The following communication was received from his Excellency, the Governor, through his Secretary, Mr. Warren, to wit:

Mr. President:

I am directed by the Governor to deliver to the Senate a communication in writing.

The following message from his Excellency, the Governor, was, on motion, taken up and read as follows:

EXECUTIVE DEPARTMENT,
Atlanta, Ga., October 23, 1895.

Members of the General Assembly:

In obedience to official duty, it is my pleasure to communicate to you such information as will aid in the discharge of the important trusts confided to you, and to make such suggestions and recommendations as, in my judgment, will promote the interest of the State. Fortunately for me, in the performance of this duty, the reports from the departments of State, made to me in conformity to law, are so thorough and comprehensive that by transmitting them to you, which I will do, I place you in
possession of such information that it is unnecessary for me
to enter into an extended statement covering the subjects
so ably discussed in these reports. I call your special at­
tention to each of these, and ask that you give due consid­
eration to the recommendations of these thoughtful, pains-
taking, and faithful officers.

It is a source of great gratification to myself, and it must
be to each of you, that you convene at a period in the his­
tory of our State when we are enjoying the blessings of
Providence in fruitful harvests. I rejoice that the worst of
the terrible financial panic which has been upon us is over,
and am confident we can look forward to an era of prosper­
ity. While the cotton crop of this year is not so large as
we had hope for, the unexpected good price and the large
yield of corn, peas, potatoes, rice, and other food crops,
places the people of the State in better condition than
they have been for years.

COTTON STATES AND INTERNATIONAL EXPOSITION.

The effort of some of the public-spirited and enterprising
citizens of this State to hold this year a great International
Exposition, which was at first regarded as an audacious un­
tertaking, has been brought to a happy termination. In
its arrangement, variety, and proportions it excels any ex­
hibition of the resources and achievements of the Ameri­
can people (with the exception of the World's Fair at
Chicago) which has ever been made, and will bring to
Georgia visitors from every quarter of the globe, whose
impressions of our people, our civilization, our resources,
and our inviting fields for investment will in the near future
greatly advance our growth in industries, population and
wealth.

STATE EXHIBIT.

Realizing the importance of this great event, at your
last session you made an appropriation which you directed
to be used for the purpose of making an exhibit of Geor-
gia's resources at the Cotton States and International Exposition. The duty of expending this money and making the proposed exhibit was imposed by you upon Hon. R. U. Hardeman, State Treasurer; Hon. J. M. Terrell, Attorney-General; Hon. G. R. Glenn, State School Commissioner; Hon. W. A. Wright, Comptroller-General; Hon. R. T. Nesbitt, Commissioner of Agriculture, and upon myself. The board selected Hon. W. S. Yeates, State Geologist; Hon. Geo. F. Payne, State Chemist, and Hon. Robert J. Quinn, Assistant School Commissioner, as honorary members, each of whom has rendered us valuable aid without compensation. Mr. George W. Kelly was elected as assistant to the Commissioner of Agriculture, who was the executive officer of the board, and Mr. E. M. Durant was elected as secretary. With this force we undertook to do the work entrusted to us, and feel a just pride in the magnificent exhibit made by the State. At an early period in our work we became convinced that the sum appropriated by the State would not enable us to make so complete an exhibit of all the resources of the State as we felt it was the duty of the State to make on such an occasion. Fortunately some of the public-spirited and patriotic citizens of the State, who are interested in manufacturing, came to our aid. With their approval and co-operation a convention of the manufacturers of Georgia was called to meet in the hall of the House of Representatives. The convention was largely attended, and as one of the results thereof money was raised, and a special building erected at the expense of the manufacturers themselves, in which you will find the exhibit of the Georgia manufacturers. The variety, character, and extent of this exhibit must inspire the pride of every Georgian, and when taken in connection with the exhibit made by the State Board, places Georgia before the world in a most enviable light. Those who come from
abroad to visit this great exposition, and views Georgia's resources as exhibited in the State Building and in the Georgia Manufacturers' Building, will leave us with a higher estimate of the resources and capabilities of our State and the character and achievements of our people. The influence of the exposition and of the State's exhibit will be of incalculable value in directing to Georgia a vast amount of capital which the revival of business will cause to seek safe and profitable investment.

The tax returns for the present year show a loss of nineteen million dollars of valuation as compared with the returns for the previous year. While this is to be regretted it is scarcely to be wondered at when we consider the depressing effect of the panic upon business and property values everywhere.

THE NEED OF A NEW ASSESSMENT LAW.

In reference to the value of property as shown by the Comptroller-General's report gathered from tax returns, it is my duty to say to you that it does not approximate the real or market value of the property of the citizens of the State subject to taxation. Under the present system of making tax returns, outside of where the returns are affected by local assessment systems of towns and cities, each man is his own tax-assessor and places upon his property such value as he sees fit, even himself in many instances confessing that the amount at which it has been returned by him for taxes bears no approximate relation to the real value of the property. While the legislature nominally fixes the tax rate for the State to be collected from her citizens, each citizen has the power to fix his own tax rate, and many of them do fix it at an unjustly low rate by placing a value upon their property far below its value and on a scale much lower than that by which the property of their neighbors are valued. The man who pays taxes upon property unfairly valued at $500, while on property of the same value his neighbor pays on $1,000, is lowering his own tax rate one-half, depriving the State of its just revenue, and placing an unjust burden upon his honest neighbor who values his property correctly.

I most earnestly recommend that some plan be devised
by which the State can arrive at something like a just valuation of the property of its citizens subject to taxation and protect the man who honestly returns his taxes against impositions from those who return their property at an improper valuation. It is well to bear in mind that any plan which you may adopt will, when put in practical operation, prove imperfect, but as these defects appear it will be the duty of your successors to correct them and continue to perfect the law. Certain it is that no system which can be adopted can be open to greater abuses or more flagrant injustices than the law under which our property is now returned for taxes. A proper plan for assessment of property for taxation will not only equalize values but place upon the tax books a vast amount of personal effects which now escape taxation. In connection with this recommendation I desire to suggest that you authorize the Comptroller-General to prescribe and furnish to the tax-collectors and tax-receivers of this State such books as in his judgment should be kept by them and to prescribe rules directing how these books shall be kept. This will enable him to require the business of the State conducted by each of these officers to be conducted in a systematic and business-like manner, and will result in a large saving to the State.

TREASURER'S REPORT.

The report of the State Treasurer will give you ample information as to the conditions of our finances. By reference to this report it will be seen that under the law enacted by your honorable body at its session in 1894 providing for the quarterly payment of teachers that the treasury will have a severe strain to bear. The payment, soon to be made, will require the treasurer to advance to the school fund about four hundred thousand dollars. I respectfully suggest that your finance committee make close inquiry into the effect of this great draft upon the treasury, and that such legislation as may be needed for its relief, if any, be enacted.
STATE DEPOSITORIES.

Soon after coming into office I undertook, in conformity with the Act of 1878, to make an arrangement with the various depositories providing for the payment of interest upon the public funds entrusted to them. As a result of this effort I consummated contracts with all of the banks but two, which two resigned rather than pay interest, which contracts provided for the payment of interest at the rate of two per cent. on daily balances from March 1, 1895, to March 1, 1896, to be paid semi-annually. I am informed by the State Treasurer that the amount of interest due the State for the first six months, ending September 1, will approximate eight thousand dollars. It must be borne in mind in this connection that the provision for quarterly payment of teachers, which is a wise and proper one, has largely reduced the State’s deposits in its various depositories, and for that reason the income from this source can be nothing like so large as it would otherwise have been. It is gratifying, however, to know, notwithstanding this large decrease of deposit, that within the first six months I have been able to make for the State the sum of eight thousand dollars from this unexpected source. I respectfully suggest that the law providing for State depositories be so amended as to remove all doubt that may exist in the mind of any one as to the power of the Governor to appoint a successor when he is unable to agree with them upon the rate of interest to be paid upon the State deposits.

SALE OF 3½ PER CENT. BONDS AT A PREMIUM.

Under the provisions of the Act approved December 18, 1894, 499 five hundred dollar bonds on the Northeastern Railroad indorsed by the State were deposited with the treasurer to be exchanged at par for the new three and one-half per cent. bonds to be issued under said Act. Fortu-
nately, however, for the State these new three and one-half per cent. bonds were, when offered for sale, sold to the Columbus Savings Bank at a premium of 11-100 per cent. for each five hundred dollar bond. To have sold a bond bearing three and one-half per cent. interest at a premium during such a financial stringency, is an event in our history of which all Georgians may well be proud, and speaks volumes for the high standing of our State in the commercial world. The sale of these bonds enabled me to discharge our obligation on the Northeastern Railroad bonds which had one year to run and were bearing interest at 7 per cent. per annum. The saving to the State in the difference between 7 and 3½ per cent. for the period that these 7 per cent. bonds were to run was the sum of $8,155.

PROCEEDS OF SALE OF BONDS.

From the following statement of the State Treasurer you will see what disposition was made of the proceeds of these bonds:

Leaving a balance of. $761 95

Which amount we can get from the receiver of the road, or by the
issuance of one of the bonds now in my hands, as your Excellency
may determine.

It is proper for me to call your attention to the condi­tion of some of the past due coupons on the bonds of the
Northeastern Railroad which I have not seen proper to
advise the treasurer to pay, and suggest that you decide the
course to be pursued in reference thereto. Coupons at­
tached to these bonds, amounting to the sum of eleven hun­
dred dollars, which were past due at the time the State
was notified of the default of the road on payment of in­
terest have not been paid.

