senate bill was read the third time to be put upon its passage:

By Mr. McGehee—

A bill to provide stenographers for the superior and city courts of this State, and to fix their compensation.

Mr. Humphreys called for the previous question, which call was sustained.

The vote was upon the passage of the substitute offered by Mr. McLester, and upon this Mr. McGehee called for the ayes and nays, which call was sustained, and the vote was as follows:

Hodge, Steed, 

Those not voting were Messrs.—

Bunn, Mr. President.

Ayes 25. Nays 17

The substitute was adopted.

Upon passage of the bill by substitute, as amended, Mr. McGehee called for the ayes and nays, and the vote was as follows:

Those voting in the affirmative were Messrs.—

Daniel, King, Rawlings,
Dickerson, Little, Sutton,
Dowling, Mann, Thompson,
Fouche, Morrison, Thrasher,
Greene, Moye, Underwood,
Gross, McGehee, Wilcox,
Grovenstein, Passmore, Wood,
Humphreys, Perkins, 

Those voting in the negative were Messrs.—

Blalock, Johnson, Steed,
Brannen, Lang, Terrell,
Clifton, McLester, Webb,
Davis, Nesbitt, West,
Hand, Odom, Wight,
Heard, Redding, Wingfield,
Hodge,
Those not voting were Messrs.—

Bunn, Mr. President.

The bill having received the requisite constitutional majority was passed by substitute as amended, and the amendments were as follows:

Amend by striking the following words from section 1 of the substitute: “And for any portion of a day, said reporters shall be paid at the rate of ten dollars a day for taking down evidence in criminal cases. Provided, however, that when said reporters shall be engaged in taking down the evidence on any day for a trial less than a half day, they may charge and collect for a half day’s work.”

Also, amend by striking out the following words from section 3 of said substitute: “Except that the county commissioners, or such other persons as may be in charge of the finances of the county, may audit the accounts of the stenographers to see that they are correct.”

Mr. McLester gave notice that he would move to reconsider the action of the Senate in passing the foregoing bill.

The following Senate bill was read the first time:

By Mr. Dickerson—

A bill to provide a uniform method of exercising the right of condemning, taking or damaging private property.
Referred to the Committee on Corporations.

The following communication was received from his Excellency, the Governor, through his Secretary, Mr. Hitch, to wit:

Mr. President:

I am directed by the Governor to deliver to the Senate a sealed communication, to which he respectfully invites the consideration of your honorable body in executive session.

Mr. Perkins, Chairman on the part of the Senate of the joint committee, appointed to visit the School for the Blind, submitted the following report:

Mr. President:

The committee appointed on the part of the Senate to visit the School for the Blind at Macon, begs leave to make the following report:

We have examined the disbursements of the funds appropriated by the State to the board of trustees, and find they have made only such expenditures as were necessary and essential to the support and equipment of the institution.

The system of accounts is simple, and at the same time, comprehensive.

In our opinion, the students are receiving proper instructions, care and attention.
We find that the sanitation of the buildings and grounds has received that care and attention that its importance demands, with the exception of the roof on the main building, which needs some repairs. The buildings are in good condition and amply sufficient for the needs of the institution, and the grounds are well kept.

We recommend the appropriation of eighteen thousand ($18,000.00) dollars for the support of the Blind Asylum, each, for the years 1899 and 1900.

Respectfully submitted.

M. T. PERKINS, Chairman.

The following House bills were read the second time:

The Journal of yesterday was read and approved.

The following message was received from the House, through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

The House has adopted the following resolution, to wit:

A resolution, that House bills Nos. 127 and 128, which were yesterday transmitted to the Senate pending a motion to reconsider, be returned by the Senate immediately to the House.

Mr. West moved to reconsider the action of the Senate on yesterday upon the passage of the following bill:

By Mr. McGehee—

A bill to provide stenographers for the city and superior courts of this State, and fix their compensation.

Mr. Humphreys moved to indefinitely postpone the motion to reconsider. The motion was carried.

