JOURNAL.

Senate Chamber, Atlanta, Georgia.
Wednesday, October 28, 1896, 10 O'clock a.m.

At the hour of 10 o'clock a.m. the Senators elect for the years 1896 and 1897 were called to order by the Hon. Wm. Clifton, Secretary of the Senate.

By his order the list of Senators elect, furnished by the Hon. A. D. Candler, Secretary of State, was called and a quorum found present.

By request of the Secretary the Rev. J. W G. Watkins, Chaplain of the last Senate, invoked the blessing of God.

The Senators elect presented themselves before the desk of the Secretary and took the oath of office, the same being administered by the Hon. Marcus H. Beck, Judge of the Flint circuit.

The following is the list as certified to by the Secretary of State:

STATE OF GEORGIA,  
OFFICE OF SECRETARY OF STATE.  

I, Allen D. Candler, Secretary of State of the State of Georgia, do hereby certify, that the foregoing two pages contain a true and correct list of the members elected to the Senate of said State, as appears from the returns of an election held on the 7th day of October, 1896, now on file in this office.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Seal of my Office, at the Capitol, in the City of Atlanta, this 26th day of October, in the year of our Lord One Thousand Eight Hundred and Ninety-Six, and of the Independence of the United States of America the One Hundred and Twenty-First.

ALLEN D. CANDLER,  
Secretary of State.
The Secretary announced as the next business in order the election of a President of the body and that nominations would be received therefor.

Whereupon, the Hon. Mr. Kilpatrick placed in nomination the Hon. Robert L. Berner of the county of Monroe.

There was no other nomination, so the Secretary ordered the roll to be called, which resulted in the Hon. Robert L. Berner receiving thirty-nine votes—the entire vote cast.

He was therefore declared duly elected President of the Senate.

Mr. Battle moved that a committee of three be appointed to wait upon the President elect, inform him of his election and conduct him to the chair.

The Secretary appointed as this committee, Messrs. Battle, Kilpatrick and Everett.

The President elect was conducted to the chair by the committee and addressed the Senate.

He then called the Senate to order and announced the election of a Secretary as first in order.

Whereupon, the Hon. Mr. Battle nominated for that position the Hon. Wm. Clifton of the county of McIntosh.

There being no other nomination the roll was called and resulted in Mr. Clifton receiving forty-two votes.

He was therefore declared duly elected Secretary of the Senate.

The next business in order being the election of a Messenger, the Hon. Mr. Flewellen placed in nomina-
tion the Hon. Flynn Hargett, Jr., of the county of Harris, for that position.

The call of the roll resulted in Mr. Hargett receiving thirty-nine votes.

He was therefore declared duly elected Messenger of the Senate.

The election of a Doorkeeper was announced. Mr. Starr nominated for this position the Hon. E. E. Wilson of the county of Murray.

The roll was called for this election and resulted in the Hon. R. E. Wilson receiving forty votes. He was declared duly elected Doorkeeper of the Senate.

The election of a President pro tem. being announced as next in order, Mr. Battle nominated therefor the Hon. C. G. Gray of Twenty-third District, who received thirty-nine votes, and was declared duly elected President pro tem. of the Senate.

Mr. Battle introduced the following resolution, which was read and adopted:

Resolved, That the Secretary inform the House of Representatives that the Senate is now organized and ready to proceed to business.

The drawing for seats was announced, when Mr. Battle offered the following resolution, which was read and agreed to:

Resolved, That the Hons. A. Atkinson, E. A. Flewellen, J. A. Stewart, W W Geiger and J. E. Redwine, be allowed to make choice of seats on account of age and physical infirmities.
Mr. Battle offered the following resolution, which was read and agreed to:

Resolved, That the President appoint a committee of three to select a Chaplain for the Senate.

The President, under this resolution, appointed Messrs. Battle, Blalock and Kemp.

Mr. Battle also introduced the following resolution, which was read:

Resolved, That the President of the Senate be authorized and directed to appoint three gallery-keepers and six pages for the Senate, and that the Secretary of the Senate be authorized and directed to appoint five porters for the Senate and the committees thereof, and one additional porter to attend upon the water-closet.

On motion of Mr. Hopkins, this resolution was referred to a special committee of five.

The President appointed as this committee, Messrs. Hopkins, Battle, J B. Stewart, Everett and Hudson.

Mr. Battle offered the following joint resolution, which was read and agreed to:

Resolved, the House concurring, that a committee of two from the Senate and three from the House, be appointed to inquire and report what public officers are to be elected at this session.

The President appointed as the committee on the part of the Senate, under the foregoing joint resolution, Messrs. Battle and Dunwody.

Mr. Gray offered the following resolution, which was read and agreed to:
Resolved, That the rules of the last Senate be adopted for the present one until the Committee on Rules report new ones and they are adopted.

Mr. Battle introduced the following joint resolution, which was read and agreed to:

Resolved, by the Senate, the House of Representatives concurring, That a committee of three on the part of the Senate and five on the part of the House, be appointed to notify the Governor that the General Assembly is now organized and ready to receive any communication he may desire to make.

The President appointed as the committee on the part of the Senate, under this joint resolution, Messrs. Dunwody, Kilpatrick and Carter.

Mr. Battle, chairman of the committee to select a chaplain, submitted the following report, which was read and adopted:

Mr. President:

The committee appointed to select a Chaplain for the Senate, beg to report for that position the Rev. J. W. G. Watkins.

C. C. Battle, Chairman.

The Senate, on motion, took a recess, subject to the call of the chair.

After a half-hour spent in recess the President called the Senate to order.

The following communication was received from His Excellency, the Governor, through his Secretary, Mr. Warren, to wit:
Mr. President:

I am directed by the Governor to deliver to the Senate his annual message, with accompanying documents:

On motion of Mr. Redwine, the annual message of His Excellency, the Governor, was taken up and read, and is as follows:

Members of the General Assembly of Georgia:

Circumstances under which you convene, in so far as they relate to the prosperity of our country, are not so propitious as we would have them, and yet, in view of the great financial stringency which has existed for several years, we have cause to congratulate ourselves that the people of Georgia have met this discouraging condition without permitting it to entirely check the growth of our material interests or the advancement of our people. During this year there has been a slight increase in our taxable property. Some addition has been made to our railway mileage, a number of new factories have been erected, and our schools and colleges were never so full as now. These evidences of material and intellectual advancement, achieved under the most adverse circumstances, is a high tribute to the character and genius of our people.

I desire to lay before you such matters as have transpired in the administration of the affairs of state, during my term, as may be of special interest to you, and furnish information upon questions connected therewith which may come before you during your term of office.

Western and Atlantic Railroad.

The appropriation of $1,500.00, made in 1895, for the purpose of making a complete survey of the right of way and properties belonging to the Western and Atlantic Railroad, was used to employ Messrs. Wardroper and Stanley, two expert engineers, who have been engaged in carrying on this work, in compliance with the act of the General Assembly. The work
is not yet completed, but, I am informed, will be within a short time.

PENITENTIARY.

During this year I have had cause to make thorough investigation into the conduct of lessees, and their agents, in the management of the penitentiary convicts of the State. A number of irregularities and violations of rules were discovered, and measures adopted to prevent future abuses, and secure the just and faithful administration of the laws and rules regulating the control and management of convicts by lessees. The total amount of fines imposed upon lessees during my administration has been as follows:

1st. Those imposed as a result of the special investigation, heretofore alluded to $2,500 00
2d. Those imposed for cruel whipping 1,400 00
3d. Escapes 4,400 00

Total $8,300 00

I append to this message a list of pardons granted since my report to the General Assembly in 1895, so classified that you can see how many misdemeanor convicts have been pardoned; how many felons have been pardoned without the recommendation of the Committee on Pardons, appointed by the last General Assembly, and how many on their recommendation. This Committee on Pardons, consisting of Senators T. R. Whitley and C. C. Bush, and Representatives W. S. Humphries, H. A. Jenkins, and R. E. Davidson, have done their work faithfully and efficiently. It has not only been a great relief to the Executive, but has carried justice to a great many poor and friendless convicts, who had meritorious cases, and were unable to have them presented to the Executive. The facts upon which each pardon was granted are on file in the Executive office, and
to these I earnestly invite the attention of every member of your body. The proper exercise of the pardoning power is a difficult and delicate task, but I have endeavored so to exercise it, that those who merited it should not be denied mercy, and those who deserve punishment should receive it—that justice might be done, the law enforced, and society protected.

INTEREST FROM STATE DEPOSITORIES.

The amount paid by and due from State depositories, as interest on the State's money, deposited with them, since the arrangement for payment of interest was entered into, cannot be definitely stated, as complete settlements have not been made with all the banks, but can be safely estimated at fifteen thousand dollars.

The prediction freely made at the time I insisted upon the payment of interest that solvent banks would decline to act as State depositories has proven groundless. The State is not only secured with good and solvent bonds from each, but is dealing with banks of high standing.

SALE OF BONDS.

Five hundred and forty-two thousand dollars ($542,000) of the bonds of the State of Georgia, bearing 7 per cent. interest, matured July 1st of this year. Three hundred thousand dollars ($300,000) of this was paid with the accumulated sinking fund, which was at that time in the Treasury. Arrangements for payment of the remaining $242,000 was made by floating $230,000 of 4 per cent. bonds at 106. The premium on the bonds issued at this price yielded thirteen thousand eight hundred ($13,800) dollars, making the total sum received from the sale of the 230 bonds two hundred and forty-three thousand eight hundred dollars. While we had advertised for the sale of bonds to the amount of $240,000 when the bids were opened, it appeared that
the sale of the number advertised at the price bid would yield considerably more than was needed for the payment of the debt. I then declined to issue that amount and issued only the amount needed to pay off the maturing bonds. The real rate of interest that we are paying upon these bonds, which are nominally 4 per cent. bonds, is about \(3\frac{5}{8}\) per cent. Considering the fact that these were not gold, but currency bonds, Georgians find reason to be proud of the splendid credit of their State. A full and complete history of this transaction will be found in the report of our faithful and honored State Treasurer, Hon. R. U. Hardeman, who now voluntarily retires from the high and responsible office which he has for many years ably filled, carrying with him the love, gratitude and confidence of the people of Georgia.

NORTHEASTERN RAILROAD.

After the purchase of the Northeastern Railroad by the State it was operated by Hon. R. K. Reeves as State agent until June 1st, 1896, at which time the road was turned over to the parties leasing it under an act of the General Assembly of 1895. While the settlement with connecting lines has not been entirely completed, we are near enough a settlement to ascertain that the net earnings during the time it has been operated by the State are, approximately, $15,000. The new lease of the road was made to Messrs. E. A. Richards & Company, for the annual rental of $18,600, to be paid quarterly. Contract was made and bond given in compliance with the act of the General Assembly which authorized the lease.

This is only a local road, the value of which may be almost entirely destroyed by the building of a new road or a change of ownership of its connecting lines. For this reason I suggest that you consider the advisability of passing legislation that will authorize its sale on such terms and with such limitations as you may deem wise.
PRINTING OF THE GEORGIA REPORTS, CODE, AND SCHOOLBOOKS.