These bonds indorsed by the State contained the pro­vision that whenever there should be a default on the
part of the road and notice of such default given the
State, that the Governor should seize the road and operate
it so as to protect the State as surety on these bonds.
Had the State been notified of the default of this road
at the time these coupons matured it could have at once
seized the road and operated it from that period. Its
failure to seize and operate it from that time, secure an in­
come therefrom and protect itself from further loss on ma­
turing coupons was due to no fault of its own, but was the
fault of the holder of the bonds, declining to give the State
notice of the default of the road. Under these conditions
I have thought proper to refer the matter to you, that it
might be disposed of as you thought just.

CONDITION OF NORTHEASTERN RAILROAD.

Since coming into office I have found it necessary to go
to considerable expense in putting the Northeastern Rail­
road in good condition. Among other extraordinary ex­
penditures incurred was in the purchase of an engine, for
which we paid four thousand dollars. We were paying fifteen hundred dollars per year as rental for an engine, and under the contract were required to keep the same in repair at our own expense. This policy I did not deem wise to continue and therefore made the purchase as above stated.

SALE OF THE NORTHEASTERN RAILROAD.

As provided by law, and advised by Act of 1894, after advertising same according to law, that part of the Northeastern Railroad lying between Athens and its junction with the Southern Railroad was exposed to sale in the city of Athens on the 16th of April, 1895, and bought in by me for the State of Georgia for the sum of one hundred thousand dollars, this being the only bid made. The deed to the property has been made to the State and properly recorded. I submit herewith a statement showing the running expenses and expenditures of the road from date of seizure by the State to date of sale, and from date of sale to September 1st:

After purchase of the road I placed in charge Hon. R. K. Reaves, who has been operating the road since the purchase as agent of the State. There is no doubt that the road will earn a very large dividend on the purchase price paid therefor by me, and will yield a sufficient income to pay the interest on the entire series of bonds which the State issued to take up the old bonds of the Northeastern Railroad indorsed by it.

FUTURE DISPOSITION OF THE NORTHEASTERN RAILROAD.

I desire to call your attention to this property, and submit to your consideration the question of its future operation or disposition. If, in your judgment, it is wise to sell or lease this property, it will be necessary for you to enact the provisions under which you desire the sale or lease contract to be made.

BLUE RIDGE AND ATLANTIC RAILROAD.

This road reaches from Cornelia, on the Southern Railroad, to Tallulah Falls, and was originally a part of the Northeastern Railway property. Growing out of this fact is the claim of the State thereon to secure the payment of the bonds indorsed by the State on the Northeastern Railroad property. This claim, it is understood, will be contested
by those who at present claim the Blue Ridge and Atlantic Railroad. The road is now in the hands of a receiver appointed by the United States court. It has been reported to me that one-half of it has been abandoned, and is not now being operated. It has been, and is now, a mooted question as to whether or not an effort to enforce the claim of the State will result in expense or benefit to the State. I respectfully suggest that a committee of the best business men in your body make an examination of this property, consider its connections and surroundings, and give directions whether or not the State shall proceed to enforce its claim thereon.

THE WESTERN AND ATLANTIC COMMISSION.

In pursuance of an act passed by the General Assembly in 1894, providing for a method of settling controversies between the State and other parties over property connected with the Western and Atlantic Railroad, I appointed as Commissioners to pass upon and determine such questions as might be submitted to them under the terms of the act, Hon. John L. Hopkins, of Fulton county; Hon. T. R. Jones, of Whitfield, and Hon. H. W Hill, of Meriwether. There was submitted to them for adjustment a controversy over some railway property lying between Whitehall and Forsyth streets, in the city of Atlanta. The value of this property was very great, and the case was a long and tedious one, and hotly contested on both sides. After hearing evidence and argument the court decided the issues involved in favor of the State. The evidence is so voluminous that I have not deemed it advisable to go to the expense of printing. The finding of the Commission I have ordered printed, and will in a short time be placed before you. I have agreed, as authorized by law, to pay each of these Commissioners the sum of six hundred
(600) dollars, subject to your approval. I respectfully ask that your body make provision for the payment of this sum, and for other expenses incurred by the Commission to the amount of three hundred and fifty dollars and fifty cents.

PENSIONS.

I herewith submit to you a statement showing the amount of pensions paid to Confederate soldiers for each of the last three years. It will be seen, notwithstanding a number of deaths, that there has been an increase in this sum due to the fact that as they grow older their wounds and afflictions increase their disabilities and make it necessary for them to call upon the State for assistance:

The decrease in the amount paid as pensions to the widows of Confederate soldiers has been about five thousand dollars per year.

PENSIONS UNDER ACT OF 1894.

Under the Act of the General Assembly providing for the payment of pensions to indigent soldiers, the number of applicants approved to date are 1,768, and new applications continue to arrive. To pay the claims already approved would require $106,080. The appropriation made for the payment of this class of soldiers was only thirty thousand
dollars. Following the precedent established heretofore in cases where the appropriations fell far short of the demands for pensions, it was deemed wise not to pay out this thirty thousand dollars, and for that reason nothing has been paid under this Act. I submit to you these figures and leave to your wisdom to determine what shall be done. It is probable that it will take $125,000 to meet the requirements of this Act. I cannot forbear saying that the motives which prompted the passage of this Act were generous, noble, and worthy the great State of which you are the accredited representatives. There is no class of our fellow citizens, no class of our pensioners, who are more deserving of the State's bounty than those who are entitled to pensions under the provisions of this Act, and I most earnestly recommend that you make provision for the payment of this class of pensioners.

TRANSFER OF PENSIONS TO OFFICE OF ADJUTANT-GENERAL.

The work in the Pension Department has grown to such an extent that it has become a great burden upon the limited clerical force in the Executive Department. It has been mentioned by my predecessors, and by one of them the recommendation was made that the Executive Department be released of this burden. As the Constitution limits the clerical expenses there we cannot for the purpose of doing this work increase the appropriations for the Executive office. I therefore recommend that you authorize the transfer of the entire work of the Pension Department to the office of the Adjutant-General, and that you provide a clerk for that department. At the time the Constitution limited the amount of expenditures in the Executive Department the State granted no pensions. The number of pensioners under all existing laws will be near to ten thousand and will require an enormous amount of labor. To
consider carefully every application, guard against imposition, and to do justice to every worthy petitioner is a delicate and arduous task which should not be done hastily or carelessly.

**PENITENTIARY**

The report of the Principal Keeper of the Penitentiary will give you all necessary information in reference to that important and growing department. It is gratifying to know, however, that during the last twelve months the increase in the number of convicts has been smaller than the year previous, and, with few exceptions, smaller than any year since the Lease Act went into effect. The greatest trouble with the lessees during the year just past has grown out of what is known as "trusties" in the convict service. From my knowledge of these camps and the way they are conducted, I am satisfied that it is wise to permit this to some extent under strict rules and limitations, but as to whether or not this practice of making trusties of some convicts is being abused is now a grave question. I have instructed the Principal Keeper and his assistant to make diligent inquiry into this custom, its use and abuse, and report to me with such recommendations as may in their judgment be wise.

The Principal Physician of the Penitentiary reports that, in his opinion, two of the camps now being operated in South Georgia may prove disastrous to the health of convicts which are required to labor therein. As both these are comparatively new camps, we have not as yet had sufficient opportunity to thoroughly determine this question to my satisfaction. I will have these camps closely cared for and take prompt action if the conditions should at any time demand it.
ENFORCEMENT OF LAW.

The enforcement of the criminal laws of this State has been carried on for the last twelve months with gratifying results. On several occasions it has been found necessary to call out the militia. It affords me pleasure to say that in each instance the troops have borne themselves in a commendable and soldierly manner, and for their prompt and efficient services rendered on these occasions they are entitled to the thanks of the commonwealth.

LYNCHING.

Since the day of my inauguration there have been five persons lynched in this State. In each instance the party lynched was charged with the same offense. None has been lynched during my administration except for the crime of rape. I have vainly endeavored, by an appeal to the civil authorities and by offering rewards for the lynchers, to bring to trial some of these violators of the law; but neither an appeal to the courts nor the offering of rewards have had the desired effect. The courts have been unable to secure proof, and without this they are powerless to enforce the law. Our people are peculiarly situated. No civilized people on earth other than Southern States are surrounded as we are. Our country in many sections is thinly settled, and fully one-third of our population is composed of those who up to a few years ago were slaves, a large percentage of whom lack moral training, and have not the proper respect for law or the rights of others.

In some portions of the State our women in the country are constantly exposed to the brutal attack of the outlaw, who has respect for neither virtue nor law. It is for this reason that sometimes, when these outrages upon women do occur, people—who feel that the safety of our women depend upon prompt pun-
ishment, find their indignation uncontrolable and inflict penalties which should only be imposed by lawful authority after a trial by a court of justice. This is wrong. It sacrifices the good name of our State in the eyes of the civilized world, the good opinion of which should be desired by all. These mobs, by violating the law, create a spirit of lawlessness and indirectly increase the very crime which they seek to suppress. In several instances the parties lynched in this State have been taken from the hands of officers and most brutally, cruelly, and inhumanly treated. Such conduct cannot be too severely condemned. In my opinion it will be wise for the General Assembly to enact a law providing that wherever a person is taken from the hands of officers and maltreated or murdered, that the Governor be authorized to remove from office the man from whose custody he was taken, that the administrator or the family of the deceased shall have the right to recover from the county the full value of his life. The State has no right to permit its officers to take charge of a man, render him powerless to protect himself, and while in this helpless condition in the custody of the State to be taken by an armed mob and maltreated or murdered. In all such instances their legal representatives should have redress in the courts, with right to sue in any county adjoining the one where the offense was committed, and the Governor should be empowered, in his discretion, to remove the officer.