Mr. Little, Chairman of the Committee on Agriculture, submitted the following report:

Mr. President:

The Committee on Agriculture have had under con-
sideration the following Senate bill, which they instruct me to report back to the Senate with the recommendation that the same do pass, to wit:

A bill to amend sections 1572, 1574 and 1576 of the Code of Georgia of 1895, the same being sections 2, 4 and 6 of an Act, approved December 27th, 1890, entitled an Act to regulate the sale of fertilizers in this State, to fix a method of determining the value of same, and for other purposes.

Respectfully submitted.

WM. LITTLE, Chairman.

Mr. Wight, Chairman of the Committee on Finance, submitted the following report:

Mr. President:

The Committee on Finance have had under consideration the following Senate bills which they instruct me to report back to the Senate with the recommendation that the same do pass, to wit:

A bill to authorize the Commissioner of Agriculture to employ a bookkeeper and a stenographer for the Department of Agriculture.

Also, a bill to relieve Solomon Akin's security on the bond of S. S. Sasser.
Also, a bill to relieve John F. Mikell's and Jas. H. Ellis's security on the bond of S. S. Sasser.

Respectfully submitted.

E. L. WIGHT, Chairman.

Mr. Wingfield, Chairman of the Committee on the part of the Senate to investigate the Geological Department, submitted the following report:

Mr. President:

Your committee, acting under a joint resolution from the House and Senate, providing that a joint committee of three from the House and two from the Senate make a thorough investigation of the Geological Department of Georgia, and report back to the General Assembly, beg to submit the following report:

On November 25, 1898, your committee first met and entered upon the work of this investigation and have been since that time busily and earnestly engaged in the discharge of our duties growing out of said investigation.

In conducting our investigation your committee proceeded directly upon the requirements laid down in the Act creating the Geological Department, and found in the Code of Georgia of 1895, volume 1, sections 1712-1725, which Act we had constantly before us.

We have collected a great mass of evidence and heard many persons talk at length on the subjects under investigation. We are unable at this time to digest this evidence and report the same in detail for the reason that in our de-
sire to make our investigation thorough and complete as directed and required in the joint resolution above named, we have too large a mass of evidence on hand, and the investigation has already occupied so much of our time that it will be impossible, as stated, to make a more detailed report at this time.

We therefore respectfully ask leave to submit our general conclusions at this time instead of said detailed report.

And first,

We find, from our said investigation, that the Geological Department is very necessary to the people of Georgia, and in our opinion, should be maintained.

Second. That it is the only way in which the great mineral resources of our State can be developed and advertised to the world.

Third. That directly through said Geological Department, our marbles, gold, and other minerals have already been advertised to the world, and large contracts for the purchase and use of said minerals have been made.

Fourth. That the investment in minerals seems to be on the increase in Georgia.

Fifth. We therefore recommend that the usual appropriation be made to said Geological Department, as we think if said department is abolished or crippled, it will be a serious blow to the mineral resources of Georgia, and a long step backwards.

Your committee further respectfully report, that while we have had Professor Yeates, the present Geologist, before us at each session of our committee, that the facts relating to the administration of his office, and the general discharge
of his official duties are not only very largely matters of scientific and expert knowledge, but it will be absolutely necessary to examine books, records, maps, surveys, and witnesses more fully than we have been able to do. Not being scientists ourselves, we need the testimony of such in this branch of our investigation; and as to a proper consideration of the other evidence referred to, we need more time in order to be thorough in our investigation and fair and just to the head of the department.

We therefore ask, first, that our powers be enlarged so that we may summon witnesses, compel the production of all necessary books and papers.

Second. That we may be given more time to conduct this branch of our investigation with direction and authority to report in detail to his Excellency, the Governor, our findings as to the head of the department, who alone under the Act, has power to deal with him.

Very respectfully submitted.

S. T. WINGFIELD, Chairman

On part of Senate and Chairman joint committee.