The plan adopted by the State for the printing of the Reports of the Supreme Court and of the new Code is yielding results of a most satisfactory character. Georgia Reports, which were sold at $5.50 per volume, when printed by individuals on their own account, the State now have published and sell at a net cost of $2.00 per volume. The additional volumes printed after the first edition is exhausted are printed at a cost of $1.00 per volume to the State, and sold at $1.50 per volume. The Code of 1882, which was published on private account, was sold to the public at $10.00 per volume, and to the State in large numbers at $6.00 per volume. Under the act of the General Assembly providing for the printing of the new Code of the State, Hon. John L. Hopkins of Atlanta, Comptroller-General W A. Wright, and myself were charged with the duty of making the contract on the part of the State with the publishers. This Code will contain considerably more matter than the Code of 1882, and will be bound in three volumes, which will largely increase the labor and cost of the publication. Under the contract made, however, it is reasonably certain that the cost of the three volumes complete will not exceed $2.50.

In the light of this experience, I respectfully recommend that the Legislature authorize the appointment of a commission on publication of schoolbooks, to consist of not less than three nor more than five citizens of the State, whose duty it shall be to inquire into the subject, and to report recommending that plan, by which the schoolbooks in this State may be procured by the people at the lowest possible cost.

PENSIONS.

Below is submitted a table showing the number of pensioners and the amount paid for the past four years:
INVALID SOLDIERS:

Year ending 26th October, 1893 ________3,222 $185,000
Year ending 26th October, 1894 ________3,235 185,000
Year ending 26th October, 1895 ________3,369 190,000
Year ending 26th October, 1896 ________3,372 190,000

WIDOWS:

For the year ending 15th February, 1893 ________4,068 $244,080
For the year ending 15th February, 1894 ________3,997 239,820
For the year ending 15th February, 1895 ________3,939 236,340
For the year ending 15th February, 1896 ________3,919 235,140

INDIGENT SOLDIERS.

For the year ending 31st December, 1896 ________2,000 $120,000

INVALID PENSIONS.

When the fund appropriated to pay this class of soldiers for 1896 was exhausted there were pending more than three hundred and fifty new applications, and the indications are now that five hundred new claims will be filed for payment next year. About three per cent. of those enrolled have died during the past year.

WIDOWS' PENSIONS.

For the past several years there has been a slight decrease in the number of this class of pensioners. The act of December 16, 1895, embraced a class of widows who had not, up to that time, been paid. Under this law forty-five claims were approved. The death-rate for the past year is about 3\(\frac{3}{4}\) per cent.

INDIGENT PENSIONERS.

Under the act of December 15, 1894, as amended by the ac-
year 1896, which covered the appropriation of $120,000. More than 5,000 applications were filed and passed on, and the indications are that a large number of original applications under this law will be filed for payment next year.

RELIEF OF THE EXECUTIVE DEPARTMENT.

There are on the rolls nearly 10,000 pensioners, and $545,140 has been paid them for the year 1896; besides there are constantly a great many new applications to be examined. To do this work intelligently, with justice to the State and the pensioners, every claim submitted should be thoroughly investigated and an impartial and correct judgment made. To do this involves an immense amount of careful and painstaking labor.

It is a mistake to think that there is no further work after a claim is approved. Every single payment must be made with the thorough knowledge that the law is duly complied with, and every individual claim, whether enrolled or not, must be separately dealt with. Since the Constitution of 1877 was adopted, there can be paid no more than $6,000 for the secretaries and clerical force of the department, which was then thought to be the proper amount, and has been since then appropriated each year, yet the work of the department has more than doubled since that time, and it has now reached the point where it is impossible, with its clerical force, to properly dispose of it. Governor Gordon, in his message to the General Assembly in 1890, urges the necessity of relieving the department, at which time there were only 3,111 pensioners on the roll. He says: "The time has arrived when some method should be adopted to relieve the Executive Department." Governor Northen, in his message in 1891, repeats the suggestion made by Governor Gordon, and recommends the establishment of a pension office or department, and he says: "The growth of the State and the natural increase of labor incident to a proper administration of the laws, which
specially require the attention of the Governor and his secre­
taries, render it a matter of impossibility that the pension laws
be kept as at present.” To do justice to the State and the
pensioners, the General Assembly should put the pension busi­
ness where it properly belongs—in the hands of a department or
bureau established for that particular purpose. Taking into
consideration the number of enrolled pensioners and new claims,
the cost of such department ought not to defeat it, as a much
greater amount would be saved the State than would necessarily
be expended thereon. Besides, it is due to the pensioners as
well as the State, that their claims be speedily and justly dis­
posed of.

EDUCATIONAL INTERESTS.

Our common schools have made a decided advance in the last
few years. It is gratifying to see that the State authorities have
met with more substantial and enthusiastic co-operation from the
masses of the people than ever heretofore in our history. The
efforts of the State School Commissioner have enlisted the
interest of the people in this great work, and they are co-oper­
at ing with him zealously and earnestly. There is, each year, a
marked improvement in the character of schoolhouses and
teachers; and a decided disposition, on the part of the more
thrifty communities to adopt local school systems, which are
supported largely by local taxation. I earnestly hope, however,
that this disposition on the part of the people to look after the
schools themselves will not permit the State, in the least, to
check its pace in carrying forward the work of upbuilding and
improving our schools, but that the State will continue to
strengthen, increase, and perfect them.

The University of Georgia at Athens, the State Normal
School at Athens, the Georgia Normal and Industrial College
at Milledgeville, the School of Technology at Atlanta, the
North Georgia Agricultural College at Dahlonega, are each doing a great work, in their respective lines, and I most heartily commend them to you as worthy of your encouragement and aid.

The failure of the State to aid the Middle Georgia Military and Agricultural College at Milledgeville was greatly to the disadvantage of one of the most useful of the State's educational institutions. This institution reaches a large part of our Southern territory which is not accessible to any one of the State's institutions for the education of boys. The State owns this property, worth possibly seventy-five thousand dollars, which can only be made useful as a college, and I commend it to your consideration.

**TAX-COLLECTORS.**

I respectfully recommend that the laws regulating the collection of taxes be so amended as to require the office of tax-collector to be conducted upon better business principles; and to require a more rapid transmission of funds collected to the State Treasury. There should be less opportunity afforded to the surety upon the bonds of tax-collectors to keep in custody or use the State's money. I further recommend the passage of a law which will make it a penal offense for any tax-collector to take the note of a taxpayer for taxes due. The injustice and dangers attendant upon the State's money remaining in the hands of the surety upon the tax-collector's bond, and upon a system which permits a tax-collector to increase his popularity by extending credits to the taxpayers, are too obvious to require any further statement from me, that you may see the necessity for the legislation which I recommend.

People have become so much opposed to going upon bonds of county officers, that many of our best officers are compelled to resort to some one of the organized surety companies, in order to make the bonds required, before they can enter upon the duties
of the office to which they have been elected. These companies have no assets in this State, and are, so far as I know, residents of other States. In case of default, we must rely upon voluntary payment on their part, or we are compelled to go into the courts of other States, to enforce our claim. That this evil may be corrected, I recommend that no surety company be authorized to do business in this State until it has deposited with the State Treasury sureties worth not less than $25,000, to be there held subject to any default for which it may be liable in this State.

ELECTION LAWS.

The decided advance taken by our State in the passage of the Registration Law, recently enacted, has met with the hearty approval of the people of the State, and they hope for such advancement in the reformation of our election laws, that no honest man's vote can be neutralized by a dishonest or fraudulent ballot. I earnestly urge upon you a thorough study of the election systems of other States, that such election laws that may be passed by you will be in harmony with the best methods of the day, and serve to secure honest elections and a government wherein the ballots of honest men will certainly control.

LYNCHINGS, PUNISHMENT OF CRIMINALS, SPEEDY TRIALS AND COURT PROCEDURE.

Since the last session of the General Assembly the courts have been permitted to try several cases in which the offense committed aroused to their depths the passions of the outraged community, and when the temptation to resort to "lynch law" was strong. In each instance the courts have justified the confidence of the people, and law has been administered in a way to increase respect for and fear of its decrees. In a number of cases lynch law has been resorted to, where the
offense committed was upon women. In one of these cases the party accused was in court on trial. He was taken from the court, while in session, by a mob, and hung in the streets of one of our principal cities, where the arm of the law is supposed to be strongest. To say that, on account of this, the character of our people and of our civilization suffered greatly in the estimation of the civilized world, tells the truth but mildly. I am firmly of the opinion that to check such lawlessness new legislation is needed, and that it is your duty to enact it. Innocent men have suffered at the hands of lynchers, and, unless lynchings are stopped, other innocent men will suffer. Guilty men, it is true, have suffered at the hands of lynchers; but these same guilty men would have suffered at the hand of the law, and the punishment inflicted by the law would have been far more effective in preventing similar crimes.

I am of the opinion that it would be better for us to amend the law providing for the punishment of assault with intent to rape, and make it punishable with death, just as rape is punished, leaving it to the jury to recommend imprisonment in the penitentiaries for a term of years, if, in their judgment, such punishment is adequate. Death is not too severe a penalty for the fiend who deliberately makes an assault upon a woman; and the knowledge that the criminal cannot be hung for this offense has, doubtless, often aroused that indignation, which has led the outraged community to take the law in their own hands, and inflict the punishment.

After a trial of some years, I am, after careful consideration, led to the conclusion that the law passed several years since, which abolished public hangings in this State, of which I approved at the time, was a mistake. I am still of the opinion that the impulse which leads people to eagerly seek to see one of their fellow beings hanged upon the gallows is not a noble one. But we must deal with people as they are and not as they
should be. I believe that ten private hangings are not so effective in deterring evil-doers and in commanding fear of and respect for the law as one in public. To return to the old law, which left it to the discretion of the circuit judge to provide for either private or public hanging, would, I think, be a proper course. This can safely be left to the discretion of our judges. In my opinion public hanging will aid in the suppression of crime and have some effect in discouraging mob law. In order that the officers of the law and the substantial citizens of a county may have material and personal interest in securing a submission to the law and the courts, in every case, I recommend the passage of an act which will authorize the Governor to remove from office any arresting officer from whose custody any defendant is taken by a mob whenever, in the opinion of the Executive, the arresting officer did not use due diligence or resort to the necessary force to protect the prisoner and keep him in custody; and that, in every instance where a prisoner is taken from the custody of an officer and lynched, the administrators of the deceased shall have the right to recover from the county, in whose service the officer is, the full value of his life, which in no case should be less than $1,000.

Our laws which provide for more expeditious trials of criminal cases have been of great value, but what we need to secure prompt justice to all and inspire the people with confidence in our courts is the speedy trial of all cases civil and criminal.

I desire to say to you, in perfect candor and frankness, that I do not believe that confidence in the speedy administration of the criminal law in our courts can be established by the expeditious trial of that particular class of cases only. The people will not discriminate in this way, as they view it, the courts are either slow or prompt. Our entire judiciary system needs overhauling. Justice should be more speedy, trials more prompt in every class of cases. Justice should not permit, nor public
sentiment tolerate, the continuance of a case for six months (from one term of court to another), because at the moment the case is called some reason exists why the case cannot be tried, which can be removed by taking it up at a subsequent time. One of the first steps to be taken to accomplish this needed reform, is to equalize the work of the judges of the Superior Courts. Their pay is the same, yet some of them do four or five times the work done by others.

CONVICT LEASE SYSTEM.