Such provision would make more active our law-abiding citizens in suppressing lawlessness and encouraging all of our people to resort to the courts for the punishment of the crime, even where the offense charged is the most brutal, the most dastardly and the most heinous. In each of the instances mentioned the party lynched has been a negro. What excuse can be given for this conduct when our race has control of the Legislature and of the courts, furnishing both the judges and the jurors? No white man should
insist upon the infliction of punishment in a case where he is unwilling to entrust the trial to the most intelligent and upright of his own race. If a fair trial cannot be had before these in a court of justice, how can one be justly and fairly had by a raving mob.

REFORMATION IN CRIMINAL LAWS.

I commend your action in promptly taking up at your previous session the matter of reformation of our criminal laws. If I am correctly informed a bill covering this subject has already passed the lower house.

I recommend that action be taken upon this measure at the earliest practicable moment in order that such changes in the criminal laws as may be made may be embodied in the codification of our laws which is soon to be published.

DIRECT TAXES.

Herewith I furnish you statement of direct tax refunded by the Federal Government to the State of Georgia, to be disbursed to such of her citizens as were entitled to it under the provisions of the act of Congress:

GEORGIA EXPERIMENT STATION.

The expenses of the meeting of the Board of Directors of the Georgia Experiment Station are now paid by the State. As this institution receives from the Federal Government fifteen thousand dollars annually, and the State has already furnished the farm and erected its buildings, it is entirely proper that the expenses of the meetings of this Board be paid out of the funds at their
command. If the fund received from the Federal Government cannot be used for this purpose—and I see no reason why it should not—it should be paid from the products of the farm. The sum paid annually to this Board of Directors, covering their expenses, amounts to about eight hundred dollars—a sum worth saving to the State.

VIOLATION OF TREATY WITH SWEDEN AND NORWAY

I transmit herewith letters with accompanying documents from the Secretary of State of the United States requesting that Georgia make indemnity for the violation at Brunswick of the treaty of the United States with Sweden and Norway. I called upon the Honorable Secretary of State to furnish me with some precedent where States had been called upon and paid the indemnity in such cases. He has, however, failed to furnish me with this information. The relation of our people with foreign governments is regulated by international law and treaties entered into by the United States. For a violation of these laws and and obligations the United States is responsible to the foreign governments, and unless the Secretary can furnish some authority to justify the demand that the State of Georgia pay in this case, this amount, I cannot advise its payment. I, however, furnish you with the documents giving all the information at my command, knowing that after making thorough investigation that you will dispose of it as is just and wise. If, in your judgement, it is proper that the State of Georgia pay this, you are requested to make the needed appropriation.

EDUCATIONAL INSTITUTIONS.

The educational institutions of Georgia, though not perfect, show such progress as to furnish cause for just pride. The convention of the County School Commissioners held in
the hall of the House of Representatives but a few days since furnishes high evidence of the improvement of our schools and the progress being made by the various counties in securing efficient County School Commissioners. It was an intelligent body of earnest men, who impressed all who looked upon them, not only Georgians but strangers, that our common schools are in the control of competent men. The progress in this respect was cheering and means much. The common school fund for this year is as follows:

Add to this $500,000, the total amount raised by local taxation in various counties and cities, and we have as the total amount raised by taxation in the State for educational purposes $1,656,052.00. This great interest merits your careful attention and substantial aid. While heartily favoring continued increase in the aid of the State to our common schools, I recommend that you take such steps as will encourage counties and localities to co-operate with the State in seeking to upbuild the common schools. There is no better work in which you can engage as legislators. If we can secure the hearty co-operation of the citizens of this State and induce them by local taxation voluntarily impose upon themselves by the people of each locality to co-operate with the State and aid us in completing and perfecting our common school system until the State is
able of itself to run an eight months' school, you will accomplish a great work for the children of Georgia and for the State.

I commend to your consideration, as especially worthy of your encouragement, the North Georgia Agricultural College at Dahlonega, the State Normal School of Athens, the Georgia Normal and Industrial College at Milledgeville, the School of Technology at Atlanta, and the University of Georgia at Athens. In my opinion, the great need of most of these institutions is buildings. At the last session of the General Assembly I called your attention to the great need of additional boarding apartments at the Georgia Normal and Industrial College.

While embarrassed by the present condition of the treasury, I cannot forbear calling your attention again to this matter. You have made the appropriation to employ the teachers, to secure all necessary appliances, and yet for the want of building a very large number of the class of girls whom we are most anxious to aid are unable to attend, because unable to pay the board required of them when boarding outside of the college building.

COLORED SCHOOL AT SAVANNAH.

I had the pleasure of attending the commencement exercises of this institution, and was highly pleased with the result of the work of the students as exhibited on this occasion. The members of the Board of Commissioners are to be commended for their zeal in behalf of the success of this institution, which means so much to the colored people of Georgia.

I respectfully recommend that this school be opened to both males and females, and that greater facilities be afforded for the training of teachers. We have assumed the obligation, and properly assumed it, to educate this class of
our fellow-citizens, and cannot overlook the great need of normal training among their teachers, nor underestimate the importance of having them under the guidance of friendly influences. I earnestly recommend that a large part of the work of this State institution be devoted to the training of teachers who may go out and take charge of the colored schools, and that the State make ample provision to enable this institution to afford the ample facilities to fulfill its mission.

CHARITABLE INSTITUTIONS.

I invite your attention to the reports and recommendations from the Lunatic Asylum, Deaf and Dumb Institute, and the Academy for the Blind, and respectfully ask that you give to each of these institutions all needed aid. It would be wise to add two members to the Board of Trustees to the Lunatic Asylum. The enormous expenditures of money necessary to sustain this charity, and the large number of inmates from every part of the State, make it important to have enough members on the Board to distribute between the various sections of the State, and there should be at least two so near the Asylum that they can at any time be consulted when emergencies arise upon which the superintendent and other officers do not deem it safe to act without advice from the Board of Trustees.

BONDS OF COUNTY OFFICERS.

It is the practice in many counties to receive as sureties on the bonds of the public officers security companies, whose main offices are in other States. I invite your attention to this practice, and to the great evils which may accrue therefrom. I recommend that each of such companies doing business in Georgia should be required to make a deposit with this State in a manner similar to that now exacted of insurance companies.
LIEUTENANT GOVERNOR.

Now that the great evil of frequent elections is fully realized, I call your attention to the fact that in case of the death of the Governor under existing laws, it would be necessary to hold a special election in order to elect a successor. This would involve the people in enormous expense, annoyance and sacrifice of business. I recommend that the constitution be so amended as to provide for the election of a Lieutenant Governor at the same time that the Governor and State House officers are elected.

ELECTION LAWS.

I congratulate you upon the progress made in the improvement of our election laws, and advise that you continue in this work until every imperfection is corrected. In addition to such legislation as may be passed by you regulating the holding of elections, it would, in my opinion, be wise if the Constitution should be so changed as to provide that contests for seats in the General Assembly be heard before the judges of the superior courts, with right of appeal to the supreme court. Those who have had experience with contests in the General Assembly will readily concede that a fairer and more just conclusion can be reached before the courts than can be ordinarily expected from the decision of partisan bodies.

SUPREME COURT.

The accumulation of business in the Supreme Court of our State has for a number of years caused considerable public discussion, but as yet no solution has been reached. In my opinion, the action of the people in voting down the amendment to the Constitution, providing for two additional Judges to the Supreme Court was wise. That amendment would have burdened us with two salaried officers
and left the difficulty on our hands and the problem unsolved. The business of the court has increased, as you will see from the table attached, to such an extent that one court cannot properly do the work. It may decide the cases, but it cannot thoroughly investigate every case and give to each question the thought to which it is entitled.

1895.—To this date, October 18th, 796 cases have been docketed. Of these, 308 have been disposed of.

If the business of the court is not diminished by placing additional restrictions upon litigants to prevent their reaching that court, relief to the Supreme Court must come not from increasing the number of judges, but by the establishment of another court. If a separate court is established each case can then be properly and thoroughly discussed, the principles involved intelligently and wisely settled, and our courts command more completely the respect and confidence of our own people and the admiration of people of other States.

(A) "FORMER RECOMMENDATIONS."

Without tiring you with repetition, I call your attention to the recommendations made you in my former message, and especially to those relating to the equalization of the work of judicial circuits, the necessity of more speedy action of our courts, the need of State supervision of mis-
demeanor convicts and the great need of the correction of the evils growing out of, and incident to the fee system.

IN CONCLUSION.

The foregoing information and recommendations, together with the reports from each department and institution, which will be placed before you, are submitted to you for consideration. In our government responsibility for the conduct of public affairs rests upon the party in power. In this State the people have entrusted with the management of the commonwealth the Democratic party, to which a majority of each House of the General Assembly owe their allegiance. I know I can confidently rely upon these representatives to enter upon the discharge of their important duties with courage and wisdom, and I sincerely hope that in the discharge of the high trusts confided to them they will have the hearty co-operation of the members of all political parties.