The following Senate bill was read the first time:

By Mr. Johnson—

A bill to establish a system of public schools in the town of Blue Ridge in the county of Fannin.

Referred to the Educational Committee.

The following Senate resolution was read the first time:

The following House bill was read the third time and put upon its passage:

By Mr. Calvin—

A bill to authorize and provide for the preparation and issuance to the banks and banking associations, chartered
by this State, of circulating notes and to fully protect the
same.

Upon the passage of the bill, the ayes were 23, nays 1.

The bill having received the requisite constitutional ma­
jority, was passed as amended.

Amend by adding at the end of section 3 the following:
"And said bank shall keep in its vaults at all times (in addi­
tion to the reserve fund, now required by law), in legal
tender notes or specie (25) twenty-five per cent. of its out­
standing notes, to insure the prompt redemption of said
notes on demand."

Amend section 12 by adding at end thereof, "No banks
shall be permitted to avail themselves of the provisions of
this Act, except those whose charters conform to all the re­
quirements of this Act."

The following message was received from the House,
through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

Also, a bill to provide for a Board of Commissioners of Roads and Revenue for the county of Thomas, and for other purposes.

Passed. Ayes 122, nays 0.

The House has also adopted the following resolution of the House, and ordered the same immediately transmitted in which the concurrence of the Senate is asked, to wit:

A resolution that the General Assembly convene in joint
session in hall of House of Representatives, on December 14th, 1898, at one o'clock p. m. to receive the President of the United States and his party.

By unanimous consent, Senate bills Nos. 31 and 63 were withdrawn by their authors.

Senate bill 65 was recommitted to the General Judiciary Committee.

The following Senate resolution was read the third time with adverse report from committee:

By Mr. Nesbitt—

A resolution to relieve the Marietta Paper Company from removal of the alleged encroachments on the right-of-way of the W & A. R. R.

The report of committee was agreed to and resolution lost.

A bill to amend the charter of the city of Savannah.

Respectfully submitted.

W S. WEST, Chairman.
Mr. Underwood, on the subcommittee to investigate the Georgia Sanitarium, submitted the following report:

Mr. President:

We the undersigned subcommittee, appointed by your body to investigate and report to your body as to whether William Schwarz, Roxie Ann Long are now legally detained in the asylum, and if not, what disposition should be made, or what legislation, if any, is necessary in order to dispose of them.

1. We find that William Schwarz was sent up from Chatham county in July, 1895, having been indicted for murder, and on the call of the case against him he filed his plea, alleging that at the time of the commission of the crime, he was insane, and not of sound mind and memory, and that at the time of trial, he was so afflicted.

2d. We find, that on motion of the Solicitor-General, that that portion of said plea which set up that said William Schwarz was insane at the time of the commission of the crime was stricken, leaving the plea standing charging and alleging his insanity at the time of the trial.

3d. That the jury found in favor of the plea, and in accordance therewith the said William Schwarz was, by the order of the court, confined in the "Lunatic Asylum" of this State.

4th. That he is now, and has been, in said asylum from the time aforesaid, to wit, on or about the 27th of July, 1895.

5th. That at the May term, 1897, the said Roxie Ann
Long was indicted for murder, and on call of the case she through her attorneys at law, filed her special plea, alleging that at the time of the trial she was not of sound mind and memory, and therefore, should not be put upon trial for said charge. That the jury trying said case found in favor of said special plea, whereupon, the presiding judge passed an order committing the said Roxie Ann Long to the Georgia State Sanitarium.

6th. That said William Schwarz and Roxie Ann Long are now of sound mind and memory.

We therefore recommend that such legislation be passed as will authorize the superintendent to deliver him to the proper authorities of Chatham county, that he may be dealt with as the law directs. And that the said Roxie Ann Long be delivered to the proper authorities of Bryan, to be dealt with as the law directs.

Respectfully submitted.

WM. LITTLE, Chairman.