The present lease contract with the present lessees of the penitentiary convicts will expire on the first day of April, '1899. The number of convicts has grown from 1,230 at date of lease to 2,357. To permit the necessary arrangements to be made for the protection, care and employment of this large number we should decide, considerably in advance of the expiration of this lease, what disposition is to be made of them. I advise that such steps be taken by you at your present session as will enable you to secure all needed information to act upon this question at your session of 1897.

The people of this State will not and should not tolerate the re-enactment of the lease act now in force. Under whatever plan that is adopted the young criminals should not be confined with the older and more desperate ones, but should be placed in a reformatory, where punishment may be inflicted upon them under circumstances which will bring to bear such moral and Christian influences, that we may reform their characters and restore them to society as good citizens. As this question cannot be disposed of at the present time I do not think it advisable that I enter upon an elaborate discussion of suggested plan at this time.
COUNTY CHAIN-GANGS.

It is unquestionably true that under the present system, the convicts in the penitentiary are, as a rule, better fed, better clothed, better housed, better preached to, and more humanely treated than the convicts in the county chain-gangs. I call your attention to this class of convicts, and respectfully suggest that you authorize the appointment of an additional officer in the Penitentiary Department, whose duty it shall be to look after the misdemeanor convicts of the State, and see that they are justly and humanely treated.

Attached hereto is a copy of a report made to me by Hon. R. F. Wright, in 1895, to which I invite your attention.

In transmitting that report to your predecessors, I said:

"In my communication to you in 1894 I recommended that provision be made for State supervision of misdemeanor convicts. After the adjournment of the General Assembly reports reached me touching the management of these convicts, which indicated such a state of affairs that I felt it my duty as the Chief Executive of the State, charged with the obligation to see to the proper enforcement of the law, to investigate and place before you facts showing the true state of affairs, that the subject might be intelligently considered and wisely acted upon by you.

"To perform this important work, I engaged the Hon. R. F. Wright, who had faithfully and efficiently performed the duties of Assistant Keeper of the Penitentiary during the term of my immediate predecessor, to visit each camp in the State where misdemeanor convicts were worked, and make a thorough investigation and report to me.

"This task he has partially completed, and I herewith hand you his report upon the camps visited. It reveals such inhuman and barbarous conduct upon the part of some of those engaged in working this class of convicts, that comment by me is unnecessary to induce you to act promptly to save our State from longer submitting to this burning shame."
“There is but one remedy for the deplorable conditions now existing, and that is through State supervision, by which uniform treatment can be required under one set of rules enforced by our Penitentiary Department. I ask that you give this valuable report, which I now submit to your careful consideration, and to the subject upon which it bears, that attention which its importance demands. The special report made to me upon each camp visited gives in detail result of Mr. Wright’s investigation and is subject to inspection by such committee as may have in charge legislation upon this subject.”

STATE MILITIA.

In the past the State has made meager provision for the equipment and encouragement of the militia. I sincerely hope that this branch of the State government will receive the proper consideration and more liberal encouragement than has heretofore been extended to it by our General Assemblies. No civilized government has existed, or can long exist, which does not sustain a military force adequate for its own protection and for the enforcement of law. During my administration we have frequently called upon the military to support the civil authorities, and in every instance the State troops have conducted themselves admirably, and proven that they were worthy of your aid and encouragement.

THE SCOTT AND HAYES BONDS.

I am in receipt of a letter from Hon. Charles C. Kibbee in behalf of the payment by the State of the bonds known as the Scott and Hayes bonds. The letter to which I refer states briefly the case in behalf of the holders of the bonds, and is attached hereto that you may read and consider its contents. These claims have been presented to the General Assembly frequently heretofore, and no definite action has as yet been taken upon them. I suggest that your body thoroughly investigate the
merits of these claims and take definite action either for or against them. If any reason can be found why they should not be paid that reason should be known, declared to be true by your body, and this controversy brought to an end. If no such reason can be found we should promptly arrange for their payment, and not longer permit this cloud to hang over the State. The people of Georgia are not opposed to paying their honest debts, and will not censure, but applaud, their representatives who aid them in the maintenance of their honor as a people.

REPORTS FROM VARIOUS DEPARTMENTS AND STATE INSTITUTIONS.

I herewith transmit to you reports from the public institutions of this State, to which I invite your attention. I also lay before you reports from the various departments of the State government, all of which contain interesting information and valuable suggestions, which I trust will receive that consideration to which they are entitled. These efficient, faithful and able public servants have devoted themselves unselfishly to the interests of the State, and have considered thoroughly the recommendations which they have made. I respectfully ask that you take suitable action upon the recommendations made by each of them.

W Y. ATKINSON,
Governor.
REPORT

OF

R. F. WRIGHT

On the Condition of the Misdemeanor Convicts of the State.

To His Excellency, W. Y Atkinson, Governor:

Sir:—Having been requested by you to report on the work in which I have been engaged for the past month or two, viz.: inspecting the condition of the misdemeanor chain-gangs of the State, and the convicts therein confined, I beg to submit the following, although the inspection has not yet been completed, as there still remains perhaps fifteen chain-gangs which I have not visited, including those located in the most populous counties in the State.

Since my employment I have visited thirty-three chain-gangs, located in the following counties: Oglethorpe, Coffee, Dooly, Wilcox, Lowndes, Echols, Laurens, Baldwin, Putnam, Wilkes, Newton, Jasper, Morgan, Berrien, Lee, Irwin, Pulaski, Washington, Ware, Thomas, Emanuel, Jefferson, and Greene, and to the best of my ability, investigated each thoroughly and conscientiously, with the single idea of ascertaining and reporting the true condition of each, and of the system under which they are operated.

Of the thirty-three camps visited twenty-six are worked by private individuals, and are of that class which the Supreme Court has recently held to be illegal, and of the remaining seven, five are regularly organized county chain-gangs, and two are worked jointly by county and municipal authorities.

The total number of convicts imprisoned in these gangs is
seven hundred and ninety-five (795), of which there are twenty-seven white males, no white females, seven hundred and forty-nine (749) colored males, and nineteen colored females.

The average length of sentence I found to be nine months. Average number of hours worked per day, ten, with an average rest of one hour.

These convicts are employed in farming, saw-milling, brick-making, turpentine farms, and a few on public roads.

In the private gangs where the convicts are leased or hired to private individuals, the hire per month ranges from three to six dollars per capita, the average being about five dollars per month.

Generally the whites and blacks are not chained together, nor are the males and females, but they are worked together indiscriminately, and in many of the gangs practically no provision is made for a separation of races or sexes during the day, or at night in sleeping quarters.

There are among this number many convicts still under their majority, and I found eleven under the age of fourteen.

Very little attention is given to the comfort or sanitary condition of the sleeping quarters; some sleep in rude houses with no floors, some in tents on the bare ground, and a few in bunks. The bedding is generally scant and filthy, frequently full of vermin. In a number of the camps no fire is allowed even in the coldest weather. The ventilation generally is very poor and insufficient; in many instances in summer the sleeping quarters are veritable sweat boxes, being constructed only with a view to preventing escapes, comfort and sanitary conditions being entirely ignored.

With few exceptions, I found no hospital buildings for the sick, and no preparation for their care, comfort, or medical treatment.

In fact, it seems to be expected that misdemeanor convicts never get sick, or require no treatment if they do; one superintendent having boasted that in his gang, which averages twenty-five convicts, "he had not had a physician in five years," and yet, in one gang of eighteen men, I found there had been eight deaths in the past twelve months. In the vicinity of a few
camps, I found physicians residing who are called in when needed, but most of the gangs are practically without physicians, one being sent for only in extreme cases.

In a few of the camps the convicts are fairly fed, but generally the food, which consists of cornbread and fried meat, with no change from day to day, is scant and meager, and really insufficient to sustain health and strength.

The clothing is generally scant and filthy, some convicts going weeks without a change; hence vermin of all kind are not infrequent.

At some camps, only cotton clothes are used winter and summer, and at a number of camps, the convicts had no clothes except what they were then wearing.

I found female prisoners working side by side with their male confederates, dressed in full male attire, the authorities claiming that "this mode of dress was less in the way, and besides it seemed to be the tendency of the 'new woman.'"

With one or two exceptions, no record is kept showing name of convict, crime of which convicted, term, date received, date discharged, or record of daily conduct upon which the good time allowed by law should be based.

In many cases the convicts had to be looked up and counted before I could ascertain how many were in the gang. It was impossible to learn, on this account, how many convicts have been held beyond the term imposed by the courts; but, from my observation, taken in connection with other facts which will hereafter be mentioned, I am satisfied such cases occur not infrequently.

At some camps the authorities have required convicts to make up all time lost by sickness, and in some cases where an escape was recaptured, his term has doubled without indictment, trial, or authority of law, as I was reliably informed. The act of 1884 allows a convict commutation of four days off of each month for good behavior, or forty-eight days off of a twelve months' sentence. I find that this law has never been observed, except in three out of the thirty-three gangs visited, notwithstanding this law has been on the statute books for the past ten years.

At many camps I found no regular whipping-boss, but all
guards and bosses carried straps and punished the convicts *ad libitum*, and from this fact have gone out the reports, in many cases too true, of cruelty and inhuman treatment.

Without encumbering my report with the many cases which were discovered of ill-treatment and cruelty, I shall mention one which only illustrates the others. At one camp I found five convicts who had been so severely punished that though three or four weeks had elapsed, the effects were still plainly visible on my visit.

Judging from the condition of these convicts at the time of my visit, the punishment must have been cruel, brutal, savage, and barbarous. Many similar cases came under my observation.

The deaths for the past twelve months, so far as could be ascertained, amounted to twenty-seven, a rate more than double the mortality in the State penitentiary. These deaths were reported to me by the superintendent or lessee, from memory only, there being no record kept from which this data or any other could be ascertained.

Escapes are very frequent, there having been ninety-eight reported to me at the camps visited during the past twelve months, or more than twelve per cent. of the whole number confined therein.

With this report I send in to Your Excellency the details of my investigation of each camp, upon which this general report is based, and which will give some idea of the scope of the investigation made, and I trust will to some extent illustrate the magnitude of the undertaking and the care, with which I endeavored to ascertain the facts.

I cannot close this report without commending Your Excellency for endeavoring to procure some legislation which will bring this system into order and regularity, properly punish the unfortunate criminals, but at the time afford them protection and humane treatment. It is a disgrace to civilization that, when most of the misdemeanor convicts go from the courts to the chain-gangs, they are sold bodily for the term of their sentence, often to private parties who are responsible to no one for their treatment.

Many of the lessees I found to be good business men, intelli-
gent and humane, who are anxious to be informed of their duty under the few laws now of force touching the misdemeanor chain-gangs, and who expressed themselves as thoroughly in accord with Your Excellency in endeavoring to improve the system by proper legislation.

Realizing and appreciating the evils, they yet feel powerless to correct many of them under the existing statutes, and would hail with delight any legislation which would correct the evils, and bring the various gangs under one general uniform management.

I am glad to report also that the people of Georgia are awaking to the true condition of the chain-gangs, and are demanding legislation which will correct the many evils.

When I shall have finished the inspection, I shall make to Your Excellency a complete and more comprehensive report, going more in detail, and giving it that thorough preparation which I could not give to this, owing to the hurried manner in which it was prepared.