W Y. ATKINSON, Governor.

To the General Assembly of Georgia:

I transmit herewith a copy of a letter received by me from a committee from the Atlanta bar, tendering to the State the portrait of Hon. N. J. Hammond, now in the State library.

I informed the committee that their communication would be transmitted to the General Assembly, that suitable action might be taken upon their tender of the portrait of this distinguished Georgian.

W Y Atkinson, Governor.

Atlanta, Ga., August 15, 1895.

To His Excellency, W Y Atkinson, Governor:

On behalf of the bar of Atlanta the undersigned committee beg to present to you, as representing the State of Georgia, an excellent portrait of Hon. N. J. Hammond, lately executed at the instance of the members of the bar here, and to ask that it may be displayed at the capitol in such position as you may designate, with that of other eminent Georgians already on the walls of the edifice.

It is believed that no Georgian of his generation is more worthy of this honor than the distinguished citizen whose portrait is thus offered the State. As attorney-general of the commonwealth during the administration of Governor J. M. Smith, as a conspicuous member of the convention which framed the Constitution of 1877, as representative in Congress from the Atlanta district, as a lawyer in active practice for a great many years, all of which time he occupied an enviable standing, and in which relation his usefulness is still unimpaired; as a friend of popular education, as evidence of his long and faithful service on the board of
education of the city of Atlanta, and as a member and chair­man of the board of trustees of the State University, his very valuable services to the people of Georgia are gen­erally known and widely appreciated; and it is not out of place to add that his private life has also been an exem­plary one.

We feel sure that not only his fellow-citizens of Atlanta, but also those of the whole State will be gratified at the opportunity of keeping in this durable form the excellent likeness of this prominent Georgian.

Thanking your Excellency in advance for the granting of this request, we have the honor to be,

Your obedient servants,

(Signed) J A. ANDERSON,
THOMAS W LATHAM,
CHAS. W SMITH.

**ATLANTA, November 8, 1895.**

*To the General Assembly of Georgia:*

I herewith transmit a copy of resolutions adopted by the Board of Directors of the Cotton States and International Exposition, and a letter from Director-General C. A. Collier, that they may be read and suitable action be taken thereon.

I hope the General Assembly will comply with the request made, and appoint a joint committee to arrange a program for Georgia day.

**W Y ATKINSON, Governor.**
Mr. Atkinson presented a resolution prepared by him, relative to "Georgia Day"; and

WHEREAS, It is especially desired that the people of Georgia should, as far as possible, lay aside business on that day, and visit the Exposition; and

WHEREAS, By the efforts of comparatively a few men the grandest Exposition (except the World's Fair at Chicago) has been completed and is ready for the inspection of the people of the State at their very doors; and

WHEREAS, The people of the State could not possibly spend their time or money in a more beneficial manner than in a visit to the great Exposition, where exhibits illustrative of the varied resources, practically of the whole country, and in many respects of the world, have been placed in a magnificent group of buildings, and in grounds which either in daytime or at night, when illuminated, offer a dream of beauty rivaling Chicago, and where the contents of these buildings are object-lessons, in many respects more striking and better arranged and more readily comprehended than any that have ever been gathered together at a similar exhibition; and

WHEREAS, The opportunity of a lifetime is offered to the people of Georgia, and every man, woman, and child in the South should visit the Exposition on account of its educational features, and because it will be of untold benefit to every intelligent person who visits it, in quickening impulses and as an inspiration to greater efforts, and as a complete education in itself; therefore be it

Resolved, That the management of the Cotton States and International Exposition Company respectfully request the Governor of the State, the members of the Senate and House of Representatives, and all of the officers of the State government to take this day in charge and to issue
such proclamations, and to use all and every agency by which the people of the entire State in this day may be stirred up to enthusiasm, so that this day, set apart as indicated above, will be in truth "Georgia Day," and so that the people of the State may show that they fully appreciate the opportunities offered them for deriving benefit from this great exhibition, which is in itself a liberal education, and from which more good can be derived by them in a few days than they could possibly obtain from years of study.

ATLANTA, November 6, 1895.

Hon. W Y Atkinson, Governor of the State of Georgia,
Atlanta, Ga.:

DEAR SIR:—I beg to advise you that the board of directors of the Cotton States and International Exposition Company have set apart Tuesday, November 19, as "Georgia Day," and most respectfully request that the General Assembly, through proper committees, take charge of the day and arrange such program for exercises as in their judgment will be suitable for the occasion. W Palmer, to co-operate with such committees as may be appointed by the General Assembly, and upon notification of your committees will be glad to meet with them at any time. Mr. President:

The General Judiciary Committee have had under consideration House bill No. 137, by Mr. Dodson of Sumter, in reference to payment of losses by fire insurance companies, and the undersigned, as a minority report, recommend that the bill do not pass, because—
1. It would destroy one of the safeguards against incendiaryism, and remove one of the strongest inducements to the insured to exercise the highest care to guard his premises against destruction by fire.

2. Because, in our opinion, it would tend to increase the cost of insurance without any corresponding benefits to the insured.

3. Because, in our opinion, one of the results of the bill would be to prevent many persons living in outlying county districts from getting any insurance.

We further recommend, in view of the importance of this bill, that one hundred copies be printed for the use of the Senate.

The following communication was received from his Excellency, the Governor, through his Secretary, Mr. Warren, to wit:

Mr. President:

I am directed by the Governor to deliver to the Senate a communication in writing, with accompanying document.

The communication referred to in the foregoing message was, on motion, taken up and read, as follows, and fifty copies thereof were ordered to be printed for the use of the Senate, to wit:

Executive Office.
Atlanta, Ga., November 12, 1895.

Gentlemen of the General Assembly:

In my communication to you in 1894 I recommended that provision be made for State supervision of misdemeanor convicts. After the adjournment of the General Assembly reports reached me touching the management of these convicts, which indicate such a state of affairs that I
felt it my duty as the Chief Executive of the State, charged with the obligation to see to the proper enforcement of the law, to investigate and place before you facts showing the true state of affairs, that the subject might be intelligently considered and wisely acted upon by you.

To perform this important work, I engaged the Hon. R. F Wright, who had faithfully and efficiently performed the duties of Assistant Keeper of the Penitentiary during the term of my immediate predecessor, to visit each camp in the State where misdemeanour convicts were worked, and make a thorough investigation and report to me.

This task he has partially completed, and I herewith send you his report upon the camps visited. It reveals such inhuman and barbarous conduct upon the part of some of those engaged in working this class of convicts that comment by me is unnecessary to induce you to act promptly to save our State from longer submitting to this burning shame.

There is but one remedy for the deplorable conditions now existing, and that is through State supervision by which uniform treatment can be required under one set of rules enforced by our penitentiary department. I ask that you give this valuable report, which I now submit to you, careful consideration, and to the subject upon which it bears, that attention which its importance demands. The special report made to me upon each camp visited gives in detail the result of Mr. Wright’s investigation and is subject to inspection by such committee as may have in charge legislation upon this subject.

W. Y Atkinson,
Governor.
To His Excellency, W Y Atkinson, Governor:

Sir:—Having been requested by you to report on the work in which I have been engaged for the past month or two, viz.: inspecting the condition of the misdemeanor chain-gangs of the State, and the convicts therein confined, I beg to submit the following, although the inspection has not yet been completed, as there still remains perhaps fifteen chain-gangs which I have not visited, including those located in the most populous counties in the State.

Since my employment I have visited thirty-three chain-gangs, located in the following counties: Oglethorpe, Coffee, Dooly, Wilcox, Lowndes, Echols, Laurens, Baldwin, Putnam, Wilkes, Newton, Jasper, Morgan, Berrien, Lee, Irwin, Pulaski, Washington, Ware, Thomas, Emanuel, Jefferson, and Greene, and to the best of my ability, investigated each thoroughly and conscientiously, with the single idea of ascertaining and reporting the true condition of each, and of the systems under which they are operated.

Of the thirty-three camps visited, twenty-six are worked by private individuals, and are of that class which the Supreme Court has recently held to be illegal, and of the remaining seven, five are regularly organized county chain-gangs, and two are worked jointly by county and municipal authorities.

The total number of convicts imprisoned in these gangs is seven hundred and ninety-five (795), of which there are twenty-seven white males, no white females, seven hundred and forty-nine (749) colored males, and nineteen colored females.

The average length of sentence I found to be nine months. Average number of hours worked per day, ten, with an average rest of one hour.

These convicts are employed in farming, saw-milling, brick-making, turpentine farms, and a few on public roads.
In the private gangs where the convicts are leased or hired to private individuals, the hire per month ranges from three to six dollars per capita, the average being about five dollars per month.

Generally the whites and blacks are not chained together, nor are the males and females, but they are worked together indiscriminately, and in many of the gangs practically no provision is made for a separation of races or sexes during the day, or at night in sleeping quarters.

There are among this number many convicts still under their majority, and I found eleven under the age of fourteen.

Very little attention is given to the comfort or sanitary condition of the sleeping quarters; some sleep in rude houses with no floors, some in tents on the bare ground, and a few in bunks. The bedding is generally scant and filthy, frequently full of vermin. In a number of the camps no fire is allowed even in the coldest weather. The ventilation generally is very poor and insufficient; in many instances in summer the sleeping quarters are veritable sweat boxes, being constructed only with a view to preventing escapes, comfort and sanitary conditions being entirely ignored.