Mr. Hand, Chairman on the part of the Senate committee to investigate the controversy between Dr. Payne and Hon. O. B. Stevens, submitted the following report:

Mr. President:

The Joint Committee appointed under resolution No. 52 to investigate the controversy between Dr. Payne, ex-State Chemist, and Hon. O. B. Stevens, the Commissioner of
Agriculture, with reference to possession of chemicals and apparatus in the State Laboratory, and the expenditure of appropriations made by the State Chemist since 1891 to the present time, beg leave to submit the following report, to wit:

We find that the law under which the office of State Chemist was created, to be in the Acts of 1877, Folio 38, as follows:

Section 111. Be it further enacted, That it shall be the duty of the Commissioner of Agriculture to appoint an experienced and competent chemist to analyze all fertilizers, or chemicals for manufacturing the same, offered for sale or distribution in this State, and make such other analyses as may be required by the Commissioner of Agriculture. The said chemist shall take and subscribe, before some officer duly authorized to administer the same, an oath, faithfully and impartially to perform all the duties which may be required of him under the provision of this Act; which oath shall be filed in the office of the Commissioner of Agriculture. His salary shall not exceed the sum of three thousand dollars per annum, which shall be full compensation for all duties which may be required of him under this Act, including the rent of laboratory and of apparatus, and cost of chemicals.

In pursuance of this law, Dr. G. F. Payne was duly appointed State Chemist on November 10th, 1890, and immediately went into the discharge of his duties.

On December 20th, 1890, a special appropriation of $498 was made to defray the cost of putting in plumbing,
flooring, shelving and furniture in the office of the State Chemist in the State Capitol. (See Acts 1890-91, page 532.)

On September 16th, 1891, an Act was approved appropriating $3,471.76 for the purpose of reimbursing Dr. Geo. F. Payne, State Chemist, for moneys expended by him in supplying materials, apparatus, and employing assistants. The expenditure of above money represents a portion of the property in controversy according to evidence adduced before the committee. Since which appropriation, there has been made, in addition to his salary, and that of his two assistant chemists, an appropriation of $1,000 per annum, for replenishing chemicals and apparatus, amounting to $6,000, all of which has been drawn from the Treasury by Dr. Payne, with the exception of $43.55, which was left unexpended in the Treasury on October 26th, 1898, the date of his retirement from office, and these chemicals and apparatus, under the terms of the law creating the office of State Chemist, he was required to furnish to the State at his own cost.

From this it appears that Dr. Payne, during his administration, has had appropriated to him by the legislature, and has drawn and expended from the State Treasury, for furnishing chemicals and apparatus, the sum of $7,716.21; and from the evidence of competent witnesses, the annual amount necessary to expend for chemicals during his administration should not exceed $500 per annum, which would leave for purchase of permanent apparatus $3,716.21.

From an inventory of all the chemicals, apparatus and
furniture taken by the present Commissioner of Agriculture when he took charge of the laboratory, we find the same valued at $2,127.55, which would leave chemicals and apparatus unaccounted for, amounting to $1,588.66.

Your committee has been unable to secure invoices covering all the apparatus and chemicals purchased by Dr. Payne for the laboratory during his administration, many of these invoices being missing from the books and papers turned over by Dr. Payne to the Commissioner of Agriculture, which makes the records incomplete; but from the few vouchers now accessible to us we find invoices for apparatus as having been paid for by State appropriation and included in Dr. Payne's reports to the Governor, amounting to $634.73, which apparatus, according to sworn testimony, is not now, nor has it ever been in the State's Laboratory. We present a list of these items in Exhibit "A," as follows:

$624 73

It was established before us by sworn testimony that about five one-horse dray loads of chemicals and apparatus were removed from the basement of the Capitol by Dr. Payne just previous to the taking of the inventory as above referred to. These goods were removed at night after the officials of the Agricultural and Chemical Departments had gone home, and without the use of lights in the storageroom. A portion of these goods were delivered at the residence of Dr. Payne in Atlanta, and the balance was carried to the Atlanta Medical College.