In the meantime, I have the honor of subscribing myself,

Very truly yours,

R. F. Wright.
JUDGE KIBBEE’S LETTER.

To His Excellency, W. Y Atkinson, Atlanta, Georgia:

GOVERNOR:—For the past ten or twelve years I have presented to the General Assembly of the State of Georgia bills which had in view the recognition and payment of certain bonds of the State. These bonds, for which payment has been sought, are as follows:

First. Bonds which were part of an issue made in behalf of the State Road, and are signed by Charles J. McDonald, Governor, and J. Crawford, President of the Commissioners of the Western and Atlantic Railroad; they bear date January, 1840-41 (and became due respectively in 1870-71), bearing interest at the rate of six per cent. per annum. Authority for the issue of these bonds is given in section 6 of an act approved in 1837, page 210. Interest coupons were attached to said bonds, but no coupons now remain, all having been paid.

The second class of these bonds are known as convention bonds. There are sixteen of these, each of the denomination of $500. They are signed by Charles J. Jenkins, Governor, dated February 1, 1866, and due five years after date.

All of the above recited bonds appear to be regular, and have the great seal of the State affixed thereto; a record of each one of them appears on the books of the Treasury Department as outstanding and unpaid, and the same books disclose the fact that the coupons representing the interest on said bonds were regularly paid until their maturity. Amongst the documentary evidence supporting the validity of these bonds and the fact that they are genuine, outstanding, unpaid obligations of the State, I have the original certificates of the following Treasurers, to wit:

Second. That of the Hon. J. W Renfroe, as ex-Treasurer of the State, dated August 28, 1889.

Each and all of said Treasurers certify, that these bonds appear upon the records of the State as being outstanding, past due, and unpaid bonds. Hon. J. W Renfroe, in his certificate, states as the reason for his non-payment of said bonds that he had been informed that they had not been presented for registration within the time prescribed by the General Assembly, in an act approved March 2, 1875. He adds, however, as above stated, that they appear on the record of bonds in the treasury as outstanding, past due bonds, unpaid.

Doctor J. T. Bozeman, who was the fiscal agent of the State and the acting treasurer, having reported that the Convention bonds were not presented for registration within the time fixed by law was the occasion of ex-Treasurer Renfroe's declination to pay the Convention bonds. A subsequent examination of the treasurer's books, however, showed absolutely and conclusively that Dr. Bozeman not only receipted for these bonds, describing them by number, denomination, and date, but that he, recorded them as having been registered on the book prescribed by law for their record. In addition to these records, I hold Dr. Bozeman's original receipt for the bonds, his certificate that he placed them on record and that he turned them over to the agent of the owner prior to the time fixed by law for registration.

In the matter of the McDonald bonds, the documentary evidence shows that these were lodged with the Executive Department by C. A. Nutting, who was then the chairman of the Finance Committee of the House, and by whom the same was presented to the Governor and Treasurer long prior to the expiration of the time fixed for registration. This evidence is supported by the affidavit of Mr. Nutting; by the affidavit of Mr. Scott, the owner of the bonds; by the affidavit of R L. Briggs, tracing continued ownership from about November 27, 1868, to the time they were purchased by Mr. E. P. Scott on July 1st and 8th, 1874; and the further affidavit of Mr. Scott that he had held said bonds up to the present time from the date of his purchase, as aforesaid. As in strict law these bonds should
WEDNESDAY, OCTOBER 28, 1896.

have been placed with the Treasurer before August 1, 1875, one of the questions presented to the then Attorney-General, Hon. Wm. A. Little, was, as per extract from his report:

"Do the affidavits and evidence presented by Scott, the originals of which are on file in the Executive Department, rebut the presumption created by the non-compliance with the act of 1875, in relation to presentation for record before August 1, 1875, that prima facie said bonds were paid and fraudulently reissued?" I think so.

A non-compliance with the terms of the act was not conclusive but prima facie, and simply put upon the holders the burden of removing this presumption. If there be any truth in the witnesses, the bonds were sent for record before the time expired, together with the proof of ownership of $8,500 for several years, and that before August 1, 1875, this information was in fact conveyed to the Governor and also to the Treasurer.

I am of the opinion, therefore, that the presumption raised by a non-compliance with the terms of the act of 1875, being only prima facie, is rebutted by the evidence of good faith, intention, and effort to comply with the law by holders and that the bonds should be relieved of this presumption and be further considered on their merits.

The next question which would arise is, are either of these two classes of bonds within the description of those against the payment of which a constitutional bar is imposed?

A reference to par. 1, sec. 2, art. 7 of the Constitution of 1877, and to the constitutional amendment, declaring bonds void, discloses that neither of these two classes of bonds are within the prohibited descriptions. In this connection, counsel for E. P. Scott & Co. has called my attention to a letter from Hon. T. J. Simmons, dated July 25, 1879, in response to an inquiry whether the bonds held by E. P. Scott & Co. were before the Finance Committee of the Constitutional Convention in 1877, Judge Simmons being chairman of that committee. In his reply the following information was given: "The original report of the Committee on Finance prescribed what bonds were legal and valid and declared all others not enumerated void. This report was subsequently modified and assumed its present constitutional
form because the attention of the Committee on Finance was called to the fact that the bonds then held by E. P Scott & Co. were outstanding and unpaid, had not been included in any act or resolution of the General Assembly declaring bonds of the State illegal, null and void, and were thought to be valid bonds. The bonds were before the committee and the discussion upon their merits gave rise to the above change."

Without making further reference to the report of the Attorney-General, I briefly submit to Your Excellency a summary of his conclusions.

"1st. They are certainly genuine and the State received value for them. 2d. They were authorized to be issued by law. 3d. They were duly entered on the books of the Treasury which show the coupons to have been paid. 4th. They were presented for registration or satisfactory proof made of an effort to present them in good faith in compliance with law. 5th. They were not in the class of outlawed bonds. 6th. If the evidence of men presumed to be credible is to be taken as true, they could not have been taken up and reissued at the time and by the person suggested. 7th. Because it nowhere appears that the State has given credit to any agent or officer for the amount of these bonds as having been paid by him. 8th. They are promises of the State of Georgia to pay, and these promises stand good until clear proof be made of fraud and invalidity of the promise."

The Attorney-General, having stated that he had failed to find any reasons indicating that the bonds were invalid, closes his report with these words: "It is my opinion that all the bonds referred to are legal and valid obligations of the State."

Permit me to add to this presentation of the claim of the owners of these bonds, that every Finance and sub-Finance Committee of the House, to whom the question has been submitted, has approved the payment of these bonds. No adverse report upon them has ever been made; and in addition to the favorable report of the Finance and sub-Finance Committees of 1893, a special committee was appointed by Your Excellency, of one from each Congressional district, not only to review the favorable action of the Committee and a sub-Committee on Finance of that year, but also the report of the Attorney-General, and this committee unanimously reported in favor of these bonds.
I respectfully call your attention to the report of this special committee, because they had before them not only the documentary evidence heretofore referred to, and also the report of the Attorney-General, but said committee entered upon new lines of investigation. They had Mr. Scott appear before them in person, and examined not only the records of the treasury, but also those of the Executive Department, and verified the facts set out in the Attorney-General's report.

The conclusions of the special committee are summed up in the following extract, taken from their report, which may be found on pages 419 and 420, Journal of the House, 1893:

"For now, nearly twenty years the holders of these bonds have been pressing them for payment. They have been subjected to the scrutiny and examination of the State in every department of the government under the pressure of the demand for payment by the owners, and nothing has been brought to light affecting their genuineness or the validity of their issue. The records of the State show them to be outstanding and unpaid. They are not included in any of the bonds declared invalid by constitutional or legislative enactment.

"Your committee have carefully examined the opinion of Hon. W A. Little, Attorney-General, on the validity of these bonds, made October 26, 1892, under resolution of the General Assembly of 1890 and 1891. The facts concerning these bonds are therein fully set forth and have been verified by your committee, and they concur in the opinion expressed, that these bonds are 'legal, valid obligations of the State.'

"It seems to your committee that there is no reason longer to delay an adjustment of these bonds with the holders, and that justice, as well as the credit of the State, demands it.

"The terms of adjustment as proposed by the owners and set forth in the bill referred are fair and reasonable, and should be accepted by the State in its enactment."

In order that Your Excellency may have before you the specific number of each class of bonds sought to be paid, I herewith submit them:
CONVENTION BONDS.

Numbers 43; 60 to 72, both inclusive; 80 and 260.

They were issued by authority of an ordinance passed at a convention of the people in 1865, and all of these bonds bear date February 17, 1871. That neither these nor those known as McDonald bonds are included in any the list of invalid bonds. See amendment to State Constitution, page 1329, Code of 1882; Acts of 1875, pages 13, 14, and 29; Acts 1876, page 9; Acts 1887, page 24; Acts 1872, pages 5, 6, 7, and 8.

M'DONALD OR W. & A. R. R. BONDS.

These bonds, as heretofore stated, are dated January 1840-41; matured January, 1870-71, and are as follows:

I have only outlined in this communication the character of the evidence supporting these bonds, and a summary of legislative action thereon. The question may be asked, however, why, with this mass of evidence, there was any delay in applying to the Legislature for payment? The answer is, first: Every well-informed Georgian knows that at the date of the maturity of these bonds the State was not only without funds to pay its past due bonded debt, but had to borrow money by pledging the revenues of the W & A. Railroad until it could make provision by law to fund the old debt and pay current expenses.

No permanent provision for the payment or funding of any bill was made until 1873, when the Legislature passed what is commonly known as the Nutting Bond Bill, authorizing the funding of old bonds in new 8 per cents. This bill, however, furnished no relief, because Treasurer Jones, on the 26th day of May, 1873, issued a circular letter of that date notifying holders of these bonds “that no old bonds would be taken up with cash or currency until the entire issue of new bonds was disposed of.” See copy of Treasurer’s circular letter accompanying “Audit of City Bonds,” page 13.
Early in 1875 the treasurer again notified the holders of old bonds that payment would be made upon certain proof submitted, and on March 2, 1875, the Legislature suspended all payments until presentation for record. The bonds I hold have been year after year submitted to the Legislature. The State has not only had value received for them, but petitioners bought them before maturity in open market and without notice of any defect in form or substance, if any there be.

I respectfully submit that the State should pay every obligation that one citizen would be bound to pay another under similar circumstances; and the fact that the right of appeal to the courts is denied to creditors of the State is based upon the idea that she will always be ready to do justice to the creditors to the fullest extent, and meet and pay all obligations for which she is legally or equitably liable. Under the facts submitted I respectfully ask that in your message to the General Assembly the claims of the holders of these bonds may receive such recognition or recommendation as Your Excellency may think they are entitled to.

I am respectfully yours,

Chas. C. Kibbee.
On motion of Mr. Battle, five hundred copies of the foregoing annual message were ordered to be printed for the use of the Senate.

The following message was received from the House of Representatives through Mr. Hardin, the Clerk thereof:

Also, House resolution No. 23, with recommendation that it do pass, to wit:

J D. KILPATRICK, Chairman.
The following bills of the House, which were referred to the General Judiciary Committee, were recommitted to the Special Judiciary Committee, to wit:

A bill to repeal an act approved February 28, 1876, providing that the insolvent costs of the Solicitor, mentioned in said amendatory act, shall be paid from the funds realized from hiring out convicts of said County Court of Wilkes county.

Also, a bill to appropriate the proceeds from the hire of convicts in the Northern Judicial Circuit, to the payment of costs accruing to officers, approved October 15, 1887, so as to exempt Wilkes county from the provisions of that act.