With few exceptions, I found no hospital buildings for the sick, and no preparation for their care, comfort, or medical treatment.

In fact, it seems to be expected that misdemeanor convicts never get sick, or require no treatment if they do; one superintendent having boasted that in his gang, which averages twenty-five convicts, "he had not had a physician in five years," and yet, in one gang of eighteen men, I found there had been eight deaths in the past twelve months. In the vicinity of a few camps, I found physi-
cians residing who are called in when needed, but most of the gangs are practically without physicians, one being sent for only in extreme cases.

In a few of the camps the convicts are fairly fed, but generally the food, which consists of cornbread and fried meat, with no change from day to day, is scant and meager, and really insufficient to sustain health and strength.

The clothing is generally scant and filthy, some convicts going weeks without a change; hence vermin of all kind are not infrequent.

At some camps, only cotton clothes are used winter and summer, and at a number of camps, the convicts had no clothes except what they were then wearing.

I found female prisoners working side by side with their male confederates, dressed in full male attire, the authorities claiming that "this mode of dress was less in the way, and besides it seemed to be the tendency of the "new woman.""

With one or two exceptions, no record is kept showing name of convict, crime of which convicted, term, date received, date discharged, or record of daily conduct upon which the good time allowed by law should be based.

In many cases the convicts had to be looked up and counted before I could ascertain how many were in the gang. It was impossible to learn, on this account, how many convicts have been held beyond the term imposed by the courts; but, from my observation, taken in connection with other facts which will hereafter be mentioned, I am satisfied such cases occur not infrequently.

At some camps the authorities have required convicts to make up all time lost by sickness, and in some cases where an escape was recaptured, his term has doubled without indictment, trial, or authority of law, as I was reliably informed. The act of 1884 allows a convict commutation eight days off of a twelve months' sentence. I found that
this law has never been observed, except in three out of the thirty-three gangs visited, notwithstanding this law has been on the statute books for the past ten years.

At many camps I found no regular whipping-boss, but all guards and bosses carried straps and punished the convicts ad libitum, and from this fact have gone out the reports, in many cases too true, of cruelty and inhuman treatment.

Without encumbering my report with the many cases which were discovered of ill treatment and cruelty, I shall mention one which only illustrates the others. At one camp I found five convicts who had been so severely punished that though three or four weeks had elapsed, the effects were still plainly visible on my visit.

Judging from the condition of these convicts at the time of my visit, the punishment must have been cruel, brutal, savage, and barbarous. Many similar cases came under my observation.

The deaths for the past twelve months, so far as could be ascertained, amounted to twenty-seven, a rate more than double the mortality in the State penitentiary. These deaths were reported to me by the superintendent or lessee, from memory only, there being no record kept from which this data or any other could be ascertained.

Escapes are very frequent, there having been ninety-eight reported to me at the camps visited during the past twelve months, or more than twelve per cent. of the whole number confined therein.

With this report I send in to your Excellency the details of my investigation of each camp, upon which this general report is based, and which will give some idea of the scope of the investigation made, and I trust will to some extent illustrate the magnitude of the undertaking and the care, with which I endeavored to ascertain the facts.

I cannot close this report without commending your Ex-
cellency for endeavoring to procure some legislation which will bring this system into order and regularity, properly punish the unfortunate criminals, but at the time afford them protection and humane treatment. It is a disgrace to civilization that, when most of the misdemeanor convicts go from the courts to the chain-gangs, they are sold bodily for the term of their sentence, often to private parties who are responsible to none for their treatment.

Many of the lessees I found to be good business men, intelligent and humane, who are anxious to be informed of their duty under the few laws now of force touching the misdemeanor chain-gangs, and who expressed themselves as thoroughly in accord with your Excellency in endeavoring to improve the system by proper legislation.

Realizing and appreciating the evils, they yet feel powerless to correct many of them under the existing statutes, and would hail with delight any legislation which would correct the evils, and bring the various gangs under one general uniform management.

I am glad to report also that the people of Georgia are awakening to the true condition of the chain-gangs, and are demanding legislation which will correct the many evils.

When I shall have finished the inspection, I shall make to your Excellency a complete and more comprehensive report, going more in detail, and giving it that thorough preparation which I could not give to this, owing to the hurried manner in which it was prepared.

In the meantime, I have the honor of subscribing myself,

Very truly yours,

R. F. WRIGHT.

The joint committee appointed to visit the University of Georgia, during its commencement exercises, submitted the following report which was read, and one hundred copies thereof were ordered to be printed for use of the Senate, to wit:

Mr. President:

Your committee visited the University during its last commencement; attended daily the public exercises of said institution; were constantly thrown in closest contact with
the faculty and students; and investigated, as far as possible, all such matters and things as we deemed of interest to the public touching the University.

The public exercises of this, the State's College, were in every respect highly creditable, both to the faculty and to the students, evidencing the most careful and skillful training; a high standard of scholarship, literary culture, and progress in knowledge.

The moral character, the dignity, and gentlemanly bearing of all the students are deserving of our highest commendation, and as an honor to themselves, and a tribute to this time-honored institution, are well worthy in this respect of public recognition.

The fund appropriated at the last session of this General Assembly for the repairing and refurnishing of halls of the literary societies has been wisely expended for the purpose intended, and we are gratified to know that new interest has been revived in these useful and important branches of a university education.

From a careful examination made, we are satisfied that there is urgent need for more class and laboratory room; especially is this true in view of the increased and constantly increasing attendance upon the University; and we respectfully invite the attention of the General Assembly to these important facts.

Means should be provided to enlarge and develop the electrical department of the University, a branch of knowledge which is now challenging and absorbing almost universal attention. Many young men, we are informed, are leaving our State for other institutions because of the meager facilities furnished in our own for the study of this most important branch of human knowledge.

In view of its importance to our material development, and of the recent legislation on this subject, we would re-
spectfully suggest the necessity of making provision to fill the chair of geology, now vacant in the University.

Respectfully submitted.

Mr. Harris moved that one hundred and fifty copies of the bill of the Senate, and accompanying report, be printed for the use of the Senate, and that the bill be read the second time and recommitted; the motion prevailed.

To the General Assembly of Georgia:

The committee appointed under the resolution of the last session of this General Assembly, approved December 15, 1894, to carefully examine the work of the commissioners appointed under an act to provide for the codification of the laws of Georgia (approved December 19, 1893), met in the capitol at Atlanta, Georgia, in company of said commissioners, on the 17th day of June, 1895, proceeded to discharge that duty, and make the following report as the result of their examination:

The first work of the committee was to see that the acts of the Legislature of public and general character were embodied in the work of the commissioners. This the com-
mittee did by commencing with the acts of 1882–3, and calling attention to each act separately in order to verify the fact that the commissioners had omitted nothing necessary to be placed in their work. By this process the committee is authorized to say that all the acts of the General Assembly since the Code of 1882 are embodied in the work of the commissioners. The committee is, by the same process, satisfied that the addenda in the Code of 1882, except those sections repealed, are embodied in the present Code.

When the committee had completed this part of their investigation, they then compared the new legislation with the manuscript of the commissioners, and found this part of the work complete in every particular; having copied the acts, and, as far as practicable, omitted all meaningless words and repetitions of sentences, and placed the same in proper Code language. This work has been accomplished by the commissioners to the entire satisfaction of the committee.

All matter in the Code of 1882, and acts since that Code of a special or local nature, both of time and locality, have been omitted by the commissioners. By the adoption of this method much of the matter now embraced in the Code of 1882 is omitted, thus, to some extent, reducing the volume of matter to be printed.

So far as the committee has been able to observe, all the sections of the Code of 1882, and the acts since that Code that have become obsolete, superseded, or that are unconstitutional, have been omitted. The acts of doubtful constitutionality have been retained with references to the same.

The General Assembly is especially cited to the fact that the committee has directed the commissioners to eliminate the chapter in the Code of 1882 on the subject of "Court Contracts," embracing sections 2756 to 2772 (a) inclusive.
the committee being of the opinion that the sections mentioned are both obsolete and unconstitutional; in this opinion the committee are sustained by the unanimous vote of the commissioners.

The commissioners have placed in the Code, and in Code language, many decisions of the Supreme Court relating to the fundamental principles of law which have not heretofore appeared in the Code. These sections are properly numbered and placed in their appropriate places, with marginal notes referring to the decisions. These decisions were necessary to give symmetry and completeness to the statutes which they follow, and will be of incalculable benefit to the magistrate, lawyer, and student.

Referring to the act by which the present commissioners were appointed, they were authorized to codify and arrange in systematic and condensed form, all the laws now of force in Georgia, from whatever source derived, following the general plan and system of the Code of 1863, and subsequent revised editions thereof. These directions the commissioners have followed, with the exception of the arrangement and grouping of the sections, which change the commissioners felt authorized to make under the act. The committee observed with pleasure that the commissioners have arranged the grouping of the sections of the Civil and Penal Code, so that each and every section will fall under its proper division. This orderly arrangement of the sections will simplify the work of investigation.

Under the act above referred to, the commissioners were required to preserve, as far as practicable, the numbering of the sections contained in the Code of 1882. This work was found by the commissioners to be wholly impracticable, and the committee was unanimous in the opinion that this could not be done. The commissioners have retained the sections of the Code of 1882 intact, and have arranged the references and marginal notes so that
the practitioner will be able to find any act that he may seek to investigate.