We approve the course taken by the Commissioner of Agriculture in retaining possession of all the chemicals, apparatus, etc., found in the laboratory, believing as we do, from the above facts and the law in the case, that the State has a good title to the property. It is a source of great regret to this committee, that we were unable to secure the
presence and cooperation of Dr. Payne in the investigation of this matter. He was assured by the committee that they desired and intended to make a full and impartial investigation, and in order to do this, he was earnestly requested by members of the committee to attend their meetings and give them the benefit of such information as he possessed and to present fully his side of the contention. Your committee offered to subpoena all witnesses that Dr. Payne desired, and invited his attorney to be present to assist him in presenting and conducting his side of the contention. Dr. Payne declined to come before the committee or to have anything to do with the investigation. Hence, the committee were powerless to get such facts and information as Dr. Payne alone possessed, and were compelled to proceed with the investigation without his help or co-operation. We regret exceedingly that, for reasons that must have been satisfactory to himself, Dr. Payne saw fit to withhold from us such facts and information as would have been helpful, and which we believed were in his possession.

In view of the fact that he has applied to the courts for the adjudication of this matter, we recommend that the Attorney-General be supplied with a copy of this report and the evidence for use by him in behalf of the State.

Respectfully submitted.

S. T. BLALOCK, Chairman.

Mr. President:

We, the undersigned members of the Appropriation Committee, regret that we cannot agree with the majority
of said committee, and therefore beg to submit a minority report on House bill No. 47.

We think twenty-five hundred dollars is not in keeping with salaries paid other State officials, and not in accordance with the depressed conditions of the business and Agricultural interests of the State, and for these and other reasons, we think that two thousand dollars, as provided for in said bill, is amply sufficient for the services rendered, and hence said bill ought to pass.

Respectfully submitted.

R. T. FOUCHE, Chairman.

Mr. Wight, chairman of the joint committee of the Senate and House to examine the treasury, submitted the following report:

Mr. President:

The Joint Committee of the Senate and House, appointed to investigate the condition of the Treasury, and to acquaint their respective bodies with the result of such investigation, beg leave to submit herewith the following statements as comprising the information ascertained by reason of the examination made by Ralph H. Brown, an expert accountant, engaged under the authority of a Joint Resolution passed by both Houses, under date of November 29th, 1898, and working under the direction of the Joint Committee of Investigation.

It was first determined by your committee to ascertain the condition of the Treasury on the 30th day of November, and to estimate from that starting point the probable showing of resources and liabilities on the first of January, 1899. That examination resulted in the following statement of estimated results:
RESOURCES.

Cash on hand on 30th November, 1898—$374,283 75
Estimated tax receipts for December, 1898. 1,121,032 36
Estimated taxes uncollected Jan. 1, 1899—1,495,688 67

Total

$2,991,004 78

LIABILITIES.

Liabilities from 1st December, '98, to 1st January, '99 $1,811,317 20
Estimated balance on January 1st, 1899—1,179,687 58

Total

$2,991,004 78

These aggregate results are given more in detail in the itemized statement given herewith.

There is in the statement ending January 1st, 1899, a legal liability for the item of public debt, $505,358.25, but against which there are outstanding obligations amounting to about $283,000, as follows: $100,000 sinking fund, $168,000 interest and $15,000 unpaid bonds and coupons; the consequent difference would increase the estimated balance of resources from $1,179,687.58 to $1,402,045.83, so that if it should be deemed best a re-appropriation obtained would make possible, a corresponding deduction in the item of public debt for 1899. By this action this excessive liability, the growth of many years, would be finally settled.

When the January, 1899, estimate was made your committee concluded that it would be well to have a similar detailed estimate of the probable results which would
show on the 1st July, 1899, the 1st of October, 1899, and the 1st January, 1900. Such estimates are given later in the report, and we commend them to your careful consideration.