Also, a bill to amend an act to establish a system of public schools in the town of Roswell, in Cobb county, etc.

The following message was received from the House through Mr. Hardin, the Clerk thereof:

Mr. President:

The House has passed the following House bills, by the requisite constitutional majority, to wit:

A bill to amend section 943(a) of the Code of 1882.

Also, a bill to establish a system of public schools for the city of Moultrie.

Also, a bill to require Judges of the City and County Courts to write their charges in certain cases.

Also, a bill to amend an act providing for the registration of voters in this State.
Mr. SteAvart, of the Twenty-seventh District, Chairman of the Committee on the Lunatic Asylum, submitted the following report, which was adopted and one hundred copies thereof were ordered to be printed:

Mr. President:

Your committee on the Lunatic Asylum have visited that institution, and after a careful survey of the same, beg leave to report:

The buildings and grounds of the Asylum are in a good state of preservation. The internal condition of the walls and wards throughout the entire building are kept in perfect style, and are perfect in cleanliness, of which we cannot speak too highly. The order, system, and perfect control of the inmates speak in terms that are unmistakable of the ability and faithfulness of the employees to whose care the details of the establishment are necessarily to a large extent entrusted.

We find that the accommodations are now ample to accommodate the patients applying for admittance, which has not been so until within the last year. The trustees have erected a large additional building which has supplied additional room for the inmates that was badly needed; they have done so with the last appropriation for building more room; they have done so with the one hundred thousand dollars appropriated in 1893, and we think they deserve the commendation of the General Assembly for the economical way in which they have managed the appropriation for said building.

We examined into the finances of the institution, and are satisfied that the same have been administered during the past two years faithfully and economically. The system of bookkeeping is thorough, minute, exact, and easily understood, and every item of receipts and expenditures is prop-
erly verified by duplicate vouchers, which were exhibited to a sub-committee of our number, and their examination was perfectly satisfactory. A re-examination can be had at any time by going through the accounts and vouchers on file in the office of the Governor in the capitol building.

The accounts show a balance on hand on the 1st of September, 1896, of $7,781.10.

This balance has been accumulated by reason of the fact that the expenses are less during the summer months, owing to a smaller consumption of fuel and lighter clothing, both for wearing and bedding, while the subsistence department is greatly aided by the vegetables from the farm and garden, so that the monthly outlay is considerably less than during the winter. But this balance will be entirely absorbed by the increased expenses of the winter months now upon us.

We believe that the amount of insurance carried on the property of the State at the Asylum is entirely too small for the value of the property, and we recommend that the amount of the policy of insurance be increased to such an amount as may be deemed proper by the Finance Committee, simply stating that the present policy, which we learn is $260,000, is not equal to one-fourth of the value of the property insured, which is over $1,000,000.

The farm, garden and dairy connected with the Asylum, we believe to be a fine adjunct for the same. Large quantities of beef, pork, milk, butter, potatoes, and vegetables are produced and furnished to the inmates and employees of the institution, adding much to the health and comfort of all. We are sorry to state that the supply of pork will be greatly diminished this winter by reason of the loss of a large number of hogs this year by cholera.

We find the medical staff of the State Lunatic Asylum to consist of a physician in charge and superintendent, Dr. T. O. Powell, aided by a capable and efficient staff of five
assistant physicians, viz.: J. M. Whittaker, M.D., first assistant physician; L. M. Jones, M.D., J. C. Patterson, M.D., W A. O'Daniel, M.D., and T. E. Oertel, M.D., pathologist. The services of these physicians are so divided as to equalize the enormous duties imposed upon them, and at the same time to permit them to render the most efficient aid to those unfortunates directly placed under their charge. These assistant physicians are required to visit their patients twice daily, and as often in addition as the necessity of any case may require, at the same time to respond to any extra calls which may be made upon them at night.

The number of inmates at present in the institution is 2,013. It would seem, therefore, that even by an equal division of the work, all of them would be overtaxed in the discharge of their duties. But when it is remembered that a very large number of the inmates do not require other treatment than such moral treatment as may be suggested generally by the superintendent and his associates, it will be observed that there is no neglect of the sick.

The recent addition of a Bacteriological Department under the direction and control of Dr. T. E. Oertel, an experienced and skilful microscopist, has added greatly to the general welfare of the institution. Daily examinations of the sputa of patients, the urine excreted as to quantity and condition, as well as the examination and post-mortem specimens, will greatly add to the proper diagnosis and treatment of cases requiring treatment for diseases other than those arising from mental and nervous derangement. This department, although but recently established, the committee feel assured will greatly add to the better care of the inmates of the institution.

The Dispensary your committee found presided over immediately by a skilful and competent apothecary, Dr. A. G. North, upon inquiry of whom your committee
learned was called upon daily to dispense about sixty prescriptions. The expense of this department, your committee were informed, is about $5,000 per year, which is a per capita of about five and one-half cents per diem.

Your committee made personal inspection of the food furnished, and are gratified to report that it was good in quality, well prepared, well cooked, and in every way satisfactory and wholesome. In addition to our personal inspection, repeated inquiries of the many inmates confirmed the accuracy of the opinion. The universal satisfaction of the inmates of the institution as expressed by themselves attest to their care and welfare, and your committee is pleased to report that they discovered no ground for complaint in any manner as to the management and care of these unfortunates, and we cannot close without commending in the highest terms the administrative and executive ability of the superintendent, Dr. T. O. Powell.

We recommend that the following appropriations be made:

For support and maintenance of the institution for the year 1897 $280,000

For support and maintenance of the institution for the year 1898 290,000

For duplicate water main 5,000

All of which is respectfully submitted,

J. A. STEWART,
Chairman Senate Committee.

Mr. Cook, from the sub-Committee of the Lunatic Asylum to inspect the Georgia Military and Agricultural College, submitted the following report:

Mr. President:

The committee appointed to inquire into the claims of the Middle Georgia Military and Agricultural College, beg
leave to report that they have performed the duties imposed upon them, and beg leave to submit the following report:

1. The College was created under an act of 1879, and organized regularly under the terms of the act. Said organization being perfected by local Board and Trustees of State University, by a department of the State University.

2. That there was an implied agreement by the Trustees of the State University, under the terms of the act of 1879, that if the city of Milledgeville donated two thousand dollars ($2,000) per annum for the payment of teachers, that there should be a department of the State University maintained by the State at Milledgeville. We find that the city has complied with said contract, and in addition erected a twelve thousand dollar ($12,000) dormitory, which will have one hundred cadets.

3. We find that the property committed and lent by the State to the Trustees of the University was assessed and valued at fifty-five thousand dollars ($55,000) at the time the Capitol was moved from Milledgeville, and that said property has been kept in good repair, the State having expended since said time five thousand dollars ($5,000) in repairing the same, and that said property is now in better condition for school purposes than before.

Your committee is not able to determine the present market value of said property

4. We find that since the old Capitol building was destroyed by fire, the same has been rebuilt and remodeled, and is now in splendid condition for school purposes.

We find said college is efficient in its branches, and said college is now in a better condition to do efficient service to the State than ever before.
We also find that there is now between three and four hundred students in said college; a large number of said students being from the lower section of the State.

We therefore recommend that the State make an appropriation of three thousand dollars ($3,000) per annum, in order to maintain said college, believing this sum is necessary, in connection with the annual appropriation from the city of Milledgeville.

Respectfully submitted.

On motion of Mr. Turner, the bill of the Senate to abol-
ish barrooms, etc., was made the special order for Thursday next, immediately after the reading of the Journal.

On further motion of Mr. Turner, the bill of the Senate to prohibit the sale of any intoxicating, fermented or distilled liquor, in this State, in less quantities than one pint, etc., was made the special order immediately following the Anti-Barroom bill.

The following Senators were granted leave of absence, to wit: Mr. Hudson, for to-morrow; Mr. Brinson, for Tuesday, Wednesday and Thursday; Messrs. Atkinson and Witcher, for two days, to visit a penitentiary camp.

Senators Starr, Hopkins, Ham, Dunwody and Battle, introduced the following privileged resolution, which was read, amended by inserting the words "in writing," after the word "body," in the seventh line from the last, and agreed to, as amended:

Whereas, Heretofore, to wit: On the 2d day of December, while the bill of Senator Hopkins, seeking to so amend the Constitution as to require the election of Judges and Solicitors-General by the people, was under discussion, Senator Carter, from the Thirty-first District, in discussing the bill said, in substance, as follows: "Some of the men who have been elected to the office of Judges of the Superior Court, are a disgrace to the people," and did also say, in substance, as follows: "There are men on the bench today who are worse than the convicts whom they have sentenced to the penitentiary, and let not the Senators call on me for names lest I give them"; and

Whereas, On the 7th day of December, Senator Carter, of the Thirty-first District, in explaining what he said before the Senate on December 2d, in substance reiterated
the charges above made, and stated that he would, if called
upon in the proper manner, furnish the name or names of
the parties or judges he had reference to; and

Whereas, Such charges are a serious reflection upon the
judiciary of the State, and cause a suspicion to arise as to
the integrity of each Judge of the Superior Court in the
State; and

Whereas, The State cannot afford to have corrupt judges
administering the laws of the State, but such judges should
be intelligent and honest and free from suspicion of cor-
ruption; and

Whereas, It is the sense of the Senate that the charges
hereinbefore made should be fully investigated;

Therefore, be it resolved, That Senator Carter be, and
he is hereby, requested to furnish to this body, in writing,
the names of the judges whom he has charged with corrup-
tion, and such evidence as he may have to sustain such
charges, so that the Senate may take such action in the
premises as it in its wisdom deems proper and just.

The Senate adjourned, on motion, until 10 o'clock a.m.
to-morrow.

Mr. Stewart, of the Thirty-fourth District, submitted the following report:

Mr. President:

Your committee appointed to visit the Georgia Normal and Industrial College, at Milledgeville, beg leave to submit the following report:

We visited and carefully examined the various departments of this great school. Every department is ably presided over by talented teachers, and it is the opinion of your committee that never, in the history of our State, has such thorough work been done. The pupils are being trained in the various avocations that the good women of our State may follow; they are thoroughly taught in the arts of cooking, dressmaking, telegraphy, bookkeeping and typewriting, in addition to the fine arts.
TUESDAY, DECEMBER 8, 1896.

We find the dormitory conveniently arranged, and a model of neatness and good taste, but not large enough to accommodate the needs of the college, as we are informed that about 200 girls were turned away this year for want of accommodations. The college is in sore need of a chapel large enough to seat the school comfortably during devotional and commencement exercises. The courses are divided, in a general way, into five departments, to wit: Normal, Industrial, Collegiate, Domestic, Music and Fine Arts. The library contains over two thousand volumes, treating of the subjects sought to be learned of, and is conveniently arranged.

There are at present about 350 young ladies and girls in attendance upon the college, and they are being thoroughly taught in the various branches, and we feel that they will not only be equipped to go out into the world and earn a living for themselves, but they, having been blessed by our grand old State, will, in turn, bless those with whom they come in contact.

We think the State has a most efficient President of this college in the person of Dr. J. Harris Chappell, and is to be congratulated in having secured his services for this important work.

Respectfully submitted.