The committee is of the opinion that the commissioners have fully complied with the requirements of the law as to the marginal notes and references.

Referring again to the defined duties of the commissioners, they were required to make a full, complete, and separate index to the Civil and Penal codifications. The committee is unanimously of the opinion that this work could not be done with completeness and accuracy from the manuscript in the hands of the commissioners, and that it would be better for the interest of the State that this duty imposed upon the commissioners be postponed until the work shall go to the press; at which time when the printed matter comes from the press, the commissioners will be better able to index the work, and by this means the index can be arranged with perfect accuracy.

The Penal Code, text and annotations, is now complete and ready for action by the General Assembly. The text of the Civil Code is also complete, but the annotations are incomplete, and that part of the work is not ready for publication. The work of preparing the annotations proved to be far greater than the commissioners at first supposed, and it was so vast that its completion by this time was next to impossible; but we are informed that this work will be completed by the first of April, 1896.

The work of the commissioners in the present codification of the laws has been extremely laborious. The legislation of the past decade has been so voluminous and conflicting, they have been forced to cull through an immense mass of matter in order to determine what laws are of force, and what have been repealed or superseded by other legislation. The commissioners having this work in charge have labored incessantly for more than eighteen months to bring out of chaos a perfect system of laws.
The committee feel it their duty to say that from the patient and unceasing toil of these able and distinguished men, the Code of laws, civil and penal, has reached a higher point of perfection than ever yet attained. This statement is made without reference to or comparison with other Codes, but in justice to the progressive science of the law. The commissioners are entitled to the highest praise for their unselfish and patriotic service to the State, and it is much to be regretted that their compensation, from a financial standpoint, is not commensurate with the faithful service performed.

This compilation of laws is not confined to statutes, but principles of the common law, and constructions placed by the courts upon statutes covering a broad field of legal science, making the Code of Georgia a lawyer's library, and the citizen's protector within and of itself.

With the exceptions hereinbefore stated, the commissioners have fully discharged their duties as far as the work of compiling and codifying the laws are concerned; yet the work is of such great moment to the State, and its correct publication of such importance, the committee is unanimous in the opinion that the services of the commissioners should be requested by the State, at a reasonable and just compensation, to supervise and superintend the publication of their work. In view of the fact that the Civil Code is not ready for publication, we recommend that the civil acts of the present session of the General Assembly be incorporated therein, and that this committee be continued, or some other committee be appointed, with authority to examine and approve the work after the new acts have been incorporated and the annotations compiled.

We further recommend the acceptance of the Penal Code and annotations thereto, and its immediate publication.

We also recommend that the text of the Civil Code be accepted, and that it be published as soon as the acts of the
present session of the General Assembly are incorporated therein and the annotations completed and approved.

We recommend that the General Assembly pass the bill herewith submitted by the committee, providing for the printing, binding, and distribution of the three (3) several volumes therein specified.

Mr. President:

The joint committee appointed to investigate the condition of the Northeastern Railroad report that they have made careful inquiry into the physical and financial condition of the road, and find the roadbed, bridges, rolling-stock, etc., to be in good condition. Since the State took charge of it, up to August 31, 1895, the road has earned, over and above all expenses, the sum of $25,502.96, or about $14,000 per year. The interests upon the bonds issued by the State to retire the railroad bonds indorsed by the State amounts to $10,200 per year.

The committee recommend that the Governor be authorized to sell the road in the event he can find a purchaser willing and able to pay a sum not less than the amount of the bonds issued by the State in order to obtain possession of the property. In the event no such purchaser is found, then the committee recommend that the Governor be authorized to offer the road for lease for a term of twenty
years from the date of the issuance of the bonds negotiated for obtaining possession of the road by the State. The minimum price at which said lease shall be made shall be the annual interest on the bonds so issued by the State. In the event no such rate or lease of the road can be made, then the Governor should be directed to operate the same for the State until otherwise directed by the Legislature.

In conclusion, the committee desire to congratulate the State upon the fact that it possesses in its Governor and Treasurer financiers able to float 3½ per cent. bonds of the State in the midst of financial depression and panic, such as overspread the country at the time the bonds issued to pay for this railroad were placed upon the market.

Your committee herewith submit a bill to carry out the recommendations contained in this report, which we request may be read and referred to the appropriate committee.

Mr. President:

The joint committee of the Senate and House of Representatives, appointed under a joint resolution to visit the State Normal School at Athens, Ga., beg leave to submit the following report:

In pursuance of said resolution your committee visited the State Normal School and made as thorough an examination of that institution as it was possible to do under the circumstances.

The committee first examined the workings of the school in its regular routine work. The committee was not able to make as complete an investigation in this particular as they had wished, owing to the very limited time at their disposal. But we were greatly gratified with the workings and management of the institution.

Your committee examined the buildings and found them crowded beyond the convenience and comfort of the students in attendance. We find that the demand for admission has been so great that from two to eight persons have had to be crowded into a room, thereby rendering it to the great disadvantage of the students. We also find that the
authorities have had to rent extra houses, which are not convenient or comfortable, or suitable for their accommodation.

Your committee further find that under the excellent management of the institution, good, healthy, and abundant food is furnished, and that board, including food, lodging, lights, heating, and laundry, has been reduced to a minimum of $7.00 per month.

Your committee was greatly gratified to find that such progress had been made since the regular organization of the school, seven months ago, there being enrolled 178 students, representing 63 counties, and that a great number have been refused admission for the lack of dormitory room—a record of which this legislature and the State at large should be proud—clearly demonstrating the great necessity for a well regulated, thoroughly equipped institution of its kind, and the great possibilities to which it will certainly attain when properly cared for and maintained by the State.

We congratulate the State on the wisdom of its organization; and the board of trustees in securing the services of the worthy president and his efficient corps of teachers, under whose skillful management the school has attained so high a degree of success and proficiency.

This institution being the great center and medium through which the public funds appropriated to the public schools is to be disbursed to the children of the State, and realizing that the greatest good to the children of the State can be accomplished by having efficient and well qualified teachers, and realizing further that this institution is the best means of procuring well-trained, and well-equipped Georgia teachers; we, therefore, recommend that an appropriation be made, sufficient to afford greater and additional dormitory room, suitable for the accommodation and comfort of those who may attend that institution for the pur-
pose of availing themselves of the great advantages there
offered.

All of which is most respectfully submitted.

    W W Sheppard, Chairman.

Mr. Bussey submitted the following report:

Mr. President:

The joint committee of the Senate and House, appointed
to visit the school for colored students at College, Ga.,
during its commencement exercises, submit the following
report:

Mr. President:

Your committee visited the school for colored students
during its last commencement and investigated, as far as
possible, all such matters and things as they deemed of
interest to the public touching the school.

At the time of the visit of the committee to the school,
Governor Atkinson was present to deliver the commence­
ment address and to present diplomas to the first class of
young men to graduate from the college.

Besides the Governor, there were present the Hon. P
W Meldrim and the other members of the commission for
the colored school, members of the Chatham county board
of education, representatives of the city government, and a
number of other white citizens. The colored people were
out in large numbers. In fact, the day (Monday, com­
 mencement day) had the air of a holiday. Every thing
went to show that the colored people were very proud of
their school.

The school had an enrollment, for the year upon which
we report, of 201, representing some thirty counties. The committee examined most thoroughly into the conduct of the school, and all were highly pleased.

The methods of teaching in the various departments and branches seemed to be practical, thorough, systematic, and successful, but we think that this State institution should be devoted largely to the training of teachers who may go out and take charge of the colored schools.

The manual training department, as such, had not been long in operation, but gave excellent promise of satisfactory results.

In this department the boys are taught the principles of working in wood and iron. In time it will turn out skilled blacksmiths, carpenters, wheelwrights, and also painters and bricklayers.

The farm is under the management of a practical farmer, and he is doing splendid work in giving the boys useful lessons in the care of tools and live-stock, the building up, improving lands, and the production of farm products.

On the whole, the school is doing a great work for the colored youth of the State, but we think the school should be opened to both males and females.

Your committee are of the opinion, however, that the school needs larger accommodations. We observed that the commencement exercises were compelled to be held in open air on account of the lack of a chapel. The school also needs a dormitory, their present accommodations being for only sixty persons.

Your committee recommend that funds be provided, either by appropriation, or that the appropriation of the $24,000 withheld from the Atlanta University for the years 1888, 1889, and 1890 be used to erect the buildings, which are very much needed, provided said funds can be made available for that purpose.

We suggest that the corporate name of the school be
"The Georgia State Industrial College for Colored Youths," the corporate name now being "The School for Colored Youths."

We suggest that, in order to encourage this school, graduates from this school should be granted license from the State school commissioner to teach the common schools among the colored people of the State. This privilege is granted to the graduates of the school at Dahlonega.

J. B. Bussey, Chairman Senate Committee.

Mr. Roberts, chairman of the Committee on Lunatic Asylum, submitted the following report:

Mr. President:

The Senate and House Committee on the Lunatic Asylum, acting as a joint committee, on November 9, 1895, visited the asylum and made such investigation as the limited time at their disposal would permit, and are pleased to report the affairs of the institution in a satisfactory condition.

The trustees, superintendent, physicians, and other officers are believed to be, without exception, faithful and efficient and devoted to the best interests of the institution and the State, and should be cordially commended for the faithful execution of so great a trust.