Accompanying this report will be filed certain memoranda and explanations from Mr Brown, which will explain the method by which he arrived at his conclusions. He embodies in his report certain recommendations and suggestions which we cannot but approve. They are as follows:

**CIVIL ESTABLISHMENT BOOK.**

It should have a special column for cancellation stamp.

**SPECIAL LOANS.**

While doubtless necessary, they tend to impair the continuous audit of the Treasurer by the Comptroller-General.

**BONDS AND COUPONS.**

After payment and due record, they should be destroyed in the presence of designated witnesses.

**STATE DEPOSITORIES.**

A uniform blank should be furnished and filled out over signature, and this blank should be made to the Treasurer of the State of Georgia; an improvement in the Treasurer's office would be the keeping of a daily balance book, which invariably is kept in a modern bank.

Of course the results predicted at the expiration of the period given are mere estimates, but they are entitled to
consideration, because being based on the new appropriation and tax bills and in comparison with several preceding years.

In conclusion we cannot too highly commend the zeal and efficiency of the expert engaged in this work, and hope the results of the investigation will merit and receive your approval.

Mr. McGehee, chairman of the Committee on Temperance, submitted the following report:

Mr. President:

The Committee on Temperance have had under consideration the following House bills, which they instruct me to report back to the Senate with the recommendation that the same do pass, to wit:

A bill to prohibit the manufacture of spirituous liquors within the county of Butts, and for other purposes.

A bill to repeal an Act entitled an Act to authorize the Commissioners of Roads and Revenues of Newton county to establish a dispensary, and for other purposes.

A bill to prohibit the sale of wine within two miles of the court house in the town of Alpharetta, in Milton county, and for other purposes.

Respectfully submitted.

J H. McGEHEE, Chairman.

State of Georgia, Executive Office,

To the Senate and House of Representatives:—I have the honor to transmit herewith a communication from the Honorable John H. Martin, representing Mrs. Una Clements and Judge James B. Clements of Irwin county, tendering to the State as a donation two acres of land, the site on
which president Jefferson Davis and his escort were captured in 1865.

As will be seen no compensation is asked for the land and no conditions attached to the donation except that the land shall forever be held and owned by the State of Georgia, and not be permitted to pass into the hands of private parties, and that proper legislation be enacted to protect it against relic hunters and trespassers.

This communication is transmitted to your honorable bodies with the recommendation that the donation be accepted by the State and its management turned over to the Daughters of the Confederacy to be cared for and ornamented by them in such way as they may deem most appropriate, without cost to the State.

A. D. CANDLER.

Hawkinsville, Ga., November 29th, 1898.

Governor Allen D. Candler, Atlanta, Ga.

Dear Sir:—I am instructed by Mrs. Una Clements, widow of, and Judge James B. Clements, son of Hon. R. W. Clements, deceased, late of Irwin county, Georgia, to tender as a donation to the State of Georgia, two acres of land covering the spot where President Jefferson Davis and his escort were camped at the time of his capture.

Mrs. Clements and Judge Clements in making this offer are carrying out the wish of Mr. R. W. Clements often expressed to them and myself and which death prevented him doing.

No conditions are attached to the gift except that the
land must be forever held and owned by the State of Georgia and not be permitted to pass into the hands of private parties and that appropriate legislation be enacted to protect it against relic hunters and trespassers of all kinds.

The two acres are a part of lot of land number 51 in the second land district of Irwin county, Georgia, and are on the public road leading from Abbeville to Irwinville and are to be laid off in such manner that the spot where the tent of President Jefferson Davis was pitched shall be the center as near as practicable.

This land, if accepted by the State, should be nicely enclosed and a suitable monument erected thereon, and to this end on behalf of the donors I suggest that either the United Daughters of the Confederacy or the United Sons of Confederate Veterans be authorized and empowered to take in charge its improvement and decoration.

Around this spot cluster associations so well depicted by Mr. Davis in a letter written to me on January 2, 1887, in speaking of the place, that I feel constrained to quote the following portion as a suitable inscription to be placed on a monument should one be erected: "Though connected with a sad misadventure which has been the theme of many scandalous falsehoods, I cannot remember as other than a crowning misfortune without shame."