On motion of Mr. Battle, the response of Mr. Carter to a resolution adopted by the Senate on the 7th inst. was ordered to be spread on the Journal, and is as follows, to wit:

THE RESOLUTION

Mr. President:

"On December 7th the following resolution was passed by this body:
"'Whereas, Heretofore, to wit, on the 2d day of December, while the bill of Senator Hopkins, seeking to so amend the Constitution as to require the elections of judges and solicitors-general by the people, was under discussion, Senator Carter, from the Thirty-first District, in discussing the bill, said in substance as follows: "Some of the men who have been elected to the office of judges of the Superior Court are a disgrace to the people," and did also say in substance as follows: "There are men on the bench to-day who are worse than the convicts whom they sentenced to the penitentiary, and let not the Senators call on me for names, lest I give them;" and

"'Whereas, On the 7th day of December, Senator Carter, of the Thirty-first District, in explaining what he said before the Senate on December 2d, in substance reiterated the charges above made, and stated that he would, if called upon in the proper manner, furnish the name or names of the parties or judges he had reference to; and

"'Whereas, Such charges are a serious reflection upon the judiciary of the State, and cause a suspicion to arise as to the integrity of each judge of the Superior Court in the State; and

"'Whereas, The State cannot afford to have corrupt judges administering the laws of the State, but such judges should be intelligent and honest and free from suspicion of corruption; and

"'Whereas, It is the sense of this Senate that the charges hereinbefore made should be fully investigated; therefore, be it

"'Resolved, That Senator Carter be and is hereby requested to furnish to this body, in writing, the names of the judges whom he has charged with corruption, and such evidence as he may have to sustain such
charges, so that the Senate may take such action in the premises as it may, in its wisdom, deem proper and just."

"I call your attention to my statement embodied in the above resolutions, where I declare that the names would be furnished when I was called on in a proper manner. At that time I suggested that the resolutions contain a provision for the appointment of a committee from this body, before which I might appear with witnesses and substantiate the charges made.

"One of the Senators who introduced the resolution said: 'We have introduced it with the utmost good faith. It is our duty to the citizens of Georgia to ascertain the facts.'

"Yet my suggestion, which provided the only way in which this matter could be properly considered, was not acted upon, the resolution as passed simply requesting me to give the names and testimony in writing. Under that provision the testimony would necessarily be voluntary, and, though doubtless sufficient for certain cases, would not make it possible to consider this matter as thoroughly as the gentlemen who signed the resolution might wish or the people of this State demand.

"The people want the whole truth, not a part of it. They want the commission of every unworthy servant revoked, not that of one scapegoat.

"That this matter be undertaken in no half-handed manner, I will give you some insight as to the probable scope of the investigation.

"Not only have the statements of Senators received no consideration, but it is a matter of record that statements made by a Governor, reflecting severely on our courts, also receives no consideration. Whether we are living in a purer atmosphere than two years ago, or whether it is because our representatives and judges are
nearer to each other than formerly, or whether it is believed that a Senator is more capable of furnishing evidence than a retiring Governor, I do not know. The people of this State must decide.

"Yet the fact remains that after the reading of Governor Northen's last message to the General Assembly, impugning as it did the judges and solicitors of this State, no one was heard to cry out: 'Governor, do you intend to reflect on my own judge?"

"Governor Northen says:

"'It is a question worthy of your consideration as to whether the common public should bear the expense for the maintenance of a criminal in the county jail, after conviction, unless, because of some physical infirmity, he may be unable to bear heavier penalties under severer and more disgraceful methods.

"'There are many grave objections to the alternative penalty imposed by fines. My candid judgment compels me to believe that this system would be greatly abridged. In some cases I have reason to know that penalties would not have been inflicted at all were it not for the fine to be distributed in final settlement.

"'As the executive of the State I have been asked, time and again, to fix alternative penalties in fines, when the innocence of the party was partially, if not wholly, conceded. It is dangerous to trust the liberties and the rights of the people to such a powerful temptation on the part of the officers of the law.

"'Again, the social conditions that exist in our State make it possible for the fines to be paid by innocent parties. This system, under such policy, amounts practically, in some sense, to compounding a crime. The officers of our courts should be paid salaries, so that they may be relieved from the temptation to wrong-doing
toward unfortunate citizens who can be convicted for a price.'

"The extracts I have just read to you are taken from Governor Northen’s last message to the General Assembly of this State, written when his successor was already elected to office; written when he had no political ax to grind; written apparently attacking a system, but with such an avowed knowledge of corruption that I must believe it was done with the hope that the body to whom it was addressed would not only correct the evils of the system, but investigate and punish those who had profited by it, and, with the evidence that he could produce, then and there shatter the unholy combination of judicial officials that at that time was rejoicing in its complete triumph over the people of this State.

"I declared that there were judges who were worse than some of the criminals they had sentenced to the chain-gang. Governor Northen declared that innocent men could be convicted for a price. Hear him:

"'In some cases I have reason to know (he does not say believe) that penalties would not have been inflicted at all were it not for the fines to be distributed in final settlement.'

"Who but the judges of the State can inflict penalties?

"He declared that innocent men were sentenced for the money that was in it for final distribution, but no man raised his voice to help this Governor in what would have been the grandest act of his administration—the purging of the judiciary of the State.

"Senators, there are men on the bench to-day who were judges then. There were representatives in that General Assembly who are Senators now

"In conclusion, I say if you create the machinery
necessary for a thorough investigation of this matter; you inaugurate an investigation that can embrace the whole State if necessary, I shall not only co-operate, but seize the initiative, no matter how thankless the task may prove. There should be an investigation of these utterers. They make a blot on the fair name of Georgia. Let it be inaugurated in the proper way and in the utmost good faith by the Legislature, and the good people of the State will lend their aid, and the work will not be a fruitless fiasco. I stand on the statement I made to the Senate on the 2d. I will specify charges and furnish names of witnesses when it can be done in proper manner.

"And now, Mr. President, in conclusion, I request at this be spread upon the Journal."

Mr. Battle, in behalf of himself and Senators Starr, Hopkins, Ham and Kilpatrick, introduced the following resolution which was read and adopted, to wit:

"Whereas, On the 2d day of December, 1896, Senator Carter, of the Thirty-first District, did, on the floor of the Senate, attack the integrity of the judiciary of the State and stated that he would furnish the names such judges if demanded by the Senators; and

"Whereas, On the 7th day of December, 1896, Senator Carter, of the Thirty-first District, stated in open senate that he would furnish the names of the judges whose integrity he had attacked with evidence to sustain such charges if called upon in the proper manner:

"Whereas, The Senate did, on the 7th day of December, 1896, pass the following resolutions, to wit:

"Whereas, Heretofore, to wit, on the 2d day of December, while the bill of Senator Hopkins seeking to
so amend the constitution as to require the elections of Judges and Solicitors-General by the people, was under discussion, Senator Carter, from the Thirty-first District, in discussing the bill, said in substance as follows: "Some of the men who have been elected to the office of Judges of the Superior Court are a disgrace to the people," and did also say in substance as follows: "There are men on the bench to-day who are worse than the convicts whom they sentenced to the penitentiary, and let not the Senators call on me for names lest I give them;" and

"Whereas, On the 7th day of December, Senator Carter, of the Thirty-first District, in explaining what he said before the Senate on December 2d, in substance reiterated the charges above made, and stated that he would, if called upon in the proper manner, furnish the name or names of the parties or judges he had reference to; and

"Whereas, Such charges are a serious reflection upon the judiciary of the State and causes a suspicion to arise as to the integrity of each judge of the Superior Court in the State; and

"Whereas, The State cannot afford to have corrupt judges administering the laws of the State, but such judges should be intelligent and honest and free from suspicion of corruption; and

"Whereas, It is the sense of this Senate that the charges hereinbefore made should be fully investigated; therefore, be it

"Resolved, That Senator Carter be and is hereby requested to furnish to this body in writing the names of the judges whom he has charged with corruption, and such evidence as he may have to sustain such charges,
that the Senate may take such action in the premises it may, in its wisdom, deem proper and just; and

"Whereas, The Senator from the Thirty-first district, in response to the request made upon him, did, the 11th day of December, 1896, make a statement to the Senate in writing in which he declined and refused to give the names of the guilty parties or to furnish the evidence of their guilt to the Senate unless an investigation was inaugurated for that purpose; and

"Whereas, It is not the province of or within the jurisdiction of the Senate to investigate charges of this character in view of the fact that the Senate may ultimately become the tribunal to pass upon and determine the truth of said charges; and

"Whereas, The duty of inaugurating such an investigation is lodged by the constitution in the House of representatives; and

"Whereas, The Senate has exhausted all methods consistent with its power under the constitution with respect to said charges, in an effort to ascertain the names of the parties and the evidence of their guilt; therefore, be it

"Resolved by the Senate, That it is the sense of the Senate that the Senator from the Thirty-first who claims to know the guilty parties and to possess the evidence of their guilt, should have furnished the same to the Senate, and should now do so in response to the resolution passed by this body on December 7, 1896, and therein set forth, so that the same might be transmitted to the House of Representatives whose special province is to investigate charges of this character."

The report was agreed to.

The bill was read the third time and passed; ayes 26, ays 0.

A resolution of the House "to provide for supplying deficiency in the contingent fund" was read the first time and referred to the Committee on Appropriations.

The bill of the Senate "to authorize the State School commissioner to grant permanent license to certain graduates of the Normal and Industrial College at Milledgeville" was read the second time and passed to a third reading.

Mr. Comas, chairman of the Committee for the Deaf, submitted the following report, one hundred copies of which were ordered printed for the use of the Senate:
Mr. President:

Your committee appointed to visit the Georgia School for Deaf beg to submit the following report:

We find that the finances of the institution have been properly and judiciously expended, and that bills and accounts from September, 1895, to October, 1896, have been properly accounted for, and your committee cannot too highly commend the system of bookkeeping in vogue there, which is perfect in its detail.

We find that the colored department is very much in need of a kitchen, as the one in use is entirely inadequate to the present needs of the institution on account of its size, and we recommend that a new one be built.

We also recommend that the sum of five thousand dollars be appropriated to heat the institution with steam, which, when accomplished, will result in a great economy of fuel, amounting to three hundred dollars per year.

We also recommend that the sum of two thousand dollars be appropriated to erect and furnish electric lighting, as the present lighting is done by tallow candles, kerosene being dangerous for the children to use, and on that account the management is restricted to the use of candles.

We recommend that fifteen hundred dollars be appropriated for the repair of the buildings and painting of them, and we think that this should be done as speedily as possible, as it will take an increased amount for repairs the longer it is delayed.

We also recommend that the sum of six thousand dollars be given, as soon as it is practicable to do so, to erect and furnish a gymnasium and industrial hall for the girls.
We find that the most pressing need of this most worthy institution is an appropriation of two thousand five hundred dollars to equip the excellent shop that has been built at a cost of fifty-five hundred dollars ($5,500), with all the modern machinery necessary to instruct these poor unfortunates in the various trades or callings, whereby they may be better enabled to become useful citizens when they leave this institution. We cannot too strongly urge that this be done, for the following reasons:

We find that on account of the absence of manual training, the pupils, after the long years of stay in the institution, leave there with no trade or occupation, which is very conducive to a condition of professional indolence, and they then are a charge on communities or individuals for their support and maintenance on this account, which will be very readily corrected by supplying the shop with the apparatus they need, so that they may be taught the various trades, such as harness and shoemaking, painting, wood and iron work of various kinds, so that they may have the opportunity of becoming skilled operatives in the various manual occupations.

We cannot too strongly recommend this to the attention of the members of the General Assembly, as we regard this as the most important addition to this worthy Institution.