The care and responsibility resting upon these officials are inconceivable to one unacquainted with the magnitude of this institution.
The annual report of the trustees and superintendent has been verified by your committee, and to it they refer for a detailed account of the affairs of the asylum.

We are very much gratified to report that the $100,000 appropriated by the legislature of 1892–3 for the erection of additional buildings has been wisely and economically expended by the board of trustees. With that appropriation they have erected buildings to accommodate about nine hundred (900) patients—five hundred (500) whites and four hundred (400) colored—an average per capita cost of $111.11, or at about one-third of the cost per capita of the convalescent building constructed in 1881–3.

The new annex for the colored patients was completed several months ago, and the negro insane committed to the asylum, and for a time before the completion of this building confined in the prisons and poor-houses of the State, have been received, and there remains room enough for all who are likely to be committed for some time to come.

At the time of our visit the splendid new building for the whites was nearing completion, and on or before December 15th will be fully equipped and ready to be occupied, with nothing lacking to make it comfortable and healthful for the inmates, except a substantial brick wall around the building, inclosing a yard where the patients may enjoy fresh air and out-door exercise, which are very necessary for the well-being of the patient, and without which we are told by the physicians the best results in treatment cannot be attained.

We therefore recommend that the sum of six thousand dollars ($6,000.00) be appropriated for the purpose of erecting said wall, that sum being the amount necessary for the work, as per estimate of asylum engineer and architect.

We find that two of the detached buildings are heated by crude and antiquated apparatus, costly to maintain, in-
sufficient to heat the buildings, and dangerous to the safety of the buildings.

We recommend that the sum of ($5,552.00) five thousand five hundred and fifty-two dollars be appropriated for the purpose of substituting a regular steam heating system in connection with the general plan of heating for the modern buildings, in place of the defective apparatus now in use.

Respectfully submitted.

RUFUS W ROBERTS, Chairman.

Mr. Long, chairman on the part of the Senate of the Joint Committee of Senate and House appointed to investigate the condition of the Blue Ridge and Atlantic Railroad, submitted the following report:

Mr. President:

The Joint Committee appointed to investigate the condition of the Blue Ridge and Atlantic Railroad report this: They have made careful inquiry into the physical and financial condition of the road and find the roadbed, bridges, rolling-stock, etc., to be in fair condition, while the trestles, eleven in number, are in a very bad condition, making it unsafe and dangerous to run trains over them; especially is this true of that portion of the road between Clarkesville and Tallulah Falls. We find the road in the hands of a receiver, appointed by the United States court, and operated by and under the direction of said court. We find that the operating expenses, since being placed in the hands of a receiver, have exceeded the income as per statement of receiver.

We find the receiver has issued, during the years since the road has been placed in his hands, receiver's certificates to the amount of twelve thousand dollars, issued for the purpose of operating said road, as per statement herewith given marked 2. We submit said receiver's report without expressing an opinion as to the necessity or legality for issuing said certificates. Owing to the country being sparsely settled, the revenue from passenger as well as freight traffic is necessarily meager, but, at the same time,
recognizing the individual rights of the citizens living on and adjacent to said road.

Your committee, therefore, recommend that the Governor be authorized to relinquish all claims the State of Georgia may have to said road, to the bondholders, or to any other persons, without recourse on the State, upon the following conditions: That they pay all State and county tax, and that they resume a daily schedule from Cornelia to Tallulah Falls within ninety days, and that they put the roadbed, bridges, and trestles in good condition within six months from the approval of these recommendations; providing, that the relinquishment shall not be in effect until all the requirements are fully complied with. Your committee herewith submit a bill to carry out the recommendations contained in this report, which we request be read and referred to the appropriate committee.

Respectfully submitted.

Mr. Sanford, chairman of the Committee on Penitentiary, submitted the following report:
Mr. President:

The Committee on Penitentiary, through sub-committees, have visited and inspected the different convict camps throughout the State, and respectfully submit the following reports touching the condition of the camps and the convicts confined therein.

We found Worth county camp, known as No. 3, in a healthy locality, but we found the convicts in this camp poorly clad, and the sleeping-apartments were not heated by stoves or otherwise, rendering them most uncomfortable during the winter months. There were 51 convicts confined in this camp.

We found 60 convicts in Camp No. 2, in Worth county. There was some sickness in this camp, but the stockade was by far the best arranged of any we visited.

At the camps at Minneola, in Lowndes county, and Amoskeag, in Dodge county, we found 108 convicts. The grounds about the stockade at Minneola were not as cleanly as we thought they ought to be kept. We also found at this camp that the white and colored convicts were required to sleep in the same apartments. We suggest that this be taken under consideration by the penitentiary officials, and separate apartments be ordered for the whites and colored.

We found at the camp at Amoskeag, Dodge county, an old negro convict named Mark Chappell, sent from the county of Putnam, who seems to be insane. We recommend that his condition be inquired into by the authorities, with a view to have him pardoned or committed to the insane asylum, where he can be properly cared for and treated. The sanitary condition of this camp is generally good, but we think the vessels used by the convicts at night should not be allowed to remain in the building. We think some other arrangement should be adopted, and
the vessels kept beneath the floor, from whence they could be removed daily.

The sub-committee appointed to visit the camps at Smithsonia, in Oglethorpe county, and Heardsont, in Elbert county, visited these camps, and reported that in both places the convicts were found in good health, comfortably clothed, and well fed. The laws governing penitentiary convicts, as far as the committee could determine or learn, are carried out as far as practicable at these two places.

We find the camp at Chattahoochee, in Fulton county, in good condition, except that the bunks upon which the prisoners sleep are too narrow. Two convicts are made to sleep together on these narrow bunks, which do not afford enough room for them to rest comfortably during the night after going through the hard labors of the day. Your committee, believing that these convicts should be better provided for in this regard, recommend that the lessees be required to cause the bunks to be removed, and others, from one to one and one-half feet wider, be put in their stead, which we think is greatly needed.

At Camp Bartow we find the convicts are supplied with only one suit of clothes. We get this statement from the convicts directly, in the presence of the captain and keeper of the camp, which statement was not denied. We also found some convicts at this camp without suitable shoes. Some had on shoes nearly or quite worn out, with no socks to wear. We recommend that the lessees of the convicts at this camp be required to promptly provide a sufficient supply of suitable clothing and shoes for the prisoners under their care, as required by law and the rules governing the care of convicts.

At Amoskeag camp there is confined a convict named S. J. Bullard, sent from Appling county. His condition
excites sympathy, and we recommend that the authorities inquire into his case, with a view of securing him a pardon. We also find at Amoskeag a man named James Camwell, from Jones county. We understand another convict has confessed to the crime for which Camwell is being punished.

We visited Camp Echo, in Bulloch county, and found the same in good condition. We think the sanitary arrangements of this camp especially good. We find the convicts properly clothed and fed, and, as far as we can judge, humanely treated.

We found Camp Adrian, in Emanuel county, in good condition, the convicts well cared for in every way, and we think the lessees are discharging their duties.

The camps at Cole City and Crawfish Springs, in Dade and Walker counties, were visited. The health of the convicts is very good. During the past twelve months ten deaths have occurred out of nearly 500 prisoners. At the time of our visit there were only five patients in the hospital, all of whom were but slightly indisposed. The convicts seem to be well fed, well clothed and properly treated. But we desire to call the attention of the prison authorities to one mode of inflicting punishment sometimes resorted to at this camp, that of "ducking." It is claimed by the authorities in charge of the camp that it is not as severe a punishment as whipping. We recommend that the principal keeper make an investigation and ascertain if that method of punishment is authorized by law.

At Crawfish Springs there were 180 convicts. Only four deaths occurred at this camp during the past year.

The camps in Charlton county, known as camps Maxwell, Smith and Hendrix, were all found in good condition. We find the convicts in all of the places properly cared for, as the law provides, well fed, well clothed, and are given
good medical attention when needed. There were 82 convicts at Maxwell, 112 at Smith camp, and 51 at Hendrix. There was only one sick at Hendrix, two sick at Smith's, and none sick at Maxwell.

At Camp Alexanderville there are 143 convicts. Your committee found much to condemn at this camp. Six convicts were sick and some of them crippled; some with toes cut off, and one with a leg broken. We are quite sure it was the fault of the superintendent that this convict's limb was broken. We also found the stockade at Alexander ville in bad condition. It is located in a low, flat place, with a poor roof. The walls are also very open, rendering the building uncomfortable in every way. We found some convicts working almost without any shirts on, and some with very poor shoes, and all of them without socks.

We also found the feeding and cooking departments at Alexanderville in miserable condition. The convicts are fed principally upon cornbread. The meal is not sifted, and the bran is cooked in the bread. It is badly cooked the outside being burned and the inside raw or half cooked. The meat furnished, in our judgment, is not given in sufficient quantity. We suggest that the lessees be required to procure suitable stores for cooking the rations furnished the convicts. The cooking is now done in the open air, in ovens, and over fires built of pine wood, which render it difficult to cook the food properly.

The convicts at this camp are worked from ten to eleven hours daily, which they think reasonable. They also receive proper medical attention.

Your committee, in concluding the special reports, would call the attention of the Senate and the people of the State to the shameful treatment and management of the State convicts by certain of the lessee companies. In certain camps the convicts are provided with only one suit of cloth-
ing, no socks, and shoes that are of little protection to the feet. In other camps the sanitary and other arrangements are a disgrace to the State officials whose duty it is to see that the rules governing the same are carried out. When it is considered that all the convicts are hired at less than one dollar per month per convict, and the State pays out annually over one-half of the income derived from said hire to penitentiary officials, such neglect of duty, on the part of those charged to see that the rules and regulations governing the State convicts are enforced, is, in the opinion of your committee, wholly inexcusable.