Kindly submit this matter to the General Assembly of Georgia with such suggestions as you deem best in the premises.

Yours truly,

JOHN H. MARTIN
The following message was received from the House through Mr. Boifeuillet, the Clerk thereof:

Mr. President:

W E. STEED, Chairman.
W. S. WEST,
J. A. BRANXEN.

The report was agreed to and the Senate recedes.

The following message was received from the House through Mr. Boiseuillet, the Clerk thereof:

Mr. President:

The House has adopted the following joint resolution of the House in which the concurrence of the Senate is asked to wit:

A resolution to appoint committees to visit Educational Institutions belonging to the state.

Also,

A resolution to require Clerk of House and Secretary of Senate to mail to each member of the General Assembly a statement of the unfinished business of the present session.

Mr. Dickerson, chairman of the Penitentiary committee, submitted the following report:
Mr. President:

Your committee charged with the duty of inspecting the condition and reporting thereon of the Penitentiary convicts of the state, beg leave to submit as the result of their investigation, this report:

The shortness of time allowed and pressing legislative duties have not permitted that thorough investigation essential to correct conclusions.

For evident reasons a committee hastily visiting a camp can not always obtain the true situation and condition of the convicts, and it would be much better, in the opinion of the committee, that these investigations be made in vacation, when more time could be had for the work.

The wise and judicious management of the Penitentiary Department deserves high commendation.

Such abuses as may exist are not chargeable to any neglect on the part of those officials, and the leasing of the convicts render the new law, from the best information we can obtain both from the prices paid for them by the lessees and the estimated cost of guarding and taking care of them, promises in our opinion to yield a much greater amount of revenue for the State than under the former law.

We believe the new system will prove much more satisfactory than the old one. The condition of the camps is set forth more fully in the reports of the sub-committees appointed to visit and inspect them.

The committee appointed to visit the camps at Smith-
onia in Oglethorpe county, and Heardmont in Elbert county, kept by James M. Smith and W H. Mattox, report as follows:

We have visited said camps and find them in splendid condition, not a case of sickness in either camp, said camps being neatly kept in every particular. There has not been a death in the camp of W H. Mattox during the year 1898, and only two in the camp of James M. Smith, one from consumption and one from dropsy. The convicts are well fed and well clothed and seem to be as cheerful as their circumstances will admit. We do most heartily commend the management of these two camps. No complaint was heard from any convict. No escapes in two years; 13 whites and 87 colored.

Signed,

G. C. DANIEL,
Chairman Sub-Committee.

The Sub-Committee appointed to visit the camps of Worth No. 2 and Worth No. 3, in Worth county, report as follows:

We found both of said camps in excellent condition. The convicts showed plainly that they were well fed and clothed and humanely treated, and there is no excuse for any complaint against either of said camps.

Signed,

LEONIDAS McLESTER,
Chairman Sub-Committee.
The Sub-Committee appointed to visit the camp of Cruger & Pace, at Albany in Dougherty county, submit the following report:

We found at camp 37 colored male convicts, none of which were sick, and that they were well taken care of in every way. The buildings were clean and well kept and no complaint was made to us.

Signed, W.M. M. MORRISON,
Chairman Sub-Committee.

The Sub-Committee appointed to visit the camp of Jones, in Morgan county, submit the following report:

We, the Sub-Committee appointed to visit the convict camp in Morgan county known as Jones Camp, submit the following report: We visited camp and found the camp clean and the convicts apparently in good health. We found 4 white convicts and 31 negroes, all males. We believe they are being humanely treated.

Signed, W.M. M. MORRISON,
Chairman Sub-Committee.