We find the buildings and grounds, with the live stock of the institution, all in an excellent condition, with the hygienic and sanitary arrangements simply perfect.

We cannot too strongly commend the able and efficient principal, Mr. Connor, aided and assisted by a worthy staff of assistants. Too much cannot be said in their praise when we consider the kind and sympathetic care necessary in their part to properly teach and instruct these, "the children of silence."
The results that have been accomplished under Mr. Connor's system of management entitles him to the highest commendations of the whole people of Georgia.
Respectfully submitted.

P H. COMAS, Chairman.

"Amend the resolution by adding at the end of section 2 the following words: 'Provided, that said committee shall not visit any prisons and reformatories of other States until they have fully exhausted all the sources of information; and provided further, that in no event shall said committee so visit said prisons and reformatories unless, in the opinion of a majority of the committee, it be absolutely necessary for the acquisition of the information sought; provided further, that the total amount to be expended by said committee shall not exceed the sum of three thousand dollars.'"

Mr. President:

The joint committee of the Senate and House of Representatives, designated to prepare a suitable expression
of the sorrow occasioned the General Assembly by the recent death of an honored member of the House, the Hon. Robert U. Hardeman, beg leave to present the following memorial, and recommend the adoption thereof by a standing vote:

MEMORIAL

ROBERT ULLA HARDEMAN,
REPRESENTATIVE OF NEWTON COUNTY IN THE
GENERAL ASSEMBLY OF GEORGIA.

Died December 3, 1896.

Death has removed from membership in this body a noble man, a courtly gentleman, a distinguished citizen, a wise counsellor, and one who was an affectionate and cherished friend to each of his fellow members.

A native of this State, he lived a long life of continuous citizenship within its borders, exemplifying in his private life the sturdiest virtues of its people, and in his public services the most eminent qualities of its statesmen.

He served the commonwealth gallantly in war; in peace he was foremost among those who guided its policies in lines conformable to its high device—Wisdom, Justice and Moderation.
Keeper of the public funds through many consecutive terms of service, he guarded the honor of the State no less scrupulously than its treasure, and laid his office down but shortly before the conclusion of his days, conscious and deserving of the high admiration of his fellow citizens, alike for the spotless integrity with which he kept his trust, and for the fidelity with which he maintained the unblemished credit of the State.

He was a godly man, a Christian gentleman in faith and act, and, none may doubt, has gone to the rich reward of the steadfast, the virtuous and the just.

Of the many public services of his long and illustrious life, of the many noble traits of his lofty character, of the great sorrow which has come to a multitude of loving hearts by reason of his passing from the stage of earthly labor, it is not possible to speak in detail in this memorial.

As simple tribute to his virtues and his distinguished public services, and in loving testimony of the great grief his death has brought his fellow citizens, the General Assembly orders:

1st. That this memorial be entered upon a page of the Journal of each the Senate and the House of Representatives exclusively dedicated thereto.

2d. That the Clerk of the House be instructed to transmit an engrossed copy of this memorial to the family of the honored dead, as a feeble expression of the
respectful sympathy entertained by the General Assembly for them in their great bereavement.

Respectfully submitted.

Mr. Battle submitted the following report:

Mr. President:

The joint special committee from the Senate and House to consider the report of the Special Attorney for the Western & Atlantic Railroad and recommend appropriate legislation, beg to report as follows:

The committee, consisting of Senators Battle of the Twenty-fourth District and Gray of the Twenty-third District, on the part of the Senate, and Representatives Meldrim of Chatham, Slaton of Fulton and Patten of Thomas, on the part of the House, has held several sessions, and has given a thorough and exhaustive examination into the affairs of the office of the Special Attorney for the Western & Atlantic Railroad.

The Special Attorney has, upon the most advantageous terms to the State, made a great many settlements of encroachments and trespasses upon the State's property, and by the careful and efficient discharge of the duties of his office, much valuable property has been saved to the State. The litigation has been satisfactorily and successfully conducted wherever litigation was necessary to properly protect the State's interest.

It would be a tedious task for your committee to give a detailed account of these settlements of the liti-
gated cases that have been disposed of. We therefore desire to call special attention to the exhaustive report made by this official. We feel sure that the work done by the Special Attorney is not only of great present value to the State, but that its value so far as the future of the Western & Atlantic Railroad is concerned is much greater than we could possibly estimate in dollars at this time. There are several important matters that are yet undisposed of. Two or three of these involve considerable litigation, but the Special Attorney feels sure that all of them may be disposed of within the next two years. We, therefore, recommend a continuance of the regular appropriation for his salary, which recommendation was adopted by the General Assembly in the passage of the general appropriation bill.

Your committee has recommended the following resolutions, which have been adopted by the present General Assembly:

1. Resolution directing proceedings to be instituted against the Nashville, Chattanooga & St. Louis Railway for the recovery of part of the original depot grounds at Chattanooga.

2. Resolution to concur in additional terms proposed by the city of Atlanta affecting Wall street and the triangle.

3. Resolutions authorizing the Atlanta, Knoxville & Northern Railway Company to avail itself of the privilege granted the Marietta & North Georgia Railroad Company in the use of the right of way of the Western & Atlantic Railroad at Marietta.
4. Resolution concerning official maps, character and value of the work.

5. Resolution requesting the General Assembly of Tennessee to authorize filing of maps in Hamilton county, Tennessee, and give to same when so filed the force and effect of a record to deeds to lands.

O. B. STEVENS, Chairman,
HARRY F  DUNWODY,

Mr. Carter rose to a question of personal privilege, and proposed to amend his response to the resolutions of the Senate.

The point of order was raised that the response had been transmitted to the House of Representatives, and
was not therefore within the power or control of the Senate.

The President sustained the point of order.

Mr. Carter was allowed to submit a supplemental report.

This he did, and the report was read, but no action was taken upon it.

Mr. Cook, Chairman of the Committee on the Penitentiary, submitted the following report:

Mr. President:

Your committee to whom were assigned the work of visiting, inspecting and reporting upon the condition of the various convict camps in Georgia, beg to say that they have performed that duty as fully and thoroughly as time and circumstances would admit.

These investigations were made by sub-committees of this committee, as in no other way could the work be done in the limited time.

Your committee inspected the convict camps located at Reynolds, Maxwells, and McMillens, in Charlton county, and found 259 convicts, of whom 252 are colored and 7 white, distributed at said camps as follows:

At Maxwells—111 colored, 1 white.

At McMillens—82 colored, 6 white.

At Reynolds—59 colored.
We find these prisoners well fed, well clothed and reasonably worked, and as cheerful and contented as persons in such condition could be expected to be. We found six of the prisoners in hospitals, two of whom had been injured by the recent storm, one slightly wounded by an axe, two suffering from bilious attacks, and one from general debility from long confinement in jail. The hospitals are under the efficient care of Dr. W. B. Hanley, and seems to be all that could be desired in that line. The sanitary conditions of the camps seem good, and the general condition and treatment of the prisoners are such that your committee have no suggestions to make looking to their improvement.

We also visited the camp at Smithsonia in Oglethorpe county. We find the location of the camp and sanitary regulations such as will tend to promote the good health of the inmates, which is indicated by their general healthy appearance. We find only one inmate in the hospital who is suffering from consumption. The hospital is ample, and in good condition, as are also the sleeping quarters, the culinary and subsistence departments. The rations are sufficient, and the inmates are well clad. The discipline seems to be good, and general demeanor cheerful. For statistical information we refer to the office of Principal Keeper of the Penitentiary. What has been said with reference to the camp at Smithsonia applies with equal force to the camp at Heardmont in Elbert county. The inmates of this camp are composed exclusively of women, and none are on the sick list.

At the camp at Glenwood we find 39 convicted; at the camp at Echo 123; at Adrian 117, and at Pine Luckey 32, all doing as well as we think the managers can under the circumstances provide.
We also visited the camps at Richwood, Kramer, Pitts, and two camps at Worth, and made reasonably thorough examination of same, and are pleased to report that we found no abuses or objectionable features at either place. The stockades are all comparatively new and comfortable, and the sanitary conditions are good. The convicts appear to be well fed and clothed, and from all appearances we believe them to be humanly treated.

We found very few convicts on the sick list, and heard no complaint from any of them. They all seem to be contented with the treatment they receive. We commend the management of each camp, and have no criticisms to offer.

We also visited the convict camps known as Cole City, in Dade county, and the Durham Mines camp, in Walker county, and submit the following:

From a thorough inspection of the sleeping quarters of the convicts at both of the above camps, we found them to be satisfactory. The same sanitary arrangement prevails in both camps, which we believe is good and sufficient. We could detect no bad or foul odors, and we saw no evidence at either camp of filth. We found the bedding at both camps to be as clean as could be expected from the character of work the convicts are required to perform. We cut open many mattresses at both camps, and found them to be filled with bright, clear straw.

At Cole City we find that each prisoner is provided with a bunk. At Durham mines we find that two convicts occupy one bunk, and we suggest that this be
remedied, so that each convict shall have a separate
sink. Large stoves keep the sleeping department
armed up, and each bunk is supplied with blankets
efficient for the coldest weather.

From our inspection we believe that the convicts at
both camps are provided with clothing and shoes as the
w directs, and from conversation with and the strong
healthy appearance of the convicts, we are forced to
believe that they are sufficiently supplied with whole-
some food. We found the cooking department at both
camps in clean condition and their food as well prepared
as any reasonable man could expect.

Your committee had the pleasure of partaking of an
egant dinner prepared and served by convicts.

We inspected the mines, walking several miles through
the tunnels along which the convicts were at work.
The greater portion of them appeared cheerful and con-
tented. We find that each convict is given a daily
ask, which many of them finish by one and two o'clock,
after which they are required to do no more work that
ay. We do not believe that any great wrongs or
dises exist at either of these camps, and without going
into the merits or demerits of the present convict sys-
tem, realizing the fact that these convicts are confined
for the protection of society, made necessary by their
own misdeeds, we are forced to the conclusion that the
care and treatment and condition of these unfortunate
atures are as good and humane as any good citizen
ould reasonably expect, and is such as the law con-
templates.

Respectfully submitted.

Mr. President:

The House has refused to concur in the Senate amendment to the House resolution, to wit:

A resolution to pay the expenses of the Investigation Committee.

The foregoing message was taken up, and on motion of Mr. Battle, adhered to its amendment to the foregoing resolution.

Mr. Berner rose to a question of privilege, which, having stated, it was ordered to be spread upon the Journal of the Senate.

It is as follows:

Mr. President:

I rise to a question of personal privilege, and I ask for a few moments the attention of the Senate.
During the Autumn session of the General Assembly I was informed that a report was in circulation which charged that I was responsible for the insertion of the name of Judge Reese in the statement of charges presented by Senator Carter in response to the demand of the Senate.

It was charged that I had a conversation with the Senator on the evening he offered his answer, and that in that conversation I either insisted, requested or suggested to him the addition of the name of Judge Reese to his report. My informant was Mr. J. K. Ohl, of the Atlanta Constitution. The information came to me under the following conditions: I was presiding over the Senate on the second morning following the presentation of the report, when Mr. Ohl approached the chair and informed me that such a report was in circulation. I then and there denounced it as a falsehood. It so happened that at that moment Senator Carter was near the desk of the Secretary, and I sent for him. In the presence of Mr. Ohl I asked him if I was directly or indirectly responsible for the presence of the name of Judge Reese in his report. He promptly and emphatically declared that I was not directly or indirectly responsible for it.

I recalled the fact that Senator J. P. Brooke was present at the only conversation I had with Senator Carter in which the matter was referred to, and I sent for that Senator. To him I put the same question that I did to Senator Carter, and he responded with the same emphasis and promptness that I was in no way responsible for it.

Mr. Ohl applied to other sources of information in order to obtain the truth of the matter. Evidence accumulated, and it came unsought. He became satisfied that the report was a falsehood, and immediately following the adjournment of the session he devoted a paragraph to it in the news column of the Atlanta Constitution, in which he stated that investigation showed
at the President of the Senate was in no way connected with the incorporation of the charges against Judge Reese.

Since the revival of this rumor, Mr. Ohl, at my request, furnished me a letter in which he states the facts connected with his investigation, and I now read that letter to the information of the Senate.

Washington, D. C., January 27, 1897.

on. Robt. L. Berner, Forsyth, Ga.:

My Dear Sir,—Replying to your request that I state what occurred during the session of the legislature concerning a certain report about yourself and my investigation of the same, I have to say: The day Senator Carter submitted to the Senate his charges against certain judges—or perhaps it was the day after he made his formal charges—I heard it rumored that Carter had inserted the name of Judge Reese at your suggestion. As soon as I heard that rumor, I went to John Sibley, a close friend of Senator Carter, and told him what I had heard. He said there was no truth in the report, and determined to go to the fountain head for the facts, I walked into the Senate Chamber, and at a convenient moment soon after, took a seat by your side. You were then presiding over the Senate. I told you what I had heard. You expressed the most emphatic denial of the truth of the report, and told me that as the first intimation you had received of the existence of any such story. It happened that Senator Carter walked by at that juncture, and you called him to where we were. You asked him the direct question, whether you had suggested to him the insertion of Judge Reese's name or the name of anybody else, or whether you had made any suggestion of any nature at all to him. Senator Carter declared emphatically that you had not. Then you called Senator Brooke, who had, it was understood, been in close conference with Senator Carter, and
had aided him in the preparation of the paper embodying his charges, and you asked Senator Brooke if you had in any way, directly or indirectly, made such a suggestion as the one referred to in the story I had told you. He declared that there was no truth whatever in the report. Subsequently I talked with both of these gentlemen concerning the story, and both reiterated what they said in your presence. I could find absolutely nothing which seemed to give any warrant for the report connecting your name with the charges.

In view of the fact that there seems to be a revival of that story, you are at liberty to use this letter as you may see fit.

I am, yours very truly,

J. K. OHL.

Dear Bob:—Does this cover it?

Yours,

JOE OHL.

I had thought that the rigid investigation then made had satisfied every person who was anxious to know the truth, and every enemy whose malice permitted him, even for a moment to exercise his honest judgment. But since the close of the investigation the report has been revived, and commented upon by the press. For what purpose it was revived I do not care to discuss, but I leave the Senate and the public to judge, but I here and now declare that any statement that I either insisted, requested or suggested, directly or indirectly, to Senator Carter the insertion of the name of Judge Reese in his report, is an absolute and unqualified falsehood.

I am satisfied that nothing I said or did influenced the Senator in the conduct of the matter which I then had in hand. As an evidence of that fact, I desire to read to the Senate the following statement given by the Senator from the Thirty-first District:
State of Georgia, Senate Chamber,  
Atlanta, Ga., Feb'y 3rd, 1897.

To Whom it May Concern:

Certain persons and newspapers of this State having charged or intimated that Hon. Robt. L. Berner instigated or caused the name of Judge Seaborn Reese to be included in the names of Judges recently submitted by me to the Senate of this State as persons unworthy to wear the ermine, in justice to Mr. Berner as well as to myself, I desire to state that Mr. Berner had absolutely nothing to do, either directly or indirectly, with the charges against Judge Reese, and that he did not know that Judge Reese's name would be so presented until the report by me was made in open Senate.

W Y. CARTER.

In addition to this clear and manly exoneration I offer also the following letter of Senators Battle and Brooke, which explain themselves:

January 25, 1897.

Hon. Robt. L. Berner, Forsyth, Ga.:

My Dear Mr. Berner:—I am just in receipt of your letter of the 23d inst., in which you ask if I remember the conversation had between Senator Brooke, you and myself, in reference to the charges made by Senator W Y. Carter against Judge Reese.

In reply, I beg to state that I do remember the conversation you mention, and will here give you a statement of the facts made, as I now recall them:

You had previously, during the same day, stated to me that you had heard that you were charged with having urged Senator Carter to include the name of Judge Reese in the charges that he intended filing with the Senate, in obedience to the resolutions passed by the Senate. At the time you also stated that the charge was entirely untrue; you stated, furthermore, that your informant
was Mr. J. K. Ohl, a member of the Constitution’s staff, and that at the time Mr. Ohl was giving you this information Senator Carter happened to be near the President’s chair, and that you called to him, and in the presence of Mr. Ohl stated what you had just heard and asked Senator Carter to state if it was true, and that Senator Carter stated that it was not true, that you had nothing to do with his report or causing him to include the name of Judge Reese, or any one else, therein.

After you had stated these facts to me I replied that certainly no one would longer entertain any such idea, if they were made acquainted with the facts. Later I was in the room, with others, assigned to the use of the President of the Senate, when you came to the door, and calling to me, stated that you had had a conversation with Senator Brooke; you then related the substance of the conversation to me, and stated that, as your friend, you desired me to talk with Senator Brooke, and have him to make the statement to me. At this juncture, and while we were still talking, Senator Brooke came along and you called to him and stated that you had related to me the conversation that you and he had, and asked Senator Brooke if he objected to detailing to me the conversation. Senator Brooke then stated the following facts, as I now recall them:

“He said that having heard that Senator Carter was going to file his report, in reference to the Judges, etc., he called to see him at his room at his boarding house with a view to reading the charges, as he, in common with others, had some curiosity to know what Judges Senator Carter would include in his report, and what charges would be preferred against them. He stated that he spoke to Senator Carter in reference to his report, who replied that he was just going over to the Capitol and that he would show it to him on their arrival there: that while they were en route to the Capitol Senator Carter informed him that several parties, friends of
Judge Reese, had urged him not to include Judge Reese's name in his report, and that while he really disliked to do so, yet he had considered the matter fully, and had within himself determined to include the name of Judge Reese in his report. He then stated that he had not drawn up the report against Judge Reese, and asked me (Brooke) to write it out for him when we should arrive at the Capitol. I promised him that I would do so. When we arrived at the Capitol I drew up for Senator Carter, at his request, that part of his report in reference to Judge Reese, and you will, by reference thereto, find it in my handwriting. I am quite sure that President Berner had nothing whatever to do with Senator Carter including the name of Judge Reese in his report. As Senator Carter and myself were going up the inner steps of the Capitol we came upon President Berner who said something to Senator Carter about his report, but nothing was said about Judge Reese or any other Judge; in fact, Senator Carter had stated to me that he had for himself determined to include Judge Reese's name in his report, and at the time that he made this announcement he asked me to draw it up for him, which I did."

The above is, in substance, the conversation had between Senator Brooke, you and myself, and I am quite sure that Senator Brooke, whom I esteem very highly, will doubtless remember it as I do.

I took occasion afterwards to mention this conversation to others, and really thought that it was an end to the rumor that you had anything to do with Senator Carter including the name of Judge Reese in his report. No doubt the parties at interest can be easily satisfied of your entire innocence of the charge, and will be when the facts are fully stated to them.

With best wishes and regards, believe me, as ever,

Your friend,

C. E. BATTLE.

Dictated C. E. B.
I take pleasure in saying that Mr. Battle has, in the foregoing letter, substantially quoted my statement made at the time mentioned, and desire to add that the statement was correct. Mr. Berner is in no sense responsible for the name of Judge Reese being mentioned in Mr. Carter’s charges.

J. P BROOKE.

I desire to thank Senators Carter, Brooke and Battle for this manly exoneration of me from all connection with this matter.

Mr. President, the conscientiousness of my own innocence relieves me of any personal pain touching this matter. But the Senate has honored me with the highest trust which, as a body, it had the power to bestow. It would have been a grave violation of this trust if I had, directly or indirectly, sought to influence the Senator in the presentation of charges against members of the Judiciary, the truth of which I might ultimately have been called upon to determine. With the investigation, its initiation and its results I have nothing now to say. The proceedings have passed into history, but I thought it a duty I owed to the Senate which has thus honored me, to thus publicly and officially deny the truth of this report.

Mr. President, I ask that this statement be placed upon the Journal of the Senate.

The following message was received from the House through Mr. Hardin, the Clerk:

Mr. President:

The House has adopted the following resolution, in which the concurrence of the Senate is asked, to wit:
A resolution providing for an exhibit by the State at the Centennial Exposition at Nashville, and for other purposes.

The following message received from the House through Mr. Hardin, the Clerk thereof:

Mr. President:

The House has appointed a Committee of Conference upon the disagreement of the two houses upon the Senate amendment to the House resolution providing for the expenses of the Investigating Committee relative to the compensation of Senator Carter.

The committee on the part of the House are Messrs. Blalock, Felder and Berry.

The Senate took up the resolution of the House providing for a State exhibit at the Tennessee Centennial.

Mr. Berner offered to amend the resolution as follows: Amend by adding the following:

Resolved, That the sum of five hundred dollars be appropriated, to be expended in making an exhibit of woman's work at said Exposition, said sum to be expended in paying for the services of a custodian and making the exhibit, to be paid as provided in the foregoing resolution.

The amendment was adopted.

On the question of concurring in the resolution, as amended, Mr. Walker of the Eighteenth District required the ayes and nays to be recorded.

Those voting in the affirmative were Messrs.—

Mr. President.

So the resolution was concurred in as amended.

Mr. Battle, Chairman of Joint Committee to sit in conference upon the differences existing between the House and Senate in reference to the resolution to pay Senator Carter his per diem and expenses incurred in the investigation of the charges against Judges Sweat and Reese, beg leave to submit the following report:

The committee, by a majority vote, has decided that Senator Carter shall be paid his per diem of $4.00 for 15 days and $8.04 mileage, and they recommend the adoption of this report by the Senate.

Respectfully submitted.

CHARLTON E. BATTLE, Chairman.

The foregoing report was, on motion of Mr. Battle, adopted and the House informed of the fact.
The following message received from the House through Mr. Hardin, the Clerk thereof:

Mr. President:

The House has concurred in the Senate amendment with an amendment to the following House resolution to wit:

A resolution directing a State exhibit at the Tennessee Centennial.

The House has also agreed to the Conference Committee's report on the following House resolution, to wit:

A resolution to provide for the payment of the expenses of the Investigating Committee.

I am directed to inform the Senate that the House is ready to adjourn sine die.

Mr. Battle offered a resolution to appoint a committee of two from the Senate and three from the House to inform His Excellency, the Governor, that the General Assembly is now ready to adjourn sine die, and to ask whether he has any further communication to submit.

The president appointed as the committee on the part of the Senate Messrs. Battle and Van Buren.

The committee performed its duty and, through the Chairman, Mr. Battle, reported that His Excellency, the Governor, had no further communication to make.

The Senate then, on motion of Mr. Battle, adjourned sine die, and it was so declared by the President.