Respectfully submitted.

So the resolution was concurred in.

Mr. Little, chairman on the part of the Senate committee, submitted the following report of the joint committee to investigate the obstructions in the Savannah river at Augusta:

Mr. President:

Article 2 of the treaty of Beaufort, entered into between the State of Georgia and South Carolina, in 1887, is as follows:

1. The navigation of the river Savannah at and from the bar and mouth along the northeast side of Cockspur Island and up the direct course of the main northern channel along the northern side of Hutcherson's Island opposite the town of Savannah to the upper end of said island, and from thence up the bed or principal stream of the said river to the confluence of the rivers Tugalo and Keowee, and from the confluence up the channel of the most northern stream of Tulagio river to its source and backing in by the same channel to the Atlantic Ocean, is hereby declared henceforth equally free to the citizens of both States and exempt from all duties, tolls, hindrance, interruption, and molestation whatsoever attempted to be enforced by one State on the citizens of another, and all the rest of the river Savannah to the southward of the foregoing description, is acknowledged to be the exclusive right of the State of Georgia.
2. As to whether the obstructions in the Savannah river at Augusta are in violation of said treaty, the committee do not determine, the question being one involving the construction of said treaty and the legislative enactments passed at different times by the two States.

3. A few years ago the city authorities of Augusta placed in said dam a fishway known as the McDonald fishway near the South Carolina side, the same being placed in an opening in the dam about 12 feet wide, and said fishway being about 10 feet wide.

4. It is feasible for fish to pass up said fishway if the same is kept in good condition and fishing is not allowed with nets or otherwise within a reasonable distance of said fishway above and below the same. The committee are unable to determine whether one fishway is sufficiently adequate or not.

5. The committee believe that the authorities of Augusta are willing to do anything that may be reasonably required of them to remedy the evil complained of.

6. The committee recommend the enactment of such laws as will prevent the obstruction of migration of fish below Augusta and the periodical inspection of fishways in the dam at Augusta by the State fish commission, with a view of ascertaining that it be kept adequate to effect the passage of migrating fish up the waters of the Savannah river; and in the event the said fish commissioner at any time finds the fishway now in use inadequate to effect the passage of fish, that he report the same to the Governor. The Governor, in that event, being authorized to negotiate with the city authorities of Augusta with reference to the construction of additional fishways, and report the result of such negotiation to the next General Assembly.

We further recommend that the said fish commissioner
report to the next General Assembly such legislation as he may deem necessary to secure the free passage of fish up the Savannah river

Respectfully submitted.

Also a bill to amend an act to establish a city court in the county of Clarke.

The following message of the Governor was taken up, read, and ordered to be spread on the Journal:

Members of the General Assembly:

Since my message to you at the opening of the present session of your body there have transpired occurrences of
so grave a character as to impose upon me the duty of again sending to you a communication.

Information reached me that there were in Screven county two parties charged with murder who had not been arrested, although the sheriff had in his hands a warrant charging them with the aforesaid offense. These men were reported to be armed and ready to resist any effort that might be made to bring them to trial for the offense charged. I offered a reward of $500 for their arrest, and wrote the sheriff of the county, calling his attention to the fact that it was his duty to arrest them, and requested that he summons a *posse comitatus* and execute the warrant in his hands. On November the 14th the sheriff wrote me: ”I summoned a posse of thirty-eight men to meet me this morning. Out of thirty-eight three responded to the summons. I went with the three men and searched the premises, but they could not be found. Where they are I am not able to say, as I could learn nothing from the family.”

I am informed that on this day the defendants were seen bird-hunting in the county of Screven.

There is no penalty attached for failure to respond to the summons of a sheriff to act as a *posse comitatus*.

This statement of facts, without argument, justifies me in recommending:

1. That a law be enacted that will provide a penalty for the failure to obey the summons of a sheriff to act as a *posse comitatus*.

2. That it be made the duty of the solicitor-general, in every case where he has reason to believe that an arresting officer has failed to make an arrest when it was in his power to do so, to draw a rule *nisi* against him, so that if the facts on trial warrant it, he may be punished as prescribed
in section 3957, to wit: "Fined, imprisoned, or removed from office in the manner prescribed by the Constitution and laws."

It is folly to expect the military to turn out and roam through the forest in search of every criminal who evades arrest. It is the duty of the arresting officers to execute warrants for criminals, and the law-making power should give to them ample power to perform their duty. When this has been done, if any one of them fail, when in his power to arrest, he should be punished and promptly discharged.

Government owes to the people no higher duty than the impartial and speedy enforcement of law. The standard of the civilization of a people, the efficiency and character of a government, are determined not by the laws which it enacts, but by those which it enforces.

RECENT LYNCHINGS.

During the present session of the General Assembly there have been reported three lynchings—one in Clinch county, one in Montgomery, and one in Dooly. These savage acts are in violation of the rights of the citizen and of the express declaration of the Constitution of the State. I invite your attention to the following, which I take from the Bill of Rights, which is a part of our Constitution:

Article 1, section 1, paragraph 2, Code, section 4994: Protection to person and property is the paramount duty of government, and shall be impartial and complete.

Article 1, section 1, paragraph 3, Code, section 4995: No person shall be deprived of life, liberty, or property except by due process of law.

Article 1, section 1, paragraph 5, Code, section 4997: Every person charged with an offense against the laws of this State shall have the privilege and benefit of counsel;
shall be furnished on demand with a copy of the accusation and a list of the witnesses on whose testimony the charge against him is founded; shall have compulsory process to obtain the testimony of his own witnesses; shall be confronted with the witnesses testifying against him, and shall have a public and speedy trial by an impartial jury.

Article 1, section 1, paragraph 9, Code, section 5001: Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted; nor shall any person be abused in being arrested, while under arrest, or in prison.

In spite of these rights guaranteed to every citizen three men have been taken during your present sitting and deprived of life without trial, without an opportunity to be heard in their own defense—in the language of the Constitution, “Without due process of law.” While the Constitution of our State says, “Nor shall any person be abused in being arrested, while under arrest, or in prison,” it is true that in each of the cases above referred to, the party murdered by lynchers was actually taken from the custody of the officers of law, who held him to answer the charge in a court authorized to try and if guilty punish him. The lynchers used the officers of the law to arrest and disarm their victims, and then took them from the custody of the law and killed them. This is not only true in these cases, but is, I think, also true of every case of lynching during my term as Governor. In each case the officers had the defendant in charge and the judges of the courts were ready to do their full duty, grant a speedy trial, and inflict punishment if guilty. There had been no failure on the part of the officers of the law to do their full duty. In one instance the Governor had offered a reward for the arrest of the defendant, he had been arrested, the reward paid, a special term of court called, the defendant convicted and
sentenced to be hung in the shortest time allowed by law, and yet he was taken from the sheriff in the court room, in the presence of the court and jury, and lynched.

That you may fully appreciate the enormity of the wrong done by so-called lynch law to the reputation of the State, to civilization, and to the rights of man, I invite you to inquire into each of the recent cases which have moved me to pen this communication. The conduct of the mob in each case is unjustifiable, disgraceful, and shocking, but in one of them the wrong done was especially horrifying. While engaged in writing this message, there came into my office, asking that he be accorded a trial in our courts, a man who had fled from an angry mob which endeavored to capture and lynch him.

Mob violence does not aid in suppressing lawlessness, but increases it. One mob begets another mob. If you will note the reported sequence of the lynching in Montgomery county, where it is said murder has been added to murder by the killing of the father of the girl alleged to have been assaulted by the man who was lynched, you will see to what mob violence will assuredly lead.

We all know of many wrongs it has done and of mistakes it has made in selecting its victims. How many innocent men have been sacrificed by this lawless court can never be known, for it denies its victims the right to be heard in their own defense, and then closes their mouths forever.

The people can safely entrust the punishment of crime to our courts. If the men charged with crimes are guilty, they should be punished as provided by law, and the courts should and will inflict this penalty.

Men seem to forget that each man who engages in a lynching violates the law against murder, and that the penalty is death upon the gallows.
The arresting officer is now clothed with power to take the life of his assailants when resisting their efforts to take a prisoner from him, and it is his duty to take the life of the assailants if necessary to protect his prisoner and retain him in custody.

That it may be ascertained whether or not he does his full duty in this respect in every instance, I recommend the passage of a law requiring a thorough investigation in every case, and providing adequate punishment when he falls short of the full measure of his duty. Existing laws are inadequate to meet the emergency. Other laws should therefore be enacted to enforce the Constitution, and to secure to the citizen rights guaranteed in our fundamental law.

If the measures herein and heretofore suggested by me do not meet your approval, I most earnestly ask that you devise others, and enact them into law. In every effort you may make to stamp out lynchinn, you shall have my hearty co-operation, and every law which you may enact shall be enforced if I am given the power to do so.

The responsibility for the needed legislation is upon you, and I shall confidently rely upon your doing your full duty. I cannot believe that I ask in vain when I present these things to the representatives of the people of Georgia, and seek such legislation as will save our State from further humiliation and disgrace, and secure to every citizen rights guaranteed in express terms in our State Constitution, and which are the birthrights of every citizen of an English-speaking country.

W Y Atkinson,
Governor.