The Sub-Committee appointed to examine and report the conditions of Bainbridge camp, Jakin camp, and Saffold camp, submit the following report:

1st. At the Bainbridge camp we find seventy-seven inmates, fourteen white and sixty-three colored. We find the camp in a thorough sanitary condition, convicts all in good health, well clothed, clean and comfortable, rations
ample and well prepared and the convicts well and humanely treated.

Second. We find seventy-five convicts at Jakin, all colored. This camp seems to be in thorough sanitary condition and the convicts humanely treated and are in good health. They are well and comfortably clothed, rations ample and well prepared.

Third. We find at Saffold camp forty convicts, three white and thirty-seven colored. The sanitary condition of this camp seems to be in good condition, the convicts are humanely treated, they are well and comfortably clothed, rations ample and well prepared.

LEONIDAS McLESTER,
Chairman Sub-Committee.

The Sub-Committee appointed to visit Richwood, Pitts, and Cromer camps, submit the following report:

Your committee found the above named camps in splendid sanitary condition, only one convict slightly sick at Cromer, one at Pitts and none at Richwood. The convicts are apparently well fed and well cared for.

Some few complaints were made by convicts at Pitts for lack of sufficient cover at night. These complaints were communicated to the captain of the camp, who said the complaints were unfounded.

We recommend the pardon of Cole Baldwin (colored),
serving at Cromer. He is now quite old, eyesight is impaired, has served eleven years in the penitentiary faithfully, and has always been obedient to his bosses.

We recommend the pardon of Red Jarrell (white), serving at Pitts. The judge who sentenced him, solicitor who prosecuted him and the jurors who signed the verdict against him, all join in a request for his pardon.

We recommend the pardon of Scrop Murray (colored), serving at Pitts. He was convicted of rape on one of his own color. He has served two years. Since being at Pitts has had both legs broken.

We recommend the pardon of Dr. Lewis Hanby, serving at Pitts.

W E. MANN,
Chairman Sub-Committee.

The Sub-Committee, appointed to visit the camps of Haylow and Alexanderville, find said camps in good condition and well kept. They report as follows:

We the undersigned committee, appointed to visit the camps of Haylow and Alexanderville, find said camps in good condition and well kept.

W J. GREENE,
Chairman Sub-Committee.

The sub-committee, appointed to visit the camps of Cole City and the Durham Mines, submit the following report:
We the undersigned committee, appointed to visit the camps of Cole City in the county of Dade, and the Durham camps in the county of Walker, find said camps in good condition and well managed. The Cole City camp, under the management of Dr. Brock, while the most hardened criminals in the State are located there, is managed well, and we think Dr. Brock should be retained under the new law, as his experience will no doubt be of great use to the Commission in successfully handling the Penitentiary Department. We only found two in hospital and death rate low. Food furnished of good quality and diversified.

A. N. GROVENSTEIN,
Chairman Sub-Committee.

All the above is respectfully submitted.

R. G. DICKERSON,
Chairman Committee on Penitentiary.

The following message was received from His Excellency the Governor, through his Secretary, Mr. Hitch, to wit:

The House has adopted the report of the Conference Committee to consider Senate amendments to the General Tax Act; the Senate receding from amendment 18, and the House receding from its position in refusing to concur in amendments Nos. 16 and 17.

Mr. President:

The undersigned Conference Committee on the part of the Senate to consider the difference between the Senate and House as to the amendments of the Senate to the General Tax Bill, beg leave to report that the Conference Committee recommend as follows:

1st. That the Senate do concur in the amendment of the House to the Senate amendment to paragraph 14 of section two of said bill, said paragraph referring to circuses and shows.
2d. That the House recede from its refusal to concur in amendments Nos. 16 and 17

3d. That the Senate recede from its insistence on amendment No. 18.

4th. With reference to the Senate proviso to section 12 as to the tax on banks, your committee have been unable to agree, and we beg to be discharged and that another conference committee as to that section be appointed.

Respectfully submitted.

R. T. FOUCHÉ, Chairman.

Report adopted.

The following message was received from the House through Mr. Boifeuillet, the Clerk thereof:
